APPENDIX B

ANNUAL REPORT - LEGISLATIVE COUNCIL

1973

The Legislative Council of the 127th General Assembly met fourteen times during the period from January 23 to November 6, 1973.

The composition of the new Council as mandated by statute passed in May of 1966 included the following members of the legislature: Senator J. Donald Isaacs (President Pro Tem), Chairman; Senator Anthony J. Cicione, appointment of the President Pro Tem; Senator Jacob W. Zimmerman, appointment of the Minority Leader; Senator Allen J. Cook, Minority Leader of Senate; Representative John F. Kirk, Jr. (Speaker), Vice Chairman; Representative Hudson E. Gruwell, Minority Leader of House; Representative Harry E. Derrickson, Majority Leader of House; Representative William J. Gordy, appointment of Minority Leader; Representative Daniel E. Weiss, appointment of the Speaker.

THE LEGISLATIVE COUNCIL - ITS PURPOSE

The present Legislative Council structure was established by statute in 1966 and fully implemented in 1969.

The structure of the Council together with its powers and duties are spelled out in Title 29, Chapter 11 of the Delaware Code.

In its daily operations, the Legislative Council provides the sixty-two members of the General Assembly with full-time assistance in drafting bills, researching problems and developing solutions, holding public hearings, and administering daily operations (i.e., acting as custodian of bills, keeping books and records, printing legislation, providing a library, and seeing that facilities are maintained and properly utilized.) It also exists to aid the public — particularly that segment which works with, is touched by, or is interested in “the Law,” courts and government. Judges, attorneys, businesses and the news media (among others) depend on the up-to-the-minute information that the Council staff supplies. In-state and out-of-state attorneys, libraries, publishers, and information services depend on the Council to supply them with law books and

reports printed by State agencies or legislative committees or at State expense. Other State agencies rely on the Legislative Council for information on the status of bills affecting their work and also for pulling together bits and pieces of information that no one else seems to have. The State is obligated to cooperate with other states in the exchange of information. The Council staff must, therefore, respond to their numerous daily requests for material and information on common problems or suffer the loss of their cooperation and of valuable research sources — such as the Council of State Governments.

In summary, the Legislative Council now serves as a resource center for complete information on legislative activities, changes in State laws, and State government in general; and it fills the need for a permanent service staff to keep the legislators informed and functioning and the General Assembly, as a unit, operating. Of the approximately 1,300 pieces of legislation (bills, resolutions, amendments) introduced during the first session of the 127th General Assembly, more than two-thirds of the total were drafted by the Legislative Council staff.

LEGISLATIVE COUNCIL - 1973 ORIENTATION

With the advent of the 127th General Assembly, the Legislative Council undertook a comprehensive one-day orientation program for new legislators. The session was held prior to the opening of the new General Assembly in January. Some twenty new House members as well as Representatives and Senators who had been in the 126th General Assembly took part in the program. Council staff members covered the whole gamut of legislative activity starting with basic general procedures and proceeding through the intricacies of having a bill passed. The program was well received and ideas for strengthening future orientations were solicited from the participating members.

DISTRIBUTION OF LEGISLATIVE VOLUMES

Great steps were taken by the 1973 Legislative Council in providing solutions to nagging problems of legislative and legal book distribution.

For example, in spite of the way the law read, it was ascertained that the Legislative Council received and distributed all of the following books: Delaware Code; All previous Pocket Parts to above; Laws of Delaware; Delaware Reporter; Senate and House Journals; Chancery Reports.

Not only were the statutes in conflict and did confusion reign concerning who prints and who distributes what books, but agencies definitely were not operating according to the Code.

After numerous meetings with various groups involved in

preparation and distribution of volumes, the Council pulled all loose ends together and authorized preparation of legislation which hopefully will alleviate the 'book problem' in the future. Such a bill is due for introduction during the second session of the 127th General Assembly.

