PAMPHLETS ON SALE

**Folders Ideal

It's not too late to buy that 'last minute' Christmas remembrance yet, members of the Mayor's Committee advised this week as they placed on sale a number of the beautifully illustrated folders sent service people from Newark on all fronts.

Containing sixteen pages and about forty local views, the pamphlet is attractively printed in three colors and embodies an appropriate Christmas greeting on the front page. It is now available at Rhodes Drug Store, Neighbors Pharmacy and the State Theatre.

These pamphlets make attractive and appropriate Christmas gifts. They are lovely souvenirs of Newark and hold especial interest for those who wish to show friends or relatives in other towns just what Newark looks like.

8 NEWARK GIRLS ARE GRADUATED AT W. C. D.

**Honorary Degree
Given Two
Generals,
duPont Chemist**

A wartime note was sounded throughout the program as the University of Delaware held its second commencement exercises for 1943 at Mitchell Hall on Sunday afternoon. Included in the class from the Women's College were eight Newark girls, four received degree in Arts and Science; one in Education and three in Home Economics.

Honorary degrees as doctor of law went to Maj.-Gen. Thomas A. Terry, commander of the Second Service Command, and to Lieut.-Gen. Hugh A. Drum, recently retired, former commander of the First Army. An honorary degree of doctor of science was awarded to Thomas A. Chilton, director of the technical division, engineering department, of the duPont Company. A member of the National Defense Research Committee, Mr. Chilton's research was "largely responsible for the success of making nitric acid from ammonia," one of the important contributions to explosives, according to Dr. W. O. Sypherd, who acted as orator.

The Newark girls in the graduating class at the Women's College on Sunday were: Nancy Lee Hammond, Sara Frances Stearns, Cecilia Veronica Tierney and Katherine Elizabeth Weimer in the Arts of Science School; Helen Henkel Eastman in the school of education and Doris Elizabeth Dean, Margaret Thomson Fox, and Ruth Tacie Peel, in the school of home economics.

Of the 61 students who received their bachelors' degrees, only 15 were men, and of these, three were awarded their degrees in absentia, as they are with the armed forces, and another was already in uniform.

Speaks On
Christmas
In China**

Between courses Samuel Dameron led spirited singing of Christmas Carols. Miss Lois Mae Tomhave furnished incidental piano music during dinner and played for the singing.

Following dinner the program was taken over by Dr. Thomas Mann's, who introduced Newman Rose, Mr. Rose told interesting stories of Christmas experiences in China and of the Chinese New Year celebration. Mr. Rose lived in China so spoke from actual experience. Then Mrs. Manns told of Christmas in the Philippines, where she and Dr. Manns lived for three years. Their first Christmas there was just outside Manila and the advancing Japs went right through the very town in which they lived and enjoyed their first Christmas which Mrs. Manns so interestingly described.

Dr. Manns told some humorous stories of his experiences in different parts of the world — especially concerning time honored customs peculiar to each country.

Dr. Manns then played Santa Claus and distributed gifts to all — Sam Handloff received the most practical gift and Miss Ferguson the most glamorous.

Mrs. Clarence Stone led the closing song period and also played and sang herself, sending everyone home bubbling over with Christmas cheer.

A page of Friendly Greetings

Merry Christmas

It's Christmas time again and the Yuletide Spirit fills the land. You hear it in the tinkling laughter of the children—you see it in the smiling welcomes and outstretched hands—you feel it in the expectant hush that fills all homes on Christmas Eve. This is a homey season: a season filled with the poignant scent of holly and pine, of mysterious packages and children's hopes. This is a season of giving, of hospitality and joyous good fellowship. With this thought in mind, your everyday friends and neighbors step out of their role of community servants and offer their heartfelt wishes for your Christmas cheer. And so as men and women in every land pledge anew their belief in the true doctrines of Christmas . . . belief in the brotherhood of man: these advertisers raise their voices with hope and faith in the love-worn phrase . . . Peace on Earth, Good Will to Man . . . and a very Merry Christmas to you—each and everyone!

MUSIC SOCIETY PRESENTS ARTISTS

Curtis Quartet Appreciated By Newark Music Lovers

The Curtis String Quartet was presented to Newark music lovers last Wednesday evening by the Newark Music Society as their second offering of the 1943-44 concert series held in Mitchell Hall.

The program presented was a most interesting one ranging in period from the early Dittersdorf Quartet in E-flat to the relatively modern Smetana Quartet in E-minor ("From My Life").

