Women's Dorms To Produce Original Musicals For Sixth Annual Playbill February 23

February 23 and 24 mark the dates for the sixth annual Women's Playbill beginning at 7 p. m. on the Mitchell Hall stage. Women's Playbill came into existence as a result of the need felt for more tradition on South Campus. Originally it consisted of a separate play and musical numbers. This year all the dorms have written original musicals.

The co-chairmen are Jo Ann Chandlee and Jean Durgin. Wednesday night Smyth Hall Unit A will open with a musical called "De Confusion." Their directors are Peyton Hudson and Nancy van Sciver; accompanist, Carolyn Brown. The next dormitory presentation will be "Once Upon a Time" by Warner Hall. The directors are Mary Martin and Marilyn Smith; accompanist, Ann Moore.

Third on the list will be Smyth Hall B presenting "Lost In a Shuffle", directed by Lee Lee Hannold and Suzan Kozak; accompanist, Lee Lee Hannold. The Women's Commuters Organization will be the last group performing on Wednesday night. This is the first year the women commuters have taken part in it. Their musical is entitled "Hell's Belles" and is directed by Nancy Glick and accompanied by Elinor Sikorski.

Jean Durgin JoAnn Chandlee

Thursday night Sussex will open the fantasia with "Trial In Tune," directed by Norma McClellan and Mary Terrell; accompanist is Pat Billings.

New Castle Hall is presenting an original musical directed by Cindy Travis and Joyce Mitchell. Cannon Hall will present the last number called "Double Trouble," written by Ellen Ungerleider. It is directed by Anne Williams, Barbara Nast and Julie Jefferson; the accompanist is Betty Carvel.

A cup will be presented Thursday night. There will be no ties. Dean Collins will award the cup to the winning dormitory at the end of the playbill.

APO, the honorary service fraternity, will usher for playbill.

Engineers Sponsor Chem Symposium

The seventh Delaware Chemical Symposium will be held tomorrow, February 19, 1955, on the university campus.

The symposium is sponsored by the Philadelphia-Wilmington Section of the American Institute of Chemical Engineers.

Papers on analytical chemistry, chemical engineering, chemical marketing, organic chemistry and general chemistry will be submitted by members of the chemistry department. Time will be allowed after the presentation of the papers for audience participation and discussion.

Luncheon will be served in Kent Hall for the benefit of those not having lunch facilities. There will be no registration fee for the symposium. M. J. Roedel is chairman of the symposium committee.

Dancers To Name Choice Of Queen For Military Ball

White parachutes and balloons will be included in the decorations for the annual Military Ball to be held on February 25 in Carpenter Field House.

The dance floor will be enclosed by red, white and blue streamers, and the balloons will form a ceiling. Parachutes will be hung over the band stand and down the middle of the dance floor. John Capodano and Bob Gutekunst are co-chairmen of the decoration committee.

Freddy DiFurio will supply the music for the dance while Miss Carol Harcastle will be the vocalist.

During the intermission the queen of the Military Ball will be crowned. Ballots for electing the queen are printed on the tickets which sell for \$2.50 a couple. Tickets may be secured from any Scabbard and Blade member.

UD To Award New Frosh Scholarship In September 1955

A four-year scholarship, valued from \$200 to \$2000, will be offered to an entering University of Delaware freshman for the first time next September. The scholarship is a part of a new \$2,000,000 annual program of scholarships and college grants, offered by the General Motors Corporation.

The amount of the scholarship will be determined by the university; demonstrated need will be the basis used for establishing the amount.

The University of Delaware is one of 306 colleges and universities throughout the nation included in the new program of financial support. Given a "free hand" in choosing the students to be awarded the scholarship, the university is to select those who are outstanding scholastically and in leadership qualities and who need assistance. There is no limitation with respect to course of study.

Inquiries and applications regarding the General Motors scholarship should be directed to the office of the dean of students.

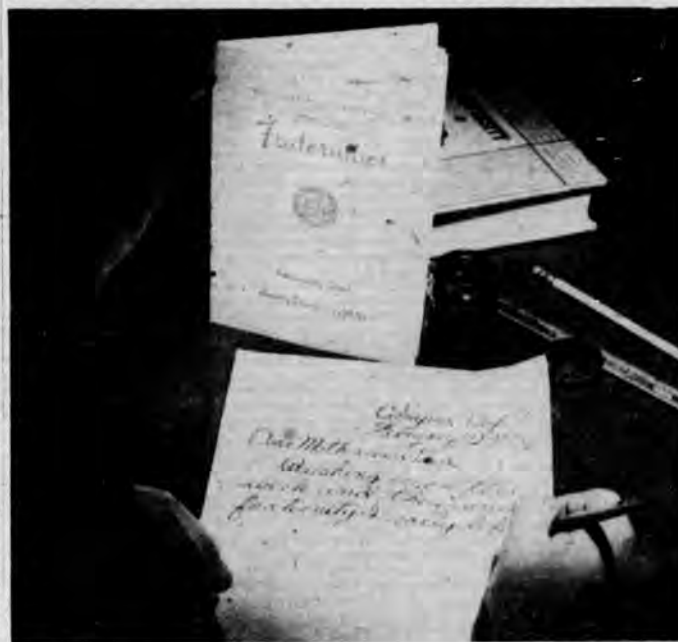

Frosh Approve Constitution Prepare For Future Events

The new freshman class constitution was approved at the second freshman class meeting held on February 8.

Among other matters discussed it was decided that each freshman should pay \$1 dues for each year on campus. This will enable him to participate in various class-sponsored activities.

The class will sponsor a dance on the week end of April 15-16.

Tomorrow Night To End Rushing, Silence And Selection To Follow

—Photo by Whitaker

Ungerleider, Robertson To Play Major Roles In 'Mrs. McThing'

The majority of the cast for "Mrs. McThing," the last major E-52 production, has been announced by the play selection and casting committee with Ellen Ungerleider, Dan Robertson and a Newark grade school student in the leading roles.

Ellen will portray Mrs. Howard V. Larue III, a rich woman created by Helen Hayes on Broadway. Ellen, a senior drama major, is no stranger to the Mitchell Hall stage, and when she is not acting, she can be found on one of the back stage committees. Last year she was seen as Cecily in "The Importance of Being Earnest" and the dark witch in "Dark of the Moon." Ellen was the coordinator of the May Day program last year and was also one of the co-chairmen of the Women's Playbill.

The head gangster, Poison Eddie Schellenbach, will be played by Dan Robertson, who also has been well known to Mitchell Hall audiences. Returning from the service last semester, Dan was seen as Snugg, the Joiner, in "Midsummer Night's Dream." Other plays which Dan has to his credit are "Life with Father," "Marco's Millions," and "Pinocchio."

Dick Reed, student from Newark Grade School will play the part of Howay Larue. This part is a dual role, a stick boy and a child gangster. Tom Davis will under study the youngster.

Other members of the cast are Phyllis Fisher, the maid; Elaine Peterson, the nursemaid; Mary Minkiewicz, Judy Kase and Susan Kozak, the Lewis sisters; Irven Rlnard, the chef; George Boyd, Dirty Joe; George Cavey, Stinker; Jean DeVries, Mrs. Schellenbach; Sherman Webb and Carl Seltzer, policemen; and Connie Goodman, the ugly Mrs. McThing.

The comic fantasy, by Mary Chase, author of "Harvey," mixes witchcraft, children and gangsters into a witty state of confusion.

"Mrs. McThing" will be presented in Mitchell Hall, March 17, 18 and 19. Tickets will go on sale at the box office March 9. University students will be admitted free upon the presentation of the student activities ticket.

Fraternities Plan Parties For Final Fling In Rushing

House parties to be held at all nine University of Delaware fraternities tomorrow night will bring to a close the 1954-55 rushing season.

The open houses which were scheduled to be held at all fraternities tonight, have been cancelled by the Inter-Fraternity Council. This means that tonight the houses will be closed to rushees and there will be no off-campus rushing. This open date provides a break in the schedule between the final smokers and the last parties.

Immediately after the house parties tomorrow night, a silent period will be invoked. During this period the rushees who wish to join a fraternity will decide, and on Monday, February 22, they will register their choice or choices with the Dean of Students office. The fraternities will also turn in their selections to the Dean of Students office.

The silent period will officially end when the Dean's office reveals the results of matching the respective choices on Tuesday. After the silent period any rushees who have failed to make

(Continued on Page 10)

Campus Chest Drive Begins February 28; Committee Sets Goal

The Campus Chest Drive which corresponds to the United Fund drive will begin February 28 and last until March 5. The goal of the drive is 100 per-cent contribution from the students and faculty members.

Mr. Paul Denise, the regional executive for the World University Service, visited the university Monday, February 7 and gave hints on fund raising to the committee.

The committee for the Campus Chest Drive is headed by Jim Flynn, chairman. Other members of the committee are Betty Mae Snowberger, secretary; Jack Maly, program chairman; Tom Hopkins, representative to men's dorm; and Peggy Tighe, representative to women's dorm. The faculty representative and advisor is Dean Bessie Collins.

Special features of this year's drive will include special events put on by the various dorms and fraternities. The organization raising the most money will receive an award.

UD, Immaculata To Debate China

"Should we extend diplomatic recognition to the communist government of China?" will be the topic of a debate between the University of Delaware Debating Team and that of Immaculata College.

The topic above is the National Debate Topic for this year. Spen Hedger, Jack Grant, Dick Sutton, and Bill Brown debated for Delaware at Immaculata last year and returned with a "split" decision.

NOTICE

All books will be returned directly from the temporary bookstore to the publishers on February 25. That means there is only one more week to secure any text books needed.

NOTICE

In a previous issue, the deadline for the "Mademoiselle's" College Fiction Contest was stated incorrectly. Entries must be postmarked no later than midnight of March 1.

Tassel Members Hold Tea For Freshman On Dean's List

Tassel's "I. Q. Tea" for freshmen girls will be given on February 21 at 7 p. m. in Warner Hall.

On Monday evening, this tea will be given for all freshmen girls who made the Dean's list. The purpose is to introduce the girls to Tassel and give them a goal to work toward in their following years at the University of Delaware.

Get Acquainted

Dr. Richard Francisco Enjoys His Extra-Curricular Activities

Mr. Richard L. Francisco, professor of English, has been a comparative newcomer on Delaware's campus, as he has been here only two years. Born in Pasadena, California, he has lived in many cities throughout the country including Detroit, Boston and Cleveland, where he graduated from high school.

While attending Kenyon College in Gambler, Ohio, he was undecided for a time whether to major in Political Science or English, until he took several courses under Professor Robert Hillier. After graduating with a Bachelor of Arts degree, he did post-graduate work to receive his Master of Arts in American Literature at Duke University. He is presently working on his doctorate.

Collecting American literature books of the late nineteenth and early twentieth centuries, listening to music and dabbling in oil painting take up most of Mr. Francisco's spare time. As for teaching, he enjoys working with students, especially those who participate in class discussion and the school's extra-curricular activities.

