## Fraternities Sponsor Christmas Festivities For Needy Children

Many of the fraternities decided to give Christmas parties or work on other projects for the underprivileged children and orphans in the vicinity. Most of these plans took the form of parties, but one fraternity gave stockings. Several took their young guests to the basketball game Tuesday night.

ATO, continuing in their tradition, gave a party at 7 p. m. Thursday for 33 children from Our Lady of Grace Home, Newark. About 25 orphans of 10-16 years of age from Sienna Hall in Wilmington were entertained at the Delta Shelter Tuesday night. Following the party, the Deltas took the children to the basketball game at Carpenter Field House.

The Phi Tau's had as their guests on Tuesday night 25 children from the Sacred Heart Home. There were games and refreshments, and afterwards they took their guests to the basketball game. Sigma Phi Epsilon invited 52 underprivileged children from the Newark school to the fraternity house after school for a party this week.

Theta Chi selected Our Lady of Grace Home at Ogletown to receive the stockings they have decided on as their project. The stockings were given Thursday night.

## Dormitories To Hold Joint Party Tonight

All students are invited to come to the Interdorm Christmas party tonight from 8 p. m. to 11:30 p. m. in Brown Hall lounge.

This Open House party is the second such event to be held this semester and will include dancing, ping-pong, games, and refreshments. Students are encouraged to come stag.

The party is being planned by the Men's and Women's Interdorm recreation committee under the direction of Charles Jacot, head resident adviser. The committees and final plans for the party were organized early in December. The interdorm committee was formulated last October for the purpose of planning interdorm recreation.

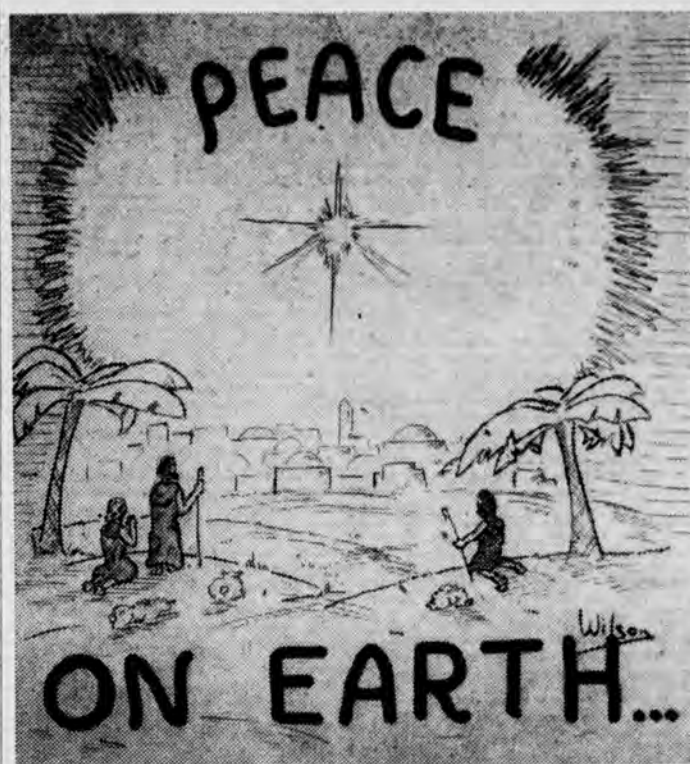

"If this party is a success, I'm sure the committee will be encouraged and plan more events for the next semester," stated Mr. Jacot.

## UD, Wilmington Library To Sponsor Lecture Series

Three special lectures have been scheduled by the University of Delaware and the Wilmington Institute Free Library for the first three months of 1955. The lectures will begin at 8 p. m. in the Wilmington Library Auditorium.

On Monday, January 17, Dr. Bernard Phillips, chairman of the Department of Philosophy, will discuss the subject, "Buddhism and the Arts of Japan." During the past two years, Dr. Phillips spent fifteen months abroad, a large part of which was devoted to teaching and study in Japan.

While in that country Dr. Phillips lived in Kyoto, the former capital of Japan and the widely

## Three Become E-52 Members At Christmas Meeting Monday

At a meeting of the E-52 University Theatre in South Hall Monday night, three new members were voted into the organization on the completion of their amassing 100 points required for admittance.

The new members are Mary Minkiewicz and John Lembrecht, sophomores; and Jim Sabo, a junior. Following the regular business meeting, a Christmas Party was held around the decorated tree which was pulled from the scenery deck. It had been used on the stage of Mitchell Hall previously.

Present at the meeting were the new members, most of the old members, Dr. Cyrus L. Day, Dr. C. Robert Kase, and Herman D. Middleton.

Two teams headed by Dr. Kase and Dr. Day played at charades following the distribution of the Christmas presents, which were given out to the players by the immortal Santa Claus. With many a fine bit of acting shown by the members of the two teams, the Day Dandies won out over the Kase Corsairs with room to spare.

Since costuming is a most important part of staging any show, it was fitting that a show of designing skill be displayed at the party. With a full sheet of the *Journal-Every Evening* and six straight pins for each

## DSTA Holds Co-operative Christmas Party With Ed Faculty Families on Dec. 9

The DSTA and the faculty of the School of Education and their families held a joint Christmas party in Old College on December 9. This was the first party of this sort at which the students and faculty were together.

First on the agenda was a co-operative meal. The faculty prepared spaghetti and tossed salad. The rest of the meal was furnished by the DSTA. Dorothy Brugge was in charge of getting plans for the meal together and of organizing the girls who were hostesses at the tables.

After the meal, a program planned by the students was given. The main feature of it was the presentation of "The Night Before Christmas." Narrator for this was Bobbie Simon, president of DSTA. Anne Herbst accompanied her on the piano. Other participants were: Janet Morris, Norma Parks, Lucy Darby, Ellie Russo and Jean Tull.

Lynn Backora played Santa Claus for the children of the faculty members.

Students in charge of the party in general were Bobbie Simon, Dorothy Brugge, Janet Morris and Betty Timmons.

### NOTICE

The last meal before the Christmas vacation will be the noon meal Saturday, December 18, at the Commons Dining Hall. The doors will be open till 1:30 p. m. Kent Dining Hall will not be open for this meal.

## 'High Society' Satire Scheduled By Juniors For January Program

"High Society" and all its "exclusive" atmosphere will be booming its way into Mitchell Hall on the evenings of January 6 and 7, when the Class of '56 presents the annual Junior Musical. Under the direction of Liz Parkhill and George Cavey, the Juniors are really busy getting the production put together.

