## 'Review' Staff Agrees To Continue On Promise Of Faculty Investigation

Were Not Willing To Devote "Thankless" Efforts Under Allegations Of Embezzlement And Crooked Politics

### RESIGNATIONS WITHDRAWN

After resigning at a staff meeting Tuesday at noon, the REVIEW staff consented to its reinstatement at the pleas of the Faculty Committee on Publications headed by Dr. C. L. Day. Alvin Handloff, editor-in-chief, and George Spiller, business manager, presented the resignations of themselves and their staffs because of their unwillingness to continue giving their time in the face of students' accusations of graft and politics.

The resignation was submitted to the Committee at 1.30 Tuesday afternoon but was withdrawn shortly afterward on the promise of Dr. Day that the committee will immediately make a thorough investigation of all REVIEW affairs.

This whole action was taken because members of the staff agreed that there is no point to their putting out a paper that does not have the good-will of the student body. The staff gave its unanimous approval of the resignation at its meeting on Tuesday, but are returning to their posts at the request of the editor.

The action was in no way prompted, as was stated in the *Wilmington Morning News* for February 19, by any criticism of the REVIEW's editorial policy. The recent editorial on cheating at examinations, which was specifically mentioned in that article as having caused the difficulty, had the backing of the Student Council.

The decision to withdraw the resignation was prompted by a feeling of responsibility for completing their term of office and of not permitting a lapse in publication. The term of office of the present administration expires at the end of this month.

The new editor and business manager will be selected Thursday afternoon by the vote of the President of the Student Council, the retiring editor and business manager, and the Chairman of the Faculty Committee on Publications with the approval of the Committee.

## Other Colleges Send Words Of Praise For Jack Dailey Who Will Play At Prom

... He has a smooth outfit of twelve pieces plus Nancy Flake and himself. Nancy was a big hit. Cute as —! and Frank has a splendid personality. He plays slow, smooth numbers, and he really knows how to do it. I don't think you can go wrong with Frank Dailey."

That's what the Prom Chairman at the University of Maryland thinks of Frank Dailey and his orchestra.

Similar statements have been received from the Prom Chairmen of other colleges who have already had Dailey's Orchestra at their Proms. His music is to be the chief attraction of our Junior Prom to be given Friday, February 28.

To the many who listen regu-

Irvin Malcolm

Who plays the part of Emelian, the drunken poet, in "Squaring the Circle," the Footlights coming production on February 27.

## New Committees To Study Changes In Examinations

### President Appoints Three New Groups Headed By Prof. Rees, Dr. Day, And Dr. Daugherty

In connection with a larger committee formed several years ago to study the pressing problems of the curriculum and of college education in general, President Hullihen has appointed three sub-committees. The first of these committees is to study and to report on the subject of comprehensive examinations; the second is to make reports on varying forms of examinations and extra-curricular tests; and the third sub-committee is to study the value of a survey course in the physical sciences.

The membership of the committee on the comprehensive examination consists of Professor Rees, chairman; Dr. Gould, Dr. Allen, Dr. Drake, and Dr. Squire. Such

## We Demand A Showdown

Yesterday afternoon the administration of THE REVIEW tendered its resignation to the Faculty Committee on Publications. We did this because we were unwilling to continue our efforts in the face of widespread campus sentiment that we had embezzled funds and were guilty of crooked politics. We felt that our job was thankless enough without having to tolerate such allegations. Our staff, feeling the same as we, unanimously resigned.

However, because we feel a certain sense of duty in completing our term of office, we cannot stand seeing the paper left in a lurch. For this reason, we withdrew our resignation and through this medium ask the staff members to do the same.

But we are demanding a showdown. We have received the word of the Chairman of the Faculty Committee on Publications that a thorough investigation of alleged politics and a complete audit of our books will be made. Those students who have maliciously propagandized these accusations have not had the courage to bring formal charges against us. We have saved these cowards the embarrassment. We are demanding a thorough check-up.

### Embezzlement

The students here can't believe that there is such a thing as an honest editor and business manager of THE REVIEW. They seem to take it for granted that these two student officers get their "rake-off" from this publication. That is because they know that they wouldn't have character enough themselves to resist the temptation of easy money. It was by many of these students that we were criticised for exposing dishonesty in examinations. They resented the fact

### Basketball Tonight

The Delaware basketball team will play the Blue Dragons from Drexel tonight in Taylor Gymnasium. A contest between Junior Varsity fives will precede the feature game.

## 'Footlights' Rehearsing For Annual Production

### "Squaring The Circle," A Play About Communism, To Be Given Next Week

If progress on the current Footlights Club production continues at its present pace, it should exceed the unexpected popularity of last year's production which was presented a second time by popular demand.

"Squaring the Circle," which is the title of the coming presentation in Mitchell Hall on Thursday evening, February 27, is a play which has great potentiality in the hands of the Footlights Club. This comedy about Communists, written by Valentine Katayev, has met with great success on the professional stage. It is coming to Philadelphia for a return engagement on March 2.

T. Willey Keithley, president of the Footlights Club and prominent campus dramatic veteran, is the director of the production. Although he is best noted for his excellent character portrayals in almost every play here during the past three years, he also has a keen understanding of stage technique which will greatly contribute to the quality of the presentation.

(Continued on Page 5.)

## J. H. Robinson, Author of History Text, Dies

Mr. James Harvey Robinson, author of the European history text book which is used at Delaware College, died Sunday at his home in New York. He was 73 years old.

He was professor of European History at Columbia University from 1895 to 1919.

## Student Relations Committee Now Functioning

### Blumberg, Bardo, Jones, Baker, And Coyle Constitute Personnel

With the election of the personnel to the much discussed Student Relations Committee, this organization is now functioning and is ready to mediate any disputes and misunderstandings between the student body and the faculty and administrative authorities.

This committee of five members of the faculty, two named by the Student Council and three named by faculty is constituted as follows: Members elected by the Student Council are Professor Leo Blumberg of the Engineering School and Mr. Edward Bardo of the Physical Education Department. The members elected by the faculty are Professor R. W. Jones of the Arts and Science School, Professor T. A. Baker of the School of Agriculture, and

## Dr. Sypherd To Read From Browning's Music Poems

### Date Changed To March 19; Organ, Piano, And Flute Music To Accompany Readings

Dr. W. O. Sypherd's reading of Robert Browning's music poems, formerly scheduled for March 19, has been changed to March 16.

The program will consist of a brief comment on the music poems in general, followed by readings from some of them all by Dr. Sypherd. Each poem will be illustrated in music. The organ music will consist of two toccatas, a fugue, a symphonic improvisation, and a Grand March by Avison. The last of these will be rendered by a male chorus, accompanied by the organ.

There will also be a piano selection from Schumann's "Carnival" and two flute solos, one from Gounod's "Romeo and Juliette."

## R. Halliburton To Speak Thursday University Hour

Famous Traveller, Lecturer, And Author Of Many Books Will Recount Adventures On Latest World Tour

TICKETS AT BUSINESS OFFICE

Richard Halliburton

The opportunity to see and hear "in person" the writer whose remarkable personality has thrilled virtually millions of readers of *The Royal Road to Romance*, *Glorious Adventure*, *New Worlds to Conquer*, *The Flying Carpet*, and *Seven League Boots* will be given those who attend the lecture by Richard Halliburton in Mitchell Hall at the University of Delaware on Thursday evening, February 20, at eight o'clock.

His lecture, "Seven League Boots," is the story of his last World Tour which he made as a newspaper correspondent with an assignment from a syndicate to fill an entire page each Sunday for fifty-two Sundays, a large order for even a veteran journalist.

One of his most interesting experiences was his visit to the Siberian town of Ekaterinburg, where the chief assassin of Czar Nicholas made to him a death-bed confession. It is a long time since a more thrilling and terrible, yet historically important, story has been told. For seventeen years the circumstances surrounding this gruesome affair have been mysteriously concealed.

Another high-light of his lecture will be the story of his interview with Ibn Saud, the giant

## EDITORIALS

### WE DEMAND A SHOWDOWN

(Continued from Page 1)

that their illicit racket might be checked. They are so wrapped up in their own corruption that they can't help suspecting others.

A dishonest administration can juggle books, and embezzle funds. But can a dishonest administration show the greatest profit which THE REVIEW has ever realized? Can a dishonest administration—would a dishonest administration show a net cash gain of \$400 when it has been a common practice for this paper to "go in the hole" almost every year? We have worked hard to make the paper a profit-making proposition. We have worked hard to produce a quality newspaper elevated in standard, honest in its opinions, and dedicated to the welfare of a student body which shows its gratitude by alleging that we are dishonest in the administration of funds. You of the student body don't appreciate trustworthy officials when you have them.

