## Students Will Choose Queen

### Frosh Petitions Due Week From Monday; Good Campaign Cited

"All freshman candidates for class offices must turn in to Dean Hocutt's office by 4 p. m. on Oct. 21, their signed petitions, accompanied by a two by three inch glossy print photo," Earl Alger, Senior Class president, has announced.

After these petitions are reviewed by an election committee, ballots will be drawn up for freshman elections which will be held Oct. 28 and 29. Voting will take place in the Blue Hen office, which is located in the basement of the Memorial Library.

Preceding the election days, candidates will be introduced to

their class at a rally in Brown Lab auditorium Oct. 24 at 4:15 p. m. If time permits, each aspirant will have an opportunity to speak.

There is no limit to the number of campaign signs that the candidates and their supporters may distribute around campus. Ideas from previous years have included stringing slogans on wire between trees, a slogan written on several posts stuck in the ground, "Burma Shave" fashion, and various signs taped to buildings, trees, posts, and inside dorms.

Alger and Ron Nowland, president of the sophomore class, have advised freshmen to put as much time and ingenuity as possible into their campaigns, for "the effectiveness of a campaign is often the difference between winning or losing a freshman election."

Voters are asked to take their jobs of selecting the class officers as seriously as the candidates take campaigning. The ability of the freshman officers to organize their class well can determine whether the class will be one of the best to go through the university or a mediocre group.

In addition to organizing the class, the freshman president and the vice president, along with the women's representative, are voting members of the Student Senate and will represent the views of the entire class.

### Commuters Sponsor WG Co-Rec Tonight

Women Commuters are sponsoring Co-Rec tonight from 7:30 p. m. to 11:30 p. m. in the Women's Gym.

There will be swimming, shuffle board, ping pong, and card playing from 7:30 p. m. to 9:30 p. m. and dancing from 9:30 p. m. to 11:30 p. m.

Grace Marie Mataleno, chairman, said that the girls should bring their own suits and the boys, both towels and suits. Dress for the dance is casual. Everyone is requested to wear tennis shoes.

The chaperones are Mr. and Mrs. Ralph Jones and Mr. and Mrs. Paul Hodgson. Refreshments will be sold.

DECORATION WINNER — This is New Castle dormitory's winning decoration last week. The girls from New Castle placed third in the cheering Kappa Alpha won the men's decorations.

### New Castle KA First In Dorm Decorations

Nancy Jones, captain of the Cheerleaders, has announced that plans for themes for Homecoming floats must be submitted to her by next Tuesday.

She has also announced the winners of last Friday night's pep fest cheering competition: Kent Hall for the girls, with Smyth and New Castle, second and third, and Kappa Alpha, first with Delta Tau Delta and Alpha Tau Omega second and third for the fraternities.

Cheers and Rebel yells resounded throughout the pep fest crowd when New Castle Dorm and Kappa Alpha received the news that they were first place winners in the decorations contest.

New Castle's winning entry depicted a mock football field on which a dead falcon lay. In his grasp was a sign which read: "Rest in Pieces". KA had a huge blue hen dresses as Robin Hood crushing a falcon under his foot and arm. "Let's Hood those Falcons" was their motto.

The second place winners were Smyth Hall and Delta Tau Delta. The Deltas' blue hen was washing the falcons and hanging them up to dry. Smyth had a

mechanical hen that was bowling down a falcon, with the falcon saying: "Why Oh Why Did We Ever Leave Ohio."

Third place was copped by Kent Hall and Alpha Tau Omega. Kent had a human blue hen knocking the "L" out of Bowling Green and setting those falcons bowling.

ATO displayed a spinning roulette wheel with a blue hen dressed as a ghost, and a falcon gambling. The slogan addressed to the falcon, read: "You Haven't Got a Ghost of a Chance."

### Campus Visitor From Capitol

Joseph P. Nagoski, a representative of the United States Department of State, Washington, D. C., will visit the university Tuesday, to present to interested students information on career opportunities in the United States Foreign Service and to explain the Foreign Service Officer selection process.

He will address several classes, but will also hold a group meeting at 4 p. m. in 220 Hullahen Hall for interested students.