He recently helped organize and actively participates in a Great Books Discussion Group which meets to discuss the major works of Western thought, and he is presently busy working as faculty advisor for the publication of a new magazine called VENTURE, which is to come out in January.

New Publication Aids Engineers In Finding Desired Employment

Engineers' Job Directory, the first and only annual publication of its type directed specifically for young engineers, has just been published by Decision Inc. of Cincinnati.

This directory contains the key facts in capsule form on companies interested in hiring engineers. This information lists the home office or division location of each company, the type of industry, products or services offered, number of employees, and whom to contact if interested. This enables the engineer to coordinate and match his interests with the right company.

It is distributed to over 140 accredited engineering colleges and universities. Copies are made available to placement offices for student use. All engineering deans and department heads receive a complimentary copy. Engineering students may obtain individual copies for \$2.25 by contacting the publishers.

Interested engineers can receive additional information by contacting their placement offices or engineering professors. Decision Inc.'s general offices are located at 105 East Fourth St., Cincinnati 2, Ohio.

University Drops Only Six Percent

Contrary to the rumors which have been circulating around the university, an overall of 6% of the students have been dropped this past semester; not 10%. This loss is approximately the same as it has been the past few years.

At the end of the first semester 119 students out of a total enrollment of 1961 undergraduates "flunked out" on account of poor scholarship either because their general performance for that semester was low or because they failed to bring up their work to an acceptable level after one or more semesters on probation. The total number dropped is slightly greater as the freshmen and sophomore classes are larger than ever before.

The percentage loss by classes runs as follows: Freshmen, 7.7%; Sophomores 3.2%; Seniors 1.3%.

There are now 263 undergraduates on probation; this makes a total of 14.6%, not the rumored 30% under probation.

B'nai Brith Lodge Features President Perkins' Speech At Annual Award Program

President Perkins will be the main speaker of the evening at the B'nai Brith, Wilmington Lodge No. 470, American Award Program on February 22. This program is an annual affair.

One big feature of the evening is the announcement of the person in Delaware chosen for having done the most to further Americanism throughout the year. Nominations for this honor are sent in by citizens of the state of Delaware.

President Perkins' speech is entitled, "Freedom's Future." Since February 22 is Washington's birthday, Dr. Perkins will relate Washington's ideas of freedom and liberty to our present day freedom.

On Saturday, February 26, the Federation of Men's Bible Classes of McCabe Methodist Church will be host to the National Federation of Men's Bible Classes for a mid-year conference. Some 350 delegates are expected.

By means of a panel discussion, the theme of the conference will be "The Aspects of Religion as Related to Law, Learning, and Living." President Perkins will speak on "The Aspects of Religion as Related to Learning."

Cosmopolitan Club Sees 1951 Slides Of European Tour

At 7:30 p. m. Monday, February 6, the Cosmopolitan Club of the University of Delaware held a meeting.

Nesta Warfield showed some slides of her trip to Europe the summer of 1951. She spent ten weeks on a foreign exchange trip, passing time in Holland, Belgium and France. Her slides of the palace of Versailles were especially good.

George P. K. Ching presented the constitution, which was passed unanimously by the members of the club. Carlos DeLaCuesta will be responsible for future changes.

After Nesta's tour, dancing was introduced. The tempo was Latin-American and the participation universal. Carlos de la Cuesta, maracas in hand, was maestro. Both he and his cousin Hernando performed admirably on the floor.

Some new members were introduced: George Gatos of Athens, Greece; Irvin K. Park of Seoul, South Korea; Enrique Reynes, of Manila, P. I.; and Katherine Eliades of Greece.

Seen conversing were Filomena Giammarco, Mary Ann Novak and Cris Herd. Their conversation was directed to that expert of Mesopotamian affairs, Hadi Ewadh.

Class officers were established for next semester with Serge Jackaruk as president.

Barratt Lectures

The graduate lecture of Dr. Ernest S. Barratt, assistant professor of psychology, will be held on Monday, February 21, 1955. The lecture is entitled "How Predictable is Human Behavior?"

The lecture will be held in Room 220 Hullen Hall at 4:20 p. m. It is open to all graduate students and faculty members.

SGA Offers Thanks To Donors For Gifts To Building Project

SGA has expressed its appreciation and gratitude to the two anonymous donors via President John A. Perkins for the gifts totaling \$1,650,000 which the university recently received for new buildings.

The student government also thanked President Perkins and the Board of Trustees "for their continuing efforts toward interesting benefactors in making such significant gifts."

In the resolution unanimously passed by SGA, it was stated that the student body, represented by this organization, was conscious of the efforts of the administration in increasing and bettering the facilities of the university, and recognized "the difficulties involved."

Recognizing the gifts which enable the university to build the "much needed" engineering and student health buildings, the SGA asked Dr. Perkins to acknowledge the students' appreciation.

The resolution is as follows: "Whereas the University of Delaware has received two magnificent gifts in the amounts of \$1,350,000.00 from an anonymous foundation for a new engineering building and \$300,000.00 from an anonymous citizen of Delaware for a new student health center and

"Whereas the SGA is keenly aware of the pressing need for expanding a structural space in engineering and for a modern, adequately equipped student health center, and

"Whereas the SGA recognizes that the gifts received will enable the university to provide these much needed facilities, and

"Whereas the SGA appreciates that such generous benefactions from private sources as are represented by these two gifts greatly enrich our educational opportunities at this university,

"Therefore be it resolved that the SGA ask the President of the university to express to the donors of these gifts the deep appreciation of all students enrolled at the University of Delaware, and

"Be it further resolved that the SGA on behalf of all University of Delaware students express our thanks to the President and to the trustees for their continuing efforts towards interesting benefactors in making such significant gifts to our university."

History Department Offers Two Prizes For Original Essays

Two prizes will be awarded for essays on certain phases of history by the history department this year.

The Old Home Prize is to be offered to the student who presents the best original essay on some phase of the History of Delaware of the Eastern Shore. The prize consists of the income from a fund of \$500 established in memory of President William H. Purnell by persons interested in the history of the Delmarva Peninsula.

The Thomas J. Craven Memorial Prize is to be awarded to the male student who, having attained the grades of "A" or "B" in the survey course in American history, submits the best original essay on some aspect of American constitutional or political history. The prize consists of the income from a fund of \$2,000 established by Mrs. John P. Nields and Mrs. Henry K. McHarg, Jr. in memory of their father, Thomas J. Craven of the class of 1858.

Essays submitted in competition for these prizes are due in the office of the Department of History, 209 Hullen Hall, by noon, April 16. For further information consult Dr. John A. Munroe, Chairman of the history department.

Far East Authority Joins Summer School Faculty

Dr. Frederick Hung, associate professor of geography at Western College, will join the University of Delaware summer school staff again as an authority on the Far East. Dean W. O. Penrose, director of summer school, announced today. Dr. Hung lectured at the University of Delaware for the first time last summer.

UD's History Club To Hear Speeches On Germany Today

Dr. William A. Mosher, chairman of the Chemistry Department, will speak on "German Technology in War and Peace" at a meeting of the History Club on Monday, February 21. The meeting will be held in New Castle Hall Lounge at 7:30 p. m. Refreshments will be served.

Two years ago Dr. Mosher was in Austria on a Fulbright Scholarship. While there he lectured in Chemistry and studied Austrian and German chemical developments. He intends to discuss German technical developments and the roles that they played in the second World War and in the peace which preceded and followed.

On Monday, February 28, at 4 p. m. Dr. Gordon Craig of Princeton University will speak on "The Historian and German Rearmament," and the History Club will attend this lecture. There will also be a short business meeting February 21.

Charles Chappius, president of the History Club, asks that all students interested in attending History Club meetings drop him a note at Box 197 so that they can receive the club notices of meetings.

Dr. Tyler, visiting professor of History, will speak to the History Club on March 8. He will speak on "Maritime History of the Delaware River." The meeting will be at 7:30 p. m. in Brown Hall Lounge.

Need Money? Apply Now

Applications for financial aid for 1955-1956 must be submitted to the office of the Dean of Students by May 15.

This applies to applications both for students who are renewing their scholarships and for students who are now enrolled here and who wish to receive financial aid.

The necessary application to be used in applying for financial aid may be obtained from John E. Hocutt, Dean of Students.

High Percentage Of Delaware Students Do Graduate Work

When one considers the size of our university, it is extremely interesting to note the high percentage of Delaware students who go to receive higher degrees after graduating. The number ranks with those of major schools throughout the country.

Dr. Carl J. Rees, Dean of the Graduate School, recently remarked that: "During the past, it has become the custom for graduates of the University of Delaware to attend graduate schools of other universities." He went on to state that this practice has always been encouraged, for, "It seems to be the best advantage of each of those graduates who wish to continue their education, to do so at an institution other than the University of Delaware."

"Since they have spent four years with the faculty on this campus, they would undoubtedly profit most in a new environment, with new instructors, chosen by reason of eminence in the desired field of study. This does not mean, of course, that if the student finds it im-

In addition to appearing in the series of Wednesday evening programs planned for the summer session, the China-born and Europe-educated professor will instruct two summer school courses. One, "Human Geography of the Far East," will feature the geographic, historic and cultural patterns and problems of China, the Soviet Far East, Korea and southeastern Asia.

The second, "Principles of Geography," is a study of the influence of geographic factors on human life and of man's adaptation and adjustment to his natural environment.

A native of the same Chinese city as Confucius, Dr. Hung was educated in France. For his army service as liaison officer between the Chinese and French and American armies during World War II, he was awarded the Victory Cross by Chiang Kai-shek. From 1944 to 1946, he served directly under Chiang as staff member of the Central Political Institute at Chungking.

Holding a French doctorate in geography, Dr. Hung came to the United States through an award of the American government. Professor Hung is a member of the International Geographical Union, secretary of its Chinese National Committee, and a member of the Association of American Geographers, the Geographical Society of China, Societe de Paris, Geological Society of China, Chinese Social and Political Science Society and a Fellow of the American Geographical Society.

Author of books in French and Chinese and a number of articles in English, Dr. Hung has fifteen years of teaching experience in Chinese universities. In addition, he has lectured at Harvard, Clark and Georgetown universities and has held a visiting professorship at the Kennedy School of Missions, Hartford, Connecticut, as well as the University of Delaware.

After attending the Fukien Christian University in China, the noted educator received a B.A. in physics from the University of the State of New York in June, 1926. He has since received degrees in France, including a doctorate in geography and a diploma in international relations.

Dr. Hung is a former editor of the History and Geography Weekly and the Foreign Affairs Weekly and a former co-editor of the Warring States bi-weekly.

possible to go to another school, he will not be welcome at Delaware," the dean quickly assured.

Those considering further education may find a visit to the office of the Graduate School, located on the first floor of Hullen Hall, extremely helpful. The office has a large number of bulletins and catalogues available to aid the student in his selection of schools. Information may also be obtained there in regard to available fellowships awarded to these schools. In addition, the student will often find it a great advantage to discuss his future plans with his faculty adviser, or with a professor in his major field of interest.