### Politics

We have also been accused of fraternity politics in selecting editors and staff members. An intelligent survey of editors during the past four years will show that the four editors have been drawn from three different fraternities, and not from one fraternity as it has been alleged. The staff is now composed mainly of students from one fraternity because the members of that fraternity have shown a greater interest in THE REVIEW by doing consistent work in these positions. We

uphold what is right regardless of whether doing so leaves us open to suspicion.

We have given the students of Delaware College a truly clean deal. If they are too blind to see it now, the results of the forthcoming investigation of the faculty should open their eyes.

### STUDENT COUNCIL DANCES

The coming Junior Prom brings to our attention an important, but long-neglected problem—the holding of worthwhile college dances, especially the annual Junior Prom which is looked upon as the finest dance of the year. In the recent past Junior Proms have been dull affairs because financial responsibility for the dance has rested on a small committee of students who rightfully fear the risk incurred by the expense of a glamorous affair.

The Prom Committee this year has had the courage to book a widely known orchestra which provides interesting entertainment as well as good music to dance to. We feel quite confident that the popularity which this dance is already earning will make it a financial success; but if it should fail the Committee will have to suffer the loss. They will have no opportunity to make it up.

It is for this reason that we suggest that the Student Council sponsor all dances. If they lose on one, they have a chance to recover on another dance during the same year. Because of this protection, the Council will be able to experiment by holding a dance with appealing decorations and a nationally-known orchestra, both of which provide the atmosphere necessary for popular dances. If the experiment should be a success, we could look forward to attractive dances here.

### HAIL, THE DEBATING TEAM

The Debating Team has come back and come back with a bang! For five years, there was no team. This year, there not only is a team, but it is meeting such opponents as University of Vermont, University of California, Rutgers University, and Drexel.

We look forward to the California debate with great anticipation. The Westerners have the reputation of being an outstanding team. The fact that it is going to meet Delaware's practically unknown contingent is an honor which we trust is appreciated by the Delaware students.

## The Collegiate Review

A national essay contest to encourage youth to express itself on matters of government, education, and business is being urged on President Roosevelt.

University of Michigan-Notre Dame football relations, broken off in 1910, may be renewed next year.

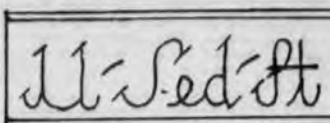

Regular graduate courses on automobile traffic control will be started next fall by Harvard's Bureau for Street Research.

Privately endowed universities and preparatory schools might be wiped out by "tax the rich" legislation, says Dr. James Rowland Angell of Yale.

Ten Harvard students, intrigued with nude snow bathing, have formed the Polar "Bare" club at Cambridge.

Heavy protective "armor" is responsible for many football injuries, according to D. O. McLaughry of Brown, president of the American Football Coaches' Association.

The Roman Catholic Church is the greatest obstacle to communism, according to the Rev. Edmund Walsh of Georgetown's School of Foreign Service.

When you see a man walking

around in the snow with head up,

coat unbuttoned, and breathing

deeply, that man is

Professor Alton

Wade, late of Byrd

Antarctic Expedition.

When the son of one of our

better liked profes-

sors asks his dad

for the car, the old

man says, "Sure,

you can have it

... five cents a mile." The kid

walked. The Military Dep't has

lost more drills because of bad

weather this year than any other

year.

### Resurrection

The return of Professor Byam brings to mind an incident that occurred just before Mr. Byam sailed for France. It seems that the French professor came upon Perry Vandegrift attired in a swallow tail coat. "Where are you going, Mr. Vandegrift?" asked the one who never expected to see a swallow tail in these barbarous regions. "I'm going to take an examination in Diplomatic History," was the explanation. Perry passed.

### Definitions

Happening to see a town character with a bandage on his face I inquired as to the cause of the gauze. "I was scratched," he confessed. Thereupon led a discussion upon the degrees of street corner combat. When a man is cut with the hand it is a "scratching"; if the damage is done with a knife, it is a "cutting"; only when a man is injured with a razor can the infliction be called a "slashing."

### Valentine With a Vengeance

Saw a peculiar expression of affection on St. Valentine's day. A boy of about nine walked up to a little girl and thrust a twenty-five-cent valentine into her hands. "My mother," he explained, "she made me give it to you."

Thereupon he slapped her hard, leaving her in bewildered joy and tears.

### More Definitions

Of late such terms as "stooge" and "fall-guy" have been bandied about to the puzzlement of many. Ever on the lookout for collegiana curious, we investigated the meanings of these terms. A stooge, or more popularly stoogent, is one found on the front row of every class, who follows professional meanderings with open-mouthed admiration, laughs at all his jokes, and can always be depended upon to give answers in line with the dogma and pointed questions of the prof. Whereas no one sympathizes with a stoogent and actually ridicules him upon every occasion, a fall-guy is given comradely support and loyalty. The latter type is one exposed to the quips and more difficult questions. He never answers correctly and is made victim of sallies of laughter that work his public discomfiture.

Classic examples: Stoogents—Oldman and Clymer. Fall Guys—Pennock and Dillon.

### Notes

Sid Schulman, who fell by the wayside at mid-years, is now radio announcer at WDEL. . . . listen to the ex-collegian at 4.30 when they play recordings. . . . "Three-Buttons" (Captain) Adams struts around on Thursday much like Rostand's Cyrano with his long, trusty sword. Coming into the Military Plotting room to super-

By Harry T. Stutman

### Our Very Own Samuel Pepys

Up betimes and in a friends petrol-wagon to De La Warr College, where I did keep mine eyes open with some difficulty, for I was at gaming and guzzling last night.

Confessions and apologies are in order, for I have here a book which I have not read, something that I dislike much to do, albeit it is a great source of drollery, to wit: "Do you really read all the books you review?" "I hope to, some day."

However, under the circumstances, I feel that I am justified, for it would be mean and indeed, criminal were I not to pass on such a good bit of reading.

When I first picked up *The Diary of Our Own Samuel Pepys*, 1911-1934, by F. P. A., I realized immediately that here was no subject for intensive reading, but rather for slow and easy rambling. Then again, when I held it in my hand, and felt the goodly weight of it, I realized that it would be no welcome addition to a pack for a tramp in the woods . . . which fact, methinks, accounts for the popularity enjoyed by Omar, with his Jug of Wine, his Loaf of Bread—and Thou beside me singing in the Wilderness—Ah, Wilderness were Paradise now!

This leaves but one alternative: A rainy night. Indeed, it is a great pity that Noah did not have it with him while it rained for forty days and forty nights. If he had, methinks he would have petitioned the Good Lord, from whom cometh all mercies, for extra innings since forty days and forty nights are still but forty days, if you follow me, and twelve hundred pages still twelve hundred pages. As for myself, I have been at it, on and off, ever since December 20, 1934, and there is still a goodly lot to read, and I am sure that I shall enjoy the rest as much as I have relished it so far.

What interested me particularly were the entries for the various January the Firstses, the World War Years, October 29, 1929, the Christmases, and etc. These entries, by the way, have appeared under the columnhead of *The Conning Tower in the New York Tribune*, *New York World*, "and in the *New York Herald Tribune* from March 2, 1931, until, I hope, death doth us part."

As the more erudite of my readers have already surmised, it is written in the form of a parody on *Pepys' Diary*. You're wrong.

Or partly wrong, anyway, for although Adams started in this vein, he gradually realized his error and abandoned slowly, one by one, the irritating, puerile, and objectionable features, until now we have Franklin P. Adams, F. P. A., the author of ten books of light verse, who says his favorite recreation is not writing.

There will be more, later, every time I run across something interesting, although I fear that this would take up all my column until I had filled twelve hundred book-pages.

So bestir your lazy selves and start *The Diary of Our Own Samuel Pepys*, by Franklin P. Adams, published by Simon and Schuster, at, I hasten to add with some misgivings, \$7.50.

wise in dignified manner only. He was put to work regulating a wooden pyramidal target disentangling ropes. That is one job of which he can now boast of "knowing the ropes!"

# Delaware Victorious In Swimming And Basketball Tilts

## Blue Hen Mermen Win Over Lehigh Natators

**New Pool And E. C. S. A. Breast Stroke Record Set By Lehigh Star; Carey, Howard Double Winners**

The University of Delaware added another win to its column Saturday evening when it defeated the highly touted Lehigh University team to the tune of 48-20. John Carey and Marty Howard each annexed two first places. Carey in the 220 and 440 and Howard in the 50 and 100. Karl Jacobi, Lehigh flash, set a new pool record as well as a new E. C. S. A. record, when he swam 200 yards breast stroke in 2 minutes, 36 seconds flat.

