Fraternities Net 146 Pledges

Coronation Of 1956 Military Ball Queen To Highlight Festivities At Annual Dance

All spotlights will be beaming on the dance floor of Carpenter Field House tonight for the annual Military Ball. An estimated 200 couples are expected to be dancing under a lowered ceiling of red and blue crepe paper to the music of Len Whann and his "Instrumentalists."

Aside from the "military atmosphere," the high point of the evening will be the coronation of the Queen of the Military Ball for 1956. The queen, who will be selected from the nine ROTC sponsors, will be crowned at the intermission of the dance. After the queen is selected by the people in attendance, the eight remaining sponsors will constitute the court for the crowning. The queen will be given the honorary rank of Cadet Colonel for the remainder of the college year. Last year's military queen was Betty Jane Weber.

The Delaware Rifles Drill Team will put on a special intricate demonstration of military drill in the newly crowned queen's honor. This military group has been preparing for this event for many weeks.

The ROTC sponsors are Barbara Ayers, a sophomore chemistry major from Alloway, New Jersey, 1st Battalion; Kathleen Perone, a sophomore education major from Atlantic City, New Jersey, Band; Joan Hollingsworth, a sophomore education major,

from Kennett Square, Pennsylvania, Company "A;" Barbara Ebaugh, a sophomore education major from Hanover, Pennsylvania, Company "B;" and Joan Stephens, a sophomore education major from Wilmington, Delaware, Company "C."

The 2nd Battalion sponsor is Barbara Cubberley, a junior home economics major from Deerfield, New Jersey, with the company sponsors as Karin Venetian, a home economics major from Queens, New York, Company "D;" Joan Russell, a senior home economics major from Ardmore, Pennsylvania, Com-

pany "E," and Norma McClellan, a senior education major from Wilmington, Delaware.

The Queen is elected by anyone who has a ticket, one half of which is in the form of a ballot. This means there will be only one vote per couple — no arguing on the dance floor please! A grand march is also standard at military balls, and although it is customary to try for a military orchestra, the attempts are not always successful.

Marshall Baker and Joseph Camp are co-chairmen of the (Continued on Page 2)

Clark Carbaugh Wins Award At Engineering Week Banquet

H. Clark Carbaugh, a senior civil engineering student from Catonsville, Maryland, received the Engineers' Week Award for his interest and participation in campus engineering societies at the University of Delaware. The award was presented last Wednesday evening at the Engineers' Week banquet in the Hotel duPont.

Mr. Carbaugh is president of the Engineering Council, recorder of the Sigma Nu fraternity, vice-president of the American Society of Civil Engineers and a letter-winner in lacrosse. He recently was elected to membership in Omicron Delta Kappa, honorary leadership society for men.

Representatives of the School of Engineering joined with the Delaware Engineering Association, the Delaware Society of Professional Engineers and other engineering societies of the State, in observing National Engineers' Week during this past week.

Henning W. Prentiss, Jr., chairman of the board of the Armstrong Cork Company, was the principal speaker at the banquet. The theme of this year's program is "Engineering Builder of a Brighter Future."

Three other winners of essay contest awards in the National Engineers' Week program in Delaware visited the university campus to tour the facilities of the School of Engineering and (Continued on Page 11)

Nobel Prize Winner Speaks On Enzymes

A Swedish Nobel Prize winner participated this week in a seminar on enzymes.

Dr. Hugo Theorell, winner of the 1955 Nobel Prize in Medicine for his work on enzymes, visited the Delaware campus on Monday, to lecture on "Kinetics and Equilibrium of the Flavo-Protein System." Dr. Theorell described some of his personal research efforts in the enzyme field.

The European scholar was the featured speaker at a special seminar held in Brown Chemical Laboratory Auditorium, which was open to all interested persons. A member of the American Chemical Society, Dr. Theorell is the author of over one hundred scientific papers concerning such fields as the chemistry of blood, oxidation, lipids and enzymes.

Men Settle Back To Studies After Hectic Two-Week Rush

One hundred forty-six men have been pledged to the nine social fraternities at the University of Delaware, announced Dean of Students, John E. Hocutt, last Tuesday.

The posting of the pledge lists marked the end of the two day "silent period" in which the nine social fraternities submitted their bids and the men made their choices.

Dorm, Fraternity Libraries To Get Many New Titles

Books ordered for the individual living units are now arriving.

These fiction and non-fiction books, made available through a grant given by the university, will be distributed among a total of twenty-five units, which include the commuters' lounge, the dormitories and the fraternity houses.

A variegated list of reading material has been selected. "Although literature in the department of the novel, short story, poetry and drama has been kept central," stated Dr. Augustus H. Able, professor of English and chairman of the Book Selection Committee, "a strong minority of titles has been drawn from many fields of interest, especially science, memoir, history, law and art." Among the lighter veined literature is included "Guys and Dolls" and "The Seven Year Itch."

Dr. Able and his committee selected 150 different titles and ordered three copies of each, making a total of 450 books for students' leisure readings. "Throughout our entire list," Dr. Able remarked, "potential student interest has been considered."

Of course since there are twenty-five places where literature must be distributed, each house will not receive every selection but will receive some from each category.

The trade book section of the book store will carry a copy of all the literature if students wish to buy some of the books.

Members of the Book Selection Committee are: Dr. Augustus H. Able; Dr. Carl Wagner, assistant professor of philosophy; William D. Lewis, librarian; Ray DeVries, editor-in-chief of the *Review*, and Audrey Delano.

A Correction

The lead story concerning fraternity scholarship in the last edition of the *Review* contained a typographical error in the opening paragraph. As stated, the quotation by dean of students, John E. Hocutt, was incorrect and did not make sense. The quotation should have read, "It must be recognized that in an educational institution, no organization has an excuse for existing except insofar as that organization contributes to the overall educational objectives of that institution."

According to Dean Hocutt, 156 men indicated fraternity preferences with 146 being pledged. The majority of the men indicated a choice of only one fraternity. The number of men pledged shows a marked increase over last year's total of 118.

Individually the fraternities received the following number of pledges: Alpha Epsilon Pi, 11; Alpha Tau Omega, 12; Delta Tau Delta, 16; Kappa Alpha, 22; Phi Kappa Tau, 16; Pi Kappa, 6; Sigma Nu, 21; Sigma Phi Epsilon, 25; and Theta Chi, 17.

The following men pledged:
Alpha Epsilon Pi: Paul Bas-kin, Harvey Caney, Bruce Evans, Manley Freid, Alan Goodman, Stanley Cruber, Jacob Haber, Gerald Katz, Leonard Leeds, Allen Podell, Richard Wachtel.

Alpha Tau Omega: Arthur Chase, Ray Christian, David Derbyshire, David Dunlap, Neil Fowser, Richard Gilbert, Robert Gore, Benjamin Lane, David Messick, Bruce Paul, John Peterson, Henry Tingle.

Delta Tau Delta: Donald Davis, Bruce Furman, Edwin, Jr., Haugh, Arthur Heath, Harold Hultman, Robert Lovell, Frederick Moore, Benjamin Payne, (Continued on Page 12)

Playbill Rehearsals Proceed As Coeds Strive For Victory

What is the hungry gleam marring the eyes of Delaware's coeds? Is it a desire to possess the coveted loving cup which designates their dorm the winner of Playbill?

Playbill, to be held this year on February 27 and 28, began in 1951 because it was felt that more tradition was needed on campus. Originally it consisted of separate plays and music. In recent years, however, the productions have usually incorporated the two, forming musical comedies.

This year, on Mitchell Hall stage, will be seen shows by Warner, New Castle, Sussex, Johnson, Cannon, Smyth, Topsy Turvey, and Boletus (Combined), and the commuters.

Points are awarded in the field of dramatics for choice and suitability of play, presentation and audience appeal, quality of acting and initiative and originality in using dramatic facilities. Judged in music are the qualities of and suitability, presentation and audience appeal and quality of singing. Dorms are awarded points for originality, amount of time and work, general quality and effect and adherence to the thirty-five minute limit.

Judging the competition are Miss Mildred M. Gaddis, assistant professor of music; Mr. Charles Bohner, instructor in English and Mr. Thomas Watson, instructor and technical director, dramatic arts and speech.

Chest X-Ray Mobile Comes To UD Again

The mobile Chest X-ray Unit which will be on campus February 27 and 28 will be located in the Wolf Hall parking lot.

Everyone who did not have a check-up in September is requested to have one now. The advantage of getting one is that anyone who gets an x-ray at this time will not be required to get one next September. The unit will be open from 11 a.m. to 2 p.m. and from 2:30 p.m. to 4:30 p.m. on both days.

UD To Hold Reading Conference

Seven hundred visitors will use this campus as headquarters in their study of the problem: "Getting Meaning in Reading and Social Studies" on March 2 and 3.

Dr. Russell G. Stauffer, conference director, announces that reservations have already come in from schools all over the State as well as from five neighboring states. Old College Dining Hall will play host to the annual luncheon, where Mr. Hunt will speak, Saturday, March 3.

Friday evening the University Choral will sing for the meeting in Mitchell Hall. Wolf Hall will open its first-floor halls to exhibits from leading manufacturers of educational supplies. Slides, books and writing materials will be on display both days.