Also, during the year the Council authorized hiring a Librarian on a part-time basis with an assistant to up-grade the Legislative Council Library and to expedite the flow of books in our exchange program with other states. The Council has recommended that the Librarian be hired on a full-time basis commencing in early 1974.

EFFICIENCY IN OPERATION

As in the past, the Council members exercised good judgement in keeping expenditures at a minimum while striving for efficiency in operation.

Examples of such actions include:

(1) Rearrangement of office and storage space for maximum results.

(2) Substantial savings in cost of paper for Legislative Hall printing room by readvertising for bids on one-time delivery rather than on multiple paper deliveries during the year. Resulting savings will net approximately \$2,500.

(3) Staff vacancies for both the Legislative Council and Controller General's Offices were kept at a minimum and were filled only after the most qualified applicants on the personnel lists were screened and interviewed. It should be noted, however, that provisions must be made for additional staff if all members of Delaware's 'part-time' General Assembly are to be given the degree of staff assistance they deserve and require.

(4) An order for the printing of the popular Legislative Council pamphlet, 'the Delaware Legislature', was placed for sufficient copies covering both sessions of the 127th General Assembly rather than ordering separately for each session as in the past. Again, savings in printing were the end result.

FINAL NOTE

The members of the General Assembly and the Governor were kept abreast of all actions of the Legislative Council via detailed Council Minutes which were distributed within fifteen days after each meeting of the Council.

Respectfully submitted,
 Senator J. Donald Isaacs, Chairman
 George L. Frick, Director

APPENDIX C

ANNUAL REPORT - LEGISLATIVE COUNCIL - FISCAL 1974

The Legislative Council of the 127th General Assembly met a total of twenty-one times during the period from January 23, 1973 through September 12, 1974. One additional meeting is scheduled to be held prior to November 5, 1974, election day.

The composition of the Council during the greater part of this Second Session of the 127th General Assembly consisted of the following members of the legislature:

Representative John F. Kirk, Jr. (Speaker of the House),
Chairman
Senator J. Donald Isaacs (President Pro Tempore), Vice
Chairman
Representative Harry E. Derrickson, House Majority Leader
Representative Hudson E. Gruwell, House Minority Leader
Representative Daniel E. Weiss, Appointment of the Speaker
Representative William J. Gordy, Appointment of the Minority
Leader
Senator Richard S. Cordrey, Senate Majority Leader
Senator Reynolds duPont, Senate Minority Leader
Senator Nancy W. Cook, Appointment of the President Pro
Tem
Senator Margaret R. Manning, Appointment of the Senate
Minority Leader

George L. Frick, Director of the Council, heads the full-time staff which provides year-round services to the sixty-two members of the Delaware General Assembly. Duties and powers of the Council are outlined in Appendix A to this report.

The full-time Council staff consists of thirteen people including the Director, Assistant Director, Attorney, Research Analyst, Librarian, Administrative Assistant-Bookkeeper, three Secretaries, three Printers, and a Records Clerk.

Seasonal personnel number three to five depending on the work load of the General Assembly.

LEGISLATION AFFECTING LEGISLATIVE COUNCIL

A key measure passed by the General Assembly and signed into law by the Governor on February 5, 1974 was Senate Bill No. 434, as amended, which accomplished the long overdue task of abolishing all references in the Delaware Code relating to the 'Legislative Reference Bureau,' the forerunner of the

Legislative Council. The bill also accomplished another long-time goal by providing that the Director of Legislative Council or his designees shall receive and exercise control over all inventory of session laws and legislative journals for sale and distribution as provided by law.

In addition, many questions regarding the preparation, printing, sale, and distribution of various Delaware law books was clarified in this legislation. The consolidation of this 'book business' under the Legislative Council is expected to effect the savings of many thousands of dollars.

STATISTICAL ANALYSIS OF LEGISLATION

Among the myriad of services to the members of the General Assembly and to the public at large, the Legislative Council staff provides full-time assistance in researching and drafting legislation.