Coach Bardo's team will next meet Rider College on Tuesday February 25, and the Johns Hopkins the following Friday.

Meets for the freshmen have failed to materialize as expected, due to ineligibility of several leading fresh candidates.

### Summary:

400-yard relay—Won by Delaware (Drozdz, Carpenter, Snyder, Croes); second, Lehigh. Time, 4:07.8.  
Diving—Won by Swartz, Delaware; second, Collins, Lehigh; third, Grayson, Delaware. Winning score, 89.8.  
50-yard free style—Won by Howard, Delaware; second, Drozdov, Delaware; third, Howe, Lehigh. Time, 25.1.  
150-yard back stroke—Won by Croes, Delaware; second, Swartz, Delaware; third, Watson, Lehigh. Time, 1:53.1.  
440-yard free style—Won by J. Carey, Delaware; second, Hutchinson, Lehigh; third, Snyder, Delaware. Time, 5:32.2.  
200-yard breast stroke—Won by Jacoby, Lehigh; second, Kenworthy, Delaware; third, Penning, Lehigh. Time, 2:36. (New E. C. S. A. record.)  
100-yard free style—Won by Howard, Delaware; second, Howe, Lehigh; third, Drozdov, Delaware. Time, 1:56.5.  
220-yard free style—Won by J. Carey, Delaware; second, Hutchinson, Lehigh; third, DuRoss, Delaware. Time, 2:29.8.

## Kappa Alpha Wins Interfraternity Tilt

**Wins First Half Of Basketball Tournament, P K T Conquers Sigma Tau Phi**

Breaking a tie of four games each, Kappa Alpha fraternity last night conquered Sigma Phi Epsilon, 33 to 31, to snare first honors in the initial half of the interfraternity basketball tourney. In another game of the evening, Phi Kappa Tau swamped Sigma Tau Phi, 32 to 12.

Scoring honors were gained by Reed, center, of the K. A. quintet, who tallied 13 points. At the quarter the Sig Eps led, 16 to 2, but their opponents took the lead by the half and from then on it was K. A.'s contest.

### Box scores:

| SIGMA PHI EP    |       |      |        |

(Continued on Page 4)

## With The Blue And Gold

By Joe Perkins

### Basketball at Delaware

By G. P. Doherty, Jr.

This article has been written at the request of the Sports Editor of the REVIEW and is not an attempt on my part to alibi for the showing of the basketball team during the past seasons or the present one.

The interest in basketball has increased considerably during the past several years both from the standpoint of players and spectators, and the result has been a steady improvement in the calibre of the teams. This improvement, however, has not been shown in the basketball teams at Delaware College as the records for the past five years will show, viz.:

|                |       |        |         |
|----------------|-------|--------|---------|
| 1932           | ..... | won 12 | lost 4  |
| 1933           | ..... | won 9  | lost 7  |
| 1934           | ..... | won 7  | lost 9  |
| 1935           | ..... | won 4  | lost 12 |
| 1936, to date, | ..... | won 2  | lost 7  |

Unlimited space would be necessary to explain fully all of the reasons which might be given for the obvious decline in the success of basketball teams at Delaware College during the past four years. I will attempt to state as briefly as possible some of the reasons which I can offer from a reference to the records and from my own personal observations, eliminating, of course, the possibility of inefficient coaching, for which I must admit there is always just cause for consideration.

About eighty-five per cent of the students at Delaware College come from within the state. Of this number, about fifty per cent come from outside of Wilmington. Up until recent years the lack of proper athletic facilities and coaching in the schools of the state was a distinct handicap to the boys of the state in their attempt to make good in intercollegiate sports, with the possible exception of baseball and soccer. More boys from the state outside of Wilmington have made good in these two sports at Delaware College than in any others. Baseball has always been a popular sport throughout the state, and soccer until recently took the place of football in practically all the schools of the lower peninsula. The result was that the boys who came from the state were better grounded in the fundamentals of these two sports, and usually made the varsity teams in their freshman or sophomore years. In the

other major sports (football, basketball, track, and swimming) it has usually been in the junior or senior years before the boys of the state outside of Wilmington have been considered as of varsity caliber.

In the past ten years, only three state men outside of Wilmington have earned varsity letters in basketball. James Jaquette and Charles Pie of Newark, and James Prettyman of Lewes earned letters in this sport during this time, and the latter two only in their junior and senior years.

I do not mean to give the impression that the good athletic material comes only from Wilmington or from without the state. However, the boys who have come to Delaware College from Wilmington or from out of the state have usually shown the result of better coaching and more experience.

In 1932 when our record in basketball was 12 wins and 4 losses, four of the six letter men were from Wilmington, one from Atlantic City, and one from Pittsburgh. All of these boys had previously had quite a bit of basketball experience.

There has always been good potential athletic material in the state but we who are interested in Delaware College have been lax in interesting boys of athletic ability within the state in coming to their own State University. Other colleges have been quick to recognize the athletic ability of certain state boys and figuratively speaking, have taken them "right out from under our nose." There must be concerted effort on the part of all of us interested in the athletics of the college to see that such boys also are "sold" on our State University.

I feel sure that with good coaching and the improved athletic facilities in the schools of the state better competition will result, and we will profit in basketball by the material derived from the state schools as well as in the other sports.

Some people have given our inadequate gymnasium floor as a reason for the decline in basketball. While I believe that there is no more pressing need at Delaware College at the present time than that of a new gymnasium, and that while the size of our gymnasium floor has been a distinct handicap, the records show that we have

(Continued on Page 4)

## Johns Hopkins Defeats Delaware Sword Team

**Captain Murray Of Losers Individual Star Of Meet; To Contest Reading Saturday**

On Saturday the University of Delaware fencing team lost to Johns Hopkins University by a score of 14 to 3 in a meet held in Newark. Despite the one-sided score, the meet was very hotly contested throughout. In one bout, Cowgill, of Delaware, fenced Herman, of Johns Hopkins, for a period of twenty-five minutes before the fifth point was finally made. Of the new men this year, Connor, Cowgill, and Owings showed the best form. Although none of them won any of their bouts, their scores were very close. Of Delaware wins, Murray accounted for both of his foil bouts and Vapaa for one epee bout.

Without a doubt, Murray was the star of the meet. Exhibiting sterling form, and well-coordi-

## Blue Hen Cage Quintet Defeats Dickinson For Year's Second Win

### Susquehanna Wins Second Tilt With Hens

**New Lineup Fails To Improve Locals; Boys' Club Trounces Jay Vees**

The University of Delaware basketball team dropped a game to Susquehanna by a score of 37-29 on February 14 in the local gymnasium. In a preliminary contest, the Blue Hen Jay Vees were defeated by a strong quintet representing the Wilmington Boys' Club, 33-20.

Coach Doherty started a new lineup in an effort to avenge the trouncing Delaware had taken the week before from the Susquehanna five. He opened the contest with Pennock, center; Lindsay and Greenwood, forwards; and DuVall and Harkins, guards.

Berkley and Hess, of Susquehanna, led the scoring with eleven and ten points, respectively. Teedie Wilson, substitute guard, was high man for the Hens with an accumulation of eight counters.

The game was hotly contested throughout, three Susquehanna men being sent early to the showers. Delaware was given 13 foul shots and sank 9 of them, while the opponents chalked up 7 out of a possible 9.

At the end of first quarter, Delaware led at a 9 to 7 score, but Susquehanna forged ahead and was on top, 18 to 14, at the half. Valiant scoring efforts by Greenwood and Teedie Wilson in the last moments of play failed to turn the tide in Delaware's favor.

### College Rings

The Student Council has set up its machinery for the distribution of college rings. They are being sold on a non-profit making basis. Anyone desiring to order a ring may do so through Bill Black at the Sigma Phi Epsilon House.

## Wilson Heads Scoring Column In Upset Of Red Devil On Foreign Court; Teachers' Game Postponed

Coach Doherty brought his team to a startling comeback Saturday evening when the Blue Hens overwhelmed a highly touted Dickinson aggregation at Carlisle. The final score was 32 to 26.

Delaware jumped off to a 6-0 lead in the first ten minutes of play and led by one point at the half. The score then stood at 14 to 13.

Teedie Wilson was for the second consecutive time high man for the Delaware quintet with four field goals and one foul for a total of nine points. His tally was unsurpassed by the Dickinson players, Easton of the Red Devils having eight counters. Tom Pennock, captain of the Hens, shoved up seven points to grab third place in scoring honors.

