URSULINE ACADEMY,

DELAWARE AVE. AND HARRISON.

The leading academy in Wilmington is located in a most charming spot, in the most aristocratic part of the city.

A limited number of young ladies will be accommodated as boarding pupils. There is in connection with this excellent Academy a "Day Academy," which is well attended.

The course of studies is the same as that pursued in all Academies presided over by the Ursulines.

Persons desirous to ascertain further may call or address

SCHOOL OF MUSIC

THE ONLY COMPLETE AND
THOROUGH MUSIC SCHOOL
IN THE CITY. TERMS FROM \$5.00
TO \$25.00.

Including many free advantages. Instructions are given in both class and private lessons, therefore pupils may begin at any time. Recitals are given each month in which all pupils must participate, which enables them without timidity to play before others.

The school has its own orchestra and band, and pupils having taken the prescribed course and so desiring, can play in either without extra charge. Singers prepared for church choirs or concerts for a small tuition fee. Thorough course in Vocal Music. Piano, Organ, Violin, and all other instruments thoroughly taught.

THE UNITED STATES OF AMERICA

BY ACT OF THEIR CONGRESS HAVE AUTHORIZED

THE WORLD'S COLUMBIAN COMMISSION

THE INTERNATIONAL EXHIBITION HELD IN THE CITY OF CHICAGO, STATE OF ILLINOIS, IN THE YEAR 1893.
 DECREE A MEDAL FOR SPECIFIC MERIT WHICH IS SET FORTH BELOW OVER THE NAME OF AN INDIVIDUAL
 JUDGE ACTING AS AN EXAMINER, UPON THE FINDING OF A BOARD OF INTERNATIONAL JUDGES, TO

LEVYTYPE COMPANY, PHILADELPHIA, PA.

EXHIBIT: PHOTO-ENGRAVINGS

-- AWARD --

This collection of letterpress impressions from Levytype Autoglyphic Half-Tone Plates and Relief Etchings in line, exhibited in demonstration of the quality of the engravings, is characterized by high technical and artistic excellence. These relief printing plates are produced by means of photo-chemical processes which have been specialized by Louis E. Levy on the basis and in development of his original discoveries in the field of the photo-mechanical reproductive arts. The accurate gradations of light and shade and the sharpness and definition of details in the half-toned reproductions, and the delicacy, precision, and printing quality of the line plates demonstrate the superiority of the system and processes. This is particularly noticeable in the illustration of scientific objects, reproductions of mechanical drawings, and representations of finished machinery, in which latter class of illustrations the exhibitor has been signally successful, giving to this character of work an effect and finish unapproached by ordinary methods. The prints of portraits, landscapes, artistic designs, maps, and other subjects attest the superior excellence of the processes and the careful attention given to the execution of details.