From Washington, D. C., will

come Mr. Herold C. Hunt, Under Secretary of Health, Education and Welfare, to make the main address. Other featured speakers include educators from the Universities of Boston, Pennsylvania and Ohio. Problems of primary, intermediate and secondary school levels will come under consideration at this Sixth Annual Education and Reading Conference.

The conference will open Friday afternoon with a talk by Dr. Edgar Dale of Ohio State University, followed by panels on the three student age levels. Featured panel members include the reading consultant for Allentown City Schools, Allentown, Pa., Dr. John Munroe, chairman of the university history department, and the assistant state superintendent from

Dover. Evening meetings will continue on two of the same three levels: elementary and secondary.

Following songs by the University Choral, Dr. John E. Perkins will take part in a conference-wide panel session on the topic, "Getting Meaning in Reading and Social Studies." Others on the panel are the Dean of Boston University School of Education and education professors from Pennsylvania and Ohio Universities.

Saturday the Dean will speak to the group in Mitchell Hall. Further sectional meetings conclude the pre-luncheon sessions. On these panels are speakers from many local areas, such as Newark West Park School, P. S. duPont High School, Annapolis and Denton, Maryland.

Chemistry Major At UD Hails From Viet-Nam, Indo-China

Mr. Kim Lee Daci, lately of Hanoi, North Viet-Nam, is attending this university while majoring in the field of chemistry.

Mr. Daci was born in Hanoi, Viet-Nam and attended Viet-Namese grammar schools which were taught by the religious orders of Capuchian Brothers. Mr. Daci attended the Universities of Hanoi and Saigon.

By means of a State Department grant, Kim is attending this university. After receiving his master's degree, Kim plans to enter the field of industry and go back to Viet-Nam, armed with the background in hopes of bettering his native land.

According to the Viet-Namese system of education,

Daci stated that the curriculum is vastly different, the spirit of study is not quite so low and that all lectures and quiz sections are held in French, regardless of the fact that the largest percentage of instructors are Viet-Namese. If one fails a certain course, he must remain in the same class until he has passed this particular course. The labs of Viet-Nam are not quite equal to those found in this country, but this enigma is slowly being corrected.

Alpha Phi Omega Plans Inauguration Of New Members

The Delaware chapter of the national service fraternity, Alpha Phi Omega, has announced plans to inaugurate new members this semester.

Boy Scout training is the main requirement for students interested in joining the fraternity. Founded at Lafayette College in 1925, APO is the largest GREEK letter service fraternity. Scouting was placed as a qualification when the fraternity was organized in order to assure the initiation of campus leaders.

Activities on tap for APO for the coming semester include ushering for Women's Playbill, the Education Department's Reading Conference, The Alumni Weekend and sponsoring of Campus Chest in conjunction with the SGA.

The thirteenth anniversary pledge class sent a signed scroll, which has been included in a booklet, to President Eisenhower.

Headed by President Tom Lennox, APO now has 15 members. Students who would like to pledge the organization should contact the president.

AEC Expert Speaks On Atomic Energy As Visiting Scholar

The man who established the first nuclear reactor outside the Atomic Energy Commission visited the University of Delaware last Monday and Tuesday to lecture on atomic energy.

Dr. Clifford K. Beck, chairman North Carolina State College, of the Department of Physics at Raleigh, N. C., appeared in Newark under the Visiting Scholar Program of the university.

While at the University of Delaware, Dr. Beck directed his attention to the field of physics on Monday and concentrated on electrical engineering on Tuesday. Plans for the physics program included a graduate seminar on atomic energy research on Monday afternoon, an address at the Sigma Pi Sigma dinner and an open lecture at 8 p. m. in Recitation Hall on the atomic reactor.

Three University Girls To Vie For Miss Delaware Honors

Three University of Delaware coeds have been announced as participants in the Miss Delaware Scholarship Pageant. The latest entry, Miss Janice Olson, was announced last week. She joins two freshmen, Gretchen Berguido and Nino Salo in the contest.

The three university hopefuls will be among a field of eleven when the pageant is staged on March 10 in the Wilmington Playhouse. The contestants were entertained Thursday at a weekly luncheon of the Jaycees.

Miss Olson was a runner-up to

Selective Service Exam Applications Due By March 5

College students interested in taking the Selective Service College Qualification Test have until midnight, March 5, to submit applications. It was announced this week by Dr. W. A. Pemberton, test supervisor.

The purpose of the testing program is to provide evidence for local Selective Service boards so they may consider student deferments for military registrants.

To be eligible to apply for the test, scheduled to be given April 19 to college students in 875 test centers throughout the United States, Alaska, the Canal Zone, Hawaii and Puerto Rico, a student must intend to request deferment as a student, be satisfactorily pursuing a full-time course of instruction and must not have previously taken the test.

The test was developed by Science Research Associates of Chicago, one of the nation's leading publishers of educational testing, reading-improvement and guidance materials.

Students interested in taking the test to qualify for possible draft deferment in order to continue their college education, are urged to have their completed application postmarked no later than March 5. Applications dated after March 5 will not be accepted.

For additional information, applications and addresses of centers, students should consult Dr. Pemberton in Hullahen Hall, or any Selective Service board.

Brother, This Is It!

Springfield, Mo. — (ACP.—) The members of Sigma Nu at Drury College may be feeling a little low these days. They're going to get rid of their house pet and mascot. The "pet," a seven-foot boa constrictor, is being donated to a local zoo.

Miss Joanne Sakowski in the 1955 pageant. Janice is a junior and is majoring in music. In the talent portion of the pageant, she will sing. The new entry is a resident of Newark and lives at 171 South Chapel Street.

Rehearsals for the contest began Monday, in Wilmington. Under the sponsorship of the Wilmington Junior Chamber of Commerce, the pageant will feature the crowning of Miss Delaware of 1956 as well as the appearance of Miss America of 1955. The dress rehearsal for the pageant will be staged at the Veterans' Hospital in Elsmere on March 8.

Tickets for the contest may be obtained from any of the contestants, members of the Jaycees or from the Review office. Prices range from \$2.50 up.

The winner of the contest will receive a \$1000 scholarship in addition to various other prizes. She will also represent Delaware in the Cherry Blossom Festival and in the Miss America Pageant.

Delaware Debaters Hit Tourney Trail After Big Decision

Delaware's debating team was awarded both affirmative and negative decisions at a recent debate against the Immaculata College Team, Immaculata, Pennsylvania.

Debating on the national debate question of the year were Robert Ulin and Nancy Marsteller (affirmative) and John Maybee and Ronald Serez (negative).

This was the first intercollegiate decision debate for both Bob Ulin and Nancy Marsteller.

On March 3 the team members, William Brown, Dick Sutton, Stan Lowicki and John Maybee will participate in the Hofstra Tournament. Last year Delaware placed second in this contest.

Another activity comes up on March 8, 9 and 10 when the Delaware group journeys to Penn State University for the annual Interstate Debaters Congress. Last year Bill Brown was elected second vice-president and Jack Grant won the Parliamentary Speaker's award.

National Conclave Celebrates Annual Brotherhood Week

"Not only America, but the world, watches the growth of the fraternal spirit as fostered by the National Conference of Christians and Jews," stated Dr. Ralph Sockman, minister of Christ (Methodist) Church in New York, in a message written for the twenty-third anniversary of Brotherhood Week.

Emphasizing the need for unity of all the people were Dr. Sockman; Msgr. Edward G. Murray, pastor of Sacred Heart R.C. Church, Roslindale, Mass. and Rabbi Abba Hillel Silver of The Temple, Cleveland.

Msgr. Murray noted that "if we did not have some such organized expression of our unity as human beings, as fellow-citizens and as children of one God, the very fact of our obvious diversities would make it needful for us to emphasize the underlying unity."

Rabbi Silver stressed that "our age needs the strengthening of every bond of unity to counteract the powerful economic and political forces which are operating in the world today which

cause division, dissension and mistrust. The great religions of mankind which have learned from a long and bitter experience how necessary it is to learn toleration for the sake of the spiritual progress of mankind will point the way to the peoples of the earth to accept other forms of toleration for the sake of peace."

"We Americans of different beliefs," declared Dr. Everett R. Clinchy, president of the National Conference of Christians and Jews, "can work together in the American way toward understanding and cooperation; toward a democracy free of prejudice; toward a nation unified against its enemies within and without the gates."

Brotherhood Week was first observed in 1934. Its observance was suggested by Monsignor Hugh McMenamin, a Catholic priest of Denver, Colorado, who proposed that the National Conference of Christians and Jews set aside a special period when the people of all faiths in the United States would be invited

What young people are doing at General Electric

Young manager handles finances for \$40,000,000 business

General Electric is made up of more than 90 product departments that operate as individual "businesses" — each conducting its own legal, financial, manufacturing, engineering, marketing and research activities.

One of the most important of these businesses is the Technical Products Department that makes broadcasting and communications equipment and semi-conductor devices. Responsible for managing the finances of this \$40 million business is Robert H. Platt.

Platt's Work Is Important, Responsible

In the next ten years, the Technical Products Department is expected to reach the \$100 million mark — more than doubling its present size. This is a big job. And it requires Platt to keep tabs on everything from tax, cost, and general accounting to payrolls, budgets and measurements, credits and collections, and internal auditing.

25,000 College Graduates at General Electric

Experience gained in the Business Training Course and as a traveling auditor gave Platt a variety of financial experience. Like each of our 25,000 college-graduate employees, he was given the chance to grow and realize his full potential. For General Electric has long believed this: When fresh young minds are given the freedom to make progress, everybody benefits — the individual, the company, the country.