Tonight another test takes place in Taylor Gymnasium, with Drexel providing the competition. A game between the Drexel and the Blue Hen Junior Varsity quintets will precede the feature contest. Fenton Carey, McCord, forwards; George, Schafer, guards; and Ryan at center will start for the Delaware Jay Vees.

### Box scores:

## Blue Hen Riflemen Lose To Gettysburg

**Sloan Leads In Individual Scoring; Rifle Records Continue To Fall**

Gettysburg College overwhelmed the Delaware marksmen in a pistol match held last week at a 1727 to 1609 score. David Sloan, sophomore star, led the Hens in individual scoring with a total of 332 points.

Delaware's individual scoring for the five man team was as follows:

| NAME          | Free | Trap | Trap | Trap | Trap | Total |
|---------------|------|------|------|------|------|-------|
| Sloan, D.     | 91   | 92   | 98   | 71   | 111  | 463   |
| Hoadley, A.   | 91   | 91   | 74   | 64   | 126  | 446   |
| Hoffecker, W. | 95   | 79   | 85   | 66   | 125  | 450   |
| Zelenka, N.   | 88   | 86   | 78   | 61   | 115  | 428   |
| Leach, T.     | 89   | 88   | 79   | 55   | 111  | 422   |
| Team total    | 454  | 436  | 406  | 357  | 528  | 2181  |

The school records for the various positions continued to be shattered this week when Hoadley clipped Sloan's 88 for the kneeling position to make a new record of 89. T. Leach now holds two records as a result of shooting a 94 in the sitting position to break a 93 previously held by Page and Hoadley.

By Audrey Davis

If this weather continues much longer, rowboats—or to be more romantic, gondolas, will be needed down here at W. C. D. Wading may be fun in some pretty stream on a summer day or at the shore, but it holds no attractions whatever on a bleak February day.

But the weather has not dampened our spirits; in fact, activities have actually increased.

#### Home Economics Club

Wednesday, February 12, at 4.10, the Home Economics Club held a meeting at which there was quite a large attendance. Dr. Heim, State Director of Vocational Education, spoke. Refreshments were served.

#### Chapel

Monday, February 17, Chapel was held at 12.30 p. m., in the Chapel, Science basement.

#### Glee Club

Glee Club met under the direction of Mrs. Gildersleeve, at 4.10, in the Music Building.

Wednesday, February 19, there was a rehearsal of the freshman tumbling and tap dancing class in the gym at 12.30 p. m., in preparation for the annual gym meet to be held soon.

#### Dr. Squire Speaks

At 4.10 in the Hilarium, Dr. Squire spoke in Forum on "Recovery in England." Tea was served.

Thursday, February 20, Assembly will be held in Mitchell Hall at 11.35 a. m. Miss Winifred Michaelson of the Wilmington Music School will speak on "Private Teaching and Concert Work."

#### French Club Banquet

There will be a French Club banquet in Kent Hall at 6 p. m., Friday, February 21. Regina Cohen is chairman of the banquet, and Dorothy Counahan, Rosanne Feehey and Mary Messick are helping her.

Immediately following the banquet there will be a soiree in the Hilarium. Regina Cohen is also chairman of this. A French movie, "An Auto Tour Through France," will be shown, and a play by the Sunny Hills School will be given. Guests will be present from the

Ursuline Academy and Newark High School. The guest of honor will be M. Robason.

Friday, Saturday, and Sunday, February 21-23, a Youth Conference will be held in Newark under the auspices of the Methodist Church. Alice Sheldon is Vice-President of the organization.

#### Fire Drills

A new interest, and a worthy one, is being taken in the fire apparatus and drill regulations on campus. Until recently very little interest was paid to these, but now the attention of all has been called to these important matters. An inspection of the equipment in all the buildings has been under way, and new laws that are to be enforced have been drawn up and brought to the attention of students and faculty. Gloria Rosenberg is fire chief, and Alma Seely, Frances Handy, Gertrude Draper and Mary Louise Wolfenden first captains of Residence, Sussex, New Castle, and Turvy, respectively.

Any time, then, we may expect to hear that bell that drags us (at the penalty of two black marks, or roasting in case of a real fire) from our comfy beds, filling our hearts truly with murder as our song "Bells" so aptly states.

#### Syracuse Student

##### Official Custodian of Municipal Morgue

Syracuse, N. Y. (ACP)—When Paul Schroeder's phone rings in the early morning hours, it isn't a prankish friend calling to ask if he's sleeping well, or news that someone's finally died and left him a million. Nine times out of ten it's the police, or state troopers, or the emergency ward of a hospital, with a request that Schroeder drop around with the hearse and pick up a little business.

Schroeder, a liberal arts student at Syracuse University, is official custodian of the city morgue from 6 p. m. to 4 a. m. of every day. The work doesn't bother him, he says—he took the job a year ago—and he thinks it may prove to have been a useful experience. He plans to enter medical school next Fall.

#### Johns Hopkins Defeats Delaware Sword Team

(Continued from Page 3.)

nated timing, he completely overshadowed his opponents, who relied on cunning and unusual movements.

Krakauer and Bond were the leading scorers for the visitors. Each lost but one bout. Krakauer demonstrated his greatest ability with the epee, Bond with the sabre.

The fencers will meet the Reading Fencing Club on Saturday in the Delaware gymnasium. The Reading team is composed of a group of professional and business men who engage in fencing as a hobby. Mr. George Wilson, Delaware physics professor and coach of the Blue Hen fencers, is by coincidence a member of the Reading organization.

been defeated by teams on our court who are used to larger courts, and in turn have defeated teams away from home on much larger courts. However, it is obvious to all that our present gymnasium is not comparable to the gymnasiums of other colleges of our size, and is altogether too small and out of date to take care of our present Physical Education and intercollegiate athletic programs. All of us who are interested in the welfare of the college and in the physical development of our boys should bend every effort toward seeing that steps are taken to remedy this condition.

Basketball is principally a game that requires teamwork, speed, proper individual coordination and a thorough schooling in fundamentals. The latter requisite is usually acquired through experience and constant practice. The first three depend on the individual. Lack of success of a basketball team can usually be traced to a lack of one or more of the above mentioned requisites.

This year, my personal observation has been that while we lack a bit of everything, our greatest handicap has been lack of experience. There is only one letter man on this year's squad, and eight of the first twelve men on the varsity squad are Freshmen, one is a Sophomore, and three are Juniors.

Lack of experience which showed itself in a couple of the games which were lost has really made the difference between an unsuccessful season and a fair one of the present season to date.

The victory over Dickinson College at Carlisle on last Saturday was particularly gratifying. After suffering five successive defeats, the team had the courage and the spirit to come through with a vic-

tory over a team which had previously defeated several reputed good college basketball teams. This spirit together with the improvement which should naturally result from more experience will no doubt assert itself in more successful basketball seasons during the next few years.

#### Ultra-Violet Rays Used to Decipher Ancient Manuscripts

Pomona, Cal. (ACP)—The "sluroscope," new to modern science and literary research, has been used by Prof. Mendal G. Prampton, of the Pomona College English Department, in deciphering ancient manuscripts.

An ingenious ultra-violet ray machine, the "sluroscope," enabled Prof. Prampton in reading passages obliterated by time, usage, and weathering.

The device is thought to be the only one of its kind in existence.

## 'Stage Is Set' Again On Display In Mitchell Hall

### Second Annual Exhibition Includes "Hay Fever," "Private Lives," "Design For Living"

The second annual exhibition of scene models, "The Stage Is Set," will be on view in the lobby of Mitchell Hall at the University of Delaware from Thursday, February 20, to Friday, February 28.

The exhibition last year attracted much attention when exhibited at the University and in Wilmington. The unusual feature of the models exhibited is that each is made exactly to scale of a set which might be used on the Mitchell Hall stage. The models were designed and created by members of the class in Play Production as part of the work in the course. In addition, complete production plans for the scenes exhibited are available, including floor plans, working drawings, and light plots. In designing each set, care was taken to suggest the mood of the play in the selection of details to be emphasized, of color, and materials, and each scene had to be planned to meet the practical requirements of staging in Mitchell Hall.

Because of lack of space, only nine of the thirteen models made this year can be put on exhibition. They will be selected by a committee of judges from scenes from the following plays, "Hay Fever," "Private Lives," "One Sunday Afternoon," "Elizabeth the Queen," "Brief Moment," "The Admirable Crichton," "Design for Living," "Ah! Wilderness," "Dear Brutus," "Mrs. Moonlight," and "Yellow Jack." The students who created the scene models were Elizabeth Armstrong, Isabelle Ashbridge, Virginia Boston, Emily Carr, Katherine Castle, Gertrude Draper, Jeanne Davis, Alice Pepper, Dorothy Pippin, Dorothy Ramsey, Mary Louise Wolfenden, Alison Manns, and Harry Watson.

