

ACTS WITH THAT ENDS WELL
SENIOR CLASS

The Drama of 1926

ACT I

In September 1922 the curtain rose on a scene of lively action at the Women's College. The members of '26 had arrived, and had begun to announce their presence by proceeding to become acquainted with their new setting. This raw material was soon distinguished by the acquisition of teething rings as a part of their costume. Realizing their position on the stage as minor characters, these puppets were soon made acquainted with their duties, and lost no time in adjusting themselves to the regulations of the worthy Sophomores.

There followed delightful scenes of mirth and jollity—picnics, teas, and parties. Founder's Day gave to the Freshmen a new significance; namely, their color which was to designate them throughout their career. Their first adventure in practical usefulness was the support of the Library Campaign. Then came the Freshman Dance. They decked the stage with a lattice work of water-lilies, and danced in the subdued light of the make-believe moon. The Class of '26 overcame the valiant Sophomores in hockey, and won the shield for spring sports on Field Day. To add comedy to their drama, the Freshmen entertained themselves one night by applying a gelatinous, sticky substance to the door handles of the unsuspecting Sophomores. They paid for their fun

by a tragic scene when they appeared in disgrace before the Student Body. May Day and Commencement were important landmarks for the Class of '26, and they finished their first act with the satisfaction of having broadened their experience in many directions.

ACT II

The Class of '26 returned to the scene of action with a renewed impetus for dramatic conflict. It was their place to subdue the erring amateurs who appeared before the audience for the first time. Their task being duly performed

MOSS TYLER
PRESIDENT

by introductory stunts, the Sophomores proceeded to a more important function—that of adding to their setting a beautiful linden tree. Feeling the need of instructive guidance, they elected Professor Ryden as their faculty adviser. Before Thanksgiving they felt that the Freshmen had been sufficiently trained, and upon a very dignified occasion they set the stage for an evangelistic meeting. The audience benefited greatly by the personal experiences of the noble Sophomores. The bands of bondage were removed from the Freshmen, and a period of peace and happiness ensued. There followed numerous memorable episodes, such as the fire scare, the Alumnae Banquet, Field Day, May Day, and the Daisy Chain.

ACT III

A scene of gaiety marked the climax of the drama of '26. Although they had suffered acutely from the absence of many prominent actors who had taken their place in the outside world, the play proceeded just the same. Here was the Japanese garden, redolent of wistaria which hung from the walls. Bright colored dragons loomed on all sides, while daintily clad figures glided back and forth under the Japanese lights. Beautiful Japanese ladies served tempting delicacies. It was the Junior Prom. Then came the important problem of standardizing the college ring, their chance to imprint a lasting mark on the annals of '26. In fact, the Juniors were writing their drama in history. From their ranks the first student of the Foreign Study Plan went to France. The drama of '26 had something of universality in its appeal to the audience. The Junior year culminated in a scene of midnight revelry in which pajama clad spectres were seen circling round a huge bonfire. The characters had

caught the spirit of the act, the tone of the drama.

ACT IV

The startlingly picturesque gave place to the seriousness and earnestness of attainment. The players were new learned and trained as professionals. They kept the stately tenor of their way as scholastically clad figures in caps and gowns. Once, however, they disguised their nobility and met the Faculty on the hockey field. The end of the play was approaching, and the Seniors were doing their best "to hold, as 'twere, the mirror up to nature," and to make the last scenes of their college days express the highest ideals of service. They enjoyed to the fullest extent each episode as it presented itself; namely, a class bonfire, the Thanksgiving Day Banquet, the class party, the Christmas Banquet, the Prom, and other scenes of jollification. They were proud to look back upon their past as being an interpretation of individuality in precedents established, work accomplished, and a drama well acted. They are now confident that

*"All's well that ends well; still the fine's the crown;
Whate'er the course, the end is the renown."*

Be it known, however, that according to Shakespeare,

*"If you would have your play deserve success,
Give it five acts complete, nor more nor less."*

Then, we may ask, where is the completion of the drama of '26? They are going out to finish their play in a new setting known as the world.

KATHARINE ELLA
BARNARD

HOME ECONOMICS
NEWARK, DELAWARE

KATHARINE is interested in journalism, and social service work. She has been able to find expression for the former by writing to the newspapers about all the activities which take place on our campus. Around college her eternal query is, "Do you know any news?" Her interest in social service work has been evidenced by the efforts she has made to be as helpful as possible to those about her in college who need some aid. She particularly likes to talk about those problems which are closely connected with child welfare. "Kate" also has ever kept up a genuine interest in her classes in spite of the fact that she always comes about fifteen minutes late. Attractive posters, lovely scarfs, delicious foods all go to prove that "Kate" has known how to take full advantage of the opportunities offered by the various courses of the Home Economics Department in order to develop her practical and artistic abilities.

"My angel is like you, Kate, and you are like an angel."

THERE is very little real difference between "Les," the Freshman who came to college with her thumbs heavy with gold rings and who wore rompers to the Masquerade Dance, and "Les," the Senior who, in betasseled cap and flowing gown, sings hymns and gravely listens to announcements in chapel. The devil-may-care attitude of the first year has sobered a bit. A very becoming dignity is gradually taking its place. But the qualities which made her beloved by her classmates, while yet they were wearing teething rings, still remain. "Les" is as boyishly frank and as childishly impetuous as ever. "Les" is original in ideas and artistic in expression. Surely we shall always remember her clever felt "Blue Hen Chicks," and her painted insignias for slickers. "Les" is one of the most interesting and attractive personalities in the class of '26.

"Age cannot wither her, nor custom stale Her infinite variety."

