

Delaware House of Representatives

March 22, 1988

Dear Representative Wingate:

This letter is in reference to our discussion of yesterday, concerning legislation aimed at our profession. Attached please find a copy of a letter addressed to Rep. Steven Amick regarding the position of the Association on the proposed amendment to SS 1 to SB 116.

As a group we are in favor of the proposals of this legislation, with one exception: lines 11, 12 and 13 on page 1 of 4 of HA 2. These lines fall under the heading of license to practice. While we agree these lines do not specifically give license to practice to those not qualified, we believe that such an interpretation can be made. Our interpretation of this section (1302) is that the Board will not be able to prohibit the practice of funeral service by those working under supervision of a licensee.

However, under Delaware corporate law, anyone may incorporate and open a Funeral Home without a license, so long as there is a licensee employed by the firm. Our contention is that this "loophole" would permit unscrupulous persons to hire unlicensed, unqualified persons to conduct funeral services.

Further we believe these three lines defeat one of the main premises of the legislation, which is to add continuing education requirements to licensure. If an unlicensed person can perform the duties of a licensee, the possibility of opponents to continuing education dropping their licenses, but continuing to practice is created.

Any assistance you can provide to us in this matter of great importance to our profession will be greatly appreciated. If you are in need of further information I will be in my office throughout the day. The number 856-1460. I thank you for your time and consideration in this matter.

Cordially,

S. Keith Parsell

President

Delaware State Funeral Directors' Association

March 10, 1988

The Honorable William A. Oberle, Jr.
State House of Representatives
Legislative Hall
Dover, DE 19901

Dear Representative Oberle:

In the course of reviewing health-related legislation, the Society's Public Laws Committee has discussed H.B. 321, which you have introduced in the General Assembly. This legislation would provide for minimum fines and prison terms for those who purchase alcohol for minors or who knowingly allow minors to consume alcohol. The Society supports your efforts to address alcohol abuse by minors.

A question was raised, in light of present prison overcrowding, about the possibility of substituting a higher fine or public service for imprisonment. Do you think this would be feasible?

You may well be aware that there is also a problem with over-the-counter cough syrup that contains alcohol. This is currently the most abused substance in Delaware. I know this is beyond the scope of H.B. 321 but wanted to share the committee's comments in this area.

We appreciate the opportunity to comment on this pending legislation.

Sincerely,
Martin J. Cosgrove, M.D.
President
Medical Society of Delaware

April 6, 1988

To the Delaware State House of Representatives
of the 134th General Assembly
of the State of Delaware

I am returning House Bill No. 142 as amended by House Amendment No. 1, which I received on March 25, 1988, and which is entitled:

AN ACT TO AMEND CHAPTER 5, PART ONE, TITLE 11 OF THE DELAWARE CODE RELATING TO SPECIFIC CRIMINAL OFFENSES; AND PROVIDING FOR PROHIBITIONS AGAINST TICKET SCALPING.

This Bill is intended to prohibit the sale, re-sale or exchange of any ticket to any event at a price higher than the original ticket price. Any person who sells, re-sells or exchanges any ticket at a price higher than the original ticket price would be guilty of a new criminal offense created by this bill entitled "ticket scalping". Under this bill, an exception to this prohibition is that a person who is licensed by the State as a ticket sales agent may charge a service fee of 20% above the original price or three dollars (\$3.00), whichever is higher.

There are several serious problems in the bill as it has been presented to me. First, the legislation contains no definition of the term "ticket sales agent" nor does it contain any provision for the licensing of the same. Without those provisions, the enactment of this legislation would place a cloud over the legality of businesses in Delaware which are

engaged in the sale, re-sale or exchange of tickets at prices higher than the original ticket price. However, both the provision which defines a "ticket sales agent" and the provision for the licensing of that agent and a licensing fee are contained in a separate piece of legislation, House Bill No. 143. Inasmuch as the licensing and definitional provisions of House Bill No. 143 are essential to the intent of House Bill No. 142, the later cannot be implemented without the former. This deficiency in and of itself would necessitate the veto of this legislation.

However, there are other reasons for which I feel a veto is necessary. Certainly, the provisions contained in House Bill No. 142 and House Bill No. 143 could have been combined into one piece of legislation. However, by drafting two separate pieces of legislation it would appear that there has been an attempt to avoid a super-majority vote requirement. The license fee which would have been mandated by House Bill No. 143 would have required the legislation to have a three-fifths vote of all members elected to each House of the General Assembly. By separating the fee requirement in House Bill No. 143 the super-majority vote was avoided. This segmenting of legislation in order to circumvent voting requirements mandated by the General Assembly may not be overlooked.

Another objectionable aspect to House Bill No. 142 is found in Section (b) of the bill which provides that jurisdiction over any ticket scalping offense shall be in the Superior Court. Clearly, ticket scalping is a minor offense which would normally fall within the jurisdiction of one of the lower courts. Due to the increasing backlog in the Superior Court, jurisdiction of these minor offenses should certainly be in a court of lower jurisdiction. However, a two-thirds majority vote would be required if the criminal jurisdiction of an inferior court were enlarged. Adding to the jurisdiction of the already overburdened Superior Court is not acceptable in this instance. Further, if this is another attempt to avoid a super-majority requirement, it may not be countenanced (sic).

For all of the reasons stated above, I feel that a veto of this bill is required and I hereby return House Bill No. 142 as Amended by House Amendment No. 1 without my signature.

Respectfully submitted,
Michael N. Castle
Governor

The following communication was made a part of the record at the request of Representative Plant:

STATEMENT FOR REPRESENTATIVE AL O. PLANT

May 3, 1988

I have here a news article that appeared in Saturday's edition of The News Journal. In this article, State Police Superintendent Colonel Graviot admits that Black troopers have complained of racial slurs and marked insensitivity. The Colonel was quoted as saying, "He had issues and concerns involving our Black and minority troopers that we wanted to discuss long before Representative Plant thought that he could gain some political mileage out of it." However, only a few short weeks ago, Colonel Graviot said, regarding my allegations of discrimination against Black troopers, "Representative Plant has been badly misinformed." The Colonel patently denied that Black troopers were subjected to racial harassment and discrimination. He said the problem did not exist. It is quite clear now that if the Colonel knew about these problems before I publicized my complaints, then he lied to the press and the people of Delaware when he claimed there was no problem.