## Debating Team To Meet Drexel Monday Evening

### Scotton And Barab To Uphold Negative Of Supreme Court Subject

On Monday evening, February 24, the debating team will hold its second meet of the season, this time in Philadelphia against Drexel Institute. Robert Barab and John Scotton will again represent Delaware. They will uphold the negative of the question, Resolved, that Congress may by a two-thirds vote override the decisions of the Supreme Court affecting the constitutionality of legislation. Barab and Scotton defended the affirmative of this question against Haverford at College Hour on December 17.

By mutual consent of the two teams, the debate will be conducted on the Oregon system of cross-examinations of the constructive speakers. This system is spreading rapidly among the collegiate debating teams all over the country and is gaining the applause of both debaters and audiences. In preparing for this debate, special emphasis is being placed on the cross-examination. Mr. Willson, of the English Department, is assisting Dr. Dunlap, coach of the team, by coaching the cross-examiner, Barab.

The next debate scheduled after the one with Drexel is with Rutgers University at New Brunswick, on March 4. The team for this meet consists of Joseph Scannell, Collins Seitz, and Jean André. These men are already at work on their subject, which is State Medicine.

## New Committees To Study Changes In Examinations

(Continued From Page 1)

questions as these will be considered: Are comprehensive examinations, examinations covering at least a full year's work in a subject or in a field, in general desirable upon educational grounds? Can they be used here? In what subjects and with what limitations? Covering what period can profitable use be made of them? One year? Two years? Three years? Four years? To what extent are they essential to integration of education? What should be the duration in hours of a comprehensive examination covering one year's study in a subject? Two years? or more? What are the principal objections to comprehensive examinations on the part of those seeking to improve present educational procedure and accomplishment? What recommendations does the committee feel warranted in making to the Faculty on the subject?

The personnel of the committee on the varying forms of examinations is Dr. Day, chairman; Professor Brinton, Professor Wilkin, Professor Bardo, and Professor Oberlin. This group is to make a report and recommend forms of examination—written, oral, discursive, objective, subjective, and true and false. It will also discuss the forms, types, and value of the various "intelligence" "aptitude," "interest," and "general culture" tests outside of the regular courses, that may profitably be given to assist advisors, deans, and faculty in securing a better knowledge of our students than is possible without such tests.

The members of the committee to study the value of a survey course in the physical sciences, recommend the content of such a course, to whom it should apply; and how it should be given, if at all, consists of Dr. J. Fenton Daugherty, chairman; Dr. Eastman, Dr. Kakavas, Dr. Dyer, and Dr. Graustein.

## Student Relations Committee Now Functioning

(Continued from Page 1)

Professor J. L. Coyle of the School of Engineering.

Similar student relations committees are extant in many other colleges where they have proved very satisfactory in ironing out student-faculty misunderstandings.

It is expected that all problems will be solved through the medium of this committee so that any student investigating committee will not be necessary.

"It was a thrilling experience," was the description given by Dean Howard Taylor of the Oklahoma College for Women, after he had been kidnapped by four comely coeds. Reason for abduction was that the gals, who were freshmen,

wanted a holiday after beating the sophomores in their traditional contests.

The following ad appeared in a Paso Rableo paper: "Lost—A lead pencil, by Marjorie Weats, blonde,

five feet five, 120 pounds, blue eyes, good dancer. Call —"—Ohio State Lantern.

A fine of \$10 is imposed on any U. of Minnesota co-ed who is caught wearing a frat pin.

The American Tobacco Company

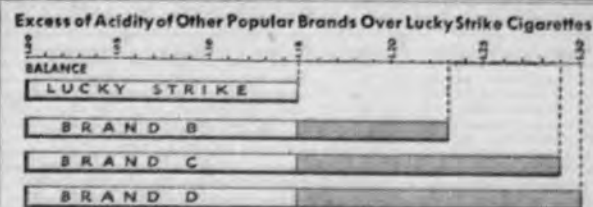

## Each puff less acid—Luckies are A LIGHT SMOKE OF RICH, RIPE-BODIED TOBACCO

For twenty-five years the research staff of The American Tobacco Company has worked steadily to produce a measurably finer cigarette—namely, a cigarette having a minimum of volatile components, with an improved richness of taste—"A LIGHT SMOKE."

We believe that Lucky Strike Cigarettes embody a number of genuinely basic improvements, and that all these improvements combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

## Luckies are less acid

Recent chemical tests show\* that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

## Plans For Spring Issue Of 'The Humanist' Progressing

Copy Dead Line, April 17, Publication Date, May 15; All Communications Welcomed

Plans for the spring issue of *The Humanist* are now under way. The dead line for all copy to be in has been set for April 17. The magazine is expected to go to press on May 1 and to be published on May 15.

At this time, the editor wishes to extend an invitation to all interested members of the student body to contribute articles and short stories for the publication. In continuance of the policy of having no particular theme, *The Humanist* leaves the choice of the subject to the individual contributor. However, certain old members of the staff have been assigned subjects, thus providing a foundation of articles and stories for voluntary contributions to supplement. Interesting articles for the forthcoming issues will include contributions by Dr. Day and Harvey Maguigan.

## R. Halliburton To Speak Thursday University Hour

(Continued from Page 1)

King of Arabia, who came six miles out from the sacred city of Mecca with his seven oldest sons and his bodyguard of 300 warriors to receive his American guest.

Halliburton has the true instinct of the traveller for visiting the places where history has been made and is being made, but he has also the native capacity of a story-teller to make the places he visits even more romantic and picturesque than they actually would appear to us if we ourselves were to visit them. In his travels he does not slight the past for the present, or the present for the past. "Seven League Boots" also tells of his famous elephant ride over the Alps in the tracks of Hannibal, of his meeting with Haile Selassie, of his visit to the scene of the sinking of the *Merrimac*, and his sojourn on America's Devil's Island, Fort Jefferson, of his being the guest of Venezelos just before the recent Grecian revolution, of his exploration of the

ruins of Herod's palace in the Holy Land.

The second annual exhibition, "The Stage Is Set," will be on view in the lobby before and after the lecture. The exhibition consists of model stage sets designed and created by members of the Class in Play Production, and representing scenes from many familiar modern plays, such as "Ah! Wilderness," "Hay Fever," "Private Lives," and others.

Students may secure tickets at the Business Office free of charge. Admission for outsiders is seventy-five cents.

## 'Footlights' Rehearsing For Annual Production

(Continued from Page 1)

The cast includes Irvin Malcolm as Emilian, the drunken poet; Betty McKelvey as Ludmilla, a gay fluffly lass; James Carpenter as Vasya, a serious minded young Communist; Mary Louise Wolfenden as Tonya, an active worker for the "cause"; and Blair Ely, as Abram, a laugh provoking Communist enthusiast.

Gordon Chesser, well-known designer for Mitchell Hall productions, is directing the building of a stage scene for the play.

## Debate With Drexel

Robert Barab and John Scotton

"The Fine Arts of Greeting" is a special four year course at Washington State.

## Swinnen To Accompany 'Peer Gynt' In Spring

Will Adapt Grieg's "Peer Gynt" Suite To Organ Especially For The E 52 Performance

Edward Grieg's music and Firmin Swinnen at the console will be a feature of the production of Ibsen's "Peer Gynt" by the E 52 Players in the Spring. Mr. C. R. Kase, Director of the Players, has just announced that Mr. Swinnen has consented to adapt the famous "Peer Gynt" Suite to the organ and play for the performance.

The Players are indeed fortunate in securing the assistance of Mr. Swinnen, for Grieg's Suite is almost as immortal as the drama itself, and has come to be considered as an indispensable part of any performance of the play.

Two performances of the play are planned by the Players, the one on Thursday, April 30, the other on the following night, Friday, May 1. The intercollegiate Newspaper Association, meeting here at that time, will attend the second performance in a group.

CHARLOTTE SIEHLER has been chosen as one of the eight outstanding beauties at Duke University.

THE SEASON HAS ENDED, so student manager E. B. Hoeftler gets a ducking from the Buffalo (N. Y.) State Teachers' College swimming team.

SOUTH DAKOTA STATE COLLEGE students and faculty members examine their recently acquired copy of *A Mechanical Account of Poisons* published in 1708. Typical quotation from it: "To give an exact and particular Account of the Natur of Poisons, is no easie Matter; but to Discourse more intelligibly of them than Authors have hiterto done, not very Difficult."

