

and directed the reapportionment. There is presently pending in the U. S. District Court the case of Sincock vs. Terry which urges the Court to declare Delaware's method of representation in the General Assembly as unconstitutional.

It is the opinion of all Delawareans with whom I have discussed this serious matter or who have communicated their views to me, that traditional methods of amending our Constitution should be utilized to correct any mal-apportionment existing in our Legislature. We all believe that when equitable reapportionment in the Assembly is provided the people of Delaware, it should be done not by the Federal District Court or the Federal Supreme Court, but by the Legislature of the State of Delaware by amending our Constitution as provided for in our present State Document.

Unfortunately, time is short. To assure the passage of the Constitutional Amendment for reapportionment within six months, we must act promptly by providing the necessary 2/3 majority in both Houses in order that the first leg of the amendment might be approved before the three month Constitutional period before election begins to run when notice must be given in the newspapers of our three counties.

The deadline is August 6, 1962. The latest date for publication of our weekly newspapers before this is Friday, August 3. Most weekly newspapers will go to press Tuesday, July 31.

Our work, if it is to be timely, must be concluded by Monday, July 30, 1962. I urge you to act promptly and courageously.

The issue of reapportionment is not a new one. Every member of the General Assembly has been aware that Delaware is one of the fastest growing states in the Union. For the past generation, New Castle County has grown at a much faster rate than the two lower counties. This has made the New Castle representation in our House of Representatives more and more inequitable and every member of this Body has been aware of this injustice, this inequity, this failure to accept our responsibility as free people to meet the very issues which caused us to form our great Nation.

We must provide reapportionment of the House of Representatives on essentially a population basis similar to the way we reapportion the House of Representatives in Washington every ten years.

As Governor during my first term, I urged reapportionment on many occasions starting in January 1949. Our major political parties, our Congressional delegation, our leading citizens are all in accord that this just goal must be achieved.

So that we might have the benefit of the best advice of the people of Delaware in this matter, early this month I called the leaders of both political parties from the three Counties of the State and from the General Assembly to

consult and advise the most appropriate way to achieve reapportionment.

It was agreed by this group that an 8-man Bipartisan Committee of distinguished Delawareans be appointed by the State Chairman of each political party. One of each party to represent each of the three Counties and the City of Wilmington.

William V. Roth, Jr., Chairman of the Republican Party chose former Senator Thomas L. Johnson of Sussex, Harold Schmittinger of Kent, Ernest S. Wilson, Sr., of New Castle County, and Gerard P. Kavanaugh of Wilmington.

John M. Conway, Chairman of the Democratic Party chose Houston Wilson of Sussex, Maurice A. Hartnett, III, of Kent, Frank O'Donnell of New Castle, and Michael A. Poppiti of Wilmington.

Houston Wilson was elected Chairman of the Committee and Harold Schmittinger was elected Secretary. Their assignment was to develop a plan for reapportionment of the General Assembly and recommend steps to be taken in the calling of a Constitutional Convention.

The people of Delaware owe this 8-man Bipartisan Committee a deep vote of appreciation and confidence. They have demonstrated once again that when Delaware is faced with a serious crisis, it is always endowed with the services and assistance of courageous Delaware statesmen who are willing to rise above petty party and regional differences to help to solve the serious vexing dilemmas which beset us. This Committee has brought forth a plan of action in the finest tradition of the great Delaware patriots and founding Fathers. On behalf of a grateful State, I express to them and to the Bipartisan Advisory Committee our warm and sincere thanks and appreciation.

On reapportionment their plan recommends that there be seven Senators from each County. This equal representation would recognize the sovereignty and geography of each County in the Senate of Delaware just as the United States equally recognized each state of our Nation in the United States Senate regardless of size or population. This principle is traditional in our State and Nation and there are solid and valid reasons for this method of representation which are grounded in the earliest stirrings of free government on this continent.

Each Representative District of the State would continue their present representation in the House of Representatives. Any Representative District with a population of over 22,500 would be entitled to two representatives and for each additional 15,000 population, another representative. This would mean that if the Constitutional Amendment for reapportionment is adopted, New Castle County will have 25 instead of 15 representatives while Kent and Sussex Counties

would continue with ten representatives each. On the other hand Kent and Sussex would each pick up 2 new State Senators for a total of 7 each, while New Castle County would continue with their present 7 membership. Thus, our Senate would again, as it did for almost 200 years provide equal County representation.

The Committee further recommends that a Constitutional Convention be supported by the Legislature. This will require that 2/3 of each House in the General Assembly pass legislation to place the question "Shall there be a Convention to revise the Constitution and amend the same?" on the ballot next November for the consideration of the people of our State.