From hypochondriacs to an "Opera without Music," the musical will satirize many of the aspects of high society. The "soloist" in the opera will be Mary Kesler. Mary Terrell and Sonny Riker will be featured in "Chrysanthemum Girls," which depicts life in the '20's.

Also featured will be a Girl's Glee Club from an exclusive boarding school which, under the comical direction of Penny Ernest, seems to be having more fun with the glee than the music; a combo in a night club scene, and some musical and dance solo numbers.

Rehearsals have been going on every night for the past two weeks, and the climax is yet to come.

Production manager for the annual event is Bill Brown; Jean Durgin is the accompanist. George and Liz have written most of the lyrics for the production. (We hear they have also prepared a duet number for themselves, which is sure to be an evening's entertainment alone.)

(Continued on Page 3)

Tonight at 6:30 in Old College the Men's Faculty Club will celebrate the season with a Christmas dinner for members and their wives or special guests. Mr. Robert J. King will lead the group in Christmas carols. A card party will follow the dinner.

(Continued on Page 3)

## Alpha Zeta Plans Farm-Home Week

Alpha Zeta is planning its annual Farm Home Week activities on the 8th, 9th, and 10th of February in conjunction with Home Economics and Agriculture Departments. AZ is going to follow last year's successful Farm Home Week by serving meals at the Ag Building. Platters of sandwiches, milk, ice cream and pie will be the bill of fare at this school sponsored activity. The program will consist also of displays on agriculture and instructor's lectures on their research.

The next meeting of AZ will be held on January 23 at 7:30 p. m. in the Ag Hall.

## Dorn and Kirchner to Debate In History Club Session Jan. 3

"The Value of the Russian Economic System of Today Compared with its Past Economic History" is the title of the debate which Dr. Herbert Dorn, chairman of the Department of Economics, and Dr. Walther Kirchner, associate professor of history will give on Thursday, January 6, at 7 p. m. in Old College Lounge.

The program, which will be conducted in an informal manner, will begin with a discussion on the subject, which will include the audience, and build up to a debate.

Dr. Kirchner has written three books, one of which was published in Germany. He recently completed one called "The Baltic Problem," which was published by the university.

Dr. Dorn is one of the leading

figures on economics. He was financial secretary of Germany during the Weimar Republic and later was group consultant of the United Nations' UNESCO. He organized and has been chairman of the conference on "World Economic Development," which is held on campus.

At a later date, the history club, which is sponsoring this debate, will form discussion groups to talk over this and other world problems; they will try to reach some solution for themselves. These problems are neglected both in economics and history because they are too technical.

Everyone is invited to attend the debate. Refreshments will be served.

## Reading Knowledge Tests For Modern Languages Scheduled For January 14

Friday, January 14, at 4 p. m. marks the time for the reading knowledge tests to be given in German, Spanish and French.

The passing of a reading knowledge test is required of all students in Arts and Science and secondary education, except those who matriculated in an accredited college before September, 1954.

Students who are completing or have completed the second year college course (104) and others judged competent by the modern language department for special reasons are eligible for admission to the tests.

Information concerning the requirements may be secured in the Registrar's Office or in the Modern Language Office, 214 Hullihen Hall.

## Get Acquainted

# Dr. Ronkin Busy Man With Many Activities

By JANET BONIN

Dr. R. R. Ronkin, always busy with his numerous activities both on and off the campus has been distinguishing himself and the university through his research on modern trends in science.

Dr. Ronkin, who holds the position of associate professor of biological sciences here at the university, graduated from Stanford University. He attended graduate school at the University of California in Berkeley. In 1949 Dr. Ronkin received his Doctor's Degree in Zoology, following which he came to the University of Delaware.

Dr. Ronkin's experiments involve the use of energy by living cells and the important principles all cells have in common. The Office of Naval Research contributes to the support of his research program. As his particular field is advancing very rapidly, Dr. Ronkin spends his summers doing full time research keeping up with the modern trends.

The work done by Dr. Ronkin in the university is varied. He teaches elementary physiology, general physiology and introduction to biological literature. Most of the time, however, is spent in preparation for classes and labs, advising students and working with advanced graduates and undergraduates doing individual work.

What time Dr. Ronkin has for outside interest, he likes to spend listening to music. He is secretary-treasurer of the Sigma Xi Club, a graduate scientific fraternity on campus, and is treasurer of the Marine Biological Laboratory Club, a social club for scientists, in Woods Hole, Massachusetts.

Dr. Ronkin lives with his wife and two children, a boy of three years and a girl of eight months, in Brookside Park, Delaware.

## Art Expert Speaks On 'Ancient Dream'

The fourth session of the 1954-55 Wintefthur Program in Early American Culture was held in the Wolf Hall auditorium, Wednesday, December 8. Dr. Edgar Richardson, director of the Detroit Institute of Art, discussed "The Dream of Antiquity." This lecture was concerned with the Italian influence on nineteenth century American painting.

A graduate of Williams College, Dr. Richardson joined the Detroit Institute of Arts in 1930 as educational secretary. He became assistant director in 1934 and has served in his present position since 1945. He has studied painting at both the University of Pennsylvania and at the Pennsylvania Academy of Fine Arts.

## Christophers Offer Student Chance In Script Writing

The Christophers are inviting the college students of the United States and Canada, who have a writing talent, to write stories for television. Television producers and directors feel that they need "more fresh, new ideas which express depth, warmth and originality". There is a possibility of winning 19 different prizes which are divided as follows: first prize-\$1,000, second prize-\$750, third prize-\$500, fourth prize-\$250.

There are also 15 other prizes of \$100 each. Contestants have a choice of these five subjects: Teenagers Can Shape the Future, Improving Labor Relations, Earnings and Property, the Right of All and Changing the World Through the Housewife.

Entries should be in story form and should have sufficient dramatic interest to serve as a script which would have wide appeal for the general TV audience. Each story should reflect powerful motivation that springs from love of God and others rather than mere protection of self.

Fictional and factual stories are acceptable. Each entry should be about 1,500 words. Each entry should be typed and have the author's name and address on the first page. It should be stated in advance that no prizes need be given. If in the opinion of the judges no stories submitted merit a prize.

Due to the large expense involved in handling such a contest, no entries will be returned. All entries become the property of the Christophers. If any are sold for television or movies other than the Christopher program, the entire amount paid for a story will go to the author. This Christopher Contest is open to all college students in the United States and Canada. Closing date of contest is March 31, 1955.

Address all entries as follows: Christopher College Student Contest, 18 East 48th St., New York 17, N. Y.