## President Demands Freedom for Education

QUALITIES OF A TRUE EDUCATION were outlined by President Roosevelt following his receipt of a Doctor of Jurisprudence degree from Temple University. "First among these attributed is a sense of fair play among men . . . The second great attribute of education is . . . a sense of equality among men when they are dealing with the things of the mind . . . Finally, a true education depends upon freedom in the pursuit of truth. No group and no government can properly prescribe precisely what should constitute the body of knowledge with which true education is concerned."

Temple's Pres. Beury opens the convocation.

"Education depends upon freedom."

## THE Spotlighter

Mrs. Ogden Reid, Columbia's Pres. Butler Honor Dean Gildersleeve (right) at Celebration

### Barnard's Chief

OF HER cairn terrier, Dean Virginia Crocheron Gildersleeve of Barnard College once said: "There is nothing better to prevent a lady from becoming maidenly than a lot of puppies around the house. The utterance comes from a woman who has just completed twenty-five years as head of Barnard. A quarter of a century ago the opinion might have suggested levity. Today it is typical of a dean who has transformed a seminary for ladies into a college for modern women.

Dean Gildersleeve has passed a life-time of work in the several square blocks that Barnard occupies in New York City. She was a student there, an instructor, and at 33 dean. From the start she sought to make the college walls no convent walls. Though she prefers the example of the classics as a view of life, she saw to it that Latin was abandoned to make room for pressing current educational matters. In New York City, center of art and slums, she has found a magnificent workshop for her students.

Tribute to Dean Gildersleeve was told of one who realistically kept pace with the times, without compromising the intellectual. For herself she has won strong affection from those whose tastes and instincts are sound.

### Red Ties and Chemistry

TO USE the word red on the University of Texas campus is not necessarily to refer to economic or political menace. The chances are it will be assumed Dr. Henry Winston Harper is being spoken of. Thirty-nine years at Texas, he has always worn a red bow tie, the same type of shoes, and has constantly carried an umbrella.

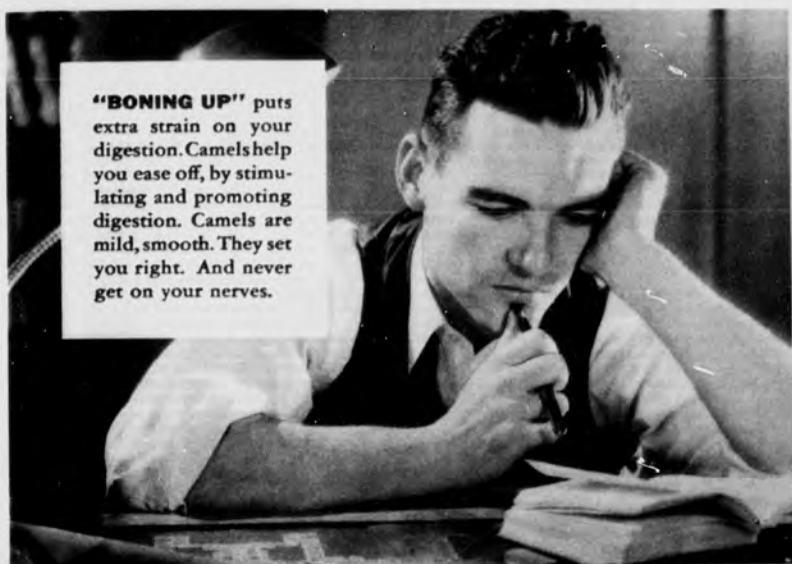

Of Virginian ancestry, Dr. Harper was born into the hustle and bustle of Mississippi steamboat traffic. First a pharmacy graduate from Philadelphia, he studied medicine at the University of Virginia after a term as a practical druggist. From the Choctaw Indians of Texas he learned to make perfume, not snake oil, for commercial use.

At present dean of Texas' graduate school and senior chemistry professor, he has scoured Texas in chemical research of a hundred different kinds. On the campus he has a reputation as an international scholar who takes as lively an interest in his protege, John Boles of the films, as he does the study of waxes in candilla plants.

# For Digestion's Sake— smoke CAMELS

**"BONING UP"** puts extra strain on your digestion. Camels help you ease off, by stimulating and promoting digestion. Camels are mild, smooth. They set you right. And never get on your nerves.

**Smoking Camels found to have  
a positive beneficial effect upon Digestion...**

Our modern "eat-and-run" way of living is hard on digestion. Experiences with indigestion are all too common! Hence unusual interest attaches to the following fact: that smoking Camels has been found to have a marked beneficial effect in aiding digestive

action. You'll find Camels milder too, more delicate in flavor, packed with the rich enjoyment of choice tobaccos.

Turn to Camels for your digestion's sake... for the greater pleasure to be found in smoking Camel's costlier tobaccos. Camels set you right!

© 1936, R. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.

**"CAMELS HAVE LONG BEEN A FAVORITE** with us here," says Mr. Joe Moss, who presides over New York's Hollywood Restaurant (above), where diners flock to enjoy fine food! "As I look over the crowd, I see Camels on lots

of tables. We've found that success comes through giving people the best. The fact that Camel uses costlier tobaccos and people prefer Camels shows that they appreciate the same policy in other lines too."

**A SENSATION!** Henry Taft Snowdon, '34, intercollegiate wrestling champion. Snowdon says: "Smoking Camels after meals and between meals aids digestion."

**OTIS BARTON,** scientist-inventor, who dives in the "bathysphere," says: "Camels make my food taste better and help it to digest."

## COSTLIER TOBACCOS!

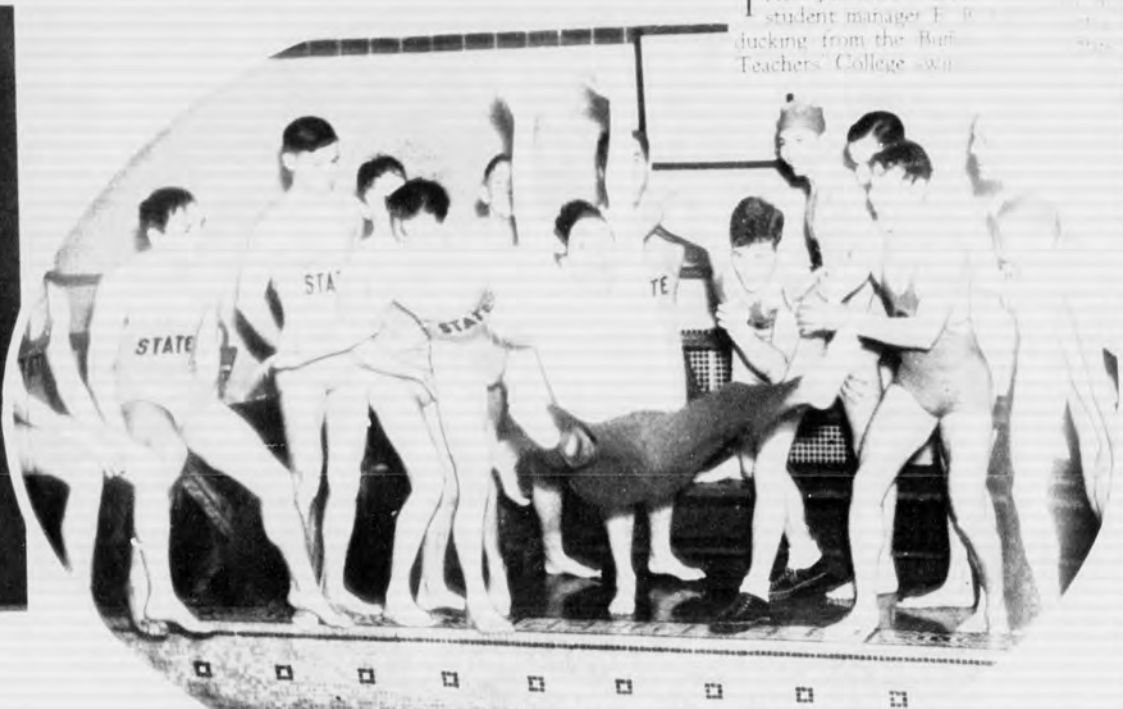

Camels are made from finer, **MORE EXPENSIVE TOBACCOS**—Turkish and Domestic—than any other popular brand.

**PITTSBURGH'S DOWNTOWN TRAFFIC** was tied up when Duquesne University's Monogram Club held its initiation on the city's busiest street corner.

**NEW SUBWAY** - This novel car was built by Harvard University engineers to carry them through a two and a half mile subway when they inspect the pipes which carry heat to Harvard buildings.