Following the intermission Anthony Loudis, director of music at the university, joined the quartet to present the Schumann Piano Quintet, Opus 44.

The members of this organization, although solo artists in their own right, have developed their ensemble playing to a high degree. This was most evident in the Smetana quartet where, at times, the cross rhythms make perfect teamwork difficult. The breadth of tone with which they played and the depth of feeling which they interjected into the slow movement of the Dittersdorf made that movement one of the highlights of the evening.

The Schumann Quintet was the crowning achievement of the evening. This is an exciting work which moves rapidly throughout to culminate in a rousing finale. The piano part dominates in the main as might be expected of a work by the pianist, Schumann.

Mr. Loudis gave a very fine reading of this piano part and demonstrated amply his ability as an ensemble artist by integrating his playing with that of the quartet.

CONTROL CENTER CLOSED

Newport Halts Full-Time Duty; Warden Named

Newport, Dec. 23rd — The Newport Civilian Defense Council at their meeting on Wednesday evening voted to discontinue full-time operation of the Newport Control Center due to lack of interest of people of the community.

The Minquas Fire Company telephone has now been placed in the home of one of the members, and signals will be reported to that telephone.

It was also voted to discontinue the daily 6 p. m. siren test, and tests will now be made only on Saturday at 12 noon.

The resignation of Mrs. Russell Weiss as Chairman of First Aid was accepted by the Council, and Walter D. Kemp was named Chairman of First Aid.

C. C. Collingwood appointed William Clark as Chief Air Raid Warden for the Newport Sector, with Martin F. Benson as Assistant Air Raid Warden.

Herbert S. Lilley was named chairman of the 4th War Loan Drive, and he will select his committee members.

The Defense Council voted to ask the State Police Department for an officer to be stationed at Market and James Streets early in the morning. There is heavy traffic at that point and have been many cases where near accidents have occurred.

A vote of thanks was extended by the Defense Council to people of the community who were faithful in their service to keep the Control Center operating.

WINTER IS USHERED IN

White Christmas Prospects Poor

The 1943 winter season was officially ushered in here at 1:30 o'clock yesterday with the thermometer hovering around the fifty-degree mark and the weather more reminiscent of baseball than Christmas despite the threat of snow and blustering winds predicted by the weatherman.

With Christmas only three days off, prospects of a white Christmas were not too optimistic although "much colder" weather was promised by Thursday.

Ice on local lakes, ponds and streams that last week provided sport for skaters was about all dissipated. The pleasant temperature welcoming winter was in sharp contrast to the below freezing temperature that prevailed all last week, when the mercury on occasion sank as low as eight degrees.

TRUCKERS WARNED

Must Return ODT Certificates

Approximately 20 per cent of all trucks in Delaware are in danger of being stalled for lack of gasoline after Dec. 31, the Delaware OPA warned last night.

Owners of the trucks have failed to submit their certificates of war necessity to the local rationing boards so that the boards may send them the new T-type gasoline coupons. It was explained. The certificates were sent out by the ODT to the owners who must present them to the boards.

The present T coupons will be invalid after Dec. 31 and truck operators who do not have the new type will be unable to obtain gasoline legally.

Those who have not already sent in the certificates of war necessity are urged to do so at once. The new coupons will be distributed to the operators at the board offices starting next week. However, it is impossible for operators to submit their certificates and receive their ration at the same time, an OPA spokesman said, because of the large amount of work facing the boards.

State Guard Lowers Age Limit To Sixteen Years

The Delaware State Guard has opened its ranks to youths of 16 and 17 years old. It has been announced by Colonel J. Paul Heinel, Commander.

Newark Company "G" now consists of one commissioned officer and twenty-seven enlisted men. Weekly drills are held each Monday night at the Armory. Recruits are needed to complete the company complement.

Before the new age policy was decided upon the guard had, with a few exceptions, a minimum age requirement of 18 years. Because of the draft, a few younger recruits had been enrolled.

FIREMEN HAVE BUSY WEEKEND

Two Fires At Once Monday

Newark firemen have been kept busy the last few days with field and woods fires. A large number of the fires have been set from sparks from passing locomotives.

It is felt that owners of large fields could prevent many of these fires if they would mow off the high grass or plow it under.

The firemen responded to an automobile fire on Saturday afternoon in front of the Community Store. The fire caused by a short circuit was extinguished by Sgt. Leroy Hill of the Newark Police force.

Sunday the local firemen were called to extinguish three field fires and on Monday they were called out four times. The first fire was a field at Ogletown and the second call was a field near Cooch's Bridge.