## Math Majors See Many Job Openings

Openings for mathematicians have been announced by the United States Civil Service Commission.

Graduates with bachelor's or master's degrees are needed to perform research in basic mathematical theory or related theoretical, analytical or evaluation mathematical calculations and computations in scientific fields.

Salaries are set at \$3410 for the GS-5 level in civil service ranking, and \$4205 at the GS-7 level. Requirements for the former are met by completion of a four-year course leading to a bachelor's degree, including at least 24 semester hours in mathematics and 12 semester hours in the physical sciences. The courses must include analytical geometry, differential calculus, integral calculus and any four of the following:

Trigonometry, theory of equations, vector analysis, statistics, higher algebra, differential equations, advanced differential equations and advanced integral calculus.

Candidates who have completed the study required for a master's degree in mathematics or related fields may be considered for GS-7 level positions.

Senior or graduate students who expect to complete scholastic requirements for this examination within six months may submit applications.

For further information contact the Placement Bureau, Furnell Hall.

## UD To Emphasize Intellectual Activities Through Campus Life

More student failures are due not to limited ability but to "lack of motivation, a desire to learn," stated Dr. John A. Perkins, university president, in his annual report to the trustees.

Learning lacks appeal, chiefly because students today grow up in a "social climate" which honors success on the athletic field or in social affairs more than it does intellectual achievement.

As a result the university is "making a considerable effort to emphasize intellectualism in campus life as well as in the classroom," being revamped to "capture interest and motivate students."

## Dr. George Gamon To Lecture At UD

The Physics Department will sponsor a lecture by visiting scholar Dr. George Gamon on Monday, January 10.

Dr. Gamon is noted for popularizing science for the laymen, and his talk is expected to take this trend. He is a member of the faculty at George Washington University and a well-known theoretical physicist.

Dr. Gamon is the author of several books in which he makes use of humor and commonplace occurrences to demonstrate some of the principles of science. On this subject, he has written *1-2-3 Infinity* and *Mr. Tompkins in Wonderland*, which are available in pocketbook editions.

Dr. Gamon has also done research into the creation of the universe. He has contributed to the theory that the origin of our planetary system was by an initial explosion.

The talk will take place in room 6, Recitation Hall, at 8 p.m.

## U of Oslo To Offer Variety Of Courses In Summer Term

The University of Oslo Summer School announced its ninth session to be held July 2 to August 13, 1955, in Oslo, Norway. Courses will be offered in the fields of humanities and social studies, education system of Norway, graduate seminars in Norwegian education, literature and social and political problems. The summer school will also feature two new courses in physical education in Scandinavia (with special emphasis on Norway). All classes will be conducted in English and an American member is on the administrative staff.

Six semester hour credits may be earned in the six weeks' course and the session is approved by the U. S. Veterans Administration for Veterans. Applicants should have completed their freshman year.

Students will leave New York on the S. S. Stavangerland, June 22, 1955.

For a catalogue of courses, preliminary application material or any further information, write:

Oslo Summer School, Admissions Office, c/o St. Olaf College, Northfield, Minn.

## University Lecturer To Moderate Scientific Group Meeting Tomorrow

Dr. George J. Boines, retiring president of the Delaware Academy of General Practice and a special lecturer in biological sciences for the University of Delaware, will act as moderator for the opening meeting of the Third Annual Scientific Session of the Academy tomorrow at the Kent Manor Inn.

Following registration at 9 a. m. and a welcoming address by Dr. Eugene Szaikowski, chairman of the Educational Program Committee, four panels will be held on special topics of interest: "Drug Treatment of Hypertension," "Anticoagulants—Clinical Application," "Trypsin—The Pharmacology of the Drug," and "Trypsin—Clinical Uses."

Following a luncheon meeting under the chairmanship of Dr. Harry Taylor, three other scientific topics will be considered: "Diagnosis and Treatment of Rheumatoid Arthritis," "Physical Medicine and Rehabilitation in General Practice," and "Public Relations in Medical Practice." Dr. Martin B. Pennington will serve as moderator for this portion of the program.

In the evening, Dr. Harold A. Tarrant will serve as chairman of a dinner meeting at the Brandywine Country Club. Dr. Wil-

liam B. Hildebrand, president of the American Academy of General Practice, will be the principal speaker, and five Delaware physicians, each distinguished by more than fifty years of general practice, will be honored.

IT'S A FACT! College smokers prefer Luckies to all other brands—and by a wide margin—according to the latest, greatest coast-to-coast college survey. The No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Now for the Droodle above, titled: Inept smoke ring blown by ept smoker. He's ept, of course, because he smokes Luckies. Be ept yourself and enjoy the better-tasting cigarette . . . Lucky Strike.

Better taste Luckies...

## We Can Help

## The University Grow

With only six more shopping days until Christmas, the problem of presents becomes acute; many of us are wringing the last cent out of our purses to buy a gift for someone near and dear. All of us at the university, however, have, during the coming holidays, an opportunity to make a gift that will cost us nothing to what is at present, perhaps, the chief influence on our lives, the University of Delaware.

Shortly after the end of the holidays, the new session of the General Assembly will convene in Dover, and one of the most important items on the agenda will be the university's budget for 1955-57. It is a big item, and it will be scrutinized closely by the legislature. It is a big item, but it represents the needs of one of the state's biggest institutions, which is growing bigger all the time. The university is requesting an increase in the annual appropriation and, in addition, a capital expenditure to meet building requirements not covered by the usual appropriation.

The university is asking more money, and it needs it. Students who are interested in their education and of those classes to come in the future can make their Christmas present to the university a holiday embassy among parents and neighbors at home whose representatives will soon vote on these requests.

Both the increased annual appropriation and the capital expenditure requested by the university are directly linked to the rise in enrollment soon to begin and to the steady rise in living cost which affects the university as much as any family in the state.

Increases in the annual budget are needed to cover such things as new faculty for additional students and salary increases to permit the university to retain its experienced personnel against the competition.

Construction will soon begin on a new south campus dormitory and a combined dining hall-student union building. The money for these structures will be provided from the university's private resources and will be repaid over a thirty-year period primarily by the students, through the dining hall, snack bar and room rents; so students have a legitimate interest in the building program and the right to create support for that program at the grassroots level of their own communities.

We, our families and our neighbors are the source of political power in Delaware; and both as private citizens and students we have a vested interest in this university. The coming holidays are the time to begin looking after it.

## 'Neath the Arches

By Marty Baldwin and Jack Mealey

Emancipation time is here! Judging from the sunken eyes and haggard looks about campus, it's well-earned liberty. Christmas spirit is at its peak today as refrains of "Hark the Herald Angels shout, one more day till we get out" fill the halls of the U. of D.