Since a meeting devoted to such matters has been omitted this year, students are urged to visit the office.

During courtship a woman always wants to think of him; afterward she wants to think for him.

Psychology Dept. Continues Family And Health Program

The Family and Health project, conducted throughout the State of Delaware by the Psychology Department of the U. of D., is now in its third year of progress.

Originated and directed by Dr. Joseph Jastak, a psychology staff member, this study covers the effects which such factors as the physical health of the individual, schooling, occupation, marriage and social participation have on the person's adjustment and happiness.

The ability patterns of individuals as they are related to various personality traits, such as social conformity, aggression, contacts with reality, motivation, motor efficiency and mood stability, are also being studied. The principle investigator is Dr. MacPhee.

Families to be interviewed are picked at random from all parts of Delaware. The interviewers are also assigned on this basis. This method of assigning interviewers allows a check on whether differences found are due to the population group or to interviewer bias.

Few projects using this sampling idea have been undertaken on as broad a scale. The Family and Health project met with considerable success. In studies of this sort, usually about fifteen to twenty per cent of the people to be interviewed refuse to cooperate. The refusal rate throughout this project has been only about five per cent.

The success of this project is due in part to the excellent cooperation of many persons and groups in Delaware. Wonderful support has been received from the governor and from many other community leaders, including majors, police chiefs, and state agencies.

The alumnae of the U. of D.

and the AAUW have been very helpful in locating house holds in down-state Delaware.

Dr. Leonard Duhl, a psychiatrist who is in charge of one phase of research of the National Mental Health Foundation, has recently visited the offices of the Family and Health study and has encouraged continued research in it.

Home Ec School Organizes Senate

The school of home economics has organized a home economics senate. Eight students, three members of the faculty, and Dean Ayers make up the group. The students, two from each class, are elected by their respective classes. The chairman of the senate is Mary Ann Simpson; the secretary is Mary Kaleel.

The purpose of this group is twofold. First, it is to help unify the school of home economics in relation to the students and faculty. The second purpose is to attempt to solve problems or make any suggestions to the school of home economics. The students may feel free to bring their problems before this group, whether it be to complain about the lack of pencil sharpeners or to question the scheduling of classes and required courses. By airing their opinions the students as well as the faculty hope to better the school of home economics by pleasing the students as well as the administration.

The Senate meets once a month. This year's members are Margaret Ann Lloyd, Mary Ann Simpson, Mary Kaleel, Nancy Prociuous, Karen Venetian, Mary Hoover, and Paula Durrett and Miss Mary E. Wines represents the faculty. Dean Irma Ayers is also present at the meetings.

Dean's List Shows Two Hundred Get Top Notch Marks

Despite all the moans about poor indexes heard around campus, 229 students made Dean's List.

Mary Dougherty, Keelin Fry, Donald Jost, Joan Lloyd, Lois McKay, Earl Powers, Edith Priestley, Paul Seidenstat, Jerry Spivack, and Robert Strimple all made a 4.00 index this term.

Of those who head Dean's List, five are seniors, three juniors, one a sophomore and one a freshman.

Other students who made Dean's list are as follows:

Davis, George James	3.94
Kumpel, Ruby May	3.94
Corrin, Kenneth	3.93
Frazier, Audrey	3.92
Gallagher, John L.	3.90
De Laer, Costa H.	3.89

Vacation Travel Offered In Europe

Switzerland, England and Holland sound far away, but actually they are easily reached through student guided tours.

Many of the tours are primarily for pleasure while others combine study opportunities. For instance, the American College Council for Summer Study Abroad offers programs for studying German history, medieval buildings and the classical arts.

Some of the tours stay within one country, while others travel throughout Europe. Many seem to concentrate on France. The itinerary includes the most important places both scenically and artistically. These programs enable the travellers to meet many people not only from Europe but from other American colleges.

Transportation can be either by steamer or plane, and in Europe one can travel by automobile or bus. The tours are conducted by qualified persons, many of whom are college professors. Prices range from approximately \$700 to \$2,000 depending on the mode of transportation, duration of tour and other factors.

Information may be obtained from the office of the Dean of Women.

Princeton Professor To Visit, Deliver Lecture In History

Gordon A. Craig, Professor of Modern European History at Princeton University, will visit the University of Delaware on Monday, February 28, 1955.

His day will consist of a lecture to an H107 class and others who may wish to attend at 10:10 a. m., in Brown Auditorium. He will then have luncheon with a small group of advanced history major undergraduates. At 4:10 p. m. he will give a public lecture entitled "The Historian and the Problem of German Rearmament," in Brown Hall Dormitory Lounge.

Pre-Med Students Advised To Take Admission Exams

Candidates for admission to medical school in the fall of 1956 are advised to take the Medical College Admission Tests in May. These tests, required of applicants by almost every medical college throughout the country, will be given twice during the current calendar year. Candidates taking the May test, however, will be able to furnish scores to institutions in early fall, when many medical colleges begin the selection of their next entering class.

Candidates may take the MCAT on Saturday, May 7, 1955, or on Monday, October 31, 1955, at administrations to be held at more than 300 local centers in all parts of the country. The Association of American Medical Colleges recommends that candidates for admission to classes starting in the fall of 1956 take the May test.

The MCAT consists of tests of general scholastic ability, a test on understanding of modern society and an achievement test in science. According to ETS, (Continued on Page 11)

Trip To Aid Interest At Drexel University

Madison, N. J.—I. P.)—Drexel University announces that a new field trip program has been established this year to provide lower level students with an opportunity to visit areas of our culture, according to a report released by Dean Raymond A. Withey, Jr., of Brothers College of Liberal Arts.

The program is required of all freshmen and sophomores. Each student will make three trips during each of his two first years in the college. Trips include visits to the United Nations, New York theatre and art centers, places of religious interest, scientific and industrial centers, and the like. Purpose of the program is to provide each student with some general education through an understanding of some of the basic areas of our culture.

As a means of ending hazing, the college has established as part of its Orientation Program for freshmen a three-day camp experience. On the following morning a battery of aptitude and placement tests is given, after which the freshmen are taken to a nearby camp for recreation and further orientation sessions.

At the end of this period they return to the campus for registration and conferences with their advisers.

University To Celebrate

Day Of Prayer February 21

The annual observance of the Universal Day of Prayer for Students will be celebrated Sunday, February 20. The observance is under the auspices of the World Student Christian Federation.

The Protestant Committee of the University Religious Council urges all students to participate in the service that it will sponsor on Sunday, February 20, at 7 p. m. The service will be held in the chapel of the Newark Methodist Church. All persons are invited and are urged to attend.

Professor Craig received his preparatory education in New Jersey, graduated from Princeton University, went to Oxford University as a Rhodes scholar, where he received his Ph. D., served in the Marine Corps during the last war and has taught at Yale University. Since the war, however, he has taught at Princeton University. He has been regarded for years by the Princeton undergraduates as one of the University's most brilliant lecturers.

He is the author of many articles of a book on the German General Staff to be published shortly by the Clarendon Press of Oxford University, and is one of the editors and contributors to two influential books published by Princeton University Press, *The Makers of Modern Strategy* and *The Makers of Modern Diplomacy*.

Professor Craig has been working for many years on his book on the German General Staff and read proofs on it in December just after his return from a visit of several months' duration in Germany.

His afternoon lecture will undoubtedly reflect both his long studies from this book, and also his recent observations in Germany.

UD Reading Clinic Again To Sponsor Group Conference

The thirty-seventh Annual Education and Reading Conference will be held on Friday and Saturday, March 4 and 5, sponsored by the Reading Clinic of the University's School of Education. The theme of this year's conference will be "Getting Meaning in Reading and Arithmetic."

Indirectly, this theme resulted from a topic of Dr. Perkins' two years ago with regard to concept difficulties of children in reading. This is believed to be the first time that a combination of reading and arithmetic has been used in a conference of this type anywhere.

The purpose of the conference, as stated by Dr. Russell G. Stauffer, of the Reading Clinic, is to provide classroom teachers, administrators, school psychologists, and others connected with education, with an opportunity to meet and hear authorities in reading and arithmetic. They will also be able to participate in panel discussions. The conference will place much emphasis (Continued on Page 7)

Prize-Winning Film To Be Shown Sun.

"Torment," a Swedish movie, will be presented Sunday, February 27, at 3:15 p. m. and 8:15 p. m. in Mitchell Hall.

The film, which was awarded a Grand Prix du Cinema at the Cannes International Film Festival in 1946, involves a sadistic psychopathic teacher, an adolescent boy, and a wayward girl. The cruel teacher is continually tormenting the boy and a mysterious sadness of the boy's girl friend adds to the young student's troubles. The trio find themselves tragically involved in a tense drama outside the classroom.

The show toured America in 1947 with English captions. The running time of the film is 95 minutes. The movie was secured by the Cultural Activities Committee for all students and faculty members.

For Want**That's All We Say**

The possibility that the university may in the future have to accept a smaller proportion of out-of-state students, because of the anticipated rise in enrollment, has inspired a lot of discussion on campus about admission policies of the university in general.

In order to make the facts of the situation available, we have listed below some of the important questions on admissions and the answers which our investigation has produced.

1. What is the university's policy on admitting out-of-state students?

The reason for existence of the university is to provide service to the state of Delaware and especially to its younger citizens in the field of education. Out-of-state students are admitted to the university insofar as is consonant with that principle and according to the facilities available.

2. What is the university's policy on admitting resident Negroes?

Admission requirements for resident Negro students are the same as for all resident students.

3. What is the university's policy on admitting out-of-state Negroes?

The university does not accept applications from out-of-state Negro students. Although the university did accept some Negro resident students prior to 1950 for courses they could not get elsewhere, it first opened its doors to all Negro residents in that year as the result of a Court of Chancery decision under the now obsolete "separate but equal" doctrine. Since that doctrine applied only to the state's responsibility to offer equal educational opportunities to citizens of the state, the university has not admitted out-of-state Negro students.

4. What is the university's policy on admitting resident athletes?

5. What is the university's policy on admitting out-of-state athletes?

All athletes must meet the admission requirements set up for resident and out-of-state students in general.

6. Who is the Assistant to the Director of Admissions, and should any significance be attached to this combination with his other duties at the university?

Mr. Milo R. Lude, assistant professor of Physical Education, is the Assistant to the Director of Admissions. No significance should be attached to this combination of duties, except that Mr. Lude's wide acquaintance throughout neighboring schools and communities qualifies him for the task on contacting promising students, both academic and athletic. Mr. Lude has no authority to make commitments for the university, and he does not take part in decisions on who shall be admitted.

These answers represent a straightforward account of the university's policies on admissions, but we feel that it is unfortunate, especially in the light of the recent Supreme Court decision on segregation, that out-of-state Negro students cannot be considered on the same basis as all other out-of-state students. Maintaining a half-segregated school seems no more reasonable than digging half a hole.