Close to five o'clock the firemen received two calls at once and one engine was sent to Ogletown and the second apparatus responded to a call at Robert Weimer's farm on Elkton Road.

EXTRA PORK AUTHORIZED

Brief Increase Granted By OPA

The Office of Price Administration has declared a pork chop dividend.

It has designated spare ration stamp No. 1 in Ration Book Number 4, as good for an extra five points in the purchase of pork.

The order, effective on Tuesday, was issued to meet rapidly mounting pressure on the hog markets and storage facilities where swine and meat were piling up without enough takers.

The extra points are good only until midnight Sunday, Jan. 2.

OPA said the temporary validation of a special stamp for extra pork provided "the simplest and most effective manner for getting the unexpectedly large civilian supply of pork into the hands of the housewife." Chester Bowles, OPA administrator, said the housewife may use the spare stamp only for the purchase of pork.

First of all—Sureshot wishes to extend Christmas greetings to all the boys from Newark who are serving their country in the armed forces. Excuse me, the same goes for those girls who are in the service.

Christmas greetings are also extended to the Newark Fire Company, The Newark Police Department, the Mayor and members of the Town Council and the town employees. To the many people who have contributed news to the Newark Post. To the members of the Newark Post. To the members of the Newark Post. To the members of the Newark Post.

At Christmas time it is customary for everyone to want Santa to bring them some nice presents. Chief Cunningham says—"All he wants is for the folks to be careful at the Delaware Avenue and Academy Street crossing". Chief Bill is most interested in the safety of our school children.

Newark Firemen wish Santa would give the railroad screens to put over the smoke stacks of the locomotives so that they would not set so many field fires. Sarg. Bill Frazer would like to have the fire whistle blow only when it is not delivering mail.

The Newark motoring public have asked Santa to get the railroad crossings fixed as soon as possible. The going is plenty tough at those crossings.

The public who buy at the chain stores wish Santa could do something about the long lines at the cash register. It takes longer to pay your bill and get out of the store than it takes to pick out what you want.

The Boss, Dick Ware, editor of the Newark Post, says all he wants is more stories for the paper; Mary Johnston, the society editor wants more weddings, personals and baloney for her column. Bill Durham, the pressroom boss, just wants a real good tip on the races; John Sparklin, the composing-room foreman, would like some new type faces; All Elizabeth Taylor wants is to have her Glenn home—(Glenn is in the Army); McVicker, the Lynotype operator, just wants more gas coupons—Mac says that Santa could also bring him a new Lynotype machine; Mrs. Dieck, who is substituting as press feeder for Mrs. Taylor who is somewhere in the West at an Army Camp, just wants a nice apartment. The only one left at the Post is Sureshot and Santa can just send him more stories for his column.

Coach Roland Jackson at the Newark High School has asked Santa to send him some good basketball players.

Coach Bill Murray at the College wants the war to get over so that he can have some more undefeated football teams on Fraser field.

Coach Shack Martin also wants the war to get over so that he can resume his wrestling teams and Ed Prince would like to write more sports stories for the Post.

Tommy Ross, one of Newark's leading building contractors is proudly showing everyone a Christmas card he received from the Boy Scouts signed by every member of the troop. Tommy fixed up the Scout rooms recently.

The members of the Newark football team are still looking for Santa or someone to fix up a football banquet for them.

The Newark Boy Scouts just want more opportunities to prove that they are the best organization in Newark.

The Newark New Century Club wants more people to buy bonds.

The Newark Cub Scouts wants more Christmas parties.

The Newark Music Society who have sponsored two lovely concerts this season want more and finer concerts.

Word has just been received that A. William (Flash) Fletcher is now a private with a Cavalry unit stationed at Fort Riley, Kansas. Well folks, we have often heard Flash Fletcher rooting for a horse to come in first at one of the races but just think of Bill riding one of those animals. Bill, the Newark Post sends greetings and if you should find time we could still use a column telling of your experiences. If you could use an air cushion we are sure that we could raise the money. Let us hear from you.

George M. Haney wants Santa Claus to send him some fluid for his fire extinguisher. Last week when an automobile caught fire near the Wilmington Auto Company George ran out with his trusty fire extinguisher and after pumping for all he was worth and nothing came out of the extinguisher to put out the blaze, George found that the extinguisher was empty. It was nice of you to try, George.

When the fire chief has a fire the whistle did not blow as long as usual. The boys got real busy and traveled. Even Assistant Chief Edwin Shakespear went into action and of course the reporter was on the job to get a front page story.