Educational Relations, General Electric Company, Schenectady 5, New York

ROBERT H. PLATT joined G.E. in 1941 after receiving his B.A. at Colgate University. He served 2 years in the Navy, attaining the rank of Lieutenant (J.G.). He is also a graduate of G.E.'s Business Training Course.

Progress Is Our Most Important Product

Can Fraternities

Make Their Mark?

In last week's editorial concerning fraternity scholarship, our views met with varied opinion among the students, administration and faculty. While we feel the article revealed the general feeling of the student body, we believe both the editorial and the survey pointed out the need for improvement in scholarship.

The most successful graduates are those who combine academic prowess with extra-curricular activities. Neither scholarship nor activities alone can insure success.

By necessity, extra-curricular activities must take a back seat to scholarship. This is shown in three ways. First, students come to college to acquire an education, not a fraternity or a student position. Second, a student is not able to enjoy extra-curricular honors unless he makes his marks and stays in school. Obviously, the student who achieves but good grades alone has a better chance for success than one who flunks out of school.

The fraternities, through IFC, could gain their long awaited chance at leadership if they were to initiate a move for better scholarship before they are forced to do so by the administration.

If the fraternities were to hold a series of meetings with Dean Hocutt and Dr. Perkins, they might swap ideas for improvement and consider other suggestions by the administration. Possibly, this could become a basis for overall improvement on the campus.

In this case, a move in the right direction on the part of the fraternities would serve as evidence to the administration that the fraternities are working with them in an attempt to improve the university. RDV

Letters to the Editor

To the Editor,

In the February 17 issue of the *Review*, there was a very amusing "Letter to the Editor" from the Intra-Fraternity Council. Some of the punch lines are worthy of special note.

In the first paragraph the following statement was made: "This group (the fraternities on campus and/or the IF Council) cooperates with the SGA in coordinating the student affairs and activities." For the benefit of any who may not get the joke, it should be explained that almost exactly two-thirds of SGA's officers and representatives are members of some fraternity, and that the slate of candidates who usually get elected is prepared by the IF Council—which makes sure that the various offices are properly distributed among the member fraternities. These factors contribute to the general atmosphere of "cooperation."

Towards the middle of the letter the authors smirk; "by living in the fraternity houses and taking part in the activities of the house, an individual is taught something that is considered to be as important as a formal education. That is, how to live and work with people of different thoughts and backgrounds." A floor of any of the men's dormitories can very probably lay claim to residents of more various backgrounds, races and religions than can any one of the fraternities. What fraternity has a negro or Chinese "brother?" It is generally known that several frat houses on campus tend to draw their membership from a particular religious or social group. Definitely, then, any insinuation that fraternities are better able to encourage tolerance is laughable.

But that's not all the humor. There's a sentence at the end of the letter that finishes things off with a chuckle. "The fraternities are also the backbone of the intramural (sports) system in the university." Ask any dorm man—the fraternities are the intramural sports system.

Let's have more of this kind of letter, Mr. Editor. They're better than ARNOLD.

Very truly yours,
Convulsed

(name withheld by request)

Stassen, Monroney To View U.S. Economic Aid Policy On March 6

President Eisenhower's proposal to Congress in January for a long term foreign aid program has elicited various responses from Congressmen and leaders of both political parties. On March 6, at the Ninth Annual Foreign Policy Institute in Philadelphia, a quite similar topic "U. S. Economic Aid: How Much and How Long" will be debated by Harold E. Stassen and U. S. Senator Mike Monroney.

Stassen, a former governor of Minnesota, is now Special Assistant to the President. Previously, he was head of a special foreign aid department created by the present administration whose activities have now been taken over by permanent government departments. A. S. "Mike" Monroney is the junior Democratic senator from Oklahoma.

Previous to the main evening session there will be four round-table discussion groups with the general topics of underdevelop-

ed areas, the cold war, collective security, and trade versus aid. The speakers will include a director of the International Cooperation Administration, a State Department Foreign Service Officer, the director of Penn's Foreign Policy Research Institute and a Professor of Economics from Pennsylvania.

The Institute is co-sponsored by Temple University and the World Affairs Council of Philadelphia and will be held at the University of Pennsylvania Museum, 34th and Spruce Streets in Philadelphia. Registration will begin at 3:30 on Tuesday afternoon and the evening session is scheduled to start at 8:00 p. m.

Mr. Robert Barlow, 109 Robinson Hall, is handling the arrangements for Delaware students or faculty members who wish to attend. Cost of the dinner is \$2.50, but the first ten who sign up will have their dinners paid for them.

Off Stage

By George Spelvin

A BIG HIT!!! That's what happened in the City of Brotherly Love last week. "My Fair Lady," a new musical comedy adapted from Bernard Shaw's "Pygmalion," made the Philly critics rave their heads off. Murdock, of the INQUIRER, ranked it with such all time greats as "Oklahoma," "Show Boat" and "Carousel." After seeing it myself—I rave too.

Everything about it is Tremendous!! The original story of a cockney flower girl transformed into a perfect lady is not marred at all in the musical form; in fact, it is enhanced. The music is very pleasant and it is closely integrated into the story.

The multitudinous sets are magnificent and are quickly changed in full view by the use of two large turn tables. Producer Herman Levin says that "My Fair Lady" is the biggest show, equipment and prop-wise, headed for Broadway in 20 years. The costumes, designed by Cecil Beaton, Britain's court photographer, are exquisite and present a perfect 1912 fashion show. This feature in the show cost about \$75,000.

Last but definitely not least is the fine cast headed by Rex Harrison and Julie Andrews. Both fine actors, they gave the smoothest performance which I've seen in the theatre. Miss Andrews, who led the cast of the hit musical, "The Boy Friend," has a wonderful voice that is pleasant to listen to; Mr. Harrison in his first singing role sounds as if he has been singing for years.

Catch this show because it is going to be a SUPER HIT.

Academy Award Nomination came about last weekend and we feel the voting will go as follows: Anna Magnani, of "The Rose Tattoo" fame, will walk off with the best actress Oscar. Ernest "Marty" Borgnine will probably be the best actor of 1955 but for a dramatic effect, the late James Dean might get the award. "Marty" will be the top movie with "Mr. Roberts" and "Love is a Many-Splendored Thing." The theme song of the latter movie will undoubtedly top the list in this category. For the supporting actors watch Jo Van Fleet, "East of Eden," and Jack Lemmon, "Mr. Roberts."

So till next week—enjoy yourself.

Campus Calendar

FRIDAY, FEBRUARY 24, 1956

9 p.m. - 1 a.m. - Field House - Military Ball

SATURDAY, FEBRUARY 25, 1956

2 p.m. - Taylor Pool - Varsity Swimming vs. Swarthmore

THURSDAY, MARCH 1

4 p.m. - Room 309, Allison - University Debating Team
7 p.m. - Field House - Delaware Rifles Club Mtg.
7:30 p.m. - Old College Lounge - Delaware Christian Fellowship Mtg.

MILITARY BALL

"But Sir, He had to buy a ticket"

TODAY

by Frank Garosi

1956 is a presidential selection year and already it promises to be one of the most interesting campaigns that the U. S. has seen in quite a while. Although Republican campaigning cannot begin in earnest until President Eisenhower decides whether he will seek re-election, Democratic presidential hopefuls are now subjecting the nation to apropos oratory.

The race for the Democratic nomination boils down to a contest between three men of differing temperaments, abilities and appeal. First of the three is the incumbent nominee from Illinois; the paradoxical, ivory-tower-intellectual, hole-in-the-shoe Adlai Stevenson. Second, the very upper-crust Governor Averill Harriman of N. Y., whose family fortune came from railroading (the railroad business that is) and whose political fortune came from the machinations of the very down-to-earth Tammany politician, Carmine De Sapio. From Tennessee comes the final member of this aspiring triumvirate, Senator Estes Kefauver, the Senate's super-snooper who made the 'coonskin cap famous, back when Davy Crockett was just the germ of an idea in Walt Disney's mind.

Two of these candidates, Kefauver and Stevenson, collided head-on in California recently and locked horns (literally speaking, of course — the column is not intended to describe the anatomical structure of any Democratic candidate) over the red-hot issue of segregation. Before we can continue any further we must point out that Representative Adam Clayton Powell, a Democrat from the Harlem district of New York, has lately introduced a proposal that the Federal government should cut off all financial aid to segregated schools.

Stevenson was questioned about his views on the above proposal and on the other race issues by a group of Negro Leaders in Los Angeles. Stevenson replied that he definitely opposed cutting off financial aid to segregated schools, partly because he believed that the merging of the dual-school systems often is expensive and that any financial cut will make mergers not only distasteful, but prohibitive. The Illinois Democrat went on to say that the use of armed forces to coerce recalcitrant states into obeying the Supreme Court ruling would be in effect, turning the pages (Continued on Page 10)

'Corn Is Green' Tickets Available At Mitchell Office

Tickets for the last major E-52 production, "The Corn Is Green," which will be presented March 8, 9 and 10, go on sale Wednesday.

The Mitchell Hall box office will be open Monday through Friday 3:30 p. m. to 5 p. m., and 7 p. m. to 8 p. m. University students may get free reserved seats by presenting ID cards at the box office.