Last weekend the campus had the greatest pre-holiday fling. The dance was well attended on Friday night, and the decorations were beautiful. Congratulations to the Freshmen and Sophomore classes for a fine job of decorating. An added attraction to the dance were intermission parties held by ATO and PIKA.

Saturday night Christmas spirits were high with the Sig Eps who really "shook a hand" to the accompaniment of Mike Pederson. Rumor has it that Pete Ghon and Bill Patterson lost several pounds—they didn't miss a dance. Yes! Yes! Yes!

SN had their annual Christmas party with a jolly Santa—Sandy Whitney. He brought appropriate presents for all, but why did fate give Dog Soap to Sue Wren?

The OXettes threw a tremendous party for the brothers featuring "The Night Before Christmas." Although the poem was clever, OX says the chorus line was best of all, even little OX was out there howling. Penny Ernest and Shirley Conway certainly looked cute with those OX's on their "?"

"A Midsummer Night's Dream" was excellent. The whole cast did a good job, and they were well rewarded at the party which followed. Judy Kase has the right method of throwing parties—too bad we don't have a play every week, isn't it, Irv?

Some of our graduate campus commandoes are putting their newly learned tactics into effect. First of all, congratulations to Norm Williams, our former Regimental Commander, on his engagement to Kay Knighton. Also congrats to Gene Holland on his engagement to Marcia Stamler. Best wishes to Bob Trader who came all the way from California to become engaged to Charlotte Phillips.

Hope you all have a great vacation!!!!

## Impressions

By JEAN EVENSEN

Should students have limited cuts? That was the question of the week. Most of those questioned answered in the negative, although some students thought it was a good idea. The following are the replies:

Joseph Camp: Students should not have limited cuts because by the time they get to college they should have a sense of responsibility and know whether or not they can cut a class. By limiting cuts, the university is not helping the students to grow up and make their own decisions.

Bea Clark: I don't think cuts should be limited because the students should be able to make up their own minds about what they want to do. Students should not be forced to go to a class, and if they are forced there is no incentive to learn what is taught.

Turner Edge: I don't think it would hurt students to have limited cuts. If a student is not prepared for class, it is a temptation to cut; and this is when they should definitely go to class. A freshman has enough cuts because if any emergency arises, the instructors are very cooperative.

Lec Lang: Students should not have limited cuts because if they don't know enough to go to class when they are flunking, then they might as well flunk. Mary Lou Miles: I think students should be allowed to have unlimited cuts because there are many reasons why a person cannot get to a class, such as sickness, studying for another test, having to go home, etc. Students should be able to use their own discretion.

## Taken For Granted

JACK GRANT

Eleven American airmen—here are three catch-words which are certainly getting plenty of attention as the latest focal point of the ever continuing cold war. It seems to be an issue to which anyone can contribute his "two cents worth" in any discussion of the matter. However, it seems that if the discussion is continued beyond the preliminary stage, one will eventually resolve the problem down to the basis of how cold war ought to be waged. Don't we wish that this "64 dollar question" could be answered as readily as adding two and two together, the results of which would be satisfactory to all concerned.

What is the best means for winning a cold war, particularly the task of securing the freedom of the American Airmen? We don't profess that our analysis will be anything more than an outline of the steps leading up to the achievement of this task.

First we must assume that the airmen were not spies. Then seems that the basic problem is one of realizing that the parties concerned, with respect to the captive airmen, cannot negotiate on the same standards of justice, international law, morality, anything else along this line. If there are no common standards upon which a settlement can be reached through negotiation, then, can a dispute be resolved? Either a common denominator must be found, even if only for an isolated incident, or else one of the parties concerned must resort to some means of coercion.

At the present time it might be said that we are striving for a common denominator with Red China. We have asked the United Nations to plea with the Communist Government in China on grounds that their action is contrary to the terms of the Korean armistice. If, though, the fulfillment of international agreements is not part of Red China's standards, can we expect the pleas the UN to yield any results? Time will tell.

If grounds cannot be established for honest settlement disputes, (and history, if nothing else, seems to be proving the fact), what then is the next step? Perhaps it is appeasement, the is, yielding to an injustice on the grounds that it might be the last unjust demand of the opposition. It might be argued, though, that this means is wrong in and of itself. The same argument might also apply to "international blackmail," that is, the payment of a sum of money, or admittance into the UN.

Our next means of securing the freedom of the airmen would be some sort of coercion. The use of political coercion would be rather difficult. We can't withdraw recognition since it doesn't exist; we can't suggest removal from the UN, since Red China is not a member; nor can we refuse to return her prisoners, since such has already been done. We might use economic coercion, but since there is hardly any trade with Red China as is, this would hardly prove much. We might blockade their coastline, so as to prevent all trade, but this action would be partly military, if not mostly so. That sort of brings us to the end of the line, short of all-out war. This would hardly be along the lines of "peaceful co-existence." The only trouble with this, however, is that it takes two to co-exist, just as much as it takes "two to tango."

We don't offer this analysis as a position to be maintained by argument but merely as a means of tracing the circumstances, some of which will probably evolve around the captive American airmen.

# What have VICEROYS got that other filter tip cigarettes haven't got?

THE ANSWER IS  
**20,000 FILTERS**  
IN EVERY VICEROY TIP

Inside every Viceroy tip is a vast network of 20,000 individual filters to filter your smoke over and over again. You get only the full, rich taste of Viceroy's choice tobaccos . . . and Viceroy's draw so freely.

Yes, you get Viceroy's remarkable new tip . . . with 20,000 individual filters . . . plus king-size length for only a penny or two more than cigarettes without filters.

Only a Penny or Two More than Cigarettes Without Filters

## Fraternally Speaking

### Tbeta Cbi

Friday night saw many of the brothers and their dates dancing to the music of Ray McKinley. Among those in attendance were Nick Mergo and Peggy Woerner, Joe Evan and Barbara Snyder, Dan Ford and Jody Reeger, Pete Braungart and Lou Mauro and Duke Shelton and Joan Stevens. Congratulations to the sophomore and freshmen classes for their terrific decorations.

Saturday night there was a small blast under the direction of Penny Ernest. Her rendition of "Night Before Christmas" was hardly the version young children should hear but nevertheless was enjoyed by all.

Judy Oliver as the emcee of the evening was highly entertaining, although she didn't know one joke—to tell, that is.

Belated congratulations to two of the brothers who recently pledged ODK—Joe Major and Stan Wojciechowski.