During the two sessions of the 127th General Assembly, a statistical analysis of work performed by the Legislative Council reveals that the Council staff prepared over 2700 pieces of legislation including completed bills, amendments, and resolutions.

Of a total of 2,129 Senate and House bills printed in the Legislative Council Print Shop, 1,434 or 67.4% were drafted by the Legislative Council staff.

Of a total of 1,562 Senate and House amendments printed in Legislative Hall, 715 or 45.8% were drafted by the Council staff.

Of a total of 738 Senate and House resolutions printed in the Legislative Council Print Shop 593 or 80.4% were drafted by Legislative Council personnel.

The average length of bill typed by Legislative Council personnel was 6½ pages.

LEGISLATIVE INFORMATION PHONE

A popular entity of the Legislative Council operation is the 'Legislative Information Phone' which can be reached from any area of the State of Delaware, toll-free, by calling the special number, 1-800-282-8545. This number is published by the press throughout the State in conjunction with various forms of legislative summaries.

A recent survey shows that the average number of requests usually for or about certain pieces of legislation is 575 per month. Approximately 1200 to 1500 calls per month calling for a wide range of information come through the legislative information phone.

LEGISLATIVE COUNCIL BILL FILES

At the present the Council staff cross references each piece of legislation three ways for a card file. Although interpretation, typing and filing of same is time consuming, it is a process that must be done as quickly as possible after introduction of legislation, and during the 127th General Assembly it was maintained daily as a result of adequate staffing. Other daily in-session procedures are: filling bill service folders (currently some ninety-six organizations or individuals receive for a fee one of the several bill services offered by the Council ranging from all copies of legislation introduced to all copies of legislation signed into law by the Governor,) up-dating the Title change book, binding stricken legislation, handling walk-in and phone requests, establishing new legislation folders, stamping signed legislation with the assigned Chapter numbers for the Laws of Delaware, re-running bills that are constantly in demand.

To expedite the above functions, members of the Council staff and some members of the General Assembly are investigating the possibility and feasibility of adopting an automated statutory retrieval system to meet the researching and filing needs of the General Assembly. A number of states have reported huge savings in man-hours and dollars by utilizing their states' computers for research projects. Also, computerization of House and Senate Journals and Session Laws enables a publisher to print the volumes from a tape at \$3 to \$5 per page, rather than to set hot lead, or cold type print at \$20 to \$23 per page.

LEGISLATIVE LIBRARIAN

The addition of a Librarian to the Legislative Council staff has done much to up-grade the Library in Legislative Hall and provides current, researching assistance to Legislative Council personnel and other General Assembly staff people, particularly the House and Senate attorneys employed during the sessions. The functions regarding book control, as outlined in Senate Bill No. 434, as amended, are under the jurisdiction of the Legislative Council Librarian.

OPERATIONAL STUDIES

The Legislative Council members, constantly aware that focus of the public eye is always upon them, during 1974 asked the Controller General's office to conduct, at various times a management audit of the Legislative Council staff and a tasking study of the Council operation during peak load and

during lesser, or no-load periods.

The results of the audit helped to effect some changes which resulted in time and money savings. Also, the results of the tasking study recommended that the size of the permanent staff of the Legislative Council not be reduced during the 'no-load' period. The study, which was completed during the summer of 1974, also recommended that the Council management develop a no-load tasking effort to ensure a full work schedule, commensurate with reduced staffing from seasonal lay-offs and annual leaves.

SUMMER-FALL PROJECTS

1. Preparation for orientation of Freshmen legislators, 128th General Assembly (coordinating this project with DAPA Institute of the Division of Urban Affairs, University of Delaware.)

2. Up-date of legislative manual.

3. Revisions of Legislative Council brochure, 'Delaware Legislature.'

4. Index of Code Changes, 127th General Assembly.

5. Research projects for 128th General Assembly.

6. Drafting of legislation for 128th General Assembly.

7. Advertising for bids for 128th General Assembly stationery.

8. Bids for 128th General Assembly bill and calendar paper usage.

9. Preliminary preparations for revising Legislative Hall directory boards, 128th General Assembly.

10. Prepare Legislative Hall for 128th General Assembly; i.e., painting, keys, etc.

11. After election: coordinate office, phone, parking space, chamber desk assignment notices; compile listing of General Assembly members; order letterhead per bid; order 128th membership plaques, certificates, and membership cards.