The lusty and compassionate drama concerns a great-hearted schoolteacher, Miss Moffat, played by Elizabeth Parkhill Barber, and her struggle to educate a backward Welsh mining boy, Morgan Evans, portrayed by George Cavey. This talented boy is liberated despite the shortsightedness of the pompous local Squire, to be played by Thomas Waters and his seduction by a conniving Cockney girl, to be played by Suzanne Kozak.

Other key roles in this human story of Welsh life will be played by Mary Minkiewicz, Richard Stewart, George Boyd, Mona Lawson and Connie Goodman. "The Corn Is Green" comes from the pen of Emyl Williams and is based on an actual episode in his life. It is one of the few plays to be acclaimed in both New York and London, and was recently seen on a television network show. Ethei Barrymore created the role of Miss Moffat on Broadway in 1940; the play ran for a total of 475 performances to provide this great lady of the stage the longest run of her career.

Professor Thomas B. Pegg is directing the show with Joyce Gottshall as the assistant to the director. The interior set of a Welsh cottage has been designed by Thomas Watson, Technical Director of the E-52 University Theatre.

Professor Finds Prayers' Answer

Emory, Va. — (ACP) — The White Topper of Emory and Henry Colleges has given a few hints on "How to Pass a Course Without Studying."

Laugh at the professor's jokes. This is practically S.O.P. for students, and the art of laughing at old jokes should be a pre-requisite to college courses. Instructions for the best laughing techniques are:

- Pretend not to catch on at first.
- Look thoughtful for a moment.
- Break into a healthy chuckle, followed by a loud guffaw if you deem it necessary.

If you must nap in class, do not do it behind an open textbook, as this strategy is too old and too often used. Instead use paper eyes which are available for this purpose and which can be stuck on closed eyelids, giving a lifelike semblance of wakefulness.

New Books In Library

Beebe, C. W. *Adventuring with Beebe.*

Reflections on the natural history topics which the author has been studying for more than forty years.

Ciardi, John. *As if.*

"AS IF," says the poet in explanation of his title, "strikes me as the enduring mode of poetry. IS the mode of prose. Poetry is AS IF's reality— which is as good way as any of describing this volume of verse."

Cross, Beverley. *Mars in Capricorn.*

An educated young Englishman was stranded penniless in France. He signed on a Norwegian freighter for what was supposed to be a two-weeks

trip, but the freighter sailed down the coast of Africa and the voyage lasted six months. This is the author's account of the brutality and rough living of the crew, which tended to cure his romanticism.

Graves, Robert. *Homer's daughter.*

"Homer's daughter" was Nausicaa, Princess of the Elymians, who lived in Sicily a few hundred years after the death of the poet— a time when women as poets and minstrels were thoroughly discouraged. The routine of the suitors, and other situations with general Homeric parallels, are set forth with scholarship, and an occasional modernism.

University's Total Enrollment Tops Four Thousand Students

Approximately 4,050 graduates, undergraduates and extension students are attending the university this semester.

Although this figure includes regular, special credit and full and part time students, it does not include all the non-credit "scholars" who's total enrollment has not as yet been compiled.

There are a total of 2,005 undergraduates this semester as compared to 2,141 last term. This includes 640 freshmen, 504 sophomores, 483 juniors, 359 sen-

iors and 19 special students.

Special students are those who, for one reason or another, carry less than the usual amount of credits.

In a break down according to schools 881 students are registered in Arts and Science, 502 in Engineering, 368 in Education, 142 in Home Economics and 112 in Agriculture.

On the basis of September enrollment figures about 5 per cent of the students failed. This is a slight improvement over the same period last year.

Kappa Alpha

At last it's all over! Rushing has come and gone for another year and things at the Kastle have once again come back to reasonable normality. For the first time in two weeks books are the main object of the KA's.

Our final houseparty was once again highlighted by great entertainment from George Cavey and company in the form of one Jack "Typical" Morris. Jack finally forced himself upon emcee Bob Baynard and brought down the house with his mandolin and antics. Brother Bernie Andrews continued his dizzy bed time stories, to everyone's delight. The whole house enjoyed the late sing in the cellar at the party's end, and all went home, we hope satisfied.

The Rebel basketball team continued their winning ways as they beat Sigma Nu in a real close game and then dumped Alpha Epsilon Pi, 52-27. They are now in good shape and are sure to be in the thick of the battle for the league championship.

Brothers Stan Lowicki and Bill Baldt created a minor sensation last week when they had a

phone installed during the recent change-over. There's talk that they're going to allow calls for a nickel now, to undersell the phone companies. Who knows?

Congratulations to our fine pledge class, which was formally installed Wednesday night in a candlelight ceremony.

Steve Voorhees

Theta Chi

Well, formal rushing is over again for another semester. Down at the Theta Estate things will be really jumping again this Saturday night with a "big bang up" party for the newly initiated pledges. Congratulations to Brothers Messick and Jackson who pinned Miss Barbara Graham and Miss Carolyn Lantz, respectively. Don't worry girls, Bob Jaichner is still flashing his pin. Some of the brothers want to thank Brother Regan for his very fine engagement party over the weekend. Congratulations again from the fraternity, Reds, Tony Toto and Jack Partilla were both very impressive last Saturday night playing "Slide Down My Rain

Fraternally Speaking:—

Barrel and "Climb Up Three Flights of Stairs". Harrison Nagle was seen waxing the floors in his crusty blue pajamas at three in the morning, and Brother Scone was sacked out along with Freddy Susi in the baked bean pan. Also, "Whale" Shelton was seen about the house nibbling on whatever he could wolf. By the way, Jay Harford said his pen has been loaded for the past two weeks with invisible ink, so that's why the Greek Column had a big gap for a while. One last closing word — Harry Nagle bought a tube of Crest, with floristan.

R. B. Stenger

Delta Tau Delta

Monday evening at the Delt House found the Mother's Club playing host to the 1956 rushees at a buffet supper. Among the many frosh who sampled the menu could be found several starving brothers, notably Steven "I'm on a diet" Seidel. Brothers

and rushees alike were impressed by the many kindnesses of the Delt Mothers — we owe them a big vote of thanks.

Later in the week the smoke poured out of the windows of 158 South College Ave. on Wednesday night as the Rush program continued.

Then the big event finally rolled around on Saturday with the last Rushing House Party. The entertainment was spectacular, to say the least. Dr. Kinsey Raccoon and his able assistant Finley Wilson, gave the partygoers a rare version of "Birdland" — lullaby, that is . . . while Brothers Chilcutt, Webber, McAlpine, and Huckert blended their musical talents in a few hair-raising melodies. "Lanny" Richter wound up the show as he led the group in some popular demand singing. The party was even greater than last week's, and proved one thing — the new Delt Basement is cool, man, cool!

Like several hundred frat men and freshmen, the Brothers of Delta Tau Delta are trying to

recover from those gruelling ten days of Rush WEEK. We thank the rushees for their endurance — we hope that new pledges of the Delaware fraternity system will soon find out how great the fraternity business can be.

Bill Brown

Sigma Nu

With rushing completed the brothers at Sigma Nu have settled down to some serious studying. We wish to congratulate our new pledges, although at the time of this writing we do not know precisely who they are.

The buffet dinner held in conjunction with our house party last Saturday was one of the finest yet. We wish to thank Mrs. Rexton Barber, Miss Mary Terrel, Miss Carol Conrad, Miss Nancy Long, Miss Loretta Wagner and Miss Marge Behling for their fine help in making the dinner such a success.

Last Saturday night two of our Brothers, Allen Temple and John Higgins and Pledge John Leverage, were hurt in an automobile accident. We wish to thank everyone for their sincere wishes for the boys' recovery, especially the girls from Turvey.

Congratulations this week go to Brother Dave Tait and Miss Carol Conrad on their recent pinning.

"Pete" Green

Alpha Tau Omega

Rushing season is now passed and only the cry, "Pledge," echoes through the halls of ATO. Epsilon Rho wishes to thank "The ATO Girls" for the excellent job that they did in the entertainment at our house party last Saturday night. Although the list of pledges is not out at the time of the writing of this column, the chapter extends congratulations to the new pledge brothers.

Last Sunday, several of the brothers journeyed to the University of Maryland to play their chapter in basketball. Although Epsilon Rho lost in a close battle, everyone who went had a good time. This Saturday our basketball team travels to Johns Hopkins for a game and, we hope, a victory.

Plans are now hot in the making for the convale which is to be held on March 24 and 25 at Gettysburg. Many of the brothers and pledges are looking forward to this event.

John Baker

Sigma Phi Epsilon

The rushing period has ended for the fraternities at the University of Delaware. The brothers of Sigma Phi Epsilon held their last rushing party on Saturday evening. The brothers spent quite a few hours decorating the house and had it in fine shape for the evening's activities. The two reliables, Tom McThenia and Dick Hughes, came through again and provided the entertainment.

The next few weeks will be oriented to bring the new pledges into fraternity life. This pledging period is a very important time for the brothers and future brothers. With the emphasis on creating a strong fraternal foundation, the pledges will learn to work for the brotherhood with the other pledges and the brothers.

This coming week is a very important one for the intramural basketball squad. The team has looked good so far in its previous games.

Dick McKelvey

Don't write home for money—write Lucky Droodles!