### Alpha Epsilon Pi

Everyone has problems, but Brother Stan Sirkin was really confused. Poor boy—he was having trouble in choosing the color of his new car. Finally after hours of deep thought, he selected a gold and white Chevrolet.

We were fortunate this week in having George Toll, executive secretary of AEPI and Louis Scherr, a member of the Supreme Board of Governors visit us.

Our two best pledges returned jubilantly from a trip to our KA Chapter at George Washington University. Light-headed but happy, Alvin and Norman were seen swinging from telephone pole to telephone pole in the nation's capitol.

The house was comparatively quiet this weekend as many of the brothers made the safari to Wilmington.

### Delta Tau Delta

Jolly old Saint Nick made his appearance last Saturday night at the Delta house in the person of Stout Steve Seidel, who gave witty comments out along with clever gifts. Seriously, though, we thought it was a fine party: no great combo, no great belly laughs, but just a plain old good time had by all. We owe a bit of indebtedness to Brothers Wheaton and Richter for their excellent job of decorating the Shelter with various and sundry cedar branches.

Brother Wilson went a bit overboard in his outside decoration; i.e., a creation with brown shaggy fur, black horns and a rather well fed appearance, called "Rudolph." Supposedly a reindeer, we can't quite see it, but . . . oh, well!

### Sigma Nu

Well, we have come down that long road that leads to the day before Christmas vacation, and are we glad to see it come! Many of the brothers will be seen carrying sacks on their backs this vacation, delivering mail for Uncle Sam.

Our house party last Saturday closed out our social activities for 1954 with a real bang. It was our annual Christmas party complete with St. Nick. With the help of a few pillows, Sandy Whitney provided us with a Santa and brought gifts for all of our seniors.

The eight o'clock classes were a little more crowded this past week. Seems like Ed Malinowski wanted to stay in shape after football season and was using his job of waking for exercise. It's a very odd feeling to be up on your feet and walking down the stairs before you are even awake.

### Alpha Tau Omega

Alpha Tau Omega extends its best wishes to all for a happy holiday and the best of luck in the New Year.

Last night our doors were opened to the children of Our Lady of Grace Home. After a visit from Santa, all the children had a great time eating ice cream and cake. Although the house is demolished and the brothers worn out, we hope to have them at 5 West Main again next year.

Santa made an early visit last Saturday night with surprises for all. Among the more useful gifts were: swamp root, water wings, a machine gun and quack bones, and brother Crewe now has a fine collection for his gallery!

Congratulations to Brother Holbeck upon being initiated into Tau Beta Pi.

### Sigma Phi Epsilon

Last weekend was still another big time for the men behind the red door. Recounting some of the highlights and escapades, the Sig Ep contingent at the Christmas Formal was led by Frank White and John Tuley with their pinned partners. However, Saturday seemed more eventful as many were found listening to the words of wisdom of the "Shake a Hand Man." Seen doing their share of living it up were Frank White and Bobbie Holmes. On the same night Pete Gohn, Bill Paterson and Joe Samluk were trying out their new dance routines (Yas, Yas, Yas.). Joining in the festivities later were the Sig Ep's contribution to the acting profession—Irv Rlnard and Dick Haines.

### Phi Kappa Tau

The Phi Kappa Tau house is overflowing with holiday spirit after two very successful Christmas parties. On Saturday the 11th, Santa Claus came bounding down the stairs to the delight of the brothers and their dates. Following Santa was a young lad, who was trying to convince Santa that he was old enough to receive Marilyn Monroe in his stocking.

The following Tuesday we held our annual orphan's party, and again Santa was there with presents for everyone.

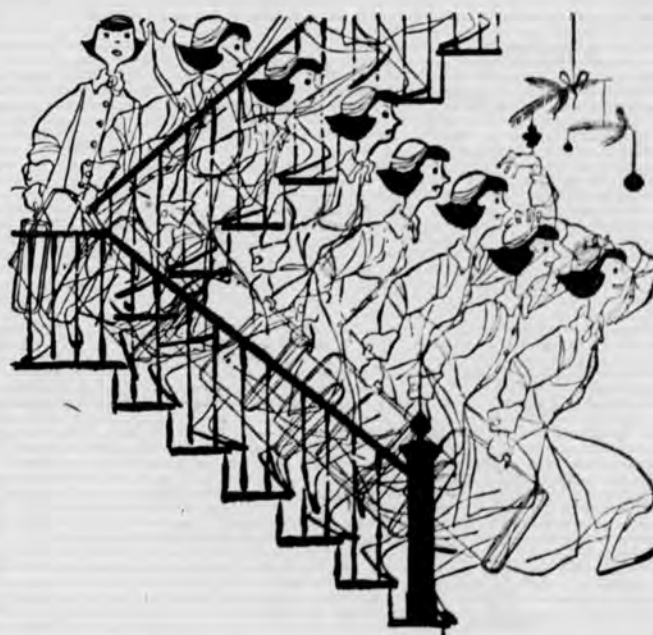

The basketball team has compiled a 2-1 record, as they are on the upgrade after their one loss. Although the entire team has gotten a chance to play, Brothers Zappala, Woodward, Frey, Deychen, Eipper and Pledge Steltz are on the starting team.

### Kappa Alpha

Christmas spirit is ever present at the Kastle, for this past weekend we ushered in the season with a Christmas Party and a visit from Santa Claus. Santa really had some rare gifts for the brothers' dates—ask Jack Presnell and Earl Webb. Now we can hardly wait for that last class and a good long vacation.

Sunday night found the brothers gathered around the fireplace for some popping of corn. We ended up using an electric popper, but the fire really burned the marshmallows to a tasty treat. Chris, back after a leave of absence, joined in and became the champion popcorn eater.

To all we wish a Merry Christmas and a Happy New Year with the hopes that finals don't start it off on the wrong foot.

When you pause...make it count...have a Coke

Delaware Coca-Cola Bottling Company

## Four Blue Hens Receive Positions On All-Conference Gridiron Team, Delaware Dominates Second String

Four Delaware football players were selected for positions on the first string All-Middle-Six Conference football team. End Tom Redfield, tackle Steve Butcher, quarterback Don Miller and halfback Jimmy Flynn were picked in the poll of the sports editors of Middle-Six college newspapers, conducted by the Lehigh Brown and White.

Blue Hens also dominated the second team, as end Marty Apostolico, guard Bob Trivits, center Frank Gyetvan and halfback Jim Zaiser were selected. The rating was based on one point for each first place vote and one-half for a second. Six newspapers participated.