RCC

Logic Is Logic**Of Management**

There is an old saying that begins "For want of a nail the shoe was lost . . .". In Kent dining hall, for want of a peg, time and money are being lost, the time belonging to the students who dine there and the money to the university.

This oddity came to our attention when we tried to determine why the cafeteria disposal line moves so slowly at Kent.

At a right angle turn in the conveyor which the university recently installed, at what must have been considerable expense, a perpetual jam of trays requires the constant attention of one employee, whose services are therefore lost to the real job of clearing trays and washing dishes.

At best this causes an unfortunate expense to the university and an annoying delay to the diners. At worst it is a waste of time and money through careless management.

Believe it or not, as everyone associated with Kent Hall has known for weeks, one small peg at the right spot in the angle would make the conveyor truly automatic, as it was intended to be, release an employee for useful work and make tray disposal a conveniently brief operation.

RCC

'Neath The Arches'

By Jack Mealey &
Marty Baldwin

Well, the freshman boys are in their glory at last. They took a giant step this weekend from not being allowed in the frat houses to parties all over campus in their honor.

Apparently every house was filled to capacity over the weekend in spite of the bad weather. The entertainment was provided in most of the houses by the very talented brothers and chorus lines of their dates. On Friday night Sig Ep had a pleasant surprise for all, with Mary Kaleel substituting for Dean Hocutt—perhaps this will make a change in the Blue Laws on campus!

Theta Chi had a switch on Saturday night, with a feminine M. C. Judy Oliver really cut up a certain big man on the quad, didn't she Ethen? Willie Keen had his life exposed at the KA party by Dick Saunders—Ralph Edwards in new dimensions.

Cupid's presence has been obvious this weekend with red roses in quantity at South Campus. One of his little arrows really got through to Sam Krussman, who pinned Marilyn Sturgess. He also hit Spike Fink, who returned with a diamond for Ethel Schwartz. Congratulations to you both. Eliot Eisenstein took the big step and became engaged to Carol Isenberg, and Dave Collins pinned Rita Rosenberg. Best wishes to you. Congratulations to one more group—the basketball team. They really came through last Saturday night.

Question of the day—where will Carmen Cella's pants turn up this weekend???

Till next week, keep a rushing!

Music
Notes

by Mrs. Cornelia V. Mylrea

The New Music Quartet, Broadus Erle and Matthew Raimondi, violins, Walter Trampler, viola and David Soyer, cello presented the fourth in the current Artist Series of concerts in Mitchell Hall on the campus of the University of Delaware in Newark last night.

Rarely have the music lovers of Newark and the University heard a concert of such perfection from such an enthusiastic and musical quartet. At no time did this group of men play down to their audience. The program was selected for the layman and the execution of it was superb. Not only did they play on matched Guadagnini instruments, but in interpretation and technical skill they are a perfectly matched group.

Their repertoire contains works of all periods of music history, but for last night's concert they chose two numbers from the classics, with one from the Italian of a much later period. They opened with Mozart's Quartet in D major, K 575 written in four movements; Allegretto, Andante, Menuetto (Allegretto), and Allegretto. The opening notes were in perfect unity with a clear, warm caressing tone. All movements were played with vitality, graceful phrasing, and easy assurance. Particularly noticeable were the accented notes which stood out clearly and pointed up the themes very convincingly.

A delightful interlude between the opening Mozart and the Schubert which ended the program was the "Italian Serenade" by Hugo Wolf. Written in the last part of the 19th century, this number is light, fast moving and conversational in character.

(Continued on Page 5)

NOTICE

Scholarship tests will be administered to high school students applying for scholarships in 220 Hullahen Hall at 9 a. m. on Saturday, February 12 and 19.

Urnst & Ienst**Russian the Greeks**

The evening was bright and clear—an old Delaware sign that there would be rain or snow before morning—when our men about campus—Urnst and Ienst—set forth to explore the domain of hominid sapiens fraternitus alias the big bad fraternity men.

Urnst took the lead, and with judo and fast feet, managed to elude the nets and traps of several burly frat men who were convinced that our heroes should see THEIR place first. Arriving at the desired Greek clique, they approached the portal and were about to knock, when the door flew open and ten hands reached out in greeting. Abashed at this great display of welcome, the boys started to fall back and regroup their scattered confidence, but found that the iron gates had been locked behind them. There was nothing to do but resign themselves to whatever lay ahead.

The brotherhood welcomed Urnst and Ienst in their best form—the crushing handshake, the friendly slap on the back, and the Ipana smile. The boys were first led to a prominent table where they filled out a long yellow form in quadruplicate—questions ranging from "Number of Toes on Left Foot" to "Brand Preference of Local Soft Drinks." A short while, and four ball point pens later, their name tags were stapled to their chests signifying the end of registration.

The next procedure in the Rushing Ritual was the tour of the house. Our heroes were ushered to the second floor, where the spacious closets were opened to the gaze of the prospects. "Sorry, wrong closet," said their native guide as they dug themselves out from under a tremendous pile of assorted junk. Ienst replaced the empty bottles, as Urnst forced a dart board (prominently displaying a picture of THE DEAN) into a corner.

Their host next explained that behind the next closed door was a study room, where silence is the watchword as the loyal brothers toil for scholastic honors. Urnst opened the door to marvel at such perseverance, and was jolted to the marrow by "Shake, Rattle, and Roll" as rendered by the Greasy Greek Five.

Still shaken by the harmony, our heroes were lectured on the virtues of fresh air available in the air conditioned sleeping deck. The conductor of the tour threw open the door, and the boys were rooted to the spot by sheer horror. Wind-blown snow whistled across the deck, drifting over one bed and then another, in the corner a small figure was carefully constructing an igloo, and a sled dog crouched by his side. Ienst, with normal boyish curiosity, tested a nearby bed after cracking off the ice layer and pronounced it to be the most comfortable thing since concrete.

Our heroes decided that they had seen enough of this palatial palace, and headed for the lower regions. Unfortunately their host neglected to inform them of the loose steps, and catastrophe followed. Urnst, with the help of several obliging brothers finally managed to pry his head from between the bannister posts, while Ienst screamed for someone to turn on the lights.

After removing the waste basket from the head of his cot, patriot Urnst led the way toward the clinking of glasses that drifted out from the back room. Here they were met by a squad of brothers who, with the precision that comes only from long training, filled them with cokes, pretzels, potato chips, pickled herring, ice cream and cigarettes simultaneously. The refreshments over, another squad of grinning Greeks propelled our boys into the front room for entertainment, where they were tamped into place in the human jungle.

The lights dimmed, and the show went on. The loyal brothers and pledges rolled on the floor with laughter, and the rushees alternately gasped for air and contemplated suicide as A. Bubblehead Monster and his quartet of Golden Monotones wailed through their paces. The end of the performance brought rousing cheers from the gallery—which were no reflection on the quality of the show, but rather great relief that the brainwashing was at an end.

As the rushees scattered, some through the windows, others through the doors, and a few through the plaster, slower moving Urnst and Ienst were surrounded by a third squad of Greeks, who backed them slowly but surely into an inescapable corner. The pressure was on.

The conversation turned to such delicate matters as balances and pledge pins. Lesser members of the household toyed with lengths of rubber hose while others focused spotlights in their eyes. The chief inquisitor playfully prodded the boys with the fire tongs as he fondly enumerated the many advantages of his fraternity.

Taken For Granted

JACK GRANT

For many months prior to the "resignation" of Malenkov the people of the free world were receiving some knowledge of the continuing struggle for power inside the Soviet Union. Without intelligence reports from Russia, it might have seemed that this problem of power had been settled with the elimination of Beria.

It wasn't until after reading the January 21 issue of U. S. NEWS & WORLD REPORT that we got a good picture of the issues involved and who was on what side. The article was an interview with a former officer of the Soviet Intelligence Service. Remember that it took place before the recent upheaval in Russia.

Q. Then what are the forces?

A. One force is a group of (Communist) party people who believe that party interests should be over the whole life of the Soviet Union. Actually these people are fighting for world domination by Communism.

Q. Who are the adversaries in this struggle? Who leads these two forces?

A. One block was headed by Andrei Zhdanov (former Politburo member who died in 1948). In this block we can see now were Nikita S. Khrushchev, Marshal Nikolai A. Bulganin . . . and others. These were people who believed that the party interest must be put above all. This block had strong support from Stalin, because Stalin was more inclined to this philosophy.

Q. And now with Stalin dead, who heads this block?

A. Apparently Khrushchev.

The former Soviet Intelligence officer then went on to explain that Malenkov and Molotov are in the "Soviet state people" group and favored an emphasis on light industry because of the poor economic condition of the Russian people.

It would seem that in the upheaval foreign policy was a secondary and perhaps diversionary consideration. The cost in men and materials, and above all in scientific and technical manpower, added to a far-reaching program of agricultural expansion initiated by Khrushchev ruled out more light industry or consumer goods.

Since Malenkov had pushed the consumer goods program, he had to go. If this vast program of agricultural expansion fails, Khrushchev's fall may be more abrupt and more painful than that of Malenkov. This may at first seem desirable. In a continuing struggle for power, however, there is always the peril that the answer to internal troubles will be foreign aggression to distract attention from those troubles.

For those who don't believe in the peaceful co-existence as expressed earlier in the Malenkov reign, the intentions of the Communists are once again clarified. Again we see the same old show behind the facade.

IBM Error Causes Panic At UConn

ACP— In this technological age, we thought the IBM machine was infallible, like the balance on your bank statement. Comes a report from the Campus, University of Connecticut weekly at Storrs, that a number of students had to do some tail explaining after their mid-semester grade reports were received at home.

"About 25 to 30 persons were affected by an IBM machine error," the Campus reports. F's were substituted for D's on grade reports. The mid-semester grades do not appear on the students' permanent records, however.

Music Notes

(Continued from Page 4)
With its controlled instrumentation it is very gay and charming.

The Quartet in G major, Opus 161, by Schubert is a much longer number than either of the others. This also is in four movements. Allegro molto moderato, Andante un poco moto, Scherzo-Allegro vivace, and Allegro assai. In this work the instruments moved effortlessly from loud to soft contrasting passages. It is full of life, vigor and vivacity. The instruments played as one, the entrances always of the same intensity. Particularly outstanding was the Scherzo-Allegro vivace movement. This was very delicate and lacy, the fabric woven by first one instrument and then another. Also well done was the trilling of the instruments in the second movement.

While this quartet as a whole was a little long, yet the interest and attention of the audience was held by the artists. The applause at the end of the concert was most enthusiastic, recalling the men several times for bows, but no encore.

"Those fresh have a strong grip this year"

Impressions

By Jean Evenson

Next year the university is planning on introducing two new programs. One is a liberal arts two-year program for Delaware residents and a five-year engineering program in which the student alternates semesters working and attending college. Here are some of the opinions of university students.

Jean Davis: I think the five-year plan is an excellent idea and should be extended to other science courses. As for the two-year course, I think it is a business school's job and not that of the university.

Mary Martin: The five-year plan is good for those who do not have much money and the practical experience is extremely valuable. I am also in favor of the two-year plan.