SALLIE ANN CALLAWAY

HOME ECONOMICS
LAUREL, DELAWARE

SALLIE is the prime laugher of the class of '26. When you hear her giggle, you find it so irresistible that you can do nothing but laugh with her. When she was a Freshman, her chuckles after ten o'clock gained her many a blackmark. Nevertheless, she has her serious moments. When she was a Sophomore she helped chase rebellious Freshmen off campus. "Sal's" most lovable characteristic is genuineness. She is independent but not overbearingly so. She is so honest that she cannot assume any interest or enthusiasm which is not sincere. One feels, therefore, that, when she approves or disapproves of something, her opinion is the true value of the thing. "Sal's" imagination and wit, combined with real intelligence, have kept her head high above the treacherous waters of low marks, while the above combinations and two dancing feet have made her an extremely popular young lady at a dance.

"In each cheek appears a pretty dimple."

"GINGER" belies her nickname. She is a contradiction of herself. She is made of all gentleness and dignity, all mischievousness and fun, all studiousness and all enthusiasm. Even in her anger she is lovable. Indeed lovable is a word that definitely applies to "Ginger." You have never seen "Ginger" with a T square around her neck, and a slide rule in one hand, breathing fervently, "You know, girls, I love this," but, just the same, she is a very good student in mathematics. It is true that she sometimes mistakes P, Q, and R for L, M, and N, but we must remember that "true love is blind." It is impossible to think of "Ginger" as the student which she really is until we see her in her specs, which she wears to classes in order to impress the professors. She is of such a happy, lighthearted disposition that she counts her friends by the score.

"Let gentleness my strong enforcement be."

HELEN BERTHA COHEN

ARTS AND SCIENCE
WILMINGTON, DELAWARE

Class Hockey Team (3).

DR. BEVAN experienced difficulties in pronouncing Helen's last name and had to be informed by this young lady many times that her name was not "Cow-en." After having cleared up the difficulties surrounding the pronunciation of her name, Helen proceeded to establish herself as a good student. Believing with Matthew Arnold that criticism renders a real service to the critic's own mind and spirit, and to the minds and spirits of others, she straightway took a position as critic pro and con. Shows, class rings, and practice teaching have all been weighed in the balance by Helen, and, in almost every case, found wanting.

Although Helen does not spend much time on campus, she has had time to make many friends, and to contribute to the happiness of the class and the college. We shall remember that her dances were important numbers on our May Day program and that the happy smile on her face belies the whine in the voice of the smallest member of '26.

"For I am nothing if not critical."

College Representative of the New Voters of the League of Women Voters (3, 4); Y.W.C.A. Cabinet (2); Commuter Representative (3); Assistant Art Editor of the Blue and Gold (4); Vice President of Forum (4).

ELIZABETH has always zealously participated in campus activities. At the same time she has kept up a lively interest in her studies, in all of which she has formed worthwhile opinions. Furthermore, she has both the ability and the fearlessness to express these ideas, much to the edification of the more timid members of the class. Elizabeth's capacity for discussion is equaled by her talent for drawing. For both these faculties we render thanks, since to them we owe, on the one hand, many of our most delightful hours in class, and, on the other, much of the artistic work of this edition of the BLUE AND GOLD.

We well remember the time when her warm defense of Poe sent Dr. Foster scurrying after three immense volumes of poetry which he needed before he could attempt any kind of rebuttal.

ALICE ELIZABETH DAVIS

Class Hockey Team (1, 4); Honor Hockey Team (1, 4); Class Basket-ball Team (2); Honor Basket-ball Team (2).

SHE is "Dave" on the athletic field and "Alice" in the classroom. When one sees the merry twinkle lurking in her eyes, one says, "Alice," when one sees her in action in hockey or in basket-ball, one shouts, "Dave." But what's in a name? The same undefeated spirit of cooperation and fairness which made her athletic career so successful has played an important part in all her activities with her classmates. Her services, however, have not been limited to just her own class. Her boxes of candy have tempted the whole college. The cause of many a pimple and damaged complexion has been laid at "Dave's" door; but many, many thanks have gone there also, for at one time or another, after a breakfastless morning or an unsatisfactory lunch, "Dave's" 57 varieties of chocolates and salted peanuts have been veritable life-savers for us all.

"Alice" is interested in many things and in many people.

"Honour pricks me on."

Y.W.C.A. Cabinet (1); Pianist for Glee Club (2); Class Volley Ball Team (1); Honor Volley Ball Team (1); Chairman of Meetings, Y.W.C.A. Cabinet (4).

NAOMI can play the piano beautifully, pound a typewriter expertly, and prepare her lessons conscientiously. She always has been and probably always will be an essential part of a Young Women's Christian Association. In all her work she is inspired by a deep sense of practical idealism which makes everything she does worthwhile and useful. She is optimistic and incurably romantic in her philosophy of life, and although her head may often be up in the clouds, she keeps her feet always planted firmly on the ground. Naomi likes to discuss things, particularly at meal time; and, so well does she defend her position, that no matter how hungry the rest of the girls at her table are, they cannot resist joining the discussion. So it is that, while Naomi has been hostess, the problems of ourselves and of the world in general have been settled many times.

"She taketh most delight

RUTH EWING

WEST GROVE, PENNSYLVANIA

Class Hockey Team (1, 2, 3, 4); Honor Hockey Team (3); Class Baseball Team (1, 2); Honor Baseball Team (1); Class Treasurer (2); Student Council (3); Vice President of the Athletic Council (3); Class Secretary (4); President of the Athletic Council (4).

RUTH has enthusiasm and pep; she has ability and stick-to-it-iveness; she has a "noisy whoop and a merry ha-ha." She is a hard worker. Everything that she undertakes goes over with a bang. She grins as she works. It is hard to find Ruth with a serious face, but that does not mean that she does not have serious thoughts when necessary. Her greatest fault is that, as head waitress, she insists upon opening the outside doors of the dining room during the progress of a meal, and in this manner causes our coffee to become cold and our bodies to shake and tremble in the chilling blasts.

On the athletic field Ruth has won all the honors that the college offers. As the president of the Athletic Council she has secured more active enthusiasm and co-operation in athletics than has ever been roused before.

"You have deserved high commendation, true applause, and love."

HARRIET MADELINE
FORWOOD

ARTS AND SCIENCE
WILMINGTON, DELAWARE
Secretary-Treasurer French Club (3).