The Committee further recommends that a Constitutional Amendment be passed by the General Assembly to provide that in the event a Constitutional Convention is authorized, its membership can be elected in 1963 and the work of the Constitutional Convention can be started next fall instead of being delayed until September 1965, the earliest date possible under our present Constitution. The State is indebted to former Judge Daniel L. Herrmann for his splendid assistance to the Bipartisan Committee in analyzing the problems of calling a Constitutional Convention, and drafting recommendations, many of which the Advisory Committee recommends for legislation to make a Constitutional Convention more flexible and subject to prompter action.

All parties, all parts of the State and practically every Delawarean who was called upon to assist have risen as one to aid their State in a solution to this old problem of unjust representation. With unanimous support, the plan for reapportionment was submitted by the Bipartisan Drafting Committee. Almost unanimously, the Bipartisan Advisory Committee of political party leaders has endorsed the plan.

Let us as dedicated public servants rise to this occasion by passing the first leg on the Reapportionment Amendment. The Federal Courts have stayed any action on the case of *Sincock vs. Terry*, pending the outcome of our actions here within the next two legislative days. I sincerely believe that your passage of the Reapportionment Amendment plus the passage of enabling Constitutional Amendments providing for an early Constitutional Convention will demonstrate to the United States District Court that the Delaware Legislature is acting in good faith and that we Delawareans should be given the right to complete the job of reapportioning ourselves through the passage of the final leg of these Amendments during January of 1963.

Let us follow William Penn's admonition that "Government—is a thing sacred in its institutions and ends, free to the people where law rules, and the people are a party to these laws."

May God continue to give to our brave and dedicated people the vision and the courage to ever strive for and provide fair and equitable representation in a just government that is devoted to the principles of equality of Liberty and Independence.

The previously named committee escorted the Governor from the Chamber.

Mr. Cook moved that the Secretary of the Senate and the Chief Clerk of the House compare their respective Journals. Motion prevailed.

The following message was received from the Governor and read to the Senate:

GOVERNOR'S MESSAGE

August 21, 1962

To the Members of the 121st General Assembly of the State of Delaware:

For the convening of the Assembly today to consider important problems facing the State, I express thanks to the leaders of both Houses.

On Friday, August 3, 1962, Senate Bill No. 411, providing for a referendum on the question of a Constitutional

Convention, failed to receive the required two-thirds majority in the House of Representatives, and the roll call was tabled. The General Assembly is not being called upon to vote for or against a Constitutional Convention. It is merely being called upon to vote on the question of whether or not the people of our State shall be given the opportunity to make a decision as to the need for a Convention.

We should never take the position that we know better than the people what is good for them. The citizens of our State entrusted the Charter to the Legislature sixty-five years ago. Is it now not time to return that Charter to the people of Delaware for their review?

I fully support the position of the bi-partisan committee appointed by the State chairmen of our two political parties that the calling of a Constitutional Convention is an integral part of the program we must follow to demonstrate to the citizens of Delaware and to the Federal Court that we are sincere in our intention to fairly and equitably reapportion our General Assembly. The passage of House Bill No. 574 was a commendable step in the right direction, but this action must be reinforced by the guarantee that this problem will in due course be given further careful study and consideration by a Constitutional Convention.

Recent action by the Congress of the United States has made it possible for the needy families of certain incapacitated or unemployed wage earners to be under an assistance category for which the Federal government will provide 70% of the cost. Until a year ago this entire cost was borne by General Assistance funds contributed equally by the State and counties. During the past year the children of such families qualified for the Federal assistance, but not adults, who were supported through General Assistance.

House Bill No. 577 would make the necessary changes in our State law to place all of the members of such families in a category supported by 70% Federal Aid. At the same time, this bill would increase the assistance to such families by as much as \$50 per month. The estimated saving, if this measure is enacted, is about \$70,000 annually to the State and \$70,000 for the counties.

If, in its wisdom, the General Assembly enacts House Bill No. 577, I will approve it. I do, however, have reservations about making such a substantial change in the benefit provisions on such short notice and during a session in which there is little time for study or debate. For this reason, I recommend an alternative proposal which will be presented for introduction today. This new measure will make the necessary technical changes in the law to allow Delaware to receive the Federal matching funds without changing the total benefit payments. This legislation is estimated to save the counties and the State about \$240,000 each.

Our State Department of Public Welfare has been informed by the Federal government that we cannot receive Federal aid assistance for the hospital costs of our indigent aged under House Bill No. 493 (Kerr-Mills program) so long as our counties are still legally responsible for the costs of such hospital care. Legislation has been prepared for introduction today which will remove this technical obstacle, and I wholeheartedly recommend your favorable consideration of it.

Senate Bill No. 142 will equitably adjust those salaries of our State officials which have been frozen by statute for thirteen years. This measure has been passed by the Senate and is awaiting House action. It is not retroactive, but becomes effective in the first day of the month following its passage. In the interest of good government and simple justice, I strongly urge the House to take prompt action to correct this grave inequity and oversight.

Respectfully submitted,

ELBERT N. CARVEL, Governor