Kathy Perone: The two-year plan is good as it gives the university a program that not many universities have. I do believe that many people will be interested in this course, especially girls who are planning on careers such as medical secretary or just a well rounded two years of liberal arts courses. The five-year plan is a good idea because it gives practical experience.

WINSTON tastes good— like a cigarette should!

Now there's a filter cigarette college smokers will really enjoy! It's new Winston and it brings flavor back to filter smoking!

You'll really enjoy Winston's full, rich, tobacco flavor. And you will really appreciate

Winston's finer filter. It's unique, it's different, it filters so effectively! Winstons are easy-drawing, too, for full flavor enjoyment.

Try a pack of Winstons! They taste good—like a cigarette should!

Fraternally Speaking:

Delta Tau Delta

The Delts opened the '55 rushing season in a cloud of smoke, with a Wednesday nite get-together. Cokes and chips kept the rushees and brothers going in an old fashioned bull session.

The really colossal event which topped off the first week of rushing was the Friday night Valentine party. The decorations put up by the brothers were some of the best seen at the Shelter. The most attractive feature of the evening was the fine collection of lovely young ladies who all wore complimentary fraternity flowers. A star pair of rushees were introduced on Friday evening who presented their views on the rigors and joys of fraternity life. Saturday afternoon found the brothers enough recovered from the evening before to hold a little jam session joined by several musical rushees (and friend).

By that evening, Brothers Wilson, Brown, Strothman and Richter still had enough energy to journey to Frenchtown to view the scenic Elk River and surroundings.

Kappa Alpha

During the past week the KASTle has rocked amidst the spirit and enthusiasm of the rushing season. The rebel flag at 19 Amstel Avenue has greeted several hundred members of the class of '58. Tomorrow night the KA homestead will jump at the Dixie Land party scheduled by Social Chairman, Ed "Stonehead" Branicki. As has been

the policy of the KASTle during rushing, the house is open to the class of '58. Hope to see you all there.

Last week's festivities were highlighted by the excellent entertainment furnished by George Cavey and his boys. The smoker on Thursday found the Kappa Alpha thespians (?) doing a takeoff on "What's My Line?" The KA quartet gave off with several of its choice renditions. "Shazam" Cavey then made a futile attempt to sell his magic book, "Magic Is Fun."

The "Cupid and Arrow" party on Saturday night was quite a success. Those lucky enough to work their way up to the bar-men were hit with everything from sassa-parilla to rust water.

Sigma Phi Epsilon

Last Friday's blizzard seemed to have little effect on the evening's festivities. The Panther Room was filled with rushees, activities, dates and cigarette smoke in spite of the ice and snow outside. The order of the evening was dancing, singing, entertainment and ginger ale on the rocks. Barbara Taylor, Betty Mae Snowberger, Mary Kessler, Mary Kaleel, Winnie Blanken, Babs Blake, Elise Wise, Charlotte Wilde and Muriel Cheaslev teamed up to provide some interesting entertainment. It seems that the girls don't have much faith in the avid pursuit of knowledge which takes place within these scholarly walls every evening.

The girls also gave a short lesson in "A Hundred Ways to

Lose a Man." starring Betty Mae "Ros Russell" Snowberger. Irv Rinard then parried with a quick lesson on, "How to Get a Date." Dave Cocciolone gave a sterling demonstration of what the well dressed college man wears. Dick "Sam Spade" Hughes then gave his impression of a typical day in the life of a private eye. Mickey Spillane this week, Dick?

Phi Kappa Tau

We have almost come to the end of another rushing season, and probably most of the men on campus are ready for bed. The house across from the library has been host to four functions with one left on the schedule.

The last few weeks have found the seniors in the house traveling to many points in the Eastern part of the United States. Along with the rest of the graduating men, Brother Ewing traveled to New York and to the New England Area, and Brother Horne hopped on an airplane and visited the home of the Cleveland Indians.

The volleyball team is being quickly organized with 17 men who have already signed the roster.

Much to his dislike, "Jack the Dwg" has been depleted due to the recent spots on the rugs.

Saturday night saw the debut of three of the cutest chorus girls since June Taylor. Brothers Millelot, Ferguson and Garrett really put on a great can-can!

Any freshmen who may not have visited the house are cordially invited to come to our house party this Saturday.

Alpha Epsilon Pi

Don't try to sell razor blades at the AEPI House. The members of the Beard Growers Union, Brothers Sloan, Jablow, Brodsky, Bermán, Goldberg, Pizor, Spiyack, Goodman, and Katman, headed by Brother Bill Wolson, have begun their preparations for the eighth annual Buccaneers' Brawl, by growing beards, of course. A prize will be given to the member with the most impressive beard. The affair is not until March 19, but nobody wants to be caught short-bearded, especially Brother "Babyface" Goodman. This poor youth began growing his beard last year but has achieved no noticeable results as of yet.

In spite of the bad weather, the brothers and their guests enjoyed another successful house party up on the Hill. The entertainment for the evening, provided by the AEPI players, was a moving saga of the old West. Brother "I don't forget my lines" Sloan did an excellent job of forgetting his lines. Brother Handloff played the part of the bartender so well that the D. P. has offered him a job as dishwasher. We were also fortunate in having "Mamie" as one of our guests.

A costume party has been planned for next Saturday, with plenty of fun for all.

Sigma Nu

As we come into the home stretch of rushing you have probably noticed the increase of cigarette coughs. Oh well, they say it is possible to live with only one lung, so don't worry! Seriously, we hope the rushees did more than just smoke at the smokers, and will give the serious consideration deserved to their choice of a lifetime organization.

Friday, after digging out of the snow, we held our first house party during the rushing season. Highlighting the evening of dancing and getting acquainted, was the entertainment. The boys "threw together" a combo which really sounded great. Bill Green was fingering the ivories, with John Kennedy on drums, Pete Green on "uke" and Tom Bratton on his homemade bass.

Things sort of got out of hand when Brad Barnes lost his flea. Thanks should go to Nancy Stewart for trying to help, but Brad's flea had a birthmark on her left hip. Speaking of left hips, would anyone like to make any small bet?

The big question of Friday night was: Where did Tom "Just got off the boat" Hopkins and Frank "Splinter" Pettyjohn get such obnoxious shirts? Maybe "Can you top this" Whitney can provide the answer.

Congratulations to Delaware basketball victory over Haverford last Saturday. Good luck tomorrow night against Ursinus.

What Brother (Initials RGB) has a secret admirer?

Theta Chi

With formal rushing just about over, the local oxen all have the proverbial "mules"—draggins. It's been a great time for all, with a great class of rushees filling the Theta-Crate to overflowing for every function. A hearty round of congratulations goes to Tommy Thomas who has been responsible for everything.

Highlight of last week's house party was the election and serenading of Johnny Williams as the Nightmare of Theta Chi by the Theta-Ettes. Speaking of the Theta-ettes!!

All of the brothers and, we hope, the rushees, are looking forward to more of Ethan's jokes and "Harry James" Friello's trumpet, but the special attraction Saturday will be Kitty Karmuir's talking horse.

Latest recruit for the Lost Legion of Theta Chi is Sam Krussman. Carnations to Miss Marilyn Sturges and Sam who became pinned over the weekend. Also recently pinned are Miss Elaine Johnston and Bob Graham.

Scoop! Grant McVeigh has been seen dateless at our last functions—and now we know why. He pinned the home-town girl, Miss June Stack, and was waiting for the right time to announce the deed. Congratulations, Cawick!

All is not quiet on the bearded front. Brothers Ross and Krussman and pledges DeMardo and Hoopes have joined the Anti-Razor League.

Degree Of Distinction Requirements Include General Index Of 3.0

Students of the university who have earned a scholastic index of 3.5 in their chosen field of study and who have attained a general scholastic index of 3.0 may apply to enroll in the degree with distinction program. Applications for this degree must be made before the end of the junior year to the department in which the research is to be done. At the end of the senior year, having maintained his scholastic index, the student must submit a thesis based on his research and he must pass with distinction an oral examination given by a member of the student honors committee. This degree of distinction program gives the student with a good average an opportunity to do research in his chosen field that is not offered in the ordinary course. The degree of distinction replaces the special problems course of the senior year. A larger problem, that of carrying on personal research, gives the student experience in writing thesis and perhaps prepares him for graduate research work.

The special problems courses can be taken for three credits which would carry over partly into second semester while the degree men is six credits and continues for the entire year. At mid-semester, a temporary credit is given as the final result of the course will not be known until the end of the school year.

However, if the test is not passed, the degree of distinction is not conferred, but the six credits are retained.

According to a senior who is working for her degree of distinction, it is more work than any other course for the same amount of credits as the work is cumulative. She has found the best way to do the work is to set up a schedule and work the number of hours, then set it aside.

There is no specific assigned length for the paper, as many hours of research can be condensed into a few charts which accompany the thesis. However, the advisor does try to help the student with his subject matter and type of research. At the school year's end, the student must submit the paper properly typed to the library and keep one copy for himself.

Budenz Delivers Series Of Lectures

Free tickets to a series of ten lectures on "Techniques of Communism" are being offered by the Newman Club. These lectures are being given on Monday nights at 8 p. m. in the Sacred Heart Auditorium in Wilmington by Louis Budenz.

Mr. Budenz, a former Communist, is an ex-editor of the "Daily Worker." He has exposed many Communists.

Of the series, which will run until April 4, three have been given.

The Newman Club bought ten of these tickets which they have made available to students. Ordinarily, for the entire series, the price would be \$2.00.

Anyone interested should contact either Jim Flynn, Jim Shelton or Box 1080.

Reading Conference

(Continued from Page 3)

Reading Education Conference on the secondary level of teaching.

The program has been planned by Dr. Stauffer and Dr. William Spencer of the Education Department. Many noted authorities in the fields of arithmetic and reading will be speaking and participating in panel discussions. Dr. Leo J. Brueckner, Professor of Education at the University of Minnesota, will speak on Friday afternoon on the subject, "Making Arithmetic Meaningful."

Dr. Foster Grossnickle of New Jersey State Teachers' College, and co-author of several books with Dr. Brueckner, will be one of the principals in a panel concerning language and number skills in the elementary school. The same topic, dealing with the intermediate level, will be discussed by a panel including Dr. C. Newton Stokes, Professor of Education at Temple University, and Dr. Muriel Crosby, Director of Elementary Education in Wilmington.

On Friday night, Dr. Donald Durrell, Professor of Education

and former Dean of the School of Education at Boston University, will speak on "Teaching Skills for Getting Meaning" in Mitchell Hall. Following Dr. Durrell's speech, the A Cappella Choir of the university will perform under the direction of Mr. Bertram Gable.

On Saturday Dr. John A. Perkins will greet the conference at a luncheon in Kent Hall. Mr. Fred M. Hechinger, Education Editor of the "New York Herald Tribune," will also speak on the topic, "Are We Ready for Phase Two of Public Education?" The conference will end Saturday afternoon with Dr. Donald D. Durrell speaking in Mitchell Hall on "Motivating the Meaning Program."