ONE's first impression of Madeline is a picture of demureness and quiet serenity, with a hint of dignity outlining this gentle figure. On further study of the picture, the dignity seems to be pushed out of the scene by jollity, for when mirth comes knocking Madeline responds wholeheartedly. Although she thoroughly enjoys a frolic to which she may add her mischievousness and giggles, she does not forsake duty for pleasure. It is not uncommon for Madeline to say that she would gladly do this or that but, "Oh my! the work I must do." Madeline has shown her ability in art, and the products of her work in this field—dresses, pillows, and innumerable scarves—are the envy of every girl on the campus. A large part of her time is given to French. Whether it is the French novels, French teachers, the French men or merely the charm of the language itself that appeals so deeply to her, we do not know.

"Her voice was ever soft,
Gentle and low, an excellent
thing in woman."

MARY has a capacity for work that has won her numerous A's. In fact, she established her reputation as an intellectual prodigy in her Freshman year, and each year she has added to this reputation by long hours of conscientious work. Mary is not especially interested in college activities, but she is interested in "a student's work." She has turned all her energy toward her classroom work. Yet with all this Mary is not an ardent bookworm. She seems to have been born a scholar, and she is very happy about it.

Mary has been interested in College and Class athletics, and, although she has never been a shining star in that field, she has been a standby upon whom her classmates could depend.

For two years Mary has been a member of the Student Board. She possesses qualities that make her a valuable part of a student governing body—sympathy, firmness, a sense of justice.

"WEASIE" is a generating plant of energy. She goes about her tasks with such a great degree of "vim, vigor, and vitality" that she completes them in a minimum amount of time. She is always actively engaged in some activity other than scholastic work, and yet her lessons certainly do not suffer, for "Weasie" surely can "pull" the A's. She is very versatile, our "Weasie," and has shown remarkable competency in Home Economics, in decorating for the Junior Prom, in presiding over the house of Sussex in her Junior year, and in managing the business side of the BLUE AND GOLD. Although active in college affairs, she has a wide capacity for friendship. She has her own chums but she has an interest in everyone else in college. Moreover, "Weasie" has a romantic streak, which is exemplified in our time-worn expression, "Oh, that's 'Weasie' and 'Lonnie.'"

To talk with "Dot" is to like her. She has a sincerity of mind and intention that cannot be questioned. When one wants a well-balanced judgment of a perplexing problem, one usually seeks "Dot." She has been the sympathetic listener to many a tale of woe. Yet "Dot" is not entirely serious. She has a strain of humor so subtle and spontaneous that one never fails to be impressed with her cleverness. Few people really know "Dot" and her capabilities. She is interested in many things; she can do many things, and she can do them well. She is modest and unassuming, but ready to protect her rights when trampled upon by others. Probably her most salient characteristics are her tact, her fine spirit of cooperation and her ever friendly disposition. We can never imagine a time when "Dot" will be without friends.

THEODORA KIROVA

TRENTON, NEW JERSEY

Class Volley Ball Team (1, 2); Honor
Volley Ball Team (2).

THEODORA came to us from across the seas, bringing with her an Old World atmosphere that contrasts agreeably with the rustle and bustle of the twentieth century American girl. After four years with us she retains her foreign accent. Even Senior English under Dr. Sypherd failed to anglicize her. Who could blame her, however? Her speech certainly is different from the slangy vocabulary cultivated by a great many of us.

"Dora" is very serious and quiet on the surface, but her best friends know that she can be as gay as the gayest. She has an appreciative sense of humor. When anyone tells a joke, she is among the first to laugh.

Theodora is above all a good friend—a friend who sympathizes and understands. She is generous and good-natured, and has won a place for herself in the heart of this American College.

"Her very words are a fantastical banquet, just so many strange dishes."

HELEN LEVY

Class Hockey Team (3); Secretary-Treasurer of French Club (4); Associate Editor of the Blue and Gold (4); Phi Kappa Phi (4).

HELEN LEVY has a clear mind and not only a capacity for work, but an aptitude for finishing whatever she undertakes. She forms a combination that is hard to beat—general interest, work, and red hair. She always finds something “quite interesting” and “remarkable” about her work, her classmates, and her college. Dr. Sypherd always calls on Miss Levy to read his favorite passages. Helen is interested in dramatics, and often entertains us with a critical description of the presentation of a play that she has seen in Philadelphia. She can talk so eloquently, so fluently, and so long on any subject that she always wins her point. In Philosophy class, especially, she has endless ideas about her arguments. She presents her own practical ideas to the class; she always has Dr. Crooks on her side.

VIVACIOUSNESS and enthusiasm are two of “Bill’s” outstanding characteristics. At a dance, she is all animation, and the glow of enjoyment on her face is contagious. Her enthusiasm has been manifested in many lines since she entered as a Freshman. She has participated actively in athletics, in Forum, in dramatics, and in week-end trips to Wilmington. Moreover, she was unanimously elected as Advertising Manager of the BLUE AND GOLD.

“Bill” finds it hard to grow up to the dignity of a Senior. In fact, she assumes a dignified poise for special occasions, but at feeds and parties she is a fun-loving, giggling girl. The flash of her hazel eyes has made many conquests. If rumor be correct, she may be a school-marm, but she’ll never be an old one.

"SALLIE" must have her little joke. No matter what the subject or the situation is, "Sallie" will dryly contribute some comment which is at once pointed and extremely amusing. She affects to be very sophisticated, so that her remarks often seem to be worldly-wise and blasé. But in spite of all the cynicism and sophistication, "Sallie" is a very wholesome sort of person to know. She has an intense dislike for pretense, and does not hesitate to ridicule all signs of affectation. She, however, never hurts anyone wittingly with the keenness of her verbal darts. "Sallie" can always be relied upon to know the newest joke, the freshest password, the latest song. She never worries because she thinks that everything will eventually come out all right for her. As a result, the time which would otherwise be wasted by useless worry, she uses to good advantage by chatting with and entertaining her wide circle of acquaintances.