Colonel Graviot and I had a meeting where we agreed to meet at a later date. I sent a letter to him suggesting that we meet on April 19, 1988. In that letter I asked that he suggest another date if April 19 did not suit him. He never responded. As a result, I asked Representative Hebner, Chairman of the House Judiciary Committee, to arrange a hearing where the arrogant Superintendent could be subpoenaed to answer questions about why Black troopers are not treated as White troopers are. If a hearing is convened, I would also ask him to explain why he has lied about the percentage of Black troopers who have left the force through resignations and disciplinary procedures. He has, time and time again, publicly stated that 23% of the Black troopers have left through disciplinary procedures and resignations while 22% of the White troopers left during the same time. The Delaware State Police has employed a total of 46 Black troopers to date; only 27 remain. That means that 39%, not 23%, have left the force.

The citizens of this State, both Black and White, have an interest in knowing whether Black troopers are being treated unfairly. They also have an interest in knowing whether the State Police Superintendent has intentionally misled them with respect to the facts. A public hearing called by the House Judiciary Committee would serve as a means by which the public could learn if their tax dollars are being properly spent. We, as State Representatives, have a duty to protect the interests of the people. Again, I call on the Chairman of the House Judiciary Committee to act quickly on my request for a public hearing so that we can learn the truth and solve this problem.

As for the news reporter who claimed I could not be reached for comment, I have to question that. Some reporters seem to find it convenient to make such claims. I can always be contacted and I should be given an opportunity to respond when a lying police colonel challenges my integrity.

The Honorable Terry R. Spence
Speaker of the House
Legislative Hall
Dover, DE 19901
Dear Representative Spence,

On behalf of the Delaware Heritage Commission, I want to thank you for permitting our chairman, Robert Barnett, to address the Delaware House of Representatives yesterday.

We greatly appreciate the recognition our 1988 Constitutional Scholars received from the House. I know that the students and their parents were very impressed that our legislators would take time out of their busy schedules to acknowledge the good works of these young Delawareans. We hope to continue this very successful program, now in its sixth year, for many years to come.

We also hope that you will enjoy the new Delaware books recently produced by the Heritage Commission. I think we have managed to offer something for everyone - Proceedings for the historian, Delaware 200 Years Ago, and The Delaware Heritage Cookbook for family bookshelves, and Delaware, The First State, the history textbook, for our young schoolchildren.

Best wishes to you in your many activities.

Sincerely,
Claudia L. Bushman

LEGISLATIVE ADVISORY #42

FROM: Office of Counsel to the Governor

The Governor vetoed the following legislation on the date indicated: 5/10/88 - HB 229, aab HA 1 & SA 1.

May 10, 1988

To the Delaware State House of Representatives
of the 134th General Assembly
of the State of Delaware

I am returning House Bill No. 229 as amended by House Amendment No. 1 and Senate Amendment No. 1, which I received on April 28, 1988, and which is entitled:

AN ACT TO AMEND TITLE 6 OF THE DELAWARE CODE REGARDING DECEPTIVE TRADE PRACTICES AND PARTS USED TO REPAIR DAMAGED MOTOR VEHICLES.

This bill requires that whenever such repairs are made to the visible exterior sheet metal or plastic parts of a damaged vehicle, the written estimate of the cost of those repairs must clearly identify each replacement part to be used which is not manufactured, supplied or authorized by the original manufacturer of that part. In addition, a statement must be attached to the estimate providing the following notice:

"This repair estimate is based in part on the use of replacement parts which are not made, supplied or authorized by the original manufacturer of the damaged parts in your motor vehicle. This use of these parts may invalidate any remaining warranties of the original manufacturer of that part of the motor vehicle being repaired and may render your motor vehicle in non-compliance with applicable federal motor vehicle standards at the time your vehicle was manufactured."

This bill also provides that an insurer may not directly or indirectly require the use of any replacement part which is not manufactured by the original manufacturer of such damaged part and prohibits repairers from using such parts unless they are expressly authorized by the consumer. Violations of any of the provisions of this Act would be deemed a deceptive trade practice under Section 2532 of Title 6 of the Delaware Code.

There are several serious problems with this bill as it has been presented to me. My overriding concern is that while the intent of this legislation was to protect consumers from having improperly manufactured parts installed on their vehicles, the practical effect of the bill would be against consumer interests. My fear is that this legislation may lead to an increase in the cost of replacement parts.

Unless closely scrutinized, the language of the notice required by this bill leads consumers to believe that the use of other than original manufacturers parts would jeopardize their existing warranty not only on the replacement part but also for the entire vehicle. As a result, consumers naturally will demand that a repairer use parts made, supplied or authorized by the original manufacturers. Clearly, this will severely cut into the competitive market for replacement parts. Over the course of the last five to six years, reliable replacement parts have been manufactured by entities other than the original manufacturers of vehicles. Due to the competition in the marketplace, prices for vehicle parts have been progressively decreasing. By cutting the competition, this trend will certainly cease, if not reverse itself.

The notice provision required by this Act is also misleading to consumers inasmuch as it relates to federal motor vehicle safety standards. Those standards apply to a vehicle as a whole and do not relate to individual parts except for the hoods of the vehicles. Therefore, the statement in the notice that compliance with applicable federal motor vehicle standards may be effected is overly broad. As a result, the notice may not only have the effect of decreasing competition, but it is also misleading to the consumer.

Another disturbing aspect of the legislation is that the notice provision, while stating that certain warranties may be effected by the use of non-original parts does not indicate that non-original parts manufacturers provide warranties of their own with their parts. Some of those warranties may be equal to or better than the warranties on the original part.

Another practical effect which may adversely effect consumers is that by effectively limiting repairers to the use of only replacement parts which are manufactured, supplied or authorized by the original manufacturer, the length of time a vehicle is inoperable could be increased due to the lack of these parts.