During its thirty-seven years the conference has achieved a wide reputation of being a worthwhile event. Last year 640 teachers, administrators, and others attended, with many from Maryland, Pennsylvania, New Jersey, Virginia, West Virginia, New York and the New England states.

Exhibits of interest to educators will be located in Wolf Hall lobby.

Annual Play Festival Entries Include Student, Adult Groups

Entries are being received for the 13th annual Play Festival to be presented in Mitchell Hall on March 31 and April 1.

The non-competing school groups include Smyrna High School, William Penn School, Conrad High School, Millsboro High School, William Henry High School, A. I. DuPont High School, Cambridge High School, Tower Hill School, Oak Grove Junior High School, and Bancroft Junior High.

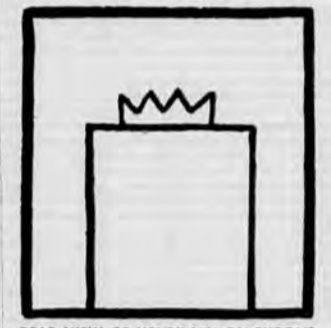

In the competitive community theatres about seven groups are entered; they are: the Arden Players, the William Henry Play-

ers the Chester Players, the University Drama Group, the Elkton Little Theatre, the Kent County Theatre League and the Wilmington Drama League.

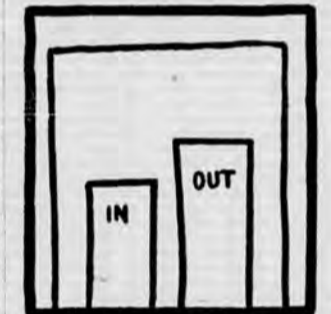

A critique judge, not yet selected, will be present to give a critical analysis of the performances. He will present the prizes in the competitive groups, and also a certificate of merit to the outstanding school group.

The plays may be of any sort of dramatic nature, one act plays or cuttings. The time limit is 40 minutes.

ALL NEW! LUCKY DROODLES!
WHAT'S THIS? For solution see paragraph below.

A STUDENT'S BEST FRIEND is Lucky Strike. At any rate, the greatest, up-to-date college survey shows that college smokers prefer Luckies to all other brands—and by a wide margin. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Luckies taste better anywhere, any time, as illustrated in the Droodle
above, titled: Skier enjoying Lucky while whooshing under bridge. Next time you make tracks to a cigarette counter, Be Happy—Go Lucky. Enjoy the better-tasting cigarette... Lucky Strike.

STUDENTS!
EARN \$25.00

Lucky Droodles* are pouring in! Where are yours? We pay \$25 for all we use, and for many we don't use. So send every original Droodle in your noodle, with its descriptive title, to Lucky Droodle, P. O. Box 67, New York 46, N. Y.

UD Indoor Track Season To Begin Next Saturday With Five AAU Events

With indoor track drawing larger crowds than at anytime in its history, the Blue Hens of the U of D will begin their fifth indoor season next Saturday. The opener will consist of 5 events of the AAU meet, to be held in Carpenter Field House. These events include the high jump, pole vault, shotput, 50-yard dash and 50-yard high hurdles. The remaining events will be held at Clifton Park in Baltimore and at Morgan State College.

An abundance of top-notch athletes appear in each event. In the high jump will be seen George Dennis of Morgan State who holds the record in the South Atlantic Championships at 6 feet 6 inches. Also entered is Buz Frazier, the Baltimore Olympic Champ, as well as a former Big Seven high jump champion. The Hens will have John Simpson and Dick Saunders, two of their most seasoned veterans, competing in this event.

The existing Field House record for the pole vault stands a good chance of being broken by any of the entrants on Saturday. George Butler, South Atlantic record holder for this event, will definitely near the top of the heap. Representing Delaware will be Bill McWilliams and freshman Don Jost. A very promising freshman athlete, Cliff Browning, has pole vaulted 11 feet 6 inches, but now has a sprained ankle and has been scratched from the program.

The shotput should be quite a grueling duel between Lou McComes and Delaware's Steve Butcher. McComes of Baltimore is the champion of the South Atlantic States Conference while Butcher has defeated McComes on one occasion; this was at the Baltimore Relays last year when Butcher emerged No. 1 in this event.

Speed demon Jim Flynn is expected to do more than hold up his end of the 50-yard dash. Some of the competition is the stiffest ever seen in the Carpenter Field House. Carl Cager will be representing the Baltimore Olympic Club; Cager had the third best time in the world for 1954 in the 100-yard dash: 09.5 seconds.

The 50-yard high hurdles poses a great problem to the Delaware squad. As yet no Blue

Chick 'n' Chat

By CHARLOTTE PHILLIPS and JEAN TULL

Hi kids!!

Basketball practices will continue until February 23 and on the following Monday, February 28, games will start. Remember that four practices are required. If you can't practice when your team is scheduled, make-up practices will be held. This should be plenty of time to get these practices in. There seems to be lots of interest this year. The commuters are really organized and we're glad to see them in the tournament. You deserve a lot of credit, kids. We wish all the teams the best of luck and may the best man win.

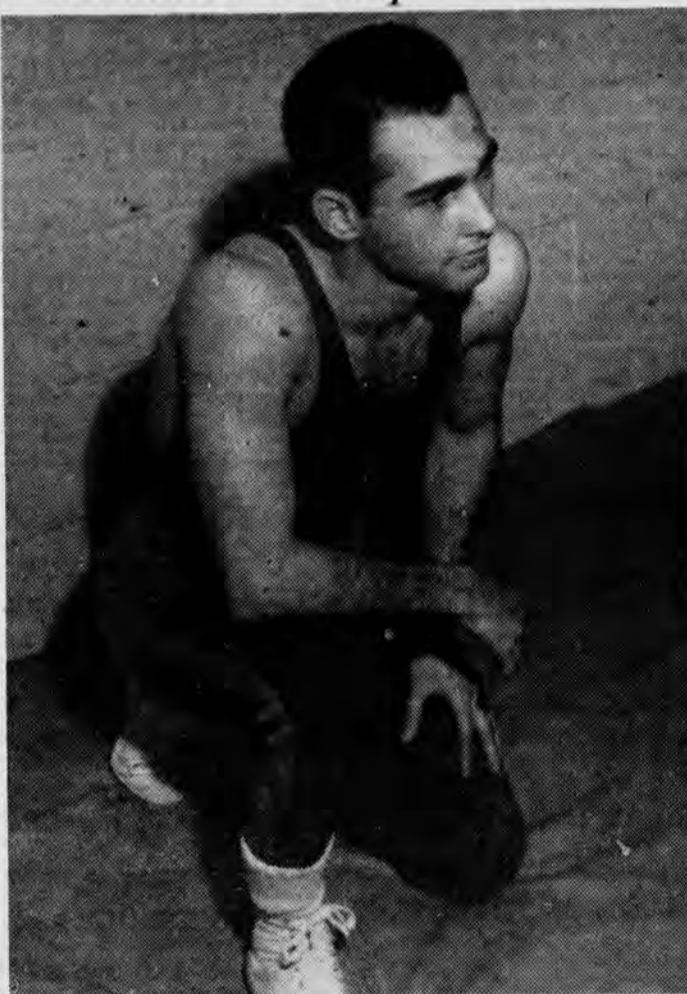

You know, I don't think we ever announced the winners of the recent volleyball tournament. They say there's no news like stale news, so here you are. Warner and Sussex came out in a booming tie for first. We wish that finals could have been played, but time didn't permit; a small Christmas vacation got in the way. Better late than never—Congratulations!

Good news from bowling and table tennis enthusiasts! Tournaments in these will start around the first of March.

We're glad to see that someone is using the sleds that the Phys. Ed. Department has at the gym. We must say that this is the best kind of weather for that sort of thing. Right?

See ya' next week gang!

Delaware's Champ Wrestler

DALE BOYD, junior captain of the varsity wrestling team, will lead the grapplers against Muhlenburg tomorrow. Boyd has lost only two matches this season — to the same pair that beat him last year.

Blue Hen Grapplers To Meet Tough Squad From Muhlenburg Tomorrow

Tomorrow the Blue Hen grapplers will tackle the tough Mules of Muhlenburg at Allentown. This match will make it three-in-one week for the Hens on a grinding schedule.

This year the Middle Atlantic Wrestling Championships will be at the university. It will be a great opportunity for the students to see some top-notch wrestling.

Last Saturday the Hens lost to Ursinus in a match which was marked by two draws. The final score was 11-18. The only bright light for Delaware was the 147-lb. class, Harold Ladd, who won his opponent 6-1. The two draws were in the 157-lb. class and the heavyweight classes in which Bruce White and Dick Knauff of Ursinus wrestled to a 6-6 draw, and Tom Oves and George Aucott fought to a 0-0 deadlock. In the 177-lb. class Delaware picked up five points when Ursinus forfeited.

Ed Dawkins and Dick Padula, both defending Mid-Atlantic Wrestling champions, chalked up victories over Capt. Dale Boyd and Jim Horn. This was only the second loss experienced this season by Boyd; previously he had lost to Colin Steele of Virginia. He lost to a good opponent since Dawkins was an alternate to the 1952 Olympic squad.

The team record now is 1-3-1 which doesn't include the match with Johns Hopkins University last Tuesday. Also this coming Wednesday night the Blue and Gold will play host to the Dragons of Drexel in a match starting at 7:30 p. m.

Rival News . . .

Two brother duos helped Temple beat Bucknell's matmen . . . Lafayette won its 15th as it beat Rutgers, 93-75 . . . Rutgers sank Lehigh, 45-39 . . . Swarthmore beat the Drexel swimmers, 53-30 . . . Muhlenburg edged Haverford in wrestling, 14-11.

Hoopsters Beat Haverford, Nipped By Drexel's Dragons In Highest Scoring Efforts

Delaware vs. Drexel

The Blue Hen cagers are starting to show their capabilities. By defeating Haverford and losing to Drexel 86-80 during the past week, Delaware displayed its best offensive of the year.

In the hard fought game with Drexel at Carpenter Field House last Wednesday night, the Hens' outscored the Dragons from the floor but lagged far behind in foul shots 32-10. Bob Messick took scoring honors for the Hens with 21 points. The game was nip

and tuck after the 46-46 halftime deadlock. Johnny Loomis, ex-Blue Hen led the Dragon attack with 24 points.

The Blue Hens were really rolling when they upset Haverford Saturday night by a score of 89-62. It was their highest scoring night of the season and the team is anxiously awaiting the game this week with Ursinus, the bottom club in the Middle Atlantic Conference race.

Saturday's victory was the second win in four conference starts for Delaware, and they have an overall season record of 4-11. Despite the overall record, the Hens have a chance to tighten the pressure in the Middle Atlantic's as they take on league-leading Drexel and tail-end Ursinus.

In Saturday's game, Delaware had five men in double figures and every one of 12 players to see action dented the cords. The scoring continued even after the game was turned over to the subs.