"HEN" has a dual personality. She can be very feminine, very foolish, and very romantic; at other times, when occasion demands, she can be very practical, very dignified, and very business-like.

"Hen" effervesces with enthusiasm. If a sound like a bubbling brook is heard down the hall, you may be quite sure that it is "Hen" exclaiming, "Oh, I'm so thrilled!"

"Hen" is an executive of real and practical ability. The financial standing of the Young Women's Christian Association would be considerably weakened were it not for "Hen's" money-making ability. She works with untiring energy when preparing for a bazaar, making candy and sandwiches to sell, or taking orders for Christmas cards. No girl is capable of putting more earnest effort and conscientious energy into her work both in and out of college.

"SQUEEZER" has this year occupied the editor's uneasy chair. She has worked diligently, keeping persistently at the heels of erring associate-editors. When the book is all in, "Squeezer" will probably be too. Mathematical wizards may come and go, but none can compare with "Squeezer" who seems to thrive on Calculus and Trigonometry problems, which to most of us are Chinese puzzles. Even though she is an exceptionally good student in Mathematics, she is not far below this in other studies—especially in Practice Teaching. "Squeezer" has been active in dramatics during her four years at the Women's College. In her Sophomore year she was responsible for the success of the "Playthings" given in the dining-room. "Squeezer" is interested in Delaware; she is a conscientious worker in various fields. More than that, however, she is a generous, bighearted friend.

It did not take the established members of the Women's College long to notice this well-dressed young lady upon her arrival, as a Freshman, within the portals of this institution. Her artistic tastes show themselves in her clothes. Everyone is always anxious to see "Sarie's" latest outfit. Let no one get the idea that "Sarie's" chief interests are centered in fashions. She achieves the "you just know she wears 'em" effect almost unconsciously. Sara is an ardent bridge fiend. She is never too busy for just a hand or two. Sara is a good student. When we were doing educational tests in Psychology 31 we learned of her ability to think accurately, and to comprehend quickly. In sewing class she has even proved her ability to Miss Kelly. "Sarie," like many of us, has formulated her own gang in college. When she isn't with the gang, you are sure to hear someone calling "Sarie, 'Sarie.'"

"ANNE's" sense of justice is very keen. Shylock could well have exclaimed of her, "Oh, noble judge!" However, though justice be her plea, "Anne" does not forget the qualities of mercy. She presides over the student board with quiet dignity, an unswerving sense of what is right, steadfastness of purpose, fearlessness, sympathy, and most important of all perhaps, a sense of humor. In fact her sense of humor, her comradeship, and her congeniality make her a valuable friend to all the girls on campus. And when "Anne" has time, she likes to play as well as any of us. One of her hardest tasks is to leave the enticing bridge games across the hall, when her neighbors are inveigling her to play another hand.

We have heard it rumored that, after leaving college, it will not be long before "Anne" will be caught in the "Webb" of Matrimony.

WE heard of "Pep" before she came to college. Our first impression was that of a dignified, serious girl, who looked upon life as a mission. We have found that she is dignified and serious but just as fun-loving as the rest of us. "Pep" is one of the "Home-ecers," and was one of the hardest workers of the Practice Cottage Corps in her Junior year. Her favorite refrain was, "I'm forever washing dishes."

"Pep" is interested in her friend, "Dot," in her studies, in her class, and in her college. Since she has been in college she has set up for herself high ideals, and she is the kind of a girl to accomplish them. "Pep" makes a friendly little picture in college—a picture which has so many colors in it that it makes you warm up when you see it.

MERREL came to college equipped with a store of knowledge that made her a shining star in her Freshman year. She has obtained more A's than any other girl in college. The wealth of allusion at her finger tips and her ability to write made her a competent editor of the *Review* for two years.

Merrel, however, did not confine her ability to studies and to newspaper work. She has been very prominent in dramatics as well. Many a time and oft on the Hilarium floor she has delighted us with interpretations of the snake dance, using gayly colored silk scarves for snakes.

There is a steady balance in her thinking, and a clear logic to her reasoning that sets her personality apart. There is a silent atmosphere of penetration and genuine tolerance about her that has justified the confidence of her friends. Moreover, Merrel likes a good time and Merrel is in love.

ELOISE has been running Emily Post a fast race on what is right in social etiquette by being the chief guide in social affairs at the Women's College. To her we owe the renovated Spring Dance which she turned into a formal and very pleasing affair. But it is when music holds the foreground that Eloise outshines the rest of us. Her peppy songs have often guided our feet through the most intricate jazz steps. Sometimes, however, she has made us very sentimental by playing soft, dreamy airs on the piano. Eloise is interested in anything for the betterment of the college. As the President of the Rifle Club she has been responsible to a great degree for framing the ideals of the club. During her four years she has made a host of friends by her charming personality and her genial nature.

And when you know "Anne" you won't be surprised that a Mr. Rose married her. She has a genuine charm and personality which she expresses in what she says and in what she does. Her charm lies in a combination of shyness and independence. She is capable and purposeful; she takes a great deal of interest in her studies, especially in Senior English and in Practice Teaching. She seems so quiet and studious that only intimate acquaintance reveals her store of ideals and her sense of humor. At times "Anne" is full of fun, but she is very reserved. "JOHNNY" is one of the few artistic members of '26. Her surroundings are always attractive. She is an energetic little worker, and has demonstrated her ability at decorating many times for the Women's College dances.

"Johnny" is as good-natured as she is good to look upon. She demonstrates her affability by letting herself be dragged into bridge games, which she dislikes, by her bridge-fiend roommate, when someone is needed to make up a table. "Johnny" is very quiet, very unassertive, but her eyes speak for her. She could add up a list of conquests longer than that of Theda Bara or Nita Naldi. Although men and frat pins are not supposed to be given a place in our year book, it is impossible to close without mentioning one of each. One simply cannot think of "Johnny" without thinking also of "Wally."