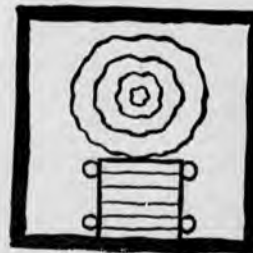

The easiest \$25 you'll ever make!

A raft of students have already earned \$25 in Lucky Strike's Droodle drive. By June, hundreds more will. Better get with it. It's like taking candy from a baby.

Do as many Droodles as you want. Send them, complete with titles, to Lucky Droodle, Box 67A, Mt. Vernon, N. Y. Include your name, address, college, and class—and the name and address of the dealer in your college town from whom you most often buy cigarettes.

If we select your Droodle, we'll pay \$25 for the right to use it, with your name, in our advertising. And we pay for a lot of Droodles that never appear in print! Talk about easy money! This is it!

ARNOLD

Alpha Epsilon Pi

Last weekend the Cage was transformed into a pizza palace for our second rushing party. The evening was highlighted by a quickly prepared, out extremely well-done, take-off of the famous radio program "Life with Luigi", starring Alta Bambino Slein, Pasquallie Wolson, Rosa Brodsky and Shultz Handloff. Brothers Katman and Goosenberg brought their lungs and dates from that land of paradise, Upper Darby. Brother Handloff came with his star of stage, screen, radio and television, while Meatball Berkman brought his better half from West Chester. Brother Sivack, after he and Steffie were presented with a bouquet of flowers for their recent pinning, retired to one of the checkered tables to play "Meow". Brother Rubenstein was unable to attend because of an urgent date with a few cold pills and aspirin.

This weekend is an off one for the Apes and will find them going here and there in search of things to do. Pedro is starting his own version of the West Chester Express. Brother Pod has added another epithet by becoming a playwright. Question of the week: Why is Pod so confident about giving odds? Philosophy of the week: Whether you're rich or poor, it's always better.

Hiram Finch

Pi Kappa Alpha

Well, rushing is now formally over. The brothers have decided that they may now be able to open those books that have been collecting dust on the shelves.

It was nice to see alumni Bob and Dusty Fisher, George and Clara Palmer and Scotty and Polly Clarke back at Pike's Peak Saturday night. We all had a swell time at

Scotty's late Saturday night. Man, that ham was really good.

It seems Pat Wisniewski is wondering what the P. stands for in Peter "P." Steele. At the next party we hope to see Sue move around a bit more. Brother Campbell has really become the PiKA worry-wart. Remember Ken, we all have our problems, but yours seem to come in pairs. Bob Cossaboon was looking all around for some more cookies. Too bad, Bob, we hid them all. Hey Mel, what is this T-hear about you taking lessons on how to jitterbug Baltimore style? Isn't Wilmington good enough for you?

Brother Eason stuck his neck in the noose after the party Saturday — Congratulations Biff, we think Ginger is a swell girl.

Bill Keyser

Phi Kappa Tau

Another tremendous house party has joined the annals of the Phi Tau greats. Not only was the music good, but the entertainment was 'incomparable to any thing that the brothers have ever seen. Brothers Dougherty and Miffen gave a demonstration in practical hypnotism. The demonstration was so effective that several of the girls had to leave. It seems that the women can't stand the sight of someone being jabbed with a pin. Bob gave an excellent demonstration of being glued to the floor and getting the hot seat. All the skeptics who were making remarks from the audience were soon shown just what hypnotism is when they found that they could not unclasp their hands. Quite a surprise, what? Pledge McCouley seems to have a bit of mud trouble. It's

a good thing the pledge has friends with strong backs. It looks as if the Skoosts' mobile is in the backyard to stay.

Bruce Stewart

NOTICE

Freshman dues will be collected next week, Monday through Friday, from 3 p. m. to 4:30 p. m. in the basement of the library. The sum is one dollar. Receipts will be given and each freshman should be sure to get one: immediate payment of these dues will result in better freshmen activities.

Fords Beat Courtmen 115-89 After Hens Upset Drexel Tech

by John Walsh

Sparked by a record breaking 52-point performance by Phil D'Arrigo, Haverford College basketball team ran roughshod 115-89 over the Blue Hens last Saturday at Philadelphia. D'Arrigo, a 5'11" senior from Vineland, New Jersey had an amazing percentage as he hit for 21 field goals and added 10 fouls. His exhibition broke his own conference scoring record of 48 points which he established against PMC last Wednesday, and vaulted him into a commanding lead in the Middle Atlantic scoring race.

The game was nip and tuck for the first few minutes, but Haverford hit for 10 straight points and pulled away to a 24-10 lead. The Fords led 54 to 39 at halftime and coasted the rest of the way.

Offensively Delaware had a very good night. Jack Waddington and Jimmy Smith continued to pace the Hens with their high scoring feats. Waddington had 8 field goals and 10 fouls for 26 points, thus raising his 19-game scoring average to 20.3 points. Smith was good for 10 field goals and remained close behind Waddington with his 19.9 point average. Ed Kwiatkowski and Dick McKelvey continued their improved play by chipping in with 16 and 15 points, respectively.

Haverford	G	F	P	Delaware	G	F	P
D'Arrigo	21	10	52	Louth	5	0	10
Mudson	10	3	23	Kwiatkowski	7	2	18
Evine	1	2	4	Smith	10	0	20
Walton	3	3	9	Frimmer	0	1	1
Clawford	0	4	4	McKelvey	2	11	15
Wiegert	3	4	4	Wadley	8	10	28
Ree	0	7	1	Shirey	0	0	0
Totals	44	27	115	Totals	32	25	89

In losing the game, the Hens just about lost any chance of winning the Middle Atlantic title. The Hens now have a 4 and 3 conference record and are two games behind league-leading Drexel. The team's overall record is 6 wins against 13 defeats.

Delaware's next conference game is with Swarthmore, tomorrow night in Carpenter Field house. This game will give Coach Wisniewski's charges a chance to avenge a previous defeat suffered at the hands of the Garnets.

The hot and cold Delaware

basketball team experienced one of their better nights last Wednesday when they completely out-classed league-leading Drexel 83 to 70. The victory brought the Hens' record to 4 and 2, and marked Drexel's first setback in six league contests.

Delaware started out slowly and trailed 10 to 6 after five minutes of action, but a hot streak sent the Hens into a lead which they never relinquished. Against the zone defense set up by Drexel coach Sam Cojen, the

(Continued on Page 10)

Mermen Sunk By Bullets; Absorb 7th Season Loss Despite Duff's Two Wins

Gettysburg splashed to victory in the final event in Taylor Pool last week to take a close 43-41 swimming decision over Delaware.

Tom Duff, annexing both the 200-yard individual medley and the 200-yard breaststroke, put the Hen mermen within reach of victory until the Bullets out-swam their hosts in the 400-yard freestyle finale. Ken Newbold and Bob Gilchrist each won two events and also swam in the decisive relay test to beat Gettysburg Pointmakers.

"Although it was Delaware's seventh defeat against no victories and a tie, the whole team has improved greatly, and should be complimented for the fine effort which they have put forth throughout the season," Coach Rawstrom stressed. Furthermore the valuable experience gained by the men this year should change, next year, the many close losses into victories.

Delaware vs. Gettysburg at Delaware

Date: 2-15-56
 300 yd. medley relay — 1. Allison (G) 2. Southerland (G) 3. Paul (G) — Time: 3:26.3
 220 yd. F.S. — 1. Newbold (G) 2. Webber (D) 3. Hopkins (G) — Time: 2:38
 50 yd. F.S. — 1. Gilchrist (G) 2. Brubaker (D) 3. Simpson (G) — Time: 2:25.5
 200 yd. ind. medley — 1. Duff (D) 2. Crompton (D) 3. Oates (G) — Time: 2:43.3
 Diving — 1. Ryder (D) 2. Moore (D) 3. Natsabel (G) — Time: 50.41 pts.

(Continued on Page 9)

Hen Wrestlers Crush Muhlenberg As Bill Baur Sets Scoring Record

by Bruce Evans

During the past week, the Blue Hen varsity wrestling team competed in two matches, one on February 14 at Collegeville, Pennsylvania against Ursinus, and another on Saturday at Carpenter Field House against Muhlenberg. The Hens went into last week's matches with a record of four wins against two losses. Before the Christmas holidays the team had gotten off to a slow start, losing their first two matches, but since then they have come along very well to take four in a row. Ursinus was a little too strong for the Hens, winning 19-13, as Delaware could win only three of the eight matches. In the 123 lb. class, Capt. Dale Boyd decided his opponent 11-1; in the 130 lb. class, Bill Baur pinned his man in 2:33 minutes; and Tom Oves won by a forfeit in the heavyweight division.

The Muhlenberg match was an entirely different story. Winning four matches by pins and two by decisions, the Hens thoroughly defeated the Mules, 26-8. Capt. Dale Boyd, Bill Baur, Bill Walker and Tom Oves won their matches with pins, and Ed White and Jim Zawicki decided their foes.

With only one match remaining tomorrow against Bucknell in Carpenter Field House, the Hens have assured themselves of a winning season, having a record as of now of five victories against only three losses. Bill Baur has already set a new record for points scored in one season, passing the old record of 6 held by Tom Schultz. Capt. Dale Boyd needs only 3 more points to also pass Schultz's former record and a decision or a pin tomorrow will give him this amount.