### FIRST TEAM:

Ends—Tom Redfield, Delaware (unanimous vote); Tom Failace, Lehigh.

Tackles—Steve Butcher, Delaware; Tony Saddler, Muhlenberg.

Guards—John Chironna, Bucknell (unanimous); Hank Poppel, Bucknell.

Center—Russ Hedden, Lafayette.

Backs—Don Miller, Delaware (unanimous); Jack McDonald, Muhlenberg; Bryan Satterlee, Lafayette; Jim Flynn, Delaware.

### SECOND TEAM:

Ends—Dick Werkheiser, Muhlenberg; Martin Apostolico, Delaware.

Tackles—Marion Minker, Bucknell; Barney Wiley, Lehigh.

Guards—Bob Trivits, Delaware; Carl Beck, Gettysburg.

Center—Frank Gyetvan, Delaware.

Backs—Bob Ford, Bucknell; Frank Gagliardi, Gettysburg; Jim Zaiser, Delaware; Tom Gloede, Lehigh.

The Review staff picked on the nose eight out of the eleven first stringers.

## Hutton Scores High In Freshman Defeat

The Frosh basketball team lost their second game of the season 59-53 against the Lehigh frosh despite the high scoring of Don Hutton, former Salesianum star.

Hutton was high scorer of the game with 15 points. Cecil Shirey and Paul Measure were runners-up with 9 and 7 respectively. Shirey, from York, Pa., continually controlled the rebounds throughout the game and Measure, from Neptune, N. J., has been constantly making a high percentage of his shots.

Coach Bob Siemen is very pleased with his team, and expects them to make a good showing in the remainder of their games.

The results of last Wednesday's game against the Lehigh Frosh are as follows:

| Lehigh Frosh       | Delaware Frosh     |
|--------------------|--------------------|
| G. F. P.           | G. F. P.           |
| Nestuk, f. 0 0 0   | Flood, f. 2 2 6    |
| Hummer, c. 4 2 10  | Shirey, f. 4 1 9   |
| Harris, f. 0 2 2   | Measure, f. 3 1 7  |
| Brodbeck, f. 0 0 0 | MacFnd, c. 1 0 2   |
| Watts, f. 5 0 10   | Walls, c. 1 0 2    |
| Schum, y. c. 2 4 8 | Hutton, g. 6 3 15  |
| Hartman, c. 1 0 2  | Atkinson, g. 2 2 6 |
| Roepke, g. 2 5 9   | Hoffman, g. 2 2 6  |
| Healey, g. 3 9 15  |                    |
| Newkirk, g. 1 1 3  |                    |
| 18 23 59           | 21 11 53           |

## Delaware Gridders Rated High In Nation According To Latest NCAA Statistics

Delaware ranks high in football among the nation's small colleges according to final figures published by the National Collegiate Athletic Association.

In team standings, the Blue Hens rank fifteenth in rushing offense in the nation. In nine games they piled up 3329 yards in 578 plays for 369.9 yards per game. Delaware's pass offense stands twenty-fourth. They completed 73 passes in 132 attempts, had four intercepted for a percentage of 55.3. The passes were good for 1185 yards for an average of 131.7 per contest. Eight throws went for touchdowns.

## Grande Wins Spot On Chemical Group All-American Team

Selection of the 1954 All-Chemical All-American football team is announced in the current issue of the American Chemical Society's weekly Chemical and Engineering News.

This All-American eleven is a truly scientific team, for each player is not only an outstanding gridiron star but also a high-ranking student in chemistry or chemical engineering at an institution accredited by the American Chemical Society. In listing their selections, the editors pay tribute to the students for helping to destroy the myth that technical studies and sports do not mix.

Members of the 1954 team are: Backs—Freddy Wyant, West Virginia; Dave Woolwine, Virginia Military Institute; Calvin Hallada, University of North Dakota; Tom Jenkins, University of Pittsburg.

Linemen—Bruce Bosley, West Virginia; Eugene Anderson, Colorado College; Bill Boyer, Franklin & Marshall; Neal Egan, Montana State; Vince Grande, University of Delaware; John Henn, Princeton; Bob Luttrell, Virginia Tech.

End Vince Grande of Watertown, N. Y., is majoring in chemical engineering at the University of Delaware. The big senior is described by his coach as the team's "most improved ball player."

Six of the 1954 selections were on last year's All-Chemical All-American squad and one, Freddy Wyant of West Virginia University, was named to the first team chosen by the magazine in 1952.

## Grapplers Seek First Win Over Haverford Tomorrow

The Blue Hen "grapplers" will go out after their first win tomorrow at the expense of Haverford College, at Haverford. Last Saturday, the matmen were crushed by a strong Lafayette team 25-3. Lafayette, who was undefeated last year, made the victory their 11th straight over two seasons.

The only bright light for Delaware was Captain Dale Boyd's decision over his opponent, Herb Nickel, who was pinned in the first period, lost to Fred Braun, last year's 177 pound Middle Atlantic champ.

The Hens rank twelfth in rush defense, having held their opponents to 699 yards in 326 plays for an average of 77.7 yards per game. In individual statistics, Don Miller ranks twelfth in forward passing. He completed 60 of 103 attempts, had two intercepted for a percentage of 58.3. His passes racked up 1022 yards, and he tossed seven touchdown passes.

Jimmy Flynn is rated 31st in the nation in individual rushing. He piled up 705 yards in 103 plays.

## High Scoring Smith

## Blue Hen Of The Week

Jimmy Smith, guard for the Blue Hen basketball team, played a dazzling game Saturday by scoring 23 points against the Lafayette courtmen. He scored ten field goals and three foul shots. Jimmy has a total of 33 points this season and ties for second place in the scoring department with Jack Waddington.

In the first three games this fall, Jimmy attempted 39 field goals and was successful 14 times for a 35.9 percent average. He has the highest percentage on the team for foul shots by dropping 5 out of 6 into the basket. This gives him the high average of 83.3 percent.

This fall Jimmy, as a Sigma Nu pledge was picked to play quarterback on the All Star Intramural Football Team.

Jimmy, who is that red-headed 5' 11" sophomore, was nominated by the coaches to be on the Southern Conference Freshman basketball team last year when he was the leading freshman scorer.

Before coming to Delaware, Jimmy played basketball at P. S. DuPont High School and was picked on the All-State basketball team. He not only starred in basketball, but he got the position of quarterback on the All-State football team.

Even though Jimmy, who is majoring in Business, excels in basketball, his most outstanding sport is baseball. During the summer he plays semi-pro baseball.