MARIAN's humorous personality early brought her into sympathetic contact with her fellow students, and her honesty and energetic willingness to work won their admiration and respect. There is a rare combination of qualities in Marian's character—the spirit of cooperation, and the ability to lead. She knows how to give her help to others so that through teamwork the success of an enterprise is assumed; when occasion demands, she can also take the initiative and lead. To Marian the only important activity on campus is the Young Women's Christian Association. She has tried to make "Y.W." mean something to every girl in college. We sometimes find it hard to reconcile the Marian we know as the enthusiastic Y.W. worker with the dispassionate young scientist who spends so much time in the biology laboratory.

HELEN put us on the map. The brilliant record she made at the Sorbonne during her Junior year, when she stood second in the final examinations, gave our college, shining by reflected glory, international significance. Helen was the first student from the Women's College to go abroad under the foreign study plan, and the first American to attain so high a standing at the Sorbonne. Her personal charm and poise added to her intelligence made her an ideal representative. Her Senior year has been dedicated to sustaining her splendid record and to telling the rest of us "all about it." It is fortunate that Helen is a "champeen" fast talker, for she has so much to tell that the ordinary speaker would give up in despair. But Helen can say more words per minute than any ordinary person, so that she has no difficulty in cramming her many witty accounts of France full of entertaining and interesting anecdotes and information.

WILMINGTON, DELAWARE

You have heard that to be a good listener is better than to be a good talker. Sara excels in the art of listening. So sympathetic a listener is she that her friends all come to her to speak their hopes and troubles, their studies and their dates. Sara always listens; she is interested and attentive. But bring up some problem in mathematics or politics; the patient hearer vanishes, a speaker, and a very able one at that, takes her place. Sara thinks twice before she talks, so that when she does speak, she has something worthwhile to say. Her opinions are always carefully formed and deliberately delivered.

Sara's greatest enthusiasm, aside from politics and math, is Swarthmore. She claims that she is interested in that college because she has a cousin studying there. We, however, have our own private opinion as to that.

AFTER our association with Adele, we are still undecided as to whether she likes best to sleep or to talk. Sometimes the vote has gone to the one, but only to be changed in the course of the same day to the other. The best we can do is to say that she does both excellently, but that personally, we prefer her when she is talking. When Adele talks, we get the full benefit of her attractiveness and the quaintness of her Pennsylvania Dutchisms. Adele's name has undergone a bewildering number of metamorphoses at the hands of the professors. At various times she has been "Adelia," "Ad'-dell," "Miss Sneft," "Miss Senuff." In spite of all that the profs and sleep could do, Adele has always been a splendid student and an entertaining companion.

A TOUCH of sadness, a line of worry, a suggestion of dignity, and a hint of responsibility combine and hide themselves away from Ruth's face when her lips begin to twitch and the smile is on. Her motto is "I want to be happy, and I want you to be happy too." The only time that she caused discomfort was when she killed frogs and cats for experiments in the biology laboratory. Even then she was too good a student of science to prolong the painful process.

Although Ruth firmly declares, "If you want to get a thing done around here, do it yourself," she is not an example of her theory. Her willingness to use her ability as typist for our year book is only one example of her unselfish character.

Honesty and conscientious work are displayed by her in every relationship whether it be in her attitude towards her college, her studies, her classmates, or herself.

"Dot" is a mighty good student, but if we were to give her a prize, it would be for good-nature. "Dot" can see the funny side of everything; indeed we suspect that she sees at least two funny sides to some things. She is a splendid antidote for the world's pessimism, for her hearty laugh is so contagious that the glummiest person near her immediately reflects her merriment. When "Dot" was a Freshman, she was very conscientious. She even solved all her "math" problems every day. Such diligence, however, could not, and did not last forever. In fact, she has learned to take advantage of all the cuts allotted to her, and has occasionally gone to Dr. Conover's class with the last ten lines of her Latin untranslated. Her studies, though, have never been really neglected, and "Dot" continues to win high grades in all her courses.

K.," "Kit," and "Kitty" will draw a cordial, prompt answer, but "Katie" is the signal for a frightful series of gurs and burrs accompanied by disgusted grimaces. But since all her friends—their number is a legion—know and indulge this weakness, it is seldom that her temper is thus ruffled, so that the Katherine we know is a very charming young person with a decided penchant for giggling and for writing letters which are sent in all directions, particularly south to Virginia. If one may judge from her conversation, these letters must be "delightfully different," with clever, surprising twists of thought expressed ingeniously through a variety of appropriate similes and metaphors.

Just as she captivated us, so has she charmed each of the succeeding classes with her simple dignity and her twinkling eyes. Seldom has anything disturbed her serenity or chased away her smile. She devotes much of her time to purely womanly activities — sewing, embroidering, block printing, and chatting.

For our last year at W.C.D. we chose Moss to be our class president. Under her management Seniority has been invested with new dignity, and college life has been enriched by the founding of one more impressive ceremony — the wearing to Chapel of the academic cap and gown.

Moss has high and noble ideals, and those who have known her have nothing but praise for them.

Mildred has been an ardent supporter of sports since she came to college. To her brilliant playing the class of '26 owes a large part of its victories in Basket-ball and Volley Ball. She is very quiet in her manner and restrained in her sentiments; but she is always sincere and reliable. This calmness of temperament has served us well on class hockey teams, for Ruth as goal-keeper or half-back could always be depended on to be cool enough in the midst of a hotly contested game to defend her goal with skill and energy. Aside from hockey, her chief hobbies are reasoning out mathematical problems for puzzled commuters, visiting Dr. Sypherd's Chaucer class in order to show the members how to read medieval English, and posing on the campus for snap-shots. AS YOU LIKE IT

So Shall Your Memories Be

We began liking "It" right away. From the moment we furtively picked out our own classmates from the incoming seekers of knowledge to the present time when our thoughts turn toward the last year we are to be together, our memories have been happy ones.