Before leaving in the fourth quarter, Bob Messick, Dal Green, Pete Kelleher, Don Miller, and Clyde Louth had hit in double figures led by Messick's 14 points. Jack Waddington and Ed Kwiatkowski each had nine points in assisting the triumph. Individual honors went to Haverford's Captain Grant Morrow, who tossed 20 points.

Frosh Seek Victory Over Ursinus Squad; Defeat Fords 57-55

The freshman basketball team goes out for another win tomorrow when it takes on Ursinus J.V. on the home floor. Last Saturday, in their most recent home appearance, they made a last minute victory over a taller Haverford J.V. squad in one of the most exciting duels of the year.

Delaware led through most of the game but Haverford's hoopsters put on a surprising last minute spurt to take the lead in the closing minutes.

The Delaware freshman's strong bench told the tale as the capable second stringers took over when several of the first string stalwarts fouled out. Doug Evans got up off the bench to sink the final deciding tally. Paul Flood was high for the game with 18.

Only three days before the fast moving chicks fast-broke the Swarthmore J.V.'s to death on the Swarthmore home court 82-65. Greenwalt of Swarthmore racked up 37 points in a losing cause. Don Hutton was the highest scoring Blue Hen with 25.

The frosh swimmers had a rough day of it at the University of Pennsylvania as they were trounced by the Penn frosh, 60 to 24. The Hen mermen saved some glory, however, by taking three first places. Crompton won the individual medley. Dempsey turned in another fine diving performance as he captured first in the 1-meter diving event on his last dive, and Phil Reese came through and easily won the 200-yard breaststroke.

All volleyball team rosters must be completed and turned into the athletic office not later than Feb. 22. From 6 to 15 men will be permitted on each team. The first games are to be played starting Feb. 24.

Wrestling, the next intramural event, starts on March 7. There will be nine weight classes consisting of 123, 130, 137, 147, 157, 167, 177, 191, and unlimited.

The Furman College basketball team which set a new collegiate scoring record early this season beating Citadel 154-58, hit a new low last week by tripping Citadel in a return bout 25-24.

Blue Hen Of The Week

Versatile Bob Wagner, twice Captain of the Delaware Tankmen, set a new Delaware record in the 200-yard breaststroke at the Pennsylvania meet of 2:40.5.

For the first time this year the conventional style breaststroke has been used, where the swimmer may not bring his arms out of the water. Previously the butterfly stroke was used. Last year Bob clocked a 2:32.8 which set a new breaststroke record for Delaware.

This year Bob has expanded his abilities to the 220, 440, free style, individual medley, and the free style relay. He has the third best time in the east for the breaststroke. With this ability, he has a good chance for the Eastern Inter-Collegiate championships and the possibility to go to the nationals. On Saturday at the Gettysburg meet, Bob easily took first place in the 200-yard breaststroke and second in the individual medley and the 400-yard freestyle.

SPOTLIGHT ON SPORTS

By DAVE TOMPKINS

OF THIS 'N' THAT

Jim Szymanski, a first term sophomore, has taken over the position of diver on the Blue Hen swimming team replacing Jack Ryder, who is working this semester as part of the General engineering course. Jim, who swam with the freshmen last semester, is a native of Wilmington.

Cliff Browning, a freshman track star from Toledo, Ohio, who has already pole vaulted 11'6" in the Carpenter Field House hanger, sprained his ankle in practice last week. He is expected to be back in action soon, however.

Our cautious prediction of last week has come true. Coach Dave Nelson rejected Indiana University's offer to him for the job as the Hoosiers' athletic director. The Admiral does not want to give up coaching according to reports. Thus, it appears that the Hens' football season will be in safe hands again next fall.

Dallas Green and the entire basketball team showed signs of snapping out of it last week. In the surprise rout of Haverford last Saturday night, Green scored 12 points for one of his best efforts of the season. We were also happy to see the big increase in the cagers' shooting percentage.

According to Delaware's 1954-55 basketball brochure, the Hens' basketball history dates back to 1905 when C. B. Shaffer, the elected manager, arranged an eight game schedule with some of the best teams in the college ranks. In compiling a 3-4-1 record, the team played all of its games away as Delaware had no court of its own. A former member of the Trenton National League team, Samuel Saunders acted as coach and M. A. Robin, '09, was the first captain.

Mermen Drop Close Event To Gettysburg Squad; To Face Temple Tuesday

The Delaware mermen were beaten in the final event Saturday, enabling Gettysburg to score a 48-36 dual meet victory. The score was very close throughout the meet, and Delaware was behind by only five points before Gettysburg won the 100 yard freestyle relay to gain 7 points. The 300 yard medley relay was won by Mermen Stewart, McDaniel and Brubaker. All the specialty events except diving were won by Delaware. Gettysburg's strong freestylers proved to be the deciding factor.

Last Wednesday Delaware lost to a strong Penn team by a score of 65-19. Captain Bob Wagner set a new Delaware pool record as he won the 200 yard breaststroke in 2:40.5.

Today the Mermen meet West Chester in Taylor pool. West Chester has a tough team as freshmen are allowed to swim with the varsity. West Chester is favored to win although it should be a very good meet.

Next Tuesday Delaware meets Temple at Newark in what promises to be a very close meet. Delaware is favored to win. At present, Delaware's record is 0-5-1.

Summary

300 yd. Medley Relay—	1st. Delaware (Stewart, McDaniel, Brubaker)	Time 3:20.5
200 yd. Freestyle—	1st. McLaughlin (G.); 2nd. Webster (G.); 3rd. Walker (D)	Time 2:23.5
40 yd. Freestyle—	1st. Gilchrist (G.); 2nd. Apostolico (D); 3rd. Paul (G)	Time 32:00
120 yd. Individual Medley—	1st. Duff (D); 2nd. Wagner (D); 3rd. Thompson (G)	Time 1:12.0
Diving (1 meter)—	1st. Beck (G); 2nd. Natale (G); 3rd. Szymanski (D)	Time 135.1
100 yd. Freestyle—	1st. McLaughlin (G); 2nd. Gilchrist (G); 3rd. Apostolico (D)	Time 57.5
200 yd. Back Stroke—	1st. Stewart (D); 2nd. Lipkin (G); 3rd. Seiler (G)	Time 2:37.5
200 yd. Breaststroke—	1st. Wagner (D); 2nd. Duff (D); 3rd. Walker (D)	Time 5:40.8
400 yd. Freestyle Relay—	1st. Gettysburg; 2nd. Delaware (Apostolico, Duff, Stewart Brubaker)	Time 3:52.6

Blue Hen

(Continued from Page 8)

At the end of his freshman year, Bob transferred from Lehigh and in his three years here, has been the outstanding breast-stroker in the Middle Atlantic League. In the Swarthmore meet in his sophomore year, energetic Bob recorded a new Delaware pool record, 2:36.6, in the 200-yard breaststroke. The same year he swam in the 300-yard medley which set a new Delaware record and a new pool record.

Before Bob, a 6' 2" entomology student, came to Delaware, he had an impressive record. He was on the swimming team at Highland Park High. In 1949 he won in the 100-yard breaststroke, the New Jersey State Scholastic Championship. Again he set a record in 1950 in the same event. Also in 1950 he won the 150-yard medley, the Eastern Scholastic 100-yard breaststroke and the New Jersey Junior A. A. U. 200-yard breaststroke. Best of all, he made the All-American Scholastic team the same year.

As if this was not enough, Bob succeeded in winning the Y. M. C. A. State Indoor Swimming Meet for Delaware for four consecutive years.

Aquatic Club To Perform Water Ballet March 22-24

Aquatour, a water ballet, will be presented by the Aquatic Club in the pool of the women's gym, on March 22, 23 and 24 at 8 p.m.

Aquatour will feature strokes and stunts and swimming to music. There will be sixteen numbers; music will consist of tunes that suggest countries, such as "April in Portugal," "Chinatown, My Chinatown," "La Comparsita," and "French Can-Can."

The Aquatic Club has sixteen members; tryouts are held every year. Liz Stafford is president, Pat Thompson is vice-president and Sandy Baker is secretary.

The program is under the direction of Miss Maryann Waltz; the public and the student body are cordially invited to attend. There will be no admission charge.

Raymond To Coach Freshman Basketball

Harold R. Raymond, Delaware football backfield coach and captain of the 1949 University of Michigan baseball team, has been appointed freshman baseball coach. Director of Athletics Dave Nelson announced today. Raymond will work with the varsity pitchers and catchers until freshman baseball candidates report following spring vacation.

Raymond was a member of the Michigan baseball team for four years, during which the Wolverines won two Big Ten championships. Participating in football also at Michigan, Raymond was a member of the 1948 championship squad.

After his graduation from Michigan in 1949, Raymond played two years of minor league baseball. He was appointed head football coach at the University High School in Ann Arbor, Michigan, and later was selected as football line coach and baseball coach at the University of Maine.

A native of Flint, Michigan, Raymond attended Flint Northern High School where he played football and baseball.

Delaware End Tom Redfield Selected By Chicago Bears In College Draft

Tom Redfield, who was the 11th draft choice of the Chicago Bears of the National Football League, has announced that he will sign a contract to play pro ball late in May.

Redfield has not decided what he will do after graduation since, as Cadet Colonel of Delaware's ROTC regiment, he is slated for at least two years of active duty in the army. He can request a temporary deferment and play pro ball for a few years, or serve in the army and play football afterwards.

Indoor Track

(Continued from Page 8)

Hens has been entered. Last year's hurdler, Bill Munro, has been eliminated by the academic ax. Dick Saunders is expected to display his versatility this week as he preps for this event. Although Saunders hasn't participated in this event since his high school days, Coach Ken Steers feels that he is Delaware's greatest potential in this event.

The remainder of the Delaware indoor schedule is as follows:

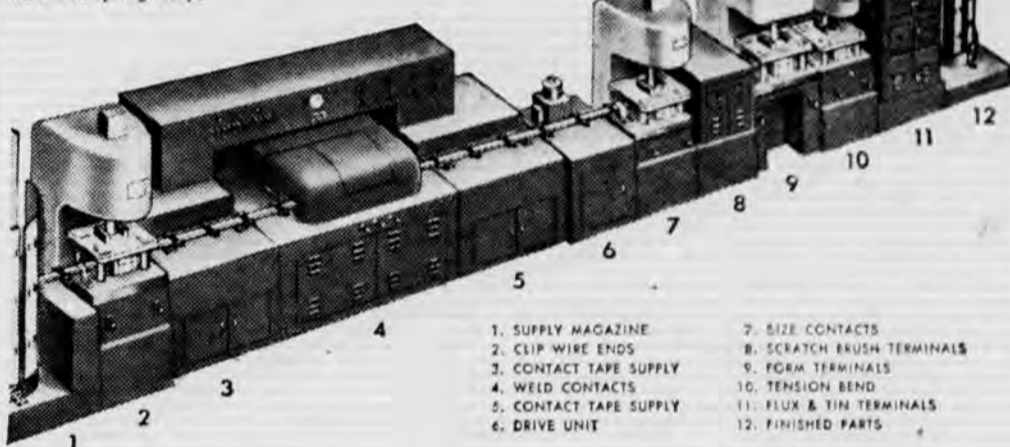

Sat., March 5—Albright, home
Sat., March 26—West Chester, home
Sat., April 2—Towson, home

As an end Redfield was a stand-out on last year's bowl winning grid team. He was the teams leading pass receiver with 20 passes caught and 5 touchdowns. Among his honors were a first team berth on the All Middle Six Conference team and an honorable mention on the UP's All-East team.

