HIGHWAYS **IMPORTANT** TO FARMER

Enable Them To Compete With Other States

Delaware farms are largely mechanized, thus enabling them to produce in direct and successful competition with the farmers of other states, according to a statement made today by H. V. Dansiel. Secretary. Associated Petroleum Industries of Delaware.

"The tractor and the stationary engine have served to make Delaware farms more productive but it has been the growing ownership and operation of motor vehicles which has enabled farmers to rush their products to profitable markets where they meet a ready demand." Mr. Doniel stated. "Unless our farmers are able to get their perishable products to market speedly and with economy, the time element would completely nullify the natural productivity of our fine farmlands.

"Today it may surprise many to know that 76 per cent of our farmers own motor cars and about 25 per cent own trucks. Every large farm owns both units of transportation. Obviously, good roads, cheap motor fuel and reasonable taxes are most essential to the general prosperity of a state that de-

good roads, cheap motor fuel and reas-onable taxes are most essential to the general prosperity of a state that de-pends so largely on the purchasing power and stability of a substantial rural population.

"Under these conditions it is evident that the keen interest displayed by the State Grange and intelligent and inter-ested farmers in the diversion of motor tax revenues to purposes other than highway improvement is sincere and based on sound economics.
"Farmers are currently expressing

based on sound economics.

"Farmers are currently expressing fear that the operation of the 'One-Fund' Act will serve further to increase diversion trends that have been extreme. The voting strength of those farmers who lear so heavily on motor vehicles will undoubtedly be a major influence in the proposed repeal of the 'One-Fund' Act and in the enactment of a Constitutional Amendment which will, for all time, eliminate non-highway use of motor tax revenues."

"You're old enough to know better," said a Chicago judge when he fined John Janovsky, Sr., \$15 and his son, John, Jr., \$5 for being intoxicated.

For 1942-a Beautiful New

IN THESE UNUSUAL TIMES we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will stay good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than

hold its own in any company.

Inside, the car is big—wide across the seats, generous in knee-room, leg-room, elbow-room.

On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easier than ever. Steering, gear-shifting, action of the big and sure hydraulic brakes have all been made smoother

Defense requirements have all been met without a single reduction in the basic and lasting good-ness of the Ford mechanically. Some new materials have replaced old ones, usually at a greater cost to us, but in every case the new is equal to or better

than the old. If your family needs a new car, go see and drive this Ford. For what it is today and for what it will be through the years ahead, we believe that you will find in it more and better transportation for your money than you have ever found before.

Newark, Delaware, Thursday, October 9, 1941

The drive from your home to the office, or a trip to another city, can't be made on the old schedule without taking chances to make up for the time lost in heavy traffic.

The people of the United States are concerned these days with National Defense. They want to see our army become the toughest in the world. They want to see our production mount until we can outstrip the factories of any other nation in the world.

Waste and delays can't be tolerated. We must have the utmost efficiency

Well, the Delaware Safety Council points out that accidents are one of the greatest destroyers of efficiency. The men hurt of killed are hard to replace. The lost time is gone forever.

Accidents are going up - so alarmingly that President Roose velt has asked for a special emergency campaign to stop them.

This week in Chicago — at the National Safety Congress—ten thousand safety experts are devoting all their time to the prob-

But what they do will mean nothing without public support Only the complete cooperation of every man, woman, and child in the United States can lick accidents. Enlist for safety now!

DON'T BLAME YOUR RETAILER

An authority on merchandising remarks that there is a growing tendency of labor and some consumers to blame price rises on

That tendency should be scotched in a hurry. For the plain truth is that the retail trades, in all fields, including both the independents and the chains, have carried on an aggressive and successful campaign to keep living costs down.

Between June 15, 1989, and June 15, 1941, industrial wages rose 27 per cent on a weekly basis. Industrial real wages-which means wages interpreted in the light of purchasing power-rose 22 per cent. In those same two years, the cost of living increased but 6 per cent, and that includes rents and personal services as well as commodities.

It is retailing which has further cut overhead expense and passed the saving on to the consumer. It is retailing which has eliminated many unnecessary middleman operations, and again passed the saving on to the consumer. It is retailing which, in many instances, is absorbing wholesale price rises, and voluntarily accepting lower unit profits in order to hold prices down. It is retailing which is helping educate the consumer to buy more scientifically, and make his dollar go farther. Retailing raises prices when that is unavoidable-it has no

way of picking money out of the air, and it can't hold retail prices at given levels when manufacturing prices go steadily up. But there is no doubt that retailing has done wonders in keeping retail price increases to the absolute minimum. It is only just to give credit where due.