I agree with what I feel was the original intent of this legislation which was to protect consumers by prohibiting the use of improperly or poorly manufactured replacement parts and to notify consumers that the part to be used was not manufactured by the manufacturer of the vehicle. However, the practical effect of the legislation is far broader in scope than its original intent. If we are attempting to provide a notice to our consumers, we must ensure that the notice is entirely accurate.

For all of the reasons stated above, I feel that a veto of this bill is required and I hereby return House Bill No. 229 as Amended by House Amendment No. 1 and Senate Amendment No. 1 without my signature.

Respectfully submitted,
Michael N. Castle
Governor

LEGISLATIVE ADVISORY #47

FROM: Office of Counsel to the Governor

The Governor vetoed the following legislation on the date indicated: 5/19/88 - HB 182 aab HA 1.

May 19, 1988

To the Delaware State House of Representatives
of the 134th General Assembly
of the State of Delaware

I am returning House Bill No. 182 as amended by House Amendment No. 1, which I received on May 10, 1988, and which is entitled:

AN ACT TO AMEND CHAPTERS 33 AND 35, TITLE 18, DELAWARE CODE RELATING TO IN VITRO FERTILIZATION.

This bill prevents health insurance providers within the State who currently provide pregnancy-related benefits from denying those benefits under such contracts for In Vitro fertilization expenses where the subscriber or their dependent spouse suffers from a history of certain infertility-related conditions.

The bill requires that the patient have a history of infertility problems lasting at least two years. Further, it requires that the subscriber or their spouse must have been unable to attain a successful pregnancy through any less costly means which may be covered by an existing policy of insurance. The bill also requires that the In Vitro fertilization process be performed at certain medical facilities approved for the rendering of such services.

There are several serious problems with this bill as it has been presented to me. From a purely technical point of view, the bill contains one substantive flaw. The bill in Section 2 requires all "group or individual medical" insurance contracts written under that section of the Delaware Code to contain this In Vitro provision. However, that particular section of the Code deals only with Group and Blanket Health Insurance coverage, not individual coverage. My concerns with this bill do not stop there, however.

Perhaps the most problematical aspect of this piece of legislation is the fact that it will mandate certain types of insurance coverage. I am, for several reasons, philosophically opposed to mandated insurance coverage in cases such as this. To permit this bill to become law would mandate insurance coverage for what is, in many instances, an optional proceeding. By this, I do not mean to imply that the desire of infertile couples to give birth to a natural child of their own is not an integral part of human existence; however, I do believe that such decisions are best left to the insurers and the policy holders, with the State taking no part in this negotiation.

There currently exists today a virtual explosion in the costs of medical services, not only in Delaware but nationwide. To mandate this type of coverage would only serve to add to this burgeoning expense. From all of the facts as developed in the General Assembly and in the public arena itself it appears that there are only a very few individuals who may actually receive any benefit from this type of insurance. To mandate insurance coverage which would raise insurance premiums across the board in order to assist a small number of persons would only add to the costs of medical insurance. Related to this point is the effect that such legislation may have on the small businesses which would be forced to offer this type of insurance to their employees. While it is true that the State of Delaware and several of the state's largest employers currently offer insurance coverage for In Vitro fertilization processes on an optional basis, to require a business with twenty-five or fewer employees to offer such insurance may only serve to drive up the cost of employee medical insurance to all employers. Further, as additional mandatory insurance coverages are sought to be extended for other services, the costs of medical insurance will continue to rise for all employers, small and large alike.

Mandatory insurance coverage should be utilized, if ever, to provide insurance protection for those categories of medical treatment which are required or which are designed to diagnose existing conditions before it is extended to cover an optional measure which will benefit only a few individuals while burdening the many.

For all of the reasons stated above, I feel that a veto of this bill is required and I hereby return House Bill 182 as amended by House Amendment No. 1 without my signature.

Sincerely,
Michael N. Castle
Governor

The Reading Clerk read the following communication into the record at the request of Representative Plant:

MY STYLE

On June 14, 1988, there appeared an article in the editorial section of the Morning News wherein a Mr. Watson suggested that I have not addressed issues which are important to those I represent in the General Assembly. He seems to be bothered by my style and says there are others to whom we should listen.

I too encourage voters to listen to and evaluate their candidates. Despite Mr. Watson's concern, I have absolutely no problem with the voters evaluating my performance as a state legislator. It has always been my "style" to speak loud and clear on behalf of those I represent. My constituents are people that many would like to ignore. As long as the good lord gives me a life and the people give me votes, I will speak as loud as I can on those issues that affect my constituent's lives.

Mr. Watson is either misinformed or unaware of some of my accomplishments. Furthermore, he does not seem to be aware of exactly who has the responsibility for inter city housing and development. The person who is responsible for the housing problems in the City of Wilmington is its mayor, the dishonorable Daniel Frawley. Frawley has courted big business and brought about the lack of affordable housing in Wilmington. He has effectively eliminated an organization that was designed to evaluate allegations of civil rights violations. As I see it, Dan Frawley has brought much grief to the people I represent, and I am doing all I can to assure that he will not be able to continue to do the things that have so negatively affected them. How could anyone who is familiar with the things Frawley has done, feel it unimportant to remove him. This may perhaps be one of the most important issues facing Wilmington today.

Let me suggest to Mr. Watson that an elected official's "style" is much less important than his record of results. If he were to review my result record, he would find that over the years I have been responsible for creating several pieces of legislation from which all the State's citizens have benefited, especially those who elected me. I have also made it a point to become involved in issues that I know to have a long range effect on my constituents. The police racism issue, for which Mr. Watson criticized me, is a good example. Black men and women, who happen to live in Wilmington, were unjustly denied

promotions they deserved. Can't Mr. Watson see the implications of this! What about the fact that these officers, if promoted, would earn more money with which they could better provide for their children. If the parents are unjustly denied their children are too. Furthermore, doesn't Mr. Watson understand the fairness and the value of having a police department whose racial makeup is similar to its service community. Come on Mr. Watson, think!!