The Sophomores, doubting that the rest of the college would recognize the Freshmen of '27 because of their brilliance that year, racked their brains to think of a way to make the Public appreciate our value, and so at last alighted upon the plan of encircling our brows with green bands upon which was the one word, "Freshmen." The crowning was accomplished by a motley collection of trials and stunts which we were to perform. It was at this critical period that the spirit of '27 was born, and flourishing, has ever since been recognized as a potent influence at the Women's College.

Did we quail at the horrible trials inflicted upon us?—We did not. Who does not remember the courage of Katie VanSant, who blindfolded and alone, walked upon a board, one ten-thousandth of her own weight. And the bands! ask anyone. Joyfully and unconcernedly we wore them on the backs of our heads, tucked under our

curls, or cocked sportively over one ear (but always with the safety pin, oh, yes, not because we feared the august Irene, as some might suggest, but because they did as well as anything until '27's unusual crop of fraternity pins were collected).

In red letters we wrote our number '27 across the page of sports, captivating the cup at the Gym Meet and holding the majority of places upon the varsity teams. It was after the Gym Meet feed that we hung our flag from the flag-pole causing such a rumpus with the Sophs

that we were punished by having to be the last to and from the dining-room. Nevertheless it was a happy occasion for us, for the Freshman tummy was at last satisfied.

May Day morning saw the Freshmen stealing quietly along the halls of Residence, hanging on the doors of their Big Sister's rooms baskets of spring flowers, and then scurrying down the hall to lightheartedly sing May carols on the Campus.

Outstanding among the reminiscences of the Freshman year is the Freshman Dance. Soft lights and whispering voices—fluffy dresses and dreamy music. Old age can never be dreary when hearts hold memories such as these.

JEAN MIDDLETON
PRESIDENT

To our Sophomore year was brought the same joyful spirit, tempered now with a realization of the real seriousness of college life.

After careful scrutiny of the usurpers of our realm we unanimously came to the decision that our dignity would not permit such blithe unconcern as was exhibited by the newcomers, and so—Stunt Night. To foster a meek spirit we presented the Freshmen with green mittens which were to be worn on all occasions. To make them realize the greatness of their superiors a salute was demanded upon all meetings of Freshies and upper classmen, and to subdue unnecessary high spirits quaint forms of torture were devised. The execution of said chastisements taking place before the combined Academic and Student Bodies, for their approval—and amusement.

The lazy summer interval between Sophomore and Junior year soon passed and the halls once again resounded with laughter and merry greetings, Oh, how good it was to see everyone again, how much there was to talk over—weeks in Maine, moonlight nights in Rehoboth, the glory of the Eastern shore—and added to

all this the excitement of meeting our little sisters and helping them to acclimate themselves to this new environment. Junior year was the best after all.

Through the seasons of hockey and volley ball, when we again made an appreciable increase in our athletic record, through the joys of vacations and the cramming sorrows of mid-years, time sped on to the apex of the third college year, the Junior Prom. How the little God of happiness must have chuckled that night, as he peered through the filmy branches that completely hid the Hilarium in a cloud of snowy whiteness, and saw the carefree dancing figures swaying to the melodious "Remember."

The Prom week-end witnessed another innovation brought about by the ingenuity of the Juniors and that was the Class Tea Dance. It was a huge success and one which we hope succeeding classes will imitate.

And now our Junior year draws to a close—in another month we shall carefully fold and put away the loud gale of jollity, in readiness to don the more serious attire of dignity as befits Seniority.

There are many of us who have found a real delight in knowing "Kitty," for she is just such a friend. We often wonder why "Kitty" is popular everywhere, and why we just can't help loving her so much. She is a Home Ec girl, and like all good cooks uses good recipes. Study her personality and you will find that her recipe for charm must be something like this: lots of good looks, lots of sympathy, a real appreciation of beauty, true sincerity, quite a little love for a good time, some managerial ability, and a lot of cleverness. Combine these ingredients with a lot of generous love and you'll have the all-round girl and the pal we've found "Kitty" to be.

A very good proof of this is that Edith, rather than lose one minute from her medical pursuit, is taking a French course in Qualitative Chemistry at the Sorbonne, where she is studying with this year's group of Foreign Study Plan Students.

Delaware should be very proud to have as one of its representatives in France such a clever and intelligent student. While she was at the Women's College she distinguished herself especially in Chemistry courses. Edith's favorite occupation during the Organic course was cutting her arms with exploded test tubes, and painting the entire "lab" with her class colors in the shade of malachite green.

But her greatest talent lies in the talking line. Her voice is always about two jumps ahead of our comprehension, so we assume she has an eighty miles-a-minute mind, even though we have lost the trail long since. In spite of the sad fact that she has undergone the preparation and experience of an elementary teacher, she has escaped the ordeal without a scar. Judged by her tutoring of one-half the younger generation of commuters, she gives every indication of being able to instruct the young in any known subject—if they can keep up with her rapid speech.

In some respects, we regret her long hours of laboratory work because they have kept us from knowing her intimately. We know her intrinsic worth, however, from the other members of her classes in Biology.

Helen's greatest merit is stick-to-it-iveness. She is a character who can adapt herself to any situation. She actually kept Freshman rules when she first joined us, for we did not know of her previous novitiate. However, the sportsmanship which Helen exhibited at this degradation aroused the admiration of the class. 1927 is sorry for its mistakes and hopes to make up the loss in the short time that remains of college life.

SHE is interested in mathematics, but, in college work, she is by no means an obtuse triangle. Hutt is fond of mathematical recreations, and she will spend hours in solving magical squares. The Class of '27 chose Hutt to be the class secretary during her Junior year. We believe that she has had more than ordinary experience in writing invitations, both formal and informal. Moreover, Hutt was Assistant Advertising Manager for the BLUE AND GOLD, and it is rumored that she "pulled some good ads." Hutt is a student, not too serious minded, but purposeful. She has never developed a cynical attitude toward her college or her classmates. Her friends know her as a good companion, true to her word, and always faithful.

"I swear she is truehearted."