DEFENSE WORK FOR SMALL BUSINESS

The Office of Production Management is establishing field offices in every State for the purpose of increasing the expansion of subcontracts to small business firms.

Purchasing divisions of the Army, Navy and Maritime Commission have received implicit directions from their top-officials to intensify the spread of defense work. It is mentioned in an official report that Manitowoc, Wisconsin, is the first example of a community receiving defense work after certification by the OPM that it faced serious "priorities unemployment." There has been a lot of talk about communities that have been seriously affected because they could not get products that are on priority to use in non-defense manufacturing. The defense agency has been spreading this work out as fast as it could, but there are still many communities that need to assert their rights and get contracts that they are entitled to.

Plan Delaware Poultry Exhibit

With completion of present plans, Delaware will be represented at the sixth annual Poultry Industry Exposition of the Northeastern Poultry Producers Council in Harrisburg, October 7 to 10, by a consumer exhibit on fried chicken. The State's giant broiler industry is backing the exhibit to display the lasty, healthful qualities of fried chicken made from Delaware's quality birds. Members of a special committee of the Delaware Poultry Improvement Association are now convessing all sections of the broiler industry—growers, buyers, killing plant operators and feed and equipment dealers—to obtain funds for staging the colorful exhibit. Shown here (left to right) are H. L. Richardson, University of Delaware Extension poultry specialist; Byard Carnean, Bridge ville; Frank Gordy, assistant Susses County agricultural agent; H. R. Baker, poultry pathologist for the State Board of Agriculture, and Hugh Davis, Millsboro, as they work on details for the display that will occupy 200 square feet of floor space in the Pennsylvania Farm Show building at Harrisburg where this year's Neppeo exposition will be staged.

ALL DOUBTS WHICH AROSE AFter the West Chester deadlock as to the strength of Coach Bill Murray's grid-ders this year, must have been dispell-

More than 7,000 fans saw Walt Paul, junior ball carrier, start the Hens rolling with a 54-yard jaunt down the sidelines which shifted the burden of defense over to the Cadets and from that point on, the Issue was never in doubt.

KEYED UP TO A FIGHTING pitch, the Blue and Gold representatives, playing the same type of game they did last year against the Chester eleven, blocked and tackled in the same decisive manner and when the Cadets were hit—they stayed hit.

were hit—they stayed hit.

A close Delaware victory would have surprised most of the Hen followers who were really looking for a P. M. C. conquest, and about the closest prophesy of the final score came to us from Herm Reitzes, WDEL broadcaster, who said after a visit to the Chester camp, "it looks like an even-steven ball game to me."

HERM, INCIDENTALLY, WAS forced to go through an advanced course in acrobatics in an effort to identify both the Delaware and P. M. C. players and even newspapermen, with a few more seconds to recognize the cridders, water unpuning a good suessing gridders, were running a good guessing contest up in the press box. Even the Cadets, sporting white numbers, were hard to recognize and while the game vas interesting to watch, it provided some real work for the Wilmington and Chester scribes.

One of the outstanding features of the victory was not the score, but the capable work turned in by Delaware replacements and Coach Murray proved that he is equipped with a strong starting eleven, supported by a wealth

of reserves.

With their first 1941 victory under their belts and yet to taste defeat, the Heiss head for Collegeville, Pa. on Saturday where they'll attempt to atone for last year's 25-0 defeat at the hands of Ursinus. The Bears were humbled in their debut last week by Dickinson, 20-7, and Delaware will be favored to rack up its second decision.

Working under a new coach, Pete Stevens, who succeeded Don Kellett, now director of freshman athletics at his alma mater, Pennsylvania, the Bears have a squad of 34 with sophomores forming the nucleus of the hopes for success.

A STAR BOTH AT FULLBACK A STAR BOTH AT FULLBACK and center under Glenn Warner at Temple, Stevens is thoroughly grounded in the strategy and tactics of the gridiron game, and from his six-year tenure as assistant coach at Ursinus, he is entirely familiar with the material at his disposal as well as with the policies and traditions of the college.

Ursinus' victory over Delaware last season was their only conquest of the campaign although they succeeded in playing a tie with Dickinson, and the Hens, remembering the 25-0 lacing received on Frazer Field, will be more than anxious to atone for the humiliation which took place before a large homecoming day crowd.

CLIPPERS TO BATTLE NEWARK

Three-Year Feud To Be Resumed Sunday

The flames of a three-year feud will be fanned again at Wilmington Park Sunday afternoon when the Newark Bears come to Wilmington for an American Pro Association clash with the Clippers. The kickoff is set for 2:30 octock.

The Bears, farm-club of the World

o'clock.