FUTURE/LEGISLATIVE HALL

All equipment and building renovations for Legislative Hall through Legislative Council are based on present and future needs.

The immediate considerations are:

Chamber Desk Refinishing — These walnut desks were purchased in 1932 from Virginia Craftsmen and were refinished in 1964 or 1965. They are 30' tall, 34' wide and 24' deep. They are badly in need of refinishing and new hardware. The legislators are unable to secure their desks because of locks and/or keys missing.

Lundia Rolling Files — An additional rolling file in Legislative Council would house the legislation of an entire

General Assembly and free approximately 14 five-drawer file cabinets for research material. However, an additional Lundia would necessitate a larger bill room area.

Library Space — Expansion of the research area is necessary to house and maintain adequately legislative volumes and literature from other states and federal material. Also, S.B. 434 A/A has placed the book business under Legislative Council which requires room for storing and selling (packing, wrapping, mailing) various requested volumes.

The future consideration are:

House and Senate Audio Systems — The present recording equipment in the House and Senate was purchased in 1968 for \$12,000 and has a life expectancy of 10 years. Hand microphones have been discussed, as opposed to stanchion mikes, because stanchion mikes are easily snapped off at the base. However, hand mikes are unwieldy when numerous papers must be held

Witness areas/Each House — Uniformity is desired as to the podium or witness box in each House. Space for the construction of a witness box, which would allow a speaker to sit rather than stand for lengthy dissertations may be limited.

Public Relations/Data Retrieval Systems — Most states are combining their bill service with the Data Retrieval area, thereby eliminating public traffic through research and drafting areas. Electronic data retrieval, on a scale suitable to the state, is becoming a necessity in this age when legislation is of greater quantity and deeper complexity.

Legislative Hall Space — Long term planning goals, as outlined by State Architect, Jack Mitchell, are that the Governor's and Lt. Governor's offices will eventually be housed in a nearby but separate building, thereby freeing the top floor of Legislative Hall for legislative staff offices. The Controller General's staff could possibly be placed on that level, affording space for the expansion of Legislative Council.

CONCLUSION

The services of Legislative Council to the Delaware General Assembly and its constituency are in a growing condition. Programs to aid the legislature more quickly and efficiently are in existence or being discussed in Legislative Council. Some of these programs are:

1. Departmental visitations and/or seminars to acquaint new and incumbent legislators with the respective functions and needs of the various departments and their divisions.
2. More efficient coverage, transcribing, cataloging, and safe storage of committee hearing tapes and manuscripts by

way of Legislative Council employing a Librarian.

3. Recommendations for legislative reforms such as committee staffing, better utilization of available space for committee hearings, centralization of human and material resources, a more expeditious handling of less important resolutions by reduction on number produced as well as placing them on a consent calendar for one massive vote.

4. Researching the possibility of utilizing central data processing in the legislative process to cut paper costs, realize manpower savings, and obtain faster and more efficient service for legislators.

LEGISLATIVE COUNCIL - DUTIES AND POWERS

The present Legislative Council structure was established by statute in 1966 and fully implemented in 1969. The structure of the Council together with its powers and duties are spelled out in Title 29, Chapter 11 of the Delaware Code.

The scope of the Council's duties was further broadened with the passage of Senate Bill No. 434, as amended. The new additions to §1104 of Chapter 11, Title 29, Delaware Code, are provided in Section 13 of Senate Bill No. 434, as amended.

In general, the duties of the Legislative Council as set forth in the Code are unique in that the operations are on-going, regardless of the status of the General Assembly. The powers of the Council as contained in the Code include the power to adopt rules and procedures to carry out the duties.