## Hens Sink, 45-39, In Opening Meet

The Delaware Mermen were edged out last Saturday at Taylor Gym by a strong Lafayette team, 45-39, when the Leopards swept to a victory in the 440-yard relay. The Blue Hens had led, 39-38, before the relay.

Delaware opened the meet with a triumph in the 300-yard medley relay. Capt. Bob Wagner followed with a second place in the 220 freestyle, while Marty Apostolico, who recently finished a season with the Blue Hen football team, captured third in the 50 yard freestyle.

Tom Duff and John McDaniel dominated the individual medley taking first and third places for Delaware. State diving champion Jack Ryder and Apostolico, in the diving competition, captured first and second spots. First and third in the 200-yard backstroke also went to the Mermen, as Bruce Stewart and McDaniel finished in the top three. Wagner took second in the 440-yard freestyle.

## Hen Cagers Conquer Rutgers, 69-62 For First Break Into Win Column, Jim Smith High Game Scorer With 17

The Blue Hen cagers scored their first win of the season Tuesday night with a 69-62 win over Rutgers with Jim Smith, a sophomore guard, spearheading the attack with 17 points.

A fast moving game from the opening toss-up, Delaware took the lead early and led 18-14 at the first quarter, only to lose the advantage at the half with a tie of 36-all.

## Touchdown Club Names Don Miller Outstanding Player

By Frank Garosi

If success and achievement were measured in feet and inches, Don Miller would be a veritable giant; if talent was measured in years he would be a regular Methuselah; and if recognition of these things was measured in wisdom he would rival Solomon.

The latest token of the public's appreciation for his athletic endeavors was the award he received from the Wilmington Touchdown Club as the outstanding senior football player in Delaware. At the banquet which was held on December 7th, and to which the entire Delaware team was invited, Dan Ford was the recipient of the J. Baker Memorial Trophy as the player who has made the greatest contribution to team morale in his career.

Don Miller's honors and awards have been as notable as his gridiron achievements. During this past season he completed 60 passes for 1,022 yards and seven touchdowns. His overall record for four years is 220 completed passes, 3,108 yards gained, and 36 aerial touchdowns. Those 36 career touchdowns\* passes thrown by Miller set a new Eastern Intercollegiate Football Association record previously held by Princeton's Dick Kazmaier.

In 1953 he was named to a third team Little All America berth, given an honorable mention on the All-East team and was chosen as quarterback on the Mythical Middle Six All-Conference team.

This year Miller was awarded the distinction of being selected to the Little All-America first team. He was given an honorable mention on the A. P. All-East team along with Tom Redfield. For his part in Delaware's 51-13 romp over Temple, in which game he hit 7-for-7, gained 167 yards and threw two TD passes, Miller received the coveted Philadelphia Maxwell Club Award.

During the Blue Hen's successful invasion of the Refrigerator Bowl he won the William A. Carson Outstanding Award for the most valuable player. The Hoosiers must have been really impressed by his play because at the time of the voting Delaware was not in the lead but was actually trailing, 7-6.

The Scarlet from New Brunswick, N. J., took the lead in the second half with a 51-49 edge, but soon lost it with Jack Waddington's two foul conversions. With time of the essence in the final half, Smith began his scoring drive and sent the Delaware five ahead with a 53-51 score. Smith finally became the hero of the night when he made nine points during the last five minutes of the game. For the loss, Center Wally Olson and Forward Bill Beindorf each dropped 16 points through the loop.

In the preliminary, Delaware's freshman quintet also came through with a 70-55 score over Brown Prep of Philadelphia.

| Rutgers                          |    |       | Delaware     |    |       |

Halftime—Delaware 36, Rutgers 18.

**LAFAYETTE GAME**  
The Hen cagers were defeated by a strong Lafayette squad last Saturday by a 86-64 score. Delaware played a good offensive game, but their defense was what hurt. George Young, Lafayette forward, scored 33 points to give the Leopards a decisive margin.

Jimmy Smith, sophomore sensation from Wilmington, Delaware, was high scorer for the varsity five with 23 points to his credit. Smith scored at will and was deadly from all parts of the floor, but this wasn't quite enough to stop Lafayette.

Co-captain Pete Kelleher scored 12 points for the losing cause, while Jack Waddington contributed 8 points for the Hens.

At the halftime Lafayette led 43-24. The Hens came within 8 points, but couldn't seem to keep up their drive. Don Miller, ex-footballer, replaced Bob Messick who was suffering from a sprained ankle. Ed Kwiatkowski was also unable to participate because of a sprained ankle.

## UD Cagers Enter Hofstra Tournament Third Straight Year, December 27-30

For the third season, Delaware's basketball squad will enter the Hofstra College Christmas Invitation Basketball Tournament which will be held from December 27-30 on the Hofstra College court in Hempstead, New York.

The other teams entered in the tournament are Courtland State Teachers, Wagner, Marietta, Lafayette, St. Peters, Lehigh and Hofstra. The seeded teams are Wagner, Courtland, Lehigh and Lafayette.

The round-robin eliminations begin on Monday, December 27, with Delaware facing second-seeded Courtland and the host Hofstra team meeting third-seeded Lehigh. On Tuesday the losers of the Lehigh-Hofstra game and the Courtland-Delaware game will play, and the

other four teams will begin play with Lafayette vs. St. Peters and topseeded Wagner vs. Marietta.

Thursday the winners and losers of the Lafayette-St. Peters game and the Wagner-Marietta game will play each other and the winner of the Courtland-Delaware game will play the winner of the Hofstra-Lehigh game. On the 30th of December, the Championship, third place and consolation finals will be held.

In the first Hofstra Invitation tournament that Delaware participated in, the Blue Hens defeated Wagner 90-86, lost to Courtland 58-50, and topped a Hofstra team meeting third-seeded Lehigh. On Tuesday the losers of the Lehigh-Hofstra game and the Courtland-Delaware game will play, and the

# SPOTLIGHT ON SPORTS

By DAVE TOMPKINS

With the close of one of the longest and greatest football seasons in Delaware history comes the awful realization that fourteen seniors, mostly first stringers, are graduating. Thus, the inevitable question — how will the team stack up next year?

"Admiral" Dave Nelson looks at the situation rather optimistically. "Our two main problems," he stated recently, "are to find a replacement for Don Miller and the question of depth." The starting line-up as it appears now is potentially sound. In the fullback slot there are two outstanding candidates, Andy Wagner and John Oberg. Halfback positions can be capably filled by Jim Zaiser and Bob Moneymaker. Bob Hooper will probably move in at quarterback.