It is more obvious to see the advantages of a Martin Luther King Holiday, an anti Klux Klan law, a black Superior Court judge or having the "separate but equal" clause removed from our State's constitution. These are just a few of my results. All accomplished, I might add, with the same "style" I exercise today.

As for an answer to Mr. Watson's question about what motivates me, I respond, "commitment and dedication to end injustice." What would Mr. Watson think of me if I worked at the University of Delaware and never opened my mouth about the racism that everyone knows has existed there for years? I suppose he would think it more "stylish" that I said nothing. Mr. Rourke Moore, my opponent in the upcoming election, works at the University. I am not sure what he does but he must be stylish, because he has never addressed the racial problems there. What can a man like this do for a predominately black representative district that the government tries to ignore. Absolutely nothing but the same "style" he displays at the University of Delaware, mouth shut and eyes closed. I offer my commitment to continue to get results and I will use my unpopular but effective style, "loud and constant."

MEMORANDUM

TO: Honorable Herman M. Holloway, Sr.

Honorable Jane Maroney

FROM: Thomas P. Eichler

Secretary

SUBJECT: Senate Bill 419 - Subpoena Power

DATE: June 14, 1988

Muriel Rusten informed me that some questions were raised in the Senate about giving the Department subpoena power in cases of welfare fraud investigation. Let me assure you that I am very aware of the fact that this is a significant power, and that it must be used sparingly and with the utmost responsibility. If this bill is enacted, I will promulgate an internal regulation that this power may not be used without express, written permission from the Secretary, and its use will have to be justified.

I very much appreciate the support of the Senate for our welfare fraud prevention legislation package, and look forward to its passage in the House. Thank you both for your leadership.

Mr. Speaker Spence appointed Representative Buckworth as Acting Speaker.

The Reading Clerk read the following communication into the record at the request of Representative DiPinto:

The Honorable Terry R. Spence
Speaker of the House
State House of Representatives
107A Legislative Hall
Dover, DE 19901

Dear Representative Spence:

I am writing to you very late on a most important issue to all Delawareans that should not be rushed. Only yesterday was I informed that the House will be considering HB 614 on Wednesday, June 29. This proposal, if enacted, would require manufacturers, importers and suppliers of wine, liquors and malt beverages to sell to all licensed distributors in Delaware.

As Chairman of the Delaware Alcoholic Beverage Commission, I firmly believe this legislation would be very detrimental to consumers in the State, and I therefore urge its defeat. Another layer of cost would be added in the distribution process, there would likely be a reduction in product offerings, and distributors would be reluctant to introduce new products, while service to retailers may very well decline. Additionally this proposal may send consumers into Maryland or Pennsylvania to buy.

While strongly opposing HB 614, I wish to make it clear that neither do I favor exclusivity into perpetuity. But HB 614 is not the proper way to approach any concern we may have with exclusivity.

I urge that the House send this proposal to the Sunset Committee to study and eventually for open hearings, where the industry and the public will be heard. To address this important matter in the final hours of the current legislative session is not in the best interest of the people of Delaware.

I would very much appreciate your reading these brief observations into the record.

Very truly yours,

John J. Corrigan

Vice Chairman

Bank of Delaware Corporation

HR 283 - Expressing Profound Gratitude and Sincere Thanks for the Excellent, Conscientious and Exemplary Representation That Has Been Distinctively and Strikingly Demonstrated Over the Past Six Years by Our Fellow Colleague, Representative Jay D. Wingate, of Rehoboth Beach, Who Will be Retiring at the Conclusion of the 134th General Assembly and Wishing Him the Best of Health and Happiness in His Retirement and Encouraging Him to Return as Often as He Wishes to Visit Us as He Will Always be Welcomed.

WHEREAS, it comes as no shocking surprise to many of us, if not all of us, that Representative Jay Wingate will be retiring at the conclusion of the 134th General Assembly, after all, he officially announced his retirement some months back; but, nevertheless, time inevitably creeps by when the moment of truth is upon us, namely to attempt to express with some magnitude of loss our sincere gratitude for not only the wisdom and knowledge he has brought to the Democratic caucus and the House of Representatives over the last six years, but also his exemplary and meaningful achievements, his impeccable integrity and his mild, but effective way of articulating the issues we've had to address over the years; and

WHEREAS, Jay Wingate, the embodiment of a legislator, came to the Delaware Legislature in 1982 representing the constituency of the 37th District, Rehoboth Beach, with all the credentials and wherewithal of becoming one of the fastest learning freshmen legislators ever to be elected to the House, due in large part to his experience and active involvement in numerous public service responsibilities, both elected and/or appointed position; and

WHEREAS, Jay Wingate, a civil engineer and surveyor by profession and an alumnus of the University of Delaware, has diligently and conscientiously served his 37th District constituency to include the entire State of Delaware with honor and distinction, always thoroughly examining each peice of legislation before him with three major principles uppermost in his mind, first, how do the people back home whom I represent feel about this bill; second, is this the best approach to solving the problem; and, thirdly, what will be the cost and where will the money come from; and

WHEREAS, Representative Wingate's achievements in the Delaware Legislature has contributed enormously to helping make Delaware's small business community a more enjoyable, healthy and viable economic climate in which to operate, make a profit as well as to call Delaware its home; and

WHEREAS, Representative Jay Wingate's interest in education, where he serves as a member of the House Standing Committee on Education, has been a positive one contributing greatly not only to legislation to implement progressive and quality changes in education by virtue of his astute ability and leadership qualities while serving as a member of the Joint Finance Committee; and

WHEREAS, the constituency of the 37th District and the whole State of Delaware will certainly and undoubtedly look back in years to come and proudly say that achievements and goals that met fruition during the 132nd, the 133rd and the 134th General Assemblies were years in which they can rapturously say that Representative Jay Wingate of Rehoboth Beach has a contributing part.