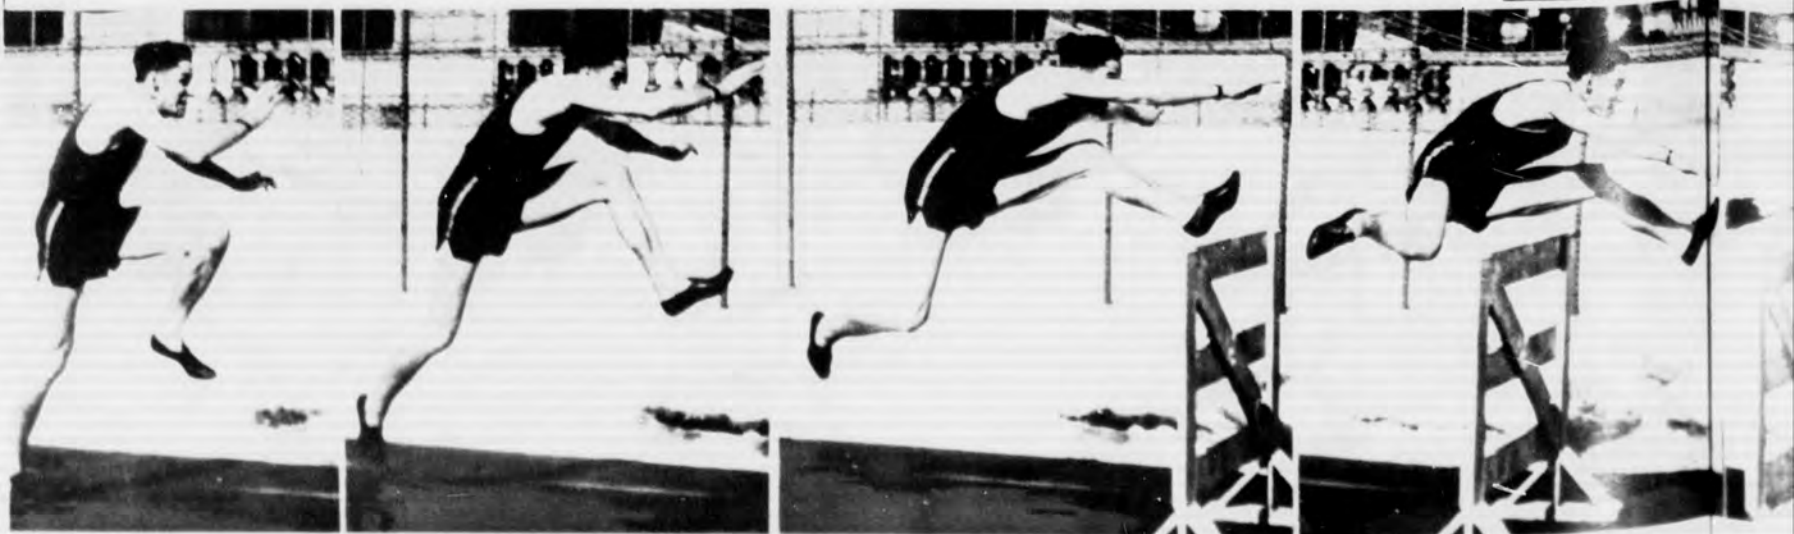

**IRVING FOLWARTSH** Rhode Island State, the 35-pound weight 58 one inch to set a A. A. U. record.

**YOU'VE HEARD THE STORY** many times, but here's definite proof that Austin owners must tie their cars to hitching posts if campus pranksters are to be foiled. Miss Prescott of University of Redlands is the cautious one.

## Speed Graph Records Moreau's Winning Form

The Magic Eye camera blinks eight times and catches Alvin Moreau, ace high hurdler of Louisiana State University, in eight phases of his running leaps over the barrier. His perfect form is recorded with remarkable clarity in this speed graph which starts at the left and finishes at the right with Moreau completing one complete cycle of his record-breaking stride.

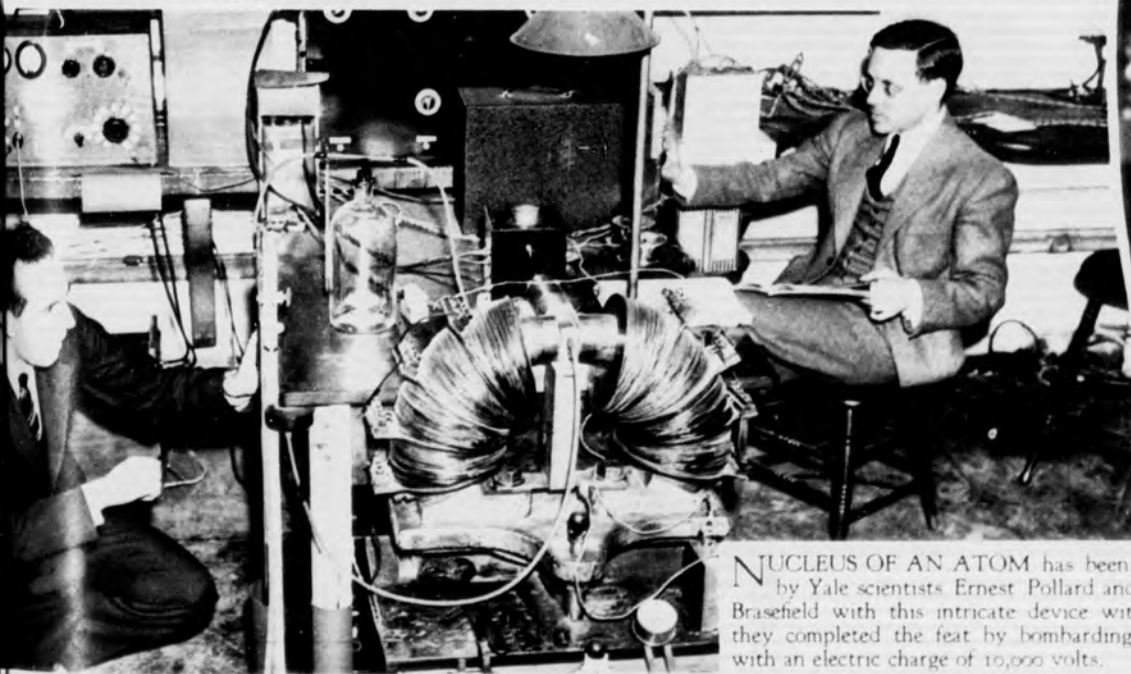

WARTSHNY  
State, throws  
weight 58 feet,  
to set a new  
U. record.

**CONDEMNED FOLLOWING DAMAGE BY EARTHQUAKES**, Pasadena (Calif.) Junior College buildings were demolished to make way for new and earthquake-proof structures. This remarkable action photo shows the front of the main building crashing after the key pillar was removed.

**NUCLEUS OF AN ATOM** has been weighed by Yale scientists Ernest Pollard and Charles Brasefield with this intricate device with which they completed the feat by bombarding sulphur with an electric charge of 10,000 volts.

**MARJORIE JOHNSON**, a member of Delta Delta Delta, is one of the leading women student journalists on the Ohio State University campus.

**DOROTHY DISNEY**, niece of Mickey Mouse's creator, officiated over the annual Los Angeles Junior College freshman-sophomore brawl.

**AUGUST** is the title of the **Picture of the Week** winner by G. Weisman, Harvard University student photographer. Each week **COLLEGIATE DIGEST** features one picture that is the outstanding photo submitted by students or faculty members, and five dollars is paid the winner of each week's contest. Send your photos to: Editor, **COLLEGIATE DIGEST**, P. O. Box 472, Madison, Wisconsin.

## Picture of the Week

**SONGSTRESS** Ruth Clair, Rider College student, recently won a nationwide amateur contest conducted by a New York radio station. She is shown with the trophy presented to her at the close of the contest.

## On With the Dance

More than 2,200 University of Michigan students crowd around the bandstand to listen to Jimmie Lunceford and his music.

Washington University (St. Louis) students donned old-time costumes for the T Square Tussle.

Virginia Kuning and Darrell Martin (right) receive the gloves emblematic of their reign as King and Queen of Handshakers at the Coe College Flunkers' Frolic.

Coronation Ball dancers at the University of Mississippi had to wait for Mardi Gras King Dave Bernard and "Miss Ole Miss" Rebecca McCormick before they could begin to dance.