On the line, there are two excellent ends in Vince Grande and Carmen Cella. Other leading line prospects are Nick Mergo and Jim Shelton, tackles; Tommy Thomas and Jerry Weis, guards; and Lenny Williams, center. Nelson stated emphatically that all positions are open to all comers. A real indication of how the team will line-up cannot be gained until spring practice.

On the surface, it appears that Delaware should have a better than average season. But fans just might as well forget any possibility for a repeat on this year's record unless some unexpected great talent rises from the freshman ranks, for Nelson has a tremendous rebuilding job confronting him in the second and third teams.

Speaking of rebuilding jobs, we don't envy the problem which now faces basketball coach Irv Wisniewski. He must find replacements for last year's leading scorers, Frank White and 6'7" Jim Kinch. "Whiz" is attempting to build an all-round offensive and defensive unit. The outcome of the campaign will depend largely on the development of sophomores and juniors, for co-captains Don Miller and Pete Kelleher are the only seniors on the squad.

The first three games indicated that better things are yet to come. Although losing, the team kept the games tight throughout and provided plenty of thrills. Kelleher and Jack Waddington are developing into the big guns for the Hens. Perhaps the hoopsters will find themselves in the Hofstra tournament over Christmas vacation.

This is all from the Delaware sporting scene for 1954. Great year wasn't it? See you in '55. Happy holidays!

## ROTC Rifle Squad Places During Intercollegiate Match

The University of Delaware ROTC Rifle Team placed third in a four team small bore rifle match with Penn State, Lafayette, and Dickinson this week.

Penn State took first place with 1868 points, Lafayette placed second with 1854 points, Delaware scored 1789 points, and Dickinson was fourth with 1776 points.

Captained by Robert H. Alexander, the team has been in practice for less than seven weeks. Challenges have been received from and sent to 43 colleges and universities in the United States and its territories. All matches are fired with the caliber .22 rifle and are of the postal type. No shoulder to shoulder matches have been scheduled for this year, as the local facilities are not adequate for this type of competition. Members of the team fire the prescribed courses under the supervision of

the members of the Department of Military Science and Tactics at the university.

When the top five scores have been computed, this information is certified to and forwarded to the challenged teams. The challenged teams likewise forward their scores to the PMS&T at the University of Delaware and the results are compared to determine the standings in the match.

Colonel E. W. Hiddleston, Professor of Military Science and Tactics at the university, stated that he was very happy with the results of this match. Our ROTC Rifle Team has exhibited considerable improvement over the results attained last year. The team is showing real enthusiasm in this field and a marked improvement in marksmanship is being displayed weekly.

## Milt Roberts Well Known In US Lacrosse Circles

The University of Delaware's Co-ordinator of Student Affairs, Milt Roberts, is a figure of no mean stature in national lacrosse circles. Last week Milt Roberts, who is the coach of the Delaware lacrosse team, traveled to New York to attend a meeting of the United States Intercollegiate Lacrosse Association.

After a round of dinners, committee meetings, board meetings and officials meetings it was announced that Mr. Roberts had been elected to the Executive Committee of the U. S. Lacrosse Coaches Association. He was elected for a three-year term to replace the Princeton coach whose term had expired.

In addition, Milt Roberts is Chairman of the Statistics Committee of the U S I L A, a member of the Advisory Committee of the All-American selection in lacrosse and Chairman of the Lacrosse Committee of the Middle Atlantic Conference.

Coach Roberts is also co-author of a history of lacrosse with Colonel A. M. Weygand, West Point-1916, a renowned football authority. This will be the first history of the game of lacrosse, and will be complete from its Indian beginnings to the present year. They expect to complete this book by spring.

week's match are as follows:

|                   |      |
|-------------------|------|
| Messinger         | 371  |
| Mundy             | 358  |
| Simmerman         | 356  |
| Alexander, R. H.  | 353  |
| Weinstein         | 351  |

# New filter cigarette brings flavor back to filter smoking!

# WINSTON

Winston tastes good—like a cigarette should!

Now there's a filter smoke college men and women can really enjoy! It's Winston, the new, king-size, filter cigarette with real flavor—full, rich, tobacco flavor!

You're bound to enjoy Winston's finer flavor. And you're sure to appreciate Winston's finer filter. This exclusive filter is unique, different, truly superior! It works so effectively—yet doesn't "thin" the taste. Winstons are king-size for extra filtering action. Easy-drawing, too—there's no effort to puff!

Try a pack of Winstons—the filter cigarette that brings flavor back to filter smoking!

WINSTON...the easy-drawing filter cigarette!

FINER FILTER!

FINER FLAVOR!

KING SIZE, TOO!

## Engineering Group Elects Dean Arm As Representative

David L. Arm, Dean of the School of Engineering at the University of Delaware, has been elected to a two-year term on the National Council of the American Society for Engineering Education representing the Middle Atlantic Section.

Dean Arm was elected at last Saturday's winter meeting of the Middle Atlantic Section held at Brooklyn Polytechnic Institute and will take office at the Society's annual meeting at Penn State in June, 1955. He succeeds Dean Thorndike Seville of New York University.

At Saturday's meeting, Dean Arm was principal speaker at the session "What the Young Engineering Teacher Can Learn from the Older Teacher."

## UD History Club Visits Winterthur

Friday, December 10, the History Club left the Newark Campus at 1 p. m. for a tour of Winterthur Museum on the Kennett Pike.

Upon arriving, they registered and observed the size and layout of the building. Then they divided into groups of four, each group having a guide, and saw 50 rooms, dating from pre-revolutionary times into later 19th century.

Winterthur, formerly a home, has had five owners. Henry DuPont decided that he wanted the people to have an opportunity to see the heritage and culture from which we developed, so he converted the house into a museum with unusual displays including miniatures of furniture, glassware, china and silver.

## Cosmopolitan Club Holds Christmas Fete

The Cosmopolitan Club had their Christmas Party December 6 in the lounge of Sussex Hall. Entertainment was provided by the members, and centered around the Christmas tree. Dances were performed by Catherine Chun, Bettina Frankey and Hernando de la Cuesta. Santa Claus was played by Dr. Turner who presented gifts to everyone.

Mrs. Dorothy Patterson, advisor to the club, and Mary Fran-

ces Omwake served refreshments to the club. Dr. Charles Lanier, Mrs. Turner of Puerto Rico, Bipin Kurbanwala - of India, John Soukera of Greece, Valdimar Bohdan of the Ukraine, Hadi Ewadh and Ibrahim Jawad of Iraq, and many others were present.