NOW, THEREFORE:

BE IT RESOLVED by the House of Representatives of the 134th General Assembly of the State of Delaware that expressions of profound gratitude and sincere thanks for having had the pleasure, the opportunity and the responsibilities of serving with a great and studious colleague, Jay D. Wingate of Rehoboth Beach, Delaware, and further wishing him the best of health and happiness in his years of retirement, to include his lovely wife, Frances "Punx" Wingate.

BE IT FURTHER RESOLVED that upon passage of this Resolution, a suitably prepared copy be delivered to Representative Jay D. Wingate, Representative from the 37th District, Rehoboth Beach, Delaware.

June 29, 1988

The Honorable Terry R. Spence
Speaker of the House of Representatives
Legislative Hall
Dover, DE 19901

Dear Terry,

This letter is an effort to express my deep appreciation to the House for the honor accorded me on the occasion of my retirement from the Legislature.

The event was a total surprise. I never felt that I have accomplished anything in the legislature to warrant any appreciation for my efforts.

The picture of Legislative Hall is hung over my desk to remind me every day that I had the privilege to serve in that building with many, many wonderful people who always seem to go out of their way to show me a kindness. I refer to the Representatives and the House staff.

You can be sure that I will never forget the occasion. As Governor Castle said, "It is amazing that so many people would come to Dover on a Monday evening when there would follow three legislative days in the week when people would be expected to be present."

Terry, I am really grateful to all the House members and staff who participated in that memorable (to me) event.

Most sincerely,
Robert J. Berndt
State Senator

To the Delaware State House of Representatives

of the 134th General Assembly
of the State of Delaware

I am this day returning House Bill No. 138, as amended by House Amendment No. 1, which I received on June 29, 1988, and which is entitled:

AN ACT TO AMEND TITLE 22 AND TITLE 29 OF THE DELAWARE CODE RELATING TO PARKING; AND PROVIDING FOR A PARKING LOTS AND GARAGES ACT.

The bill is designed to insure that operators of parking lots and garages will calculate their fees on a base period of time less than the current one-hour standard. If signed into law, the bill would require some parking lot and garage operators to reduce their charges to reflect a thirty minute minimum base period.

From a conceptual point of view, this legislation appears to make a great deal of sense and merits further study and clarification. Close scrutiny of the bill, however, reflects several problems associated with the implementation, enforcement and application of this legislation. It is for these reasons that I am returning the bill without my signature.

One troubling aspect of the bill, as it is currently drafted, is that it applies only to those garages which are publicly owned or under contract with a public entity. Clearly this excludes the privately owned lots and garages from the purview of the legislation. Legislation which would place public garages and lots under its control while not applying to private areas will only serve to place the publicly owned facilities at a competitive disadvantage. This disadvantage will, in turn, likely manifest itself in higher prices passed on to the consumers.

In addition to the problems associated with the coverage of the act, there are concerns over the enforcement of these provisions should they become law. Clearly the legislation envisions someone inspecting these garages and lots to insure compliance with the law; the unanswered question is who? Failure to provide for enforcement standards and measures is yet another flaw associated with the legislation.

The bill will also cause undue hardship on the operators and owners of lots and garages in that the current equipment used by most of these businesses is incapable of being reprogrammed to accommodate a shorter base period. If new equipment is to be purchased, that expense will again likely be passed along to the consumer.

Another adverse effect of the bill is that it may actually make certain flat rate fee structures illegal. By requiring this shorter base rate period, the bill may make illegal existing plans and agreements which permit a flat rate to be charged at certain times or in certain areas. Certainly that could not have been the intent of this bill.

Finally, to implement this legislation as drafted may lead to the passage of other types of legislation aimed at reducing base parking rates. It is conceivable that legislation may arise which requires the recalculation of base periods for parking meters, as well as lots and garages. This type of legislation would suffer from much the same faults as does the instant bill.

Clearly, parking issues are of vital concern to all areas of the State. While the City of Wilmington is the only area to date with parking garages, other areas throughout the state suffer also with too many vehicles and not enough parking spaces. To attempt to address these very difficult issues with piecemeal legislation which only applies to limited aspects of the entire question is unacceptable and will lead to poor planning and coordination and potentially worsen the already difficult parking situations throughout the State. Nonetheless, the impetus behind this legislation should serve as notice that the public is becoming more aware of the issues associated with parking facilities. This interest should not be permitted to wane; further study and recommendations should come from the members of the General Assembly on these very important matters. Nonetheless, due to the concerns stated above, I do not feel that this particular piece of legislation is appropriate to meet the needs of those who are most affected by parking problems.

In light of the reasons set forth above, I feel that a veto of this bill is required and I am returning House Bill No. 138 as amended by House Amendment No. 1, without my signature.

Sincerely,
Michael N. Castle
Governor

To the Delaware State House of Representatives
of the 134th General Assembly
of the State of Delaware

I am returning House Bill No. 435 as amended by House Amendments Nos. 1 & 2, which I received on June 29, 1988, and which is entitled:

"AN ACT TO AMEND CHAPTER 5, TITLE 17, DELAWARE CODE, RELATING TO THE INSTALLATION OF BLUE RAISED PAVEMENT MARKERS ON REPAVED PUBLIC HIGHWAYS AND STREETS IN THIS STATE."

This bill is designed to require the Division of Highways of the State to install blue raised pavement markers to denote the location of fire hydrants whenever the Department constructs, reconstructs, surfaces or resurfaces a public road anywhere in the State. While the bill has a most admirable intention, the practical problems associated with implementing the measure require me to return this bill without my signature.

I have considered numerous comments from several sources on this subject in reaching my decision. There is evidence from other jurisdictions which have experimented with these types of pavement markings that they are not effective in fulfilling the purposes for which they were installed. In fact, the Federal Highway Administration has released a study which finds that these types of markers are likely to suffer extensive damage in those areas where snowplowing occurs. The study goes on to say that the only area which still utilizes these types of markers is Puerto Rico. Furthermore, all of the eastern states which have experimented with these types of markers have discontinued their use. Thus, while the markers may be of assistance in those climates where there is no snowfall, they are clearly ineffective in those areas with any significant snowfall.