OUR first impression of "Pete" was a diffident, unassuming, unsophisticated girl, with blond hair, rosy cheeks and big brown eyes that looked a little dazed at her new surroundings. The expression of childlike wonder at the meaning of things of life has never left her. There is a certain charm about "Pete" that no one can resist—a charm made up of a pleasing appearance, inherent good nature, unswerving loyalty, and sweetness of disposition. Her classroom work is always prepared. Yet one would hesitate to call "Pete" studious. She is always ready to play bridge, to sew on fancy linens, or to take afternoon siestas. For two years "Pete" has been an active member of the social committee. In this field she has shown the same thoroughness that she has shown in other activities—whether it be leading the grand march at the Junior Prom, or making the punch for Open Night.

SOMEONE pounds you gleefully on the back and before she shouts her lusty greeting in your ear you know that "Hail, fellow, well met 'Nancy'" has joined you. We welcomed "Nancy" to our midst at the beginning of her Junior year when she chose to study with us instead of returning to Goucher. Her hearty grin and twinkling eye soon belied the severe and dignified appearance that she, at first, presented to the Women's College. She has made friends with everyone, and proved herself a good sport. She has the unusual ability of seeming to be at all places at all times. Yet she works as hard as any other joker, and somehow she pulls the tricks. She is indeed a "jolly good fellow," and although she is always ready for fun, she does appreciate deep and worthwhile things. Her favorite course is Dr. Bevan's Renaissance History, for there she sees many jokes. "Nancy" is a dependable and loyal friend.

DEVONA is one of the strikingly original characters of '27. One can never be sure just what she is going to say next. Woe to the person upon whom Devona condescends to visit her scorn. Her moods are like the winds. At one moment, she is gay and light-hearted and, at the next, she is dignified and reserved. She is a good student; she is especially interested in Biology. She and her friend Benson get a great deal of enjoyment out of cutting up long, slimy earthworms. In her Sophomore year she served conscientiously on the social committee. Devona has been a shining light in dramatics. She excels in comedy rôles. As "Touchstone" in "As You Like It" she has a chance to "strut her stuff." She has a real, vital personality that conveys its expression without words. Devona's heart is big enough to shelter all the sorrows of the world.

"KITTY" Krauss enjoys much notoriety and popularity on the Campus. Can you imagine a tall and stately girl smiling on Lord this and Lord that? That is "Kitty." She is a member of the Foreign Study Group this year. She is the girl, who will, we expect, return with a large French vocabulary and with many stylish clothes. Indeed "Kitty's" clothes and "How nice she looks in 'em" is a much discussed topic at the Women's College. We shall always remember "Kitty's" music. "Music hath charms." When you hear "Kitty" play you are reminded of this quotation. Moreover, she is like the piece of music, "Rose Marie," that John McCormack always sings—"all who learn to know her love her." "Kitty" has an abundance of that intangible something—personality, but most of all she is interested in the welfare of W.C.D.

"If music be the food of love—

"Dot" is interested in all her Home Economics courses except Chemistry. In fact she would be quite happy if she could remove all of Miss Drake's classes from the Women's College. She likes nutrition, and often spends hours in looking up appropriate quotations such as "Eggs from sunkist hens make kids' legs straight." "Dot" is a week-end commuter, but during the week she is always willing to help out in anything around school that needs her.

"Dot" has a well-developed sense of humor, and she never misses an opportunity to prove it. She is the cheerfulest person of the Class of '27. If you are feeling "too blue" you should stop in and talk to "Dot." She never sympathizes, but she manages to drive your troubles away. "Dot" is big-hearted and good-natured.

"ANNE" is one of the literary ladies of the Class of '27. If you wish to know "what's what" among the new novels, "Anne" will always be very willing to tell you. She is also very fond of poetry, and keeps up with all of the new editions of it.

We think that "Anne" must be a very sentimental young person because one of her favorite occupations is sitting in the dusk and playing the piano. Everything that "Anne" plays is soft and soothing, as "I Love You Truly" or "Dawning." We're very much afraid it's a symptom.

"Anne" did not start out with the Class of '27, but we were very happy when she decided to finish her course with us. "Anne" is indeed a delightful addition. You see—"She sure has kissed the blarney stone."

THE Class of '27 found "Margy" a capable officer during her first year, and, from the records, it would seem that the whole college followed its lead. Margaret is not the girl to be told what to do. She actually seeks outside work. Perhaps this is the secret of how she won the prize in English composition when she was a Freshman.

"Margy" is the kind of a person who leaves a lasting impression. She has worked conscientiously in all her courses; she has become interested in people as well as in her class work. She is ever ready to put aside her own problems to help you with the one that is bothering you. She is very much interested in her chosen course of Home Economics, and some day she will probably teach classes of boys to become professionals.

But most of all "Margy" is just "Margy."

IN every class one finds the "burners of the midnight oil." In this worthy group, Marie has found her place. Concentrated as she is upon her work, Marie is not averse to allowing her sense of humor come bubbling to the front on the slightest provocation. From her appearance one would judge that she is quite timid. However, this is a false judgment. She is really quite bloodthirsty. On one occasion she was known to skin a cat with great vigor and much relish. But we must not forget to say that the cat was first chloroformed in Miss McKinney's Laboratory. Although Marie is considered among the most studious, she is interested in the activities of college life. Marie is sincere, sympathetic, and has a purpose that cannot be altered. She is systematic and exact.

THE general consensus of opinion is that Alice is a very quiet sort of a person. One has to pass the entrance exams to familiarity before Alice reveals herself. To the outside world she is quiet and sedate, and oh, very well behaved. Her collecting instinct gives expression in the collecting of honor points. She must have a goodly number of them by now. Everything seems to indicate this at any rate. She is a very brilliant student in Latin and she can do a sight translation of the long lines of Livy as well as most of us can do a translation after hours of careful study. In all of her courses she has a reputation for doing a thing well once she has set out to do it. There are many girls in college who count Alice Phelps as their friend, although some of them admit that they don't know her so very well. Her friendliness does not depend on the gift of gab, but rather in an innate sense of good will and in not a few good turns.

Moreover, "Marj" is very artistic. She did all the printing for the art work in our year book.