Aside from his well-known football activities, Redfield stars on the Hens baseball squad. He was the team batting champion and was among the leaders in hits, runs, and RBI's. Playing left field through 17 games of last season he collected 17 hits in 50 trips to the plate for a .340 average, and also scored 12 runs.

AUTOMATION at work A new design becomes a production reality

One of Western Electric's automatic production lines used in making the revolutionary new wire spring relay.

1. SUPPLY MAGAZINE
2. CLIP WIRE ENDS
3. CONTACT TAPE SUPPLY
4. WELD CONTACTS
5. CONTACT TAPE SUPPLY
6. DRIVE UNIT
7. SIZE CONTACTS
8. SCRATCH BRUSH TERMINALS
9. FORM TERMINALS
10. TENSION BEND
11. FLUX & TIN TERMINALS
12. FINISHED PARTS

So great was the departure in design of the new Bell System wire spring relay as compared with conventional relays that it posed a major undertaking for development engineers at Western Electric, the manufacturing and supply unit of the Bell System. Indeed, it was an undertaking that called for new machines and new methods because none was available to do the job.

Longer life, higher operating speed, lower power consumption, and lower manufacturing cost were some of the advantages promised by the new relay design. Engineers reasoned that a lower manufacturing cost could be achieved through greater precision in manufacture (which would cut adjustments) and through extensive use of automatic processes.

One of the products of this reasoning is pictured at the top of this page. This battery of equipment, developed by Western Electric product engineers, constitutes one phase of wire spring relay manufacture, which automatically performs several separate operations. Its function begins after one of the fundamental elements of the new relay has been fabricated. This element, known as a "comb," consists of a multiplicity of small diameter wires in parallel array imbedded for part of their length in molded phenol plastic.

These molded elements, of which there are two types used in the new relay, are delivered to this line of machine units in magazines. By fully automatic means they are removed from the magazine, carried by a reciprocating conveyor through each of the several processes and, when completed, placed into another magazine to await further assembly.

Between the first and final magazine the automatic battery of equipment does the following

Single Wire Comb with Percussion Welded Contacts, Wire Spring Relay Designed by Bell Telephone Laboratories

One type of "comb" element is shown at top while a completed wire spring relay is below. The small blocks of metal on the ends of the wires are cut from a composite tape during the automatic multiple percussion welding operation. "Contact conditions" are determined by the code of relay being manufactured and may vary greatly.

operations: clips wire ends, attaches palladium contacts to wire ends by means of percussion welding, sizes contacts, forms terminal, tension bends wires, fluxes and tins terminals.

Most remarkable of all is the fact that this is a precision operation throughout. For example, the small block contacts, which are percussion welded to the tips of wires of one type of "comb," must be located on the same plane across the twelve contact positions to within a tolerance of $\pm .002$.

ARNOLD

Who Determines UD Population

By Gimmy Redding

By this time, you may be a Delawarean of several years' standing; but the chances are, some of your first impressions of your school are still as vivid as those in the minds of this year's freshmen. Perhaps some of those official looking letters marked: "Office of Admissions, University of Delaware," were your first introduction to the college; or, it could be that you stopped in there first to talk to the Director, before looking over your prospective school. In any case, whether the future student has had long associations with his own state college, or hails from out of state, his first real contacts with the University, itself, probably come through the Office of Admissions.

Indeed, this particular administrative branch of our college plays an important part in its over-all functioning. We might even say that its decisions largely determine the population here on campus, for the office

handles all aspects of undergraduate admissions, as well as those of students applying for higher degrees. The former list includes all applicants for the regular four year programs, those wishing a certificate in the two year Extension course, students from other colleges wishing to enroll for the summer session, and next fall, the office will also begin to handle those applications for the newly scheduled two year program.

The details involved in carrying out this work are many. Prospective students are interviewed daily, both on and off campus. In addition, one visit is made each year to every high school within the state for the purpose of conferring with the students and school administrators.

While this service is undoubtedly one of the most vital, the greatest amount of work probably attended to by Dr. Fletcher, his assistant, Dr. Michael Lude, Miss Madeline Forewood, secretary, and the stenographer.

Mrs. Nelson, is carried out through a huge volume of correspondence. Letters come into the office from all over the United States, and a surprising number of inquiries arrive from interested students in other countries. "This," Dr. Fletcher remarked, "is a good indication of the fine reputation of the University, both here and abroad."

"The policy of admission is selective," stated the Director. High school students are expected to show a certain standard of work and have the proper recommendations. Beyond this, since the University may admit only a certain number of out-of-state students, competition becomes keener.

NOTICE

"Exploring Secrets of the Underwater World," the movie to be presented by Dimitri Rebi-koff, will be shown on Sunday, February 20, at 7:30 p. m. in Mitchell Hall instead of Wolf Hall as previously stated.

Bureau Of Roads Seeking Highway, Bridge Engineers

The United States Civil Service Commission announces that Highway Engineers and Highway Bridge Engineers are still needed in the Bureau of Public Roads throughout the United States. The salaries range from \$4,205 to \$5,940 a year. No written test is required.

To qualify, applicants must have had appropriate education or experience. No written test is required.

There is also a Student Trainee examination for positions paying \$2,500 to \$3,175 a year, in the fields of physics, metallurgy, chemistry, cartography and engineering, located in various federal agencies in Washington, D. C., and the vicinity.

Applicants must have completed an appropriate high school curriculum or they must have and 1, 2 or 3 years of appropriate college study. (Students who expect to complete the required training by June 30, 1955, may apply.) A written test will be given. The age limits, waived for persons entitled to veteran preference, are 16 to 35 years. Persons appointed will participate in training programs consisting of periods of on-the-job training in a Federal establishment alternating with periods of scholastic training at an accredited college or university.

Further information and application forms may be obtained at many post offices throughout the country, and from the U. S. Civil Service Commission, Washington 25, D. C. Applications must be filed with the Executive Secretary, Board of U. S. Civil Service Examiners, Bureau of Public Roads, Department of Commerce, Washington 25, D. C. They will be accepted until further notice.

Syracuse University Rejects Feasibility Of Unlimited Cuts For Dean's List Students

Syracuse, N. Y. — (I. P.) — The College of Liberal Arts Advisory Council of Syracuse University, headed by Dean Eric H. Faigle, recently decided that a policy of unlimited cuts for Dean's List students was not feasible in the immediate future. After studying the problem with student and faculty leaders at great length, the question was dropped for the time being to be tabled for discussion at a later date if deemed advisable by the group. The reasons for this action are as follows:

1. Dean's List students have always been the students who have taken the fewest cuts in their courses.
2. If a policy of unlimited cuts were taken advantage of by these students, it is highly probable that their averages would become considerably lower.
3. Even if a motion to grant unlimited cuts to Dean's List students were passed, it would only be in the form of a recommendation and action on the question would still be left to the discretion of the individual professor.
4. Complications would arise if the motion were passed due to the fact that it would become necessary for each professor to make a daily check of the academic average of his students in order to check the legality of class cuts.

Rushing

(Continued from Page 1) a choice, will pledge directly through the fraternity and not the Dean's office.

This year IFC rules will limit any fraternity from pledging a rushee whose index is not above 1.75. The Inter-Fraternity rules also restrict any fraternity from initiating a pledge until he has made a 2.00 index or over in one semester.

More than 200 men have been participating so far. Up to this point, each fraternity has held three smokers and one house party, as well as having open house from 8 a. m. to 5 p. m. every day.

Urnst & Ienst

(Continued from Page 4)

Urnst spotted an opening in the closing ring of tormentors and broke for the door, but alas, a hairy arm apprehended him, and thrust him back against the wall. The circle closed in upon our shaken heroes, and the pressure increased. Urnst finally saw that the time for decision had arrived.

He had his choice: unconditional surrender, or the local booby hatch. Choosing the lesser of the two evils, he waved a tattered shred of shirt in surrender. Immediately pledge pins are nailed to the chests of our intimidated heroes, their sweaty little hands are pumped vigorously, and they are borne out the front door with much whooping and hollering from the victorious brethren.

Outside, they are gently dumped into the snow, and told to return in the morning with their cash.

As Urnst and Ienst wander toward their room in a happy daze, one question haunts them. "What was the name of the fraternity?"

What young people are doing at General Electric

Young specialist in community relations makes friends in 101 plant cities

General Electric now has 131 plants in 101 cities, and one problem is common to all: How can the company show people in every community that it is a good neighbor?

This responsibility is shared by many and stimulated by 32-year-old John T. McCarty. His job: Consultant, Program Services in Plant Community Relations.

McCarty's work is varied, exciting

McCarty's assignment is to help each of the General Electric plants tell its neighbors what it is doing, what it hopes to do, and how it fits into the community.

He must be ready to travel to 26 states. He prepares community-relations manuals for use in all 101 plant cities. He supervises surveys of community sentiment, and tests the local effects of the company's advertising. And he helps plant management maintain friendly contacts with civic, religious, educational and other community leaders.

23,000 college graduates at General Electric

This is a sensitive and important job. McCarty was readied for it in a careful step-by-step program of development. Like McCarty, each of the 23,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits — the individual, the company, and the country.

JOHN McCARTY joined G. E.'s Advertising Department as a copywriter after army service and graduation from U. of Michigan in 1947. He has held his present job since June 1952.

Holiday Magazine Features Article On Delaware Story

James Warner Bellah, a former Wilmingtonian, has written an eight page account of Delaware history which is appearing in the March issue of "Holiday" Magazine.

The article is expected to make thousands of people more familiar with its beauty, history, background and current affairs. Delaware State Development Department officials said.

Included in the article are pictures of John G. Townsend, of Selbyville, Miss Delaware of 1954, Rehoboth Beach and a scene of the University of Delaware Campus. Also incorporated in the article are historic facts, personalities and places as well as present day accomplishments and prominent people.

Mr. Bellah has done considerable historical research, is the author of several novels and is now writing for motion pictures.

Alejandro To Speak At Wesley Foundation

Would you like to meet one of those rare creatures, a candidate for the degree of Doctor of Philosophy in International Law?

Ray Alejandro, a young Yale student from the Philippines, will speak on the topic, "The Christian and World Understanding" at Wesley Foundation, 7:15 p. m., Tuesday, February 22.

Ray is regarded by the Yale

law faculty as one of their most brilliant students; a grant of tuition was given him in order that he might continue his studies. His grasp of international relations and his Christian interest make him particularly well suited for this topic.