The Bears, farm-club of the World Champion Chicago club, have split a pair of league contests, beating the Providence Steam Rollers, 15 to 6, but dropping to Long Island, 10 to 0. Long Island also maltreated the Clippers, 13 to 6.

Gene Rozani, coach of the Bruins and an ace quarterback through eight seasons for the parent club, can call on fifteen holdovers plus a flock of players optioned from Chicago to huri against Wilmington. They include such standouts as Johnny Long, triple-threat Colgate product, Pete Holovak, one-lime Fordham lugger who led Association scoring last season, and Karl Scheulke, powerhouse 215-pound back from Wisconsin.

Joe Zeller, another ex-Bear, assists Rozani with the line and also holds down a guard slot. Joe Berardelli, Bill Raizik, Bill Battles, and Charley Eller are other vet Newarkers with the visiture.

The Clippers will be strengthened by

The Clippers will be strengthened by the return of Jack Ferrante, great pass-snatching wing from the Philadelphia Eagles, and the recovery from an injury of Les Dodson, mercury-footed triple-threat, whose alma mater was Mississippi U.

In five meetings over the past two nuturns, Wilmington has grabbed a pair and tied one with the Bears, Naturally, Newark boasts exactly the same record so Sunday's battle will be a "rubber" test between the two rivals. The Grizzlies nosed Wilmington out of the American Association title two years ago, beating them in the finale at Newark on Sid Luckman's pass to Dick Schweidler late in the final quarter.

Milford Cross Roads

Takes Baseball Title
The Milford Cross Roads Athletic

BLUE AND GOLD TO SEEK SECOND GRID VICTORY AT **COLLEGEVILLE SATURDAY**

Hen Gridders, In Mid-Season Form, Grind Out Impressive 20-0 Victory Over P. M. C.; To Face Ursinus Bears This Week

With their hardest test of the season behind them, Coach Murray's University of Delaware gridders will invade Colleger Pa., on Saturday where they will match forces with Ursing lege.

One of the three combines to reverse the Hens last season, the Bears are not being taken too lightly by the Glass are starting ends with Hens although the Delaware eleven will probably enter the game heavily fav-ored to walk off with the verdict.

Playing in mid-season form, the Blue and Gold representatives completely outplayed and out-smarted a avored Pennsylvania Military College eam in Wilmington Park last Saturday to rack up a 20-0 conquest.

In scoring two touchdowns during the second period and a third in the finale, the Delaware team's double wingback offensive never worked better as it clicked off plays in coordinated fashion. The Cadets, at times completely baffled by the Hens' ground at-tack, managed to launch spasmodic offensives of their own, but threatened seriously on only one occasion.

last week.

With a squad of 34 gridders, Pete Stevens, who succeeded Don Kellett as head coach at Ursinus this year, is looking forward to an improved season over last year when the Bears victory over Delaware was the only win recorded. The Bears are heavier and faster than last season, particularly the line which averages 183 pounds. Eighten members of the 1940 team are available, only six of whom, however, were regular starters.

The veteran group includes a number of men who developed rapidly as the season progressed and who are strong contenders for positions this specific products of the series.

MALLARDS HEADING SOUTH, POPULAR, WARY GAME BIRD

Greenheads Found In Every State, Offers Test For Hunters; Established Reputation As Table Delicacy

When the hunters look from their blinds to spot their first flock of wild ducks on October 1, the opening day of the 1941 migratory waterfowl hunting season in northern States, the mallard will be prominent among the game birds testing the hunters' ability, it is reported by the Fish and Wildlife Service, United States Department of the Interior.

Department of the Interior.

The greenhead, as the mallard is popularly called, is one of the most popular wild ducks in the country. It is probably the best known duck because of its wide distribution, being found in every State. Its popularity is attributed to its large size, its reputation as a table delicacy, and its willy nature, which appeals to sportsmen.

"It is then that the mallard pits its knowledge against the gurners in marshes, sloughs, and lakes.

Although it is a fresh water bird, it must go in bays and rivers in Greenland, Alaska, on the northern Pacific biologist. "When hunted persistently, the mallard becomes extremely wary and develops necturnal habits."

Arthur C. Bent, famous orinthologist, describes the mallard as an active, wary bird well worth prominence among game birds.

Sportsmen delight in watching the mallard as it takes off in flight at the first sound of alarm. It springs out of the water at a single bound, straight into the air like an autogiro, and after it has attained sufficient height to clear the surrounding brush and trees, it lies off swiftly in a direct line.

In winter, the bird is found throughted the light of wild mallaring in sumbers better than many others expected of wild ducks.