It is perhaps what the bill does not provide for, more so than what it does, which gives rise to the problems associated with this legislation. For example, the bill as it is presented to me addresses only the initial installation of those markers. No provision is made for what surely will flow from their installation - that being their replacement when they are damaged or broken. In addition to ignoring who is to replace the markers, the bill also fails to state who will pay for the replacements. The fact that there is no provision for maintenance or replacement makes this bill a one-time operation which will only lead to the markers which are applied to fall into a state of disrepair with no one responsible for their upkeep and repair.

Finally, it should be noted that the costs associated with this project, when evaluated against the benefits to be obtained, renders this an inefficient use of the state's resources. Clearly, cost should not be a major concern when response to emergencies is involved. However, here we have a relatively expensive procedure which would likely not survive even one of Delaware's winters. Certainly other options should first be explored before we embark on this path.

If indeed the location of fire hydrants is a problem in some areas throughout the State, then the General Assembly, in cooperation with the Department of Transportation, Division of Highways, should examine all alternatives to alleviating the problem. Perhaps something as simple as painting a marking on the road surface will correct the problem. However, that is a decision best left to the experts at the Department of Transportation, in conjunction with the appropriate members of the General Assembly.

For all of the reasons stated above, I feel that a veto of House Bill No. 435, as amended by House Amendments Nos. 1 & 2, is required and I hereby return the bill as amended without my signature.

Sincerely,
Michael N. Castle
Governor

To the Delaware State House of Representatives
of the 134th General Assembly
of the State of Delaware

On July 6, 1988, I received House Bill 511 as amended by House Amendment No. 1, which is entitled:

"AN ACT TO AMEND CHAPTER 23, TITLE 19, OF THE DELAWARE CODE RELATING TO WORKMEN'S COMPENSATION."

The bill is aimed at requiring insurance carriers to place a cap on the payroll which would be subject to the premium No. 1, which is entitled:

"AN ACT TO AMEND CHAPTER 23, TITLE 19, OF THE DELAWARE CODE RELATING TO WORKMEN'S COMPENSATION."

The bill is aimed at requiring insurance carriers to place a cap on the payroll which would be subject to the premium rate for lost wage coverage when the insurers are determining the premium rate to be paid by the various employers. While touted as a bill which will advance the causes of labor, upon closer examination, it becomes clear that the only persons benefited will be a select few who hold high-paying positions in larger companies. The most adversely affected by this legislation are those persons who own smaller businesses and their employees.

Presently, when an employee is injured in a work-related incident, they are compensated at a set percentage of their normal salary for the period of their injury. The percentage of the wages to be paid remains constant. The one factor which varies in this equation is the salaries paid to the various employees. Clearly those persons in higher paying positions will receive more in the way of actual dollars while still receiving the same percentage of premium coverage.

In order to adequately reflect the increased pay-outs to those employees who are in higher paying positions, the insurance companies will charge higher premiums to the companies paying these wages. This is solely to offset the higher costs associated with paying injury claims in those instances where a person is injured while employed in a higher paying position. Concomitantly, those employers who pay on a lower scale will have

lower premiums charged to them by the insurer. This is certainly a reflection of basic economic theories. However, the current bill seeks to alter these rather common-sense criteria.

The bill presently before me would establish a cap on the dollar amounts of salaries paid by employers which may be considered by the insurers when determining premium levels to be paid by the employers. As presently drafted, the bill would cap that wage at 150% over the maximum weekly wage. This is one point which serves to mitigate against signing the bill. By imposing a cap of 150% and not a set dollar amount, there will be a floating scale subject to modification every time the weekly wage level changes. The administrative headaches associated with this fact alone are substantial.

Perhaps the most damaging argument against the bill is the economic impact it will have on the vast majority of businesses in the State. Logically, the larger the employer, the more likely they are to pay a higher wage. Concomitantly, the smaller employer will be more likely to have a lower pay scale for his employees. Should this bill become effective, the employers who pay higher wages will have their premium payments artificially capped, while the employers who pay lower wages will not receive any benefits from the capping. However, the costs associated with the provision of a higher workmen's compensation payment from artificially lowered premiums will certainly be passed along to all companies which are subject to the worker's compensation insurance premiums. Lowering or capping the rates to be charged to those employers while not reducing the amounts to be paid to their employees, will clearly result in the insurance industry attempting to redistribute the costs among all companies who are required to have such insurance. Such redistribution will certainly affect all businesses, but most certainly will adversely affect smaller business.

Finally, the bill does not increase the actual benefits to be paid to the injured workers. If the authors of the bill intended to truly benefit the workers, perhaps it would have been better to alter the benefits to be paid rather than the premiums to be paid.

Thus, if the authors of this legislation were truly interested in increasing the actual benefits to be given to the workers steps should be taken to address the actual amounts received by the workers, rather than attempting to benefit a few larger employers and high paid employees at the expense of smaller employers and lower paid workers.

For all of the reasons stated above, I feel that a veto of this bill is required and I hereby return House Bill No. 511, as amended by House Amendment No. 1, without my signature.

Sincerely,
Michael N. Castle
Governor

To the Delaware State House of Representatives
of the 134th General Assembly
of the State of Delaware

I am returning, without my signature, House Bill No. 668, which I received on July 6, 1988, and which is entitled:

"AN ACT TO AMEND CHAPTER 59, TITLE 29 OF THE DELAWARE CODE RELATING TO THE MERIT SYSTEM OF PERSONNEL ADMINISTRATION."

Stated succinctly, the bill is designed to remove the Director of the State Personnel Office from the State Personnel Commission. While the intent of the bill appears rather innocuous, the effect it will have on the State Personnel Commission and the Director of the State Personnel Office dictate that the measure be returned without my signature.

In order to comprehend the effect of the proposed legislation, a brief review of the historical underpinnings of the State Personnel Office is necessary. The commission form of government prevailed in Delaware well into the latter part of the 1960's and the early 1970's, wherein all major segments of the government were either managed or advised by a commission. The state personnel system was no different. In 1969, Governor Russell W. Peterson's Economy Committee recommended that the State Personnel Commission be abolished and a State Personnel Office, headed by a Director, be established. Only part of the Commission's recommendations were followed; there was a State Personnel Office created which was headed by a Director, but the State Personnel Commission was permitted to exist. As a result, there currently exists a mixture of the commission and cabinet forms of government. This mixture has continued to impair the effective and efficient operation of the State Personnel Office to this day. While the bill presently before me is claimed to remedy some of the underlying problems, it in fact serves to confuse the issue rather than clarify it.