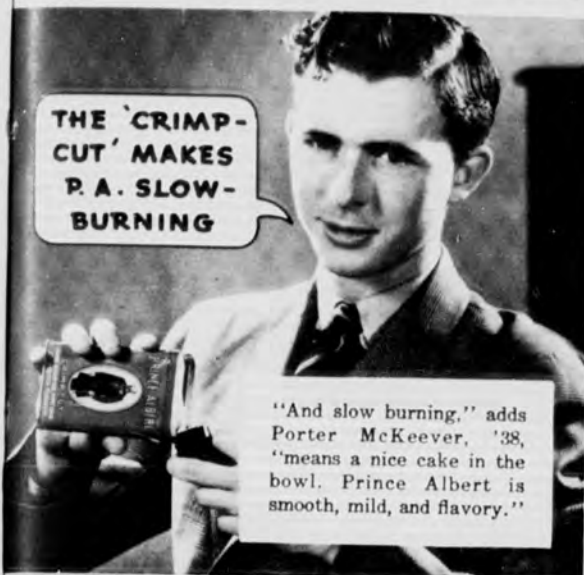

**HUNTER COLLEGE** students cheered when they arrived in the morning to find their Park Avenue class building burned to the ground.

**WESLEYAN UNIVERSITY** is the second campus to be featured in the special **COLLEGIATE DIGEST** series of aerial photographs of colleges taken by the McLaughlin Aerial Survey.

# A trial offer of interest to every pipe smoker!

"And slow burning," adds Porter McKeever, '38, "means a nice cake in the bowl. Prince Albert is smooth, mild, and flavory."

"That first tin of Prince Albert sold me," says Paul Mac Cutcheon, Jr., '36.

James Coit, Jr., '38, says: "I've never smoked anything as mellow as P.A."

**YOU CAN'T LOSE  
BY ACCEPTING  
THIS OFFER!**

Smoke 20 fragrant pipefuls of Prince Albert. If you don't find it the mellowest, tastiest pipe tobacco you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Co., Winston-Salem, North Carolina.

**PRINCE ALBERT**

THE NATIONAL JOY SMOKE

50 pipefuls of fragrant tobacco in every 2-oz. tin of Prince Albert

THIS picture would seem to indicate that Betty Ronneau, Creighton University's honorary cadet colonel, prefers the cavalry. Miss Ronneau is an accomplished horsewoman and owns her own mounts.

THE PERILOUS ASCENT of Grand Teton Mountain, 13,776 feet high, has been completed by Robert Sanford (above), University of Michigan sophomore, and Donald Anderson, New York University student.

RESEARCH is the title of this unusual photo taken by John Barry for The Bomb, Iowa State College yearbook.

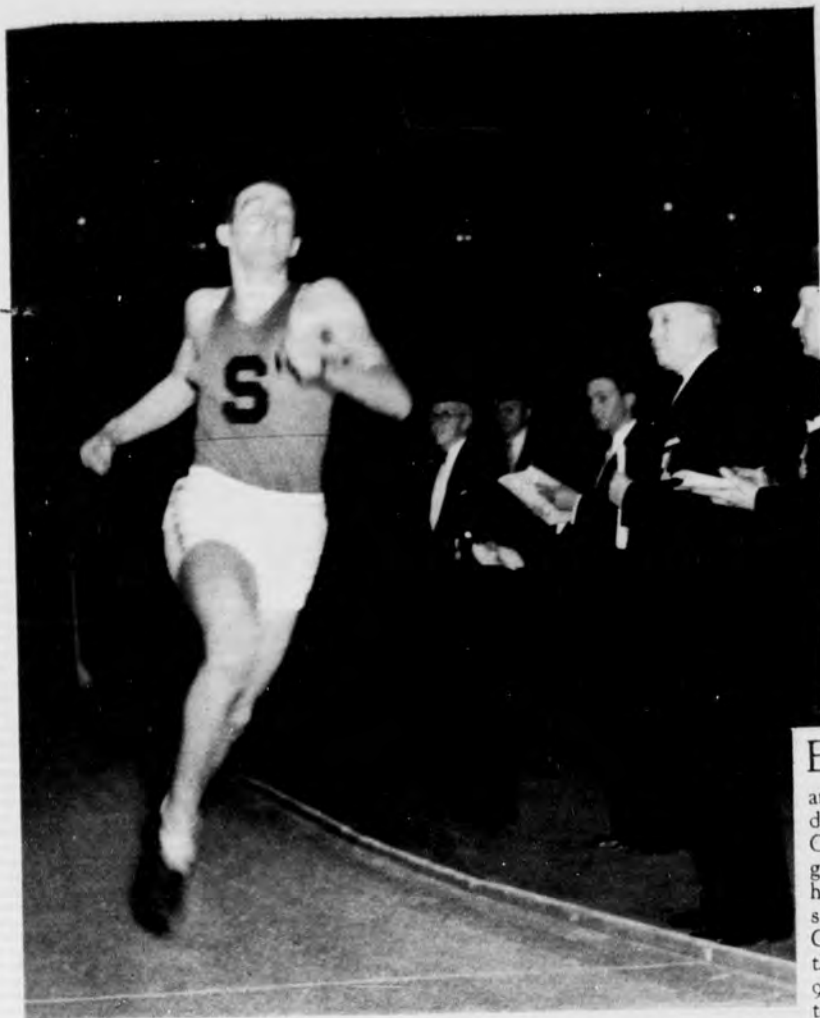

DELEGATES FROM FIVE COLLEGES attended the Amherst College meeting of the second Annual New England Intercollegiate Flying Club Conference. The group was formed to promote interest in flying among collegians.

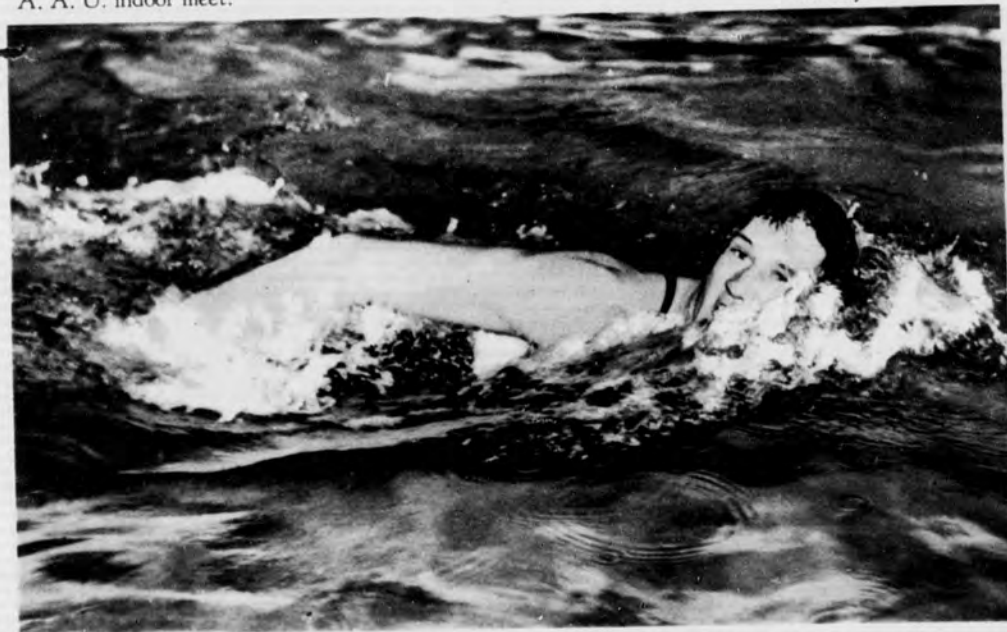

TAP DANCING is the latest "sport" to capture the interest of university women. Rebecca Averill (right) is shown giving instructions to her class at the University of Kentucky.

**SPEED CHAMPION** Eddie O'Brien of Syracuse University finishes the 600-meter event in the record time of one minute and 21 seconds at the A. A. U. indoor meet.

**EXACTLY** 1,500 packages of gum are consumed every day by University of California at Los Angeles students. And here's Tom Dyer starting Virginia Corbet on the marathon that would take 963 days if she were to chew the same amount used by her 6,500 classmates in one day.

**FORDHAM FLASH** Bill Giesen is the outstanding contender in the short distance events in metropolitan New York aquatic meets.

**CALVIN BARTHOLOMEW** demonstrates the methods he used to win a recent cooking contest from the women students at Brigham Young University.

**REPUBLICAN BOSS** John Landis 23-year-old University of Nebraska law student, rules the G. O. P. activities in Nebraska these days while former governor Sam McKelvie winters in the south. He is also junior president of the Founders' Day organization in that state.

Prof: *Why was Ben Hur sentenced to the galleys?*  
Soph: *Because Valerius Gratus didn't have a chariot with a "Turret Top"*

**S**olid steel over your head certainly makes modern automobiles safer, and this improvement like many others has resulted from the pioneering work and vast resources of General Motors. Few people realize the initial cost of developing the "Turret Top," and it is only the fact that it is used on millions of GM cars which enables the average person to afford its benefits.