"Why The Chimes Rang" was presented again this morning at the regular assembly period for the school children.

**Captain J. C. Phillips
Receives Transfer**

Capt. James O. Phillips, adjutant at the Third WAC Training Center since its activation in January, has been transferred to the Fourth Service Command Headquarters, Atlanta.

Capt. Phillips was graduated from the Adjutant General's School, Fort Belvoir, Md., in June, 1942, with the commission of a second lieutenant and was assigned immediately to duty at the First WAC Training Center, Fort Monmouth, Iowa, later being transferred to the Second WAC Training Center, Daytona Beach, Fla.

After duty with the Women's Army Corps, Capt. Phillips served with the Army in Honolulu, Randolph Field, Texas, and Fort Totten, N. Y. He also spent four years with an ROTC unit at the University of Delaware, Newark, Del., prior to attending officer candidate school.

**DELAWARE'S
FARM FRONT
THIS WEEK****Crop Loan
Certificates
Being Issued**

Sixty farmers in Delaware have already made application for Federal Crop Insurance for indemnities because of short crops since they were protected in 1943 under What Crop Insurance Program and will receive certificates for 4971 bushels of wheat.

Some of the certificates have already been issued. They give the farmer two options. First, he may indicate that he wishes the cash in settlement, in which case he signs and returns the certificate to the branch office in Chicago, Illinois. Second, he may wish to secure a loan on the wheat. If so, he takes his certificate to the county AAA office and secures a loan from the Commodity Credit Corporation just as if he had presented a warehouse receipt.

The War Production Board has directed manufacturers of flashlight batteries to distribute approximately 20 per cent of their fourth quarter production to farmers. The purpose of this directive is to make flashlight batteries immediately available for farmers throughout the country to assist in caring for young stock during winter months. Batteries now are being made at approximately 50 per cent of pre-war output and the directive makes about the normal rural consumption available through farm outlets.

Manufacturers are directed to allocate specific numbers of batteries among farm distribution outlets on the basis of past purchases or other equitable methods. The directive does not change the operation of preference ratings in any other particular and AAA and certain other orders are not affected.

Because of increased amounts of iron and steel scrap needed to maintain production requirements and the fact that recent coal strikes caused increases in the amounts of scrap used in steel furnaces, the Salvage Division of the War Production Board is continuing the "Victory Scrap Bank" drive indefinitely. Mills are now consuming more purchased scrap than they are receiving and farmers will be urged to make another scrap clean-up before winter sets in.

The War Food Administration has been assured by the War Production Board that sufficient copper for production of copper sulphate to protect next year's food crops from bacterial and fungus diseases will be available. WFA suggests to consumers and distributors how they can, and must, cooperate with manufacturers if adequate quantities of copper insecticides are to be available when needed next year. Consumers and distributors must order and accept delivery as soon as possible. The WFA order is prompted by three manufacturing and distributing factors: Copper is allocated quarterly for fungicides on the basis of demand; manufacturers do not have adequate space to permit storage until products are needed; labor and transportation situation is too critical to permit delaying manufacture and distribution until buyers actually need copper sulphates.

An eight-point milk production program for 1944 will be launched this month in a series of twelve regional meetings with representatives of Washington and State Extension Services and representatives of the Dairy Industries Committee. Conferences are being held to plan action with the various states. Delaware was included in the group meeting in New York on December 9.

Points to be stressed in the program are, (1) grow more legume hay, pasture, and grain; (2) Fertilize to increase quantity and quality of feed; (3) Feed to avoid summer milk slump; (4) Feed cows liberally during dry period; (5) Keep as many cows as feed and labor permit; (6) Market whole milk whenever possible; (7) Produce good quality milk and avoid waste; and (8) Breed for better herd replacements.

CIVILIAN DEFENSE STAFF MEETING

Mrs. Arnold Explains New Warning Center Arrangement

The staff of the Newark Council for Civilian Defense held their regular meeting in the Elliott building this week with Harry L. Bonham in charge of the meeting.

Attending the meeting were Arthur W. Perry, Fire Chief Elmer Ellison, Chief of Newark Police William Cunningham, Mrs. Perri Arnold, representing the Warning Center, Dr. Glenn S. Skinner, Newman Rose, Russell Silk, F. A. Cain and Mrs. Orville Little, secretary to the group.

Mr. Bonham stated that just because the Warning Center had been closed was no reason for the public or the Civilian Defense groups to feel that there should be any letup in preparation for defense. The closing of the Warning Centers and other forms of activity has only been brought about due to the shortage of man and woman power.