The bill has as its purpose the removal of the State Personnel Director from the Commission; however, the Director is not a member of the Commission. Instead, the Director is statutorily designated as the administrative head of the commission. The clear effect of the bill would be to deprive the Commission of all of its administrative support staff! Certainly the authors of this legislation could not have intended such a result. Without the State Personnel Director as administrative head, the Commission is without staff support to carry out the functions it is charged with completing.

A secondary concern is the dangerous precedent that this type of legislation establishes as it relates to all departments throughout the State government. It is beyond doubt that the Director or Cabinet Secretary of a Cabinet-level position should be involved with the Commissions which affect the very operation of the departments. It should be noted also that there currently exists a statutory requirement that the Personnel Director or her designee, be present at all Commission meetings. Thus, even if this legislation were to be given effect, it would accomplish little in the practical level of involvement of the Director in personnel matters as they arise before the Commission.

If the authors of the bill truly intend to separate the functions of the State Personnel Commission and the State Personnel Director, they have selected an improper method to accomplish the goal. What the bill does accomplish is the creation of another inconsistency in the layers of government. The bill serves only to create additional confusion as to the respective functions of the State Personnel Commission and the State Personnel Director. Any alteration in the functions and duties of these two entities should be carefully reviewed and effectuated in an orderly and logical matter, so as to avoid the confusion which is created by this bill.

For all the reasons set forth above, I feel that a veto of this bill is necessary and I hereby return House Bill 668 without my signature.

Sincerely,
Michael N. Castle

July 18, 1988

To the House of Representatives
of the 134th General Assembly
of the State of Delaware

On July 6, 1988, I received House Bill No. 672 which is entitled:

"AN ACT TO AMEND TITLE 24 OF THE DELAWARE CODE RELATING TO CERTAIN STATE AGENCIES; AND PROVIDING FOR APPEALS FROM CERTAIN STATE AGENCIES."

This legislation provides that licensees or practitioners regulated by certain boards, commissions or other agencies under Title 24 have a right to an appeal de novo to the Superior Court if they disagree with the finding of the board, commission or other agency. This amends current Delaware law which provides that the right of an appeal de novo is only afforded form certain statutorily specified boards, commissions or agencies.

While I support the concept of providing all individuals with full rights of appeal under the appropriate process, I have problems with the legislation as it has been presented. The Division of Professional Regulation has numerous boards and commissions which regulate and license professionals in Delaware. The appeal processes from those individual boards and commissions have been developed over the course of the years as those boards have existed. There are reasons for the differences in the appeals process from the decision of those boards and commissions. For instance, many of the boards and commissions are comprised of individuals who are experts in their respective fields and whose decisions are entitled to great deference. I feel that a blanket right to an appeal from all boards and commissions on a de novo basis to the Superior Court is contrary to the process which has tailored the rights to appeal based upon the history of the particular board or commission.

Not only would the blanket right of appeal from all boards and commissions to the Superior Court on a de novo basis add to the already seriously strained and overburdened Superior Court, but it would have other practical problems which I feel merit further consideration by the Legislature. The legislation would mandate a stay of a boards and commissions' decision pending the appeal in Superior Court. This could create an unintended situation.

For example, the State Board of Pharmacy is authorized to revoke or terminate a pharmacist's license. That Board is a very professional board and invokes the extreme penalty of revocation of a license only after a very thorough investigative process. If this legislation were to pass, a pharmacist whose license was revoked could automatically appeal to the Superior Court and be provided a de novo hearing. As a practical matter, final adjudication in the Superior Court would not occur until possibly two to three years after the State Board of Pharmacy had determined that a pharmacist was unfit to practice pharmacy. During that time, the decision of the Board would be stayed and the pharmacist would retain his license to practice. Certainly, this was not the intent of the Legislature when it created the State Board of Pharmacy and gave it the authority to rescind the licenses of pharmacists.

For the reasons stated above, I am returning House Bill No. 672 to the House of Representatives without my signature.

July 19, 1988

To the House of Representatives
of the 134th General Assembly
of the State of Delaware

On July 8, 1988, I received House Bill No. 662 as Amended by House Amendment No. 1 which is entitled:

"AN ACT TO AMEND TITLE 24 OF THE DELAWARE CODE RELATING TO MEETINGS HELD BY CERTAIN STATE AGENCIES."

This bill amends the statutory provisions for all professional regulatory boards under the Division of Professional Regulation by requiring them to conduct all of their business pursuant to the terms of the Administrative Procedures Act. The bill also prohibits the service of meals during the course of any meeting held by any such board or commission and requires that agendas of the meetings must be made available to reporters and other members of the general public having business before the board or commission and that notice of the time, date and place of the meeting must be published at least one week prior to the meeting.

Additionally, there is a prohibition from the use of executive sessions by the boards and commissions during the course of their meetings.

This legislation is one of a series of bills passed with the intent of making meetings of public bodies more open and accessible to the public. I have continually stated my position in favor of such legislation. By making public meetings such as these open to the public, we insure that input is received from interested members of the public and that meetings are conducted in a public manner.

I agree with the prohibition of serving meals at meetings of public bodies so that those meetings may no longer occur at restaurants which of itself is a deterrent to truly public meetings. Some form of advance notice of the meetings is also desirable as is having agendas for the meetings available to the public.

I also concur with the ideas of curbing the use of executive sessions which have been used without justification at times. However, by eliminating all executive sessions, I feel that the legislation may be overly broad as it is currently written. For instance, the elimination of executive sessions would effectively prohibit confidential discussions between a board and its attorney during the course of any meeting. Those conversations clearly are protected by the doctrine of the attorney-client privilege and those discussions must be protected and private. Additionally, there may be certain instances where highly sensitive issues regarding individual cases need to be discussed in a private forum. For example, there may be situations where charges have been leveled at an individual which are totally without merit. The public disclosure of those charges in and of itself has the potential to needlessly devastate a person's reputation in the community.