Delaware vs. Muhlenberg
 123 — Boyd (Del.) pinned Schnee with half Nelson and croch, 7:25 minutes
 130 — Baur (Del.) pinned Levan with half Nelson and croch, 5:14 minutes
 137 — White (Del.) decided Frawblau, 5-3
 147 — Simpson (Muh.) decided Voorhees 5-0
 157 — Zawicki (Del.) decided Leighton 2-0
 167 — Walker (Del.) won by forfeit
 177 — Billy (Muh.) pinned Salamone on a figure four and crucifix, 2:48 minutes
 Hwt. — Oves (Del.) pinned Fritz with a reverse and arm bar, 4:00 minutes

Star Hen wrestler Bill Baur enroute to pinning 130-lb. opponent from Muhlenberg and setting new mat scoring record.

KA Leads Intramural League; Mo Mattheiss Tops Individuals

Kappa Alpha virtually clinched the Intramural Basketball Class A title Tuesday night when they knocked Sigma Phi Epsilon from the unbeaten ranks with a thrilling 40-38 victory.

KA's Bernie Andrews won the game for the Rebels in the final seconds when he stole the ball and raced down the court to bucket a layup. Doug Evans was high scorer for the winners with 11 points. Jerry Bacher, Andy Rice and Dick Atkinson each tallied 9 points for Sigma Phi Epsilon.

The win was the fourth for KA against no defeats. It was the initial loss for the Big Red in four contests.

"A" League

Blue Chicks Take Seventh By Dumping Fords 54-51 Behind Gil Mahla's 16 Pts.

While Delaware's Blue Hens are squawking over their virtual elimination from the Middle Atlantic Conference race, the Blue Chicks are cackling with self-satisfaction at having extended their Conference streak to seven straight.

The Chicks, unbeaten in Conference competition, turned the trick against Haverford's Jayvees, 54-51, last Saturday night in Haverford, Pennsylvania.

Grabbing a slim 29-27 lead at the end of the first half, the Chicks had to work for their victory over the Fords. They out-scored their opponents 25-24 in the second half to eke out the victory.

Game scoring honors went to Clayvel of Haverford who tallied 17 points while Gil Mahla topped the Delaware scorers with 16 points.

Delaware			Haverford			
G	F	P	G	F	P	
Wickes, f	6	1	13	Purcell, f	6	5
Mahla, f	6	4	15	Murray, f	0	0

Schilliro, g	5	4	14	Clark, g	3	0
Walters, g	2	2	6	Elehardt, g	2	3
Teal, g	0	0	0	Seeg, g	0	0
Geeg, g	0	0	0			
Totals	20	14	54	Totals	18	14

Delaware's Frosh gained their sixth straight victory in the MAC by topping Drexel Frosh, 76-67, on February 15 in Carpenter Field House.

The Chicks put together a pair of 38 point halves to gain the victory. They led at the end of the first period, 38-35. Frank Wickes paced the winners with 20 points.

The Chicks will face Swarthmore in their final home game of the season tomorrow night in the field house.

LACROSSE... by Milt Roberts

The game of lacrosse is the oldest game of which there are any records played on the North American continent.

When the white man came to America, he found the red man's favorite game played by forty-eight different tribes. The number of Indians on each team varied anywhere from fifty to one thousand; the length of the contest ran from sun-up to sun-down; the size of the field of play sometimes extended for miles over fields, through forests, and into the rival Indian villages. Usually though, they played the game in a large open field, regardless of size.

Lacrosse was, in the beginning, to the Indians, a war game. It contained many elements of the close combat experienced in tribal warfare—hand-to-hand struggle and mass attack. The Indian, endowed by nature with a superbly coordinated body and a wild, free spirit, took to its play with all the ferocity and recklessness contained in his make-up.

Chroniclers describe the swiftness of play, the beautiful physical display of animal-like grace as a sight once witnessed, never forgotten. They called it the game without rules, except

one—to put the ball behind the opponents' goal.

White Man's Rules

Lacrosse as seen today, played by the white man, although structured by rules of play, has not lost too much of the original abandon. Those who watch it for the first time, unaware of the rules or objectives, are either captivated or repulsed by its fierceness. It has been called the roughest sport in the world—and the fastest game on two feet.

It is not as rough as it looks, nor is it always swift, though when played by good teams it can be terrifically exciting.

To appreciate watching a game of lacrosse, one has to know the objectives of the game and understand the rules. The boundaries of the field are clearly marked and there is a netted goal at each end of the area. The object is to put the ball in the opponents' goal by a series of passes, runs, dodges and shots. The goals are protected by a goal keeper with a short wide stick and by other defense players with long sticks. The hand cannot touch the ball—that constitutes a foul.

Each player carries a webbed stick and he must learn to manipulate the ball with this implement—catching it, throwing it, picking it up, carrying it and shooting it at the opponents' goal. Body contact is allowed when near a loose ball, or when defending against an attempted dodge or run to the goal.

Safety(?) First

The strange, heavy-looking gloves, pads, helmets, and face masks are worn for protection against bruises and cuts and broken bones that would otherwise result when hit by a defending stick. It is legal to use the stick as a defensive weapon if an honest attempt is made to dislodge the ball from a carrier's stick or to prevent the ball from being caught, picked up, passed, or shot by an opponent.

Each goal counts one point. Penalties for rough or dangerous play or violations of technical procedures are served by the offender in a penalty box, as in ice hockey. Penalties vary from thirty seconds to three minutes according to the severity of the foul. This means that teams

The basketball tournament began as the dormitories finished their final week of practices. The first games were played yesterday. A round-robin type of elimination has been set up whereby each team will play every other team twice. Wynona Dawson, basketball manager, reports that the preliminaries have been going along very well.

Barbara Jenkinson tells us that the bowling tournament is off to a good start. Each team consists of four players who meet at a designated time at the Newark Bowling Alley.

Betty Mae Snowberger, manager of the table tennis tournament, says that the first round was very successful and that she will have some results for us next week.

We did some spying on our mermals from the Aquatic Club and we predict a real good show in April.

Miss McNaughton is directing the Modern Dance Club this year. The club concert will be held March 12 and 13 in the

SPOTLIGHT ON SPORTS

By FRANK GAROSI

"Too much D'Arrigo." These words by Coach Irv Wisniewski sum up fairly accurately the 115-89 beating the varsity basketball team suffered at Haverford's hands last Saturday. D'Arrigo pumped in 52 points from everywhere on the court — 8 points more than Jim Smith and Jack Waddington, the Hens' leading scorers.

Wisniewski said that Delaware played as well against Haverford as they did against Ursinus. As a matter of fact, Waddington pulled down 24 rebounds — 2 more than the Haverford player who broke his school's rebounding record in the same game.

In contrast to this, the team played an exceptional game against Drexel, scoring a decisive 83-70 victory. Drexel had previously won five games in a row in the Middle Atlantic Conference before the Hens stopped them.

With the echoes of the 1955 football season just dying away, Director of Athletics, David Nelson, announced that spring football practice will begin next Monday and continue until spring vacation. Coach Nelson strongly endorsed spring practice as the best method that permits teaching sophomores the technicalities of the varsity system and getting fundamentals installed before the hurried sessions of fall practice.

Along with most of last year's returning varsity and freshman players, Coach Nelson and his coaching staff will get a look at about ten new faces, including four transfer students and one former Hen footballer. The former player is Larry Dalton, a punter and defensive end on the '51 team.

Harris Mosher, who hails from Iowa State, is a 6' 7", 235 lb. end and will undoubtedly help to alleviate End Coach Irv Wisniewski's problems. Phil Miller, a former teammate of Ronnie Waller at Laurel, weighs 220 lb. and played his freshman ball at Duke. Harry Alexander, another line candidate, played end for Wesley Junior College and center for Wicomico High School.

Talk about basketball upsets! Right after Muhlenberg had knocked off nationally ranked Temple in a stunning upset, they themselves were upset 100-94 by Gettysburg. Al Teti practically ruined the Mules all alone by bucketing 42 points — a new Gettysburg record.

Track Meet At Delaware For Second Straight Year

AAU indoor track will come to Delaware tomorrow when the first part of the annual South Atlantic AAU Track Meet is scheduled in the hangar of Carpenter Fieldhouse at 1:30 p.m.

This was announced this week by Delaware track coach D. Kenneth Steers and William C. Jameson, chairman of the South Atlantic division of the Amateur Athletic Union.

Tomorrow's championship marks the second consecutive year that the event has been staged at Newark. Athletes throughout the South Atlantic area will meet to compete in the high jump, broad jump, pole vault, shot put, 35-pound weight throw, high hurdles, dash and low hurdles.

NOTICE

Students and faculty members who expect to attend the Delaware-St. Joe basketball game must secure reserved seat tickets from the Athletic Office. There will be no charge although reservations are necessary.

Lacrosse, Baseball Schedules To Begin In Southland

A five-game southern trip, including a contest with national champion Wake Forest, highlights the 21-game baseball schedule for Delaware's Blue Hen Varsity.

The Blue Hens will move into action on March 24, in the first game of their southern tour, when they face University of North Carolina at Chapel Hill. In succession are games with Wake Forest, Eastern Carolina Teachers College, Hampden-Sydney and Georgetown. When the Delaware squad returns to the Newark campus, it squares off with Michigan, the team which captured national collegiate baseball honors in 1953.