Although she is very serious about her studies, she knows when and how to relax. The halls resound with her giggling when she sees or tells a joke—be it ever so subtle. This fully developed sense of humor has won for "Marj" a place in the hearts of many of her college associates.

To Savina, our first class president, we owe a great deal, for it was she who laid the foundations, the ideals, and the aspirations of the Class of '27.

When Savina first came to college, she tried on a "Home Ec." uniform. It was very becoming—she took the Home Economics Course.

Savina is a good student, and a conscientious worker. She is a good cook and a careful little housekeeper, as the girls who lived with her at the Practice House can testify.

She is everything that a good housekeeper ought to be. She is careful, systematic, and neat. Savina's smooth personality and good humor make a combination that indeed proves irresistible in making friends.

BERTHA is in great demand around college, and probably receives more attention than any other individual on the Campus. Bertha is post-mistress. Everyone waits breathlessly while she pops the letters into the little cubby-holes. She is such a patient soul, too. Hundreds of times a day she answers the question, "Is the mail in yet?" We wonder how she can be so very cheerful about it.

Bertha is another one of those remarkable persons who knows a great deal about science. She really enjoys the long hours of laboratory work; she always finds something interesting about the "insides" of frogs and cats. We often wonder whether she counts the petals of flowers by saying, "He loves me, he loves me not."

Thoroughness is Bertha's most conspicuous characteristic. If she has anything to do it is done. If there is anything to be learned, Bertha will know it if she has to memorize the whole textbook to find what it's all about.

THE number of our "mercies" is generally overstrained when "Tene" is anywhere in the vicinity because her remarks will bring ejaculations of "mercy" to those who first hear her. For, indeed, "Tene's" wit and allusions are well filled with all the new and old literature which she has consumed at some time or other. "Tene's" ability to chatter, combined with a mind that is a labyrinth of turning sudden corners into unexpected ideas, makes "Tene" one of the charter members of the "variety is the spice of life" club.

The talents of "Tene" are not limited to making her a snappy conversationalist. She has stalked the boards for the past three "yeahs" in every kind of a rôle. Her "big scene" is "Orlanda" in "As You Like It" and she does it as you like it to be done. When not thus employed "Tene" shows an interest in a certain Kipling character, "Tommy Atkins."

She, however, is not satisfied with this achievement but is pressing on to win the much coveted silver bar that is awarded for the attainment of two thousand points.

From this emphasis on athletics it is not to be taken that Florence is not interested in her studies. She is majoring in mathematics, and she is very much interested in this subject. In appreciation of her ability, the Class of '27 chose her to be their treasurer this year.

Florence is the kind of a girl that everyone enjoys knowing—a girl whose friends are always the first to be considered.

THE SOPHOMORE CLASS

Sophomore Class History

ON the twenty-second day of September 1924, ninety-two bonnie lasses, representing six states of the Union, were matriculated at the Women's College as the Class of 1928. On the evening of the twenty-fourth, we were given a most "cordial" reception by the "Sophs" in the Hilarium.

It was not long, however, until the distinguishing characteristics of our class manifested themselves. In athletics, we were victorious; in scholarship, average; in aspirations, lofty; and in dramatics—but why be vain? Will anybody ever forget how the butler in the class play "brought down the house"? The crowning event of our social year was the Freshman Formal. Little wonder it was that the "Sophs" looked longingly upon the scene from the stairway!

When college opened in September 1925, our class numbered eighty-five. We had lost sixteen of our original number but had received nine new members into our midst. On "Stunt Night," we did our best to impress the Freshmen with their own insignificance and with our IMPOR-

TANCE; and throughout the year, we have continued our efforts to elevate their ideals to a higher, nobler plane.

Though we bowed to the Freshman Volley Ball team, we were again the victors in hockey. The real achievement of the year, however, was the Orpheus Club Concert for the benefit of *The Review*. It was due largely to the splendid work of our President, "Marge" Johnson, that this was such an overwhelming success.

We are glad that the Teacher Training girls have selected such a good-looking class ring and have decreed that henceforth: "By their seal, ye shall know all 'T.T.'s.'" It is with regret that we see these girls leave our ranks this year, and we wish them the best of success in their profession.

Indeed, as we approach "Junior-dom," our one hope is that we shall meet and overcome the difficulties of the next two years with such a spirit that will enable us at the end to say, "Every year was a good one."

LIKE those who dream of soaring through the clouds, and at the moment of entering an airplane, cringe with terror, so the Class of '29 crept timidly through the portals of the Women's College. The unexplored region that awaited the adventures would have been impenetrable had not the upper classmen and the Faculty encouraged them with hearty welcome. How powerless they felt before the Student Government President who expounded to them with due solemnity the rules they must obey to avoid being "called up." None of their dignity appeared after Stunt Night; in this ordeal, the Sophomores inflicted heartless torture upon the newcomers and branded them with conspicuous green bows. Not until early one frigid November morning did the conquerers summon their victims on campus to be deprived ceremoniously of their insignia.

Meanwhile, the trials suffered by the Freshmen welded them into a compact band of girls already assuming an important rôle in college life. The Freshmen grew up! They attended teas and social functions.

In athletics, too, the Class of '29 erected its monument. The victory over the Sophomores in volley ball and the large representation of Freshmen on the Rifle Team, lessened the pangs of regret that followed the inter-class hockey games in which the Freshmen colors were trampled in the dust. Some negligent person forgot to invite the Freshmen to the Junior Prom; rather than intrude, they gave their own formal dance after mid-years. The upper classmen merely peered from behind the scenes at the soft lights, gay decorations, and flitting dancers. Credit must likewise be given the Freshmen for their success in presenting "Figure-heads," the prize-winning class play.

Their aerial voyage begun, the Freshmen are preparing to descend to earth and take aboard more adventures. In inviting them, the Class of '29 will follow its illustrious predecessors by applying this formula:

"A little brutality,
Tempered with dignity,
Mixed with sincerity,
Sprinkled with jollity,
Creates "Freshmanity."