Mrs. Perri Arnold, assistant supervisor of the Warning Center spoke about the new setup and stated that the Warning Center was ready to go into action at a moment's notice. At the present time all test calls, practice air raid calls or calls resulting from an actual air raid would be received by the Newark Police department who had a list to call in case of emergency and the entire Civilian Defense organization would be on the job in a matter of minutes.

The defense equipment that has been stored at the local fire house will be distributed at once and any excess materials will be shipped back to the National organization for use where needed most.

Mr. Bonham discussed Civilian Defense awards which are to be distributed to those serving the required number of hours.

Mr. Perry discussed the coming Fourth War Loan Drive which will be held next month at which time the Civilian Defense groups will again be used to put the drive over. Newark's quota will be enough to purchase a four-engine bomber.

CLUB WOMEN BOND DRIVE

"Buy A Bomber" Campaign On

An earnest appeal is made to the citizens of Newark to support the "Buy A Bomber" drive which is now on.

The Federation of Women's Clubs of Delaware is sponsoring the purchase of War Bonds to apply toward the purchase of a bomber which, if financed, will be named for Delaware.

When you buy your bonds please request the seller—the local banks or the Post Office—to credit your purchase to the Newark New Century Club. The amount of the bond you buy will then aid the bomber drive which will close December 31.

Remember the bonds you buy during the holiday season will help your state to add another unit to our increasing air force.

Morning Services At The Head of Christiana Church

Services on Sunday, December 26, will be held in the morning at the Head of Christiana Church with the Sunday School hour starting at 10 o'clock at which time the lesson topic will be "Gods Great Love and His Gift".

The pastor, Evan W. Renne, will preach the sermon at the morning worship hour on the subject "Our Times Are in God's Hands". The church choir will present special music. All are welcome.

Schools Close Today For Christmas Vacation

Teachers of Newark Public Schools will enjoy the Christmas holidays this year as well as students. Superintendent C. E. Douglass stated yesterday as he announced that local schools would dismiss at 2:15 this afternoon. Classes will reconvene at the regular hour on Monday, January 3, 1944, thus granting a ten-day Yule vacation. Many teachers and faculty members will utilize the vacation to visit their homes and relatives during the Yule season.

RATION TOKENS PLANNED

National Vulc. Yorklyn Plant Makes Material

The fibre from which will be made the two billion dime-sized ration tokens which the OPA will place in circulation throughout the nation Feb. 27 is being turned out at the plant of the National Vulcanized Fibre Company, Yorklyn.

This was revealed by J. Warren Marshall, president of the fibre company, who said that the firm has been busy since early November on a contract with the Office of Price Administration to furnish more than one-half million pounds of fibre in red and blue.

The contract, which includes a substantial part of the fibre necessary, is valued at several hundred thousand dollars, Mr. Marshall said, and has provided considerable employment locally.

Mr. Marshall said the fibre is manufactured in coils or strips about one-sixteenth of an inch thick and four and three-eighths inches wide, and then shipped in large units to Cincinnati, O., where it is punched out in token form, ready for the public.

The Office of Price Administration recently announced that the nation's shoppers will start trading ration stamps for the red and blue tokens at retail stores on Feb. 27, but reminded everybody that the ration currency will supplement, not replace, the regular ration books.

Stamp strips will be torn off horizontally from ration books when the token plan becomes effective. Regardless of their present point number, each stamp will be good for 10 points under the new arrangement.

A regular schedule of validity dates will be established. Consumers will get 50 blue processed food points a month, and 30 meat, fats and butter points semi-monthly. OPA said the tokens will make it unnecessary to issue ration books as frequently as at present.

Exercises of U. of D.

Degrees were presented by Dr. Walter Hultihen, president of the university, who presided. He pointed with pride to the small class of men which has lost many members to the armed forces, and praised the men and women graduates who chose to "hasten the day to be prepared to share in their nation's task." He mentioned that in keeping with the wartime program of the school, the baccalaureate and commencement programs were combined.

Four graduate degrees were presented, as master of arts in the school of arts and sciences to Margaret Ellis Johnson of Delaware City and John Madison Lupton of Wilmington, and in the school of education to Helen Tatman of Lewes. Degree of master of chemical engineering in the school of engineering was awarded James William Westwater of Newark.

The program was opened with a colorful academic procession from University Hall. The invocation, Scripture reading, and benediction were given by the Rev. Dr. Arthur J. Jackson, pastor of the Methodist Church, Newark.