Raymond stated that the five opening games are "not just an experiment." Added the Delaware coach, "We are going down there to do just as well as we possibly can." He concluded that he expected to have the ball club well screened by the start of the spring trip, and would take only the players who "will do the job."

The schedule:
MARCH—24, University of North Carolina, away; 26, Wake Forest, away; 27, Eastern Carolina Teachers College, away; 28, Hampden-Sydney, away; 29, Georgetown, away; 30, Michigan, home.
APRIL—3, Lafayette, home; 6, Franklin & Marshall, home; 7, Harvard, home; 11, Muhlenberg, home; 14, Lehigh, away; 21, Johns Hopkins, away; 25, Swarthmore, away; 29, (Continued on Page 11)

Frosh and Faculty Tackle For Tassel

After many thrilling contests in Carpenter Field House, two U. of D. post-season games will bring basketball to its 55-56 finale. Tassel, the senior women's honorary society, has sent bids to four "teams of stars" to play in the twin bill. The varsity Blue Hens will meet the freshman Blue Chicks in the preliminary game. Then the chosen Intramural All-Stars will battle the "still-in-training" men's physical education faculty.

Young engineers making news

at
Western Electric

Richard C. Shafer, B.S. in mechanical engineering at Lehigh, was one of 16 engineers assigned to one of Western Electric's toughest post-war projects — developing manufacturing techniques for mass-producing (with great precision!) the tiny but amazing transistors which are already causing a revolution in electronics.

Paul J. Gebhard, B.S. M.E. at the University of Maryland, was one of a team that helped develop Western's new electroforming process for coating steel telephone wire with copper, lead and brass in one continuous operation. His job: to develop conductor resistance-annealing equipment and electrolyte filtration and circulating systems.

Bobby L. Pettit (at right), an E.E. from Texas A. & M., is one of several hundred members of Western Electric's Field Engineering Force. These F.E.F. men can be found all over the world — working most closely with the Army, Navy and Air Force — advising on the installation, operation and maintenance of complex electronic equipment made by W.E.

Western Electric's primary job—which goes way back to 1882—is to make good telephone equipment that helps Bell telephone companies provide good service. It's a very big job—and a very important one—which calls for the pooling of varied types of engineering skills.

New manufacturing processes and methods are constantly required to produce better telephones, better central office equipment, better wires and cables, new types of electronic equipment to keep pace with the nation's ever-growing need for more and better telephone service at low cost.

In addition to doing our job as manufacturing unit of the Bell Telephone System, Western Electric is busy producing many types of electronic equipment for the Armed Forces. Here again, young engineers of varied training are doing important work in connection with the manufacture of radar fire control systems, guided missile systems and special military communications systems.

Write for booklet "Your Opportunity at Western Electric." College Relations Dept., Room 1029, 195 Broadway, New York 7, N. Y.

Lacrosse

(Continued from Page 8)

often play with uneven numbers on a side, and at these times when there are "extras", the play is tense and pressing.

An inexperienced observer should look for the following points of play to learn to appreciate good technique and to follow the scoring thrusts: a swift and tricky runner or dodger, who can maneuver his body and stick through swinging and checking defenders, to place the ball in the net; the cat-like defenseman who can tie up the dodger, or the rough bruising defender who can bowl him over with a savage but clean block; the effective fast pass-work that confuses the opponent's defense and opens up a shot for the goal; and the courageous goal keeper who flings his body at the hard quick shots, preventing the ball from entering the nets behind him.

Next Week: Lacrosse at Delaware.

Basketball

(Continued from Page 8)

starting five of Ed Kwiatkowski, Dick McKelvey, Jack Waddington, Jimmy Smith and Russ Trimmer moved the ball smoothly and effectively.

Once again it was the high scoring twins, Jack Waddington and Jimmy Smith, who paced the Hen's scoring attack. Waddington, the 6'6" senior, poured in 26 points and Smith, a 5'11" junior, followed with 23 points. Ed Kwiatkowski was only a step behind as he hit for his seasonal high of 19 points. Altogether the team made a phenomenal 51 per cent of their shots, while Drexel could find the mark for only 32 percent.

Sophomore Class Meeting
Monday, Feb. 23 at 4 p.m. in
Brown Auditorium. Purpose is
to elect SGA representative.

Placement Bureau

Interview Calendar Week of March 5
Deadline for signing up: Wednesday February 23

Monday, March 5	Phileo Corporation	Bachelor & Master — Electrical, Mechanical Engineers, Physicists
	Lockheed Aircraft Missile Systems	Master & Ph.D.; also Bachelor degree for advanced study — Math, Physics, Mechanical and Electrical Engineers
	Engineering Division	All degree levels — Mechanical, Electrical and Civil Engineers
	Factory Mutual Engineering Division	Bachelor — All Engineers
	Atlantic City Electric Co.	Bachelor — Mechanical and Electrical Engineers
	Woodward & Lothrop Dept Store, Washington, D. C.	Bachelor — College degree — men or women interested in retailing
	DuPont Company	Bachelor — Business Administration, Accounting and Liberal Arts
Tuesday March 6	North American Aviation Engineering Division	All degree levels — Civil Electrical and Mechanical Engineers, Physicists
	Philadelphia Naval Shipyard	Bachelor — Civil, Electrical and Mechanical Engineers
	Ethyl Corporation	All levels — Chemical Engineers
	Arthur Anderson (Public Accountants)	Bachelor — Accountants
	Pennsylvania Railroad Co.	Bachelor — Civil and Electrical Engineers Not over 26 years of age with 20/20 vision
Wednesday March 7	Goodyear Tire & Rubber Co.	Bachelor & Master — All Engineers & Chemists
	Goodyear Aircraft Corp.	Bachelor & Master — All Engineers & Chemists
	Atlas Powder Company	Master & Ph.D. — Organic Chemists; Bachelor — Chemists; Bachelor — All Engineers
	Fischer & Porter Co.	Bachelor — Chemical, Mechanical & Electrical Engineers
	North America Companies (Insurance)	Bachelor — College degree
Thursday, March 8	Pittsburgh Consolidation Coal Co.	All levels — Chemists & Chemical Engineers, Junior Chemists, Chemical and Mechanical Engineers for summer
	Strawbridge & Clothier	Bachelor — College degree — men or women for retailing

Equitable Life Insurance Society	Bachelor — College degree
Glidden Company	Bachelor — Business Administration, Accounting, Economics, Chemists
Atlas Powder Company	Same as preceeding day
Central Intelligence Agency	Bachelor — Secretaries
p.m., Purnell Hall, Placement Bureau	
Hamilton Watch Co.	Bachelors — Business Administration, Accounting Liberal Arts (for sales), Mechanical and Electrical Engineers
Owens - Corning Fiber-glas Corp.	Bachelor & Master—Mechanical, Chemical and Electrical Engineers; Physics, Chemistry, Math, Business Administration, Accounting and Liberal Arts
Esso Standard Oil Co. — Baltimore Marketing Division	Bachelor — Accounting, Liberal Arts and Business Administration for Sales
Turner Construction Company	Bachelor — Civil, Mechanical and Electrical Engineers

Today

(Continued from Page 4)

of history back to the situation existing in the pre-Civil War South. He concluded with the observation that the theme of the integration movement should be moderation and persuasion; in short — go slowly.

Kefauver, on the other hand, airing his views in Fresno, came out with some fairly strong statements on the subject. He began with a condemnation of what he termed "the murder of Emmett Till," went on record as favoring a Federal statute for the prosecution of mob violence and ended by saying that he would support Powell's proposal with certain modifications.

The upshot of the whole affair is that Kefauver, by coming out and saying what he thought in no uncertain terms, has made a determined bid for Negro support — and probably achieved a victory over Stevenson in California's primary. Many Negro leaders expressed satisfaction with Kefauver and dissatisfaction with Stevenson — in a state where 500,000 Negro votes could easily decide a tight race.

Adlai Stevenson seems to bend over backwards, at times, to be completely fair and as objective as possible. Objectivity and fairness are certainly to be desired in any public official, but this time Kefauver trumped Stevenson's ace by stating his position on a controversial issue in plain, firm language. Kefauver's statement, quite naturally, alienated southern Democrats, while Stevenson's views led one southern Democrat to proclaim, "He's our man." In angling for the Negro vote, Kefauver was echoed by Ayerill Harriman and Harriman's political guide, Tammany Hall's wily De Sapio.

Which is the better position? Stevenson's compromising, judicial view or Kefauver's firm and openly partisan view? Without passing judgment, we would say that Kefauver's stand is more apt to produce fervent supporters and violent enemies and consequently, be better political cannon fodder. Stevenson, although he might seem a little vague and indecisive, expresses the hopes of many Americans for a peaceful and equitable settlement of the problem of segregation. For the moment, we leave it for you to ponder upon and for the voters to decide in November.

J. Paul Sheedy* Was An Udder Failure Till Wildroot Cream-Oil Gave Him Confidence

The boys were having a bull session in Sheedy's room. "It's no yoke," beamed Sheedy. "Heifer-y girl I ask for a date turns me down flat." Then Sheedy's roommate spoke up: "There's good moos tonight J. Paul. Try some of my Wildroot Cream-Oil on those cowlicks." Sheedy did and now he's the cream of the campus. Wildroot keeps his hair handsome and healthy looking the way Nature intended...neat but not greasy. Contains the heart of Lanolin, the very best part of Nature's finest hair and scalp conditioner. Get Wildroot Cream-Oil, America's largest selling hair tonic. In bottles or unbreakable tubes. Gives you confidence...you look your best. There's no udder hair tonic like it.