Due to the fact that I support the legislation except as it provides for a complete prohibition against executive sessions, I have signed Executive Order Number Fifty Nine which prohibits the regulatory boards established pursuant to Title 24 of the Delaware Code from the service of meals at their meetings, provides a notice requirement, mandates the provision of agendas at meetings and prohibits the use of executive sessions except in limited circumstances.

In addition, I recommend that this legislation be reconsidered by the Legislature in January at which time exceptions to the blanket prohibition from executive sessions may be considered.

However, for the reasons stated above, I am returning House Bill No. 662 as Amended by House Amendment No. 1 to the House of Representatives without my signature.

July 20, 1988

To the Members of the House of Representatives
of the 134th General Assembly

On July 8, 1988, I received House Substitute No. 1 for House Bill No. 100 as Amended by House Amendment No. 1 and Senate Amendments Nos. 3 and 9 which is entitled:

"AN ACT TO AMEND CHAPTERS 13 AND 16, TITLE 19 AND CHAPTER 85, TITLE 29 OF THE DELAWARE CODE RELATING TO THE RIGHT OF PUBLIC EMPLOYEES TO ORGANIZE FOR PURPOSES OF COLLECTIVE BARGAINING."

This bill amends Chapter 13 and 16 of Title 19 of the Delaware Code and Provides that negotiations between public employees and public employers shall be under the jurisdiction of the Public Employment Relations Board ("PERB"). Heretofore, those negotiations, except for negotiations for policemen and firefighters, have been within the jurisdiction of the Department of Labor.

I have serious reservations regarding this legislation as it has been presented to me. The intent of the legislation was to enact reforms in the area of collective bargaining. However, I am concerned that the legislation, as drafted, will not accomplish the intent of the General Assembly.

The legislation provides for a fact-finding between a public employer and the exclusive bargaining representative in the event that the parties have not resolved a "labor dispute" after a reasonable period of mediation. Either party may petition the PERB to initiate the fact-finding. It is my opinion that this fact-finding provision will cost public employers thousands of dollars and result in lost productive time for their managers as they are forced to engage in the fact-finding process.

The process is very similar to a labor arbitration. However, the fact-finder's recommendation is not final and binding on the parties. In fact, the fact-finder is mandated to make written findings of facts and a recommendation which is limited to his determination of which of the parties' final, last, best offers shall be accepted in its entirety. As a result, while mediation generally promotes the collective bargaining process, the availability of fact-finding will most likely impair the effectiveness of mediation. Knowing that a fact-finding is on the horizon, the parties will lack incentive to seek the compromise necessary to reach an agreement and instead hold out in hopes of having a fact-finder adopt their last position or offer. Therefore, this results in actually extending the bargaining process rather than shortening it.

In sum, I do not believe that the fact-finding provision of the legislation will promote the bargaining process which should be the intent of any reform legislation in this area. Instead, fact-finding in all likelihood will extend the bargaining process and thereby increase the cost of the bargaining process to all of those involved.

Another aspect of the bill which is troublesome relates to allowing supervisors and certain managers to be covered by the provisions of the bill. This bill permits managerial employees to engage in collective bargaining, if their bargaining unit was established prior to June 15, 1988. In addition, the legislation permits the PERB to establish separate supervisory and nonsupervisory employees into separate bargaining units. Although under current law managers and supervisors are permitted to be in a bargaining unit, this has created serious management problems for public employers. This bill does not recognize this problem, and, in fact, not only continues the problem, but affords a situation which will continue to place managerial and supervisory positions against the interest of the public employer. These positions have the responsibility of establishing and carrying out management policy, which would include administering the terms of a collective bargaining agreement. This legislation which reforms the process of negotiations in this area must recognize the inherent conflict and exclude supervisors from coverage as was done under federal law when that law was amended in 1947. Any reform legislation should do so as well.

Another related problem with recognizing manager and supervisory positions involves the fact-finding process. During this process, the bill authorized the fact-finder to make a recommendation to resolve disputes over wages, salaries and benefits. As part of the authority given to the fact-finder by this bill, he/she can consider comparable positions in the private sector. Therefore, the managerial and supervisory positions of the public sector are being compared with the salaries and benefits being provided by private corporations and businesses. A public employer cannot afford to pay its managers and supervisors the salaries and benefit packages that many private corporations pay. A public employer cannot be expected to pay comparable salaries, and this bill would allow such a comparison. This concern would also apply to other public employee positions covered by the bill which would allow the fact-finder to make similar comparisons to private sector salaries and wages.

Still another problem with this legislation is that in Section 1307(a)(6) and (b)(3) it is an unfair labor practice for any party "to refuse or fail to comply with any provision of this Chapter or with the rules and regulations established by the Board pursuant to its responsibility to regulate the conduct of the collective bargaining under this Chapter". This provision is troublesome due to the fact that it gives the PERB the power to legislate what an unfair labor practice will be. Under the terms of the legislation, specific events or occurrences are defined as unfair labor practices. However, this provision would go beyond the specified unfair labor practice designated in the statute and failure to comply with the rules and regulations which are to be promulgated may exceed the authority which the Legislature intended to give the PERB.

Lastly, in the definition section the word "strike" is defined as any number of actions undertaken by a public employee. However, there is no reference to actions taken by the public employee organizations which have been certified as representing public employees. This would permit any action undertaken by the organization to not be construed to be a "strike".

It is in the best interest of any public employer to resolve their negotiations with their employees. The purpose of reform legislation in this area should be to make the collective bargaining process more efficient and effective in order that the parties may reach a mutually acceptable agreement. This legislation does not accomplish this and, in fact, may delay and prolong the process.

For the reasons stated above, I am returning House Substitute No. 1 for House Bill No. 100 as Amended by House Amendment No. 2 and Senate Amendments Nos. 3 and 9.

Respectfully submitted,