* of 131 So. Harris Hill Rd., Williamsville, N. Y.

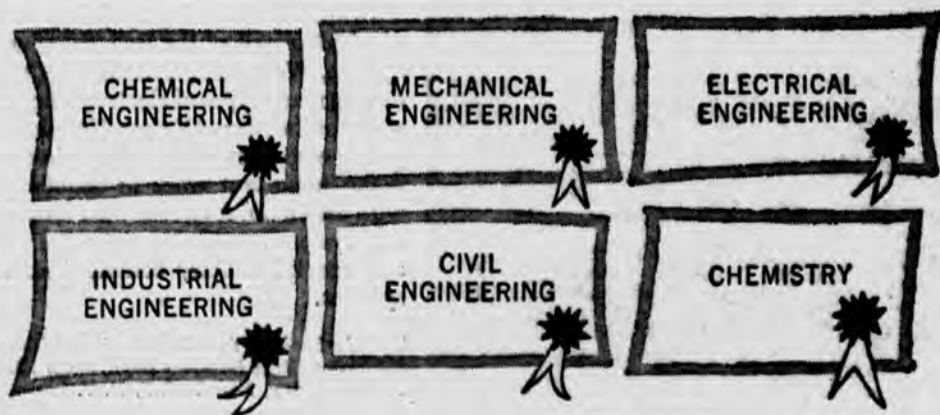

Wildroot Cream-Oil gives you confidence

NOTICE: Opportunity

for technical graduates with **Goodyear**

Representatives of The Goodyear Tire & Rubber Company will be here on the date shown below to interview Seniors who will receive B.S. or advanced degrees in the following fields of technical study:

There's a career for YOU at Goodyear in any of the following fields:

- PLANT ENGINEERING
- MACHINE DESIGN
- PROCESS DEVELOPMENT
- RESEARCH
- FACTORY MANAGEMENT
- TECHNICAL SALES
- PRODUCTION DEVELOPMENT

THE GOODYEAR TIRE & RUBBER COMPANY

Newark Ministers Form Association

At a recent meeting of clergy in Newark, the Association of Protestant Chaplains at the University of Delaware was organized.

According to the Rev. Robert W. Andrews, of the Westminster Foundation, "the purpose of the Association is to coordinate and strengthen the Protestant ministry to the campus in monthly meetings of the professional staff charged with that responsibility."

The Rev. Andrews is president and the Rev. Leland Hall of Wesley Foundation is secretary-treasurer of the new organization. The Baptist, Episcopal, Lutheran, Methodist and Presbyterian Churches, as well as the Society of Friends, participate in the Association.

Committee Considers Granting Privileges

"Special privileges to be granted to students of outstanding scholastic achievement are being discussed by faculty committee headed by Dean Mary E. Wines, acting Dean of the School of Home Economics," stated John E. Hocutt, Dean of Students at a recent SGA Meeting.

Suggestions range from optional attendance at all classes at all times, before and after vacations inclusive, and exemptions from final examinations for "Senior Merit Scholars," to awarding merit scholarship not based on financial need and posting photographs of top students on departmental bulletin boards.

Topics under discussion by SGA members also included forming a standing SGA committee to supervise forming new clubs and striking inactive ones from the book. The Psychology Club has been re-activated and officers will soon be selected.

Men's Executive Council is being held in the near future in order to plan campus activities.

Duke Shelton announced that, since there would be no Junior Prom, juniors would head many of the committees and do much of the work for the Spring Dance on April 6. Committee heads will soon be selected.

Open House Tonite

Sussex Hall welcomes all dormitory residents to an open house tonight from 7 p.m. to 11 p.m. There will be card playing, dancing and, for a small cost, refreshments.

Engineers

(Continued from Page 1)
other points of interest.

Seven members of the university's outstanding 1955 football team are majoring in engineering, including outgoing captain Vincent Grande, a chemical engineer, and captain-elect Tommy Thomas, a mechanical engineer. Halfbacks Jimmy Zaiser and Bobby Moneymaker are mechanical engineering students. Several of these men attended the dinner meeting at the Hotel duPont.

Arrangements for the University of Delaware's participation in the week-long program were handled by Dr. Vaughn C. Behn, associate professor of civil engineering.

Haverford, home; MAY—2, Washington College, away; 5, Ursinus, home; 8, Rutgers, home; 10, Pennsylvania Military College, away; 12, Villanova, home; 15, Temple, away; 19, Bucknell, away.

A nine-game varsity lacrosse schedule was announced recently by the athletics department, including games with six colleges from the state of Pennsylvania, one from Maryland, one from New Jersey and one from Virginia.

The schedule: March 26, Washington and Lee, away; April 10, Swarthmore, home; April 14, Stevens Institute of Technology, home; April 18, Washington College, away; April 23, Pennsylvania, home; May 5, Drexel, away; May 9, Dickinson, away; May 12, Lafayette, home; May 19, Lehigh, away.

Tassel

(Continued from Page 9)

Also on the program are several attractions for between-game entertainment. Watch next week's **Review** for the final announcement of the date, time and admission fee. Final arrangements are being made by Tassel members and the members of the athletic department.

University Increases Graduate, Extension Fees This Semester

Dr. John A. Perkins has announced that fees for extension and graduate courses offered by the university will be increased from \$10 to \$13 per credit hour beginning with this semester.

The reason for the increase is that the university is more dependent upon income derived from fees than are most state universities. In the past, the state has contributed only forty-two percent of the operating income; this year, the contribution has been cut to 39 per cent, while operating expenses are rising.

The income of graduate and extension program has been insufficient to cover direct instructional costs as well as overhead expenses. Therefore, subsidy has had to come from other university income. The importance of these programs to graduate students and other state citizens seems to justify the additional expense.

U. S. Civil Service Announces Positions Open For Specialists

There is an urgent need for professional experience is also required. Graduate study may be substituted for all or part of this experience, depending on the grade of position. No written test is required.

Further information and application forms may be obtained at many post offices throughout the country, or by writing to the U. S. Civil Service Commission, Washington 25, D. C.

Applicants should ask for Announcement No. 46(B). Applications will be accepted by the Board of U. S. Civil Service Examiners, National Bureau of Standards, Washington 25, D. C., until further notice.

ESSO RESEARCH works wonders with oil

Oil and the atom . . . a new research team!

An atomic scientist, by remote control, maneuvers a piece of cobalt metal made more radioactive than all the radium ever refined. This powerful tool at Esso Research will dig out brand new secrets from petroleum. What secrets? No one knows for sure. But you can be sure of new benefits from oil. Yes, **ESSO RESEARCH** works wonders with oil.

British Art Authority To Speak About English Royal Collection

Anthony Frederick Blunt, of London, England, surveyor of the Queen's Pictures, professor of history of art at the University of London and director of the Courtauld Institute of Art, will deliver a special lecture on "The English Royal Collection" at the University of Delaware, Newark, on February 29, as a part of the 1955-56 Winterthur Lecture series.

The lecture, which will be in the auditorium of Wolf Hall at 8:15 p.m., is open to the public without charge.

Appointed surveyor of the King's Pictures in 1945, Mr. Blunt has continued as surveyor of the Queen's Pictures under the present reign. As surveyor, he was responsible, after World War II, for the re-installation and re-arrangement of the pictures in the Royal Palaces, principally Buckingham Palace, Windsor Castle, and Hampton Court. For arranging the exhibition of the King's Pictures at the Royal Academy in London during the winter of 1946-47, Mr. Blunt was made a Commander of the Victorian Order.

Acting as general adviser to the Royal Academy since 1945, Mr. Blunt organized an exhibition of "Landscape in French Art" in 1949-50, for which he was made an Officier de la Legion d'Honneur. In 1948, he was made a Commander of the Order of Orange Nassau following the exhibition of "Masterpieces of the Dutch School from the Collection of His Majesty, the King of England," which he organized

in The Hague in honor of the jubilee of Her Majesty Queen Juliana of the Netherlands.

Mr. Blunt, a graduate of Trinity College, Cambridge, is also a Fellow of the British Academy, and the author of numerous books and articles in the field of art.

Tau Beta Pi Selects

Three undergraduates were selected as pledges of Tau Beta Pi, honorary engineering fraternity, on February 22.

Roger Williams, CE 51, Edward Gehnet, EE 56 and James Zaiser, ME 56 men were chosen on the basis of scholastic achievement, campus activities and interest in their individual fields.

Tau Beta Pi was founded at Lehigh University in the late 1800's to honor students in the field of engineering. This organization parallels Phi Beta Kappa which does not admit engineering students.

Consultant Speaks On Student Testing In Faculty Meeting

Dr. Paul S. Dressell, head of the Board of Examiners of Michigan State University, was at Delaware from February 21 to 23 to discuss with the faculty new techniques of testing and evaluation of students.

Upon his arrival, Dr. Dressell worked with Dean John E. Houghton, Dean of Students, in the capacity of a consultant. He spoke with various members of the faculty concerning testing of all sorts which will be of benefit to students in their selections of fields of study.

Many research projects dealing with this subject have been conducted by Dr. Dressell. A paper entitled "New Test Techniques at Various Universities" was presented to the faculty, in which Dr. Dressell presented findings in the field of aptitude and achievement.