The Department of State has announced that a written examination for the Foreign Service will be held Dec. 9, 1957. Candidates must be age 20 and under 31 and a United States citizen for nine years. Applications for the one-day written examination must be received by the Board of Examiners in Washington, D. C., before midnight Oct. 28, 1957.

Successful candidates will be appointed as officers to serve in any of the 270 embassies, legations and consulates abroad, as well as in the Department of State in Washington. Starting salaries are scaled according to the officer's qualifications, experience and age, and range from \$4,750 to \$5,350 per year.

### Polls To Open For 18 Coeds; 2-Day Voting

#### Float Rules Made

Two separate divisions for the Homecoming float competition were established by action of the Homecoming Committee last Tuesday. Floats costing \$50 and above will constitute the A division and those costing \$49.99 and less will be judged in the B division. Housing units must indicate in advance which division they wish to enter.

Plans are being made to secure interested persons from outside the university to serve as judges for the float competition, according to Nancy Jones, captain of the cheerleaders.

Ballots for 18 campus beauties will be cast next Monday and Tuesday, as members of the student body elect the 1957 Homecoming Queen.

Elections will be held in the Review Office in the basement of the library from 8 a. m. to 5 p. m. on both days. The queen contest is sponsored by the Review.

Petitions for the candidates, representing nine fraternities, eight women's dorms and the commuters were received in the Newspaper office.

The candidates and the groups sponsoring them are as follows: Jean Auten, Smyth C; Helen Briggs, Delta Tau Delta; Serena Cook, Smyth B; Paula Diashyn, Smyth A; Merry Hayes, Kent; Barbara Kille, Sigma Nu; Ann Lavery, Phi Kappa Tau; Dorothy Levy, Alpha Epsilon Pi; Deborah Lewis, Kappa Alpha; Sue Murray, Sussex; Elaine O'Connell, Pi Kappa Alpha; Joan Owens, Commuters; Susan Ries, Alpha Tau Omega; Mary Stephenson, Cannon; Eleanor Welch, New Castle Hall; Sandra Wilcox, Sigma Phi Epsilon; Jane Wollenweber, Warner; Barbara Woods, Theta Chi.

The name of the winning candidate will be announced in next week's issue of the paper. She and her entire court will be presented at the Homecoming Game with New Hampshire on October 19.

Jean Ashe, president of the senate will crown the 1957 Homecoming Queen at the Semi-formal Homecoming Dance in the Carpenter Field House on Saturday evening. George Madden and his thirteen piece orchestra will provide music for dancing from 8 p. m. until midnight. (Continued on Page 3)

### Coed Honor Group Holds Game Party

Tassel, women's honorary scholarship, leadership, and service fraternity, will sponsor a listening party for tomorrow's game in the Scrounge at 1:30 p. m.

Miss Peggy Jones will supervise the party. Assisting her are Mary Hoover, Dottie Pannell, Jodie Baldwin and Jane Wollenweber.

Bridge and other card games will be played. The coffee urn and the soda fountain will be open during the game.

### Rabbi Gordis To Speak Here Sunday at 8 p. m.

Rabbi Robert Gordis, noted Jewish theologian, will deliver the first lecture of the new campus religious series Sunday at 8 p. m. in Mitchell Hall.

A biblical scholar and Jewish leader, Dr. Gordis has been described as "one of the most dynamic and powerful figures on the American lecture platform."

The series of eight lectures from October to April will bring to this campus distinguished American churchmen from all faiths.

He served for many years as Adjutant Professor of Religion at Columbia University, and he had the distinction of being the only Jewish scholar to teach Bible at the Union Theological Seminary, a leading Protestant seminary.

Dean Hocutt recognized a positive student interest in a program of this kind last year, and consequently set the wheels turning. All speakers were contacted personally by the Deans and a schedule arranged for the year.

The University Religious Council with the help of Paul Hodgson, faculty advisor, is getting out the publicity and will take charge of making the speakers welcome on campus when they arrive.

The series is financed largely by proceeds from the 1957 Alumni Development Fund.

## In a Tizzy Over Frisbee? Not to Blame, Only Game

BY MIKE LEWIS

"Shades of Orson Welles"  
"The Martians have landed"  
"Call out the militia"

These cries and others similar to them might well be echoing about Delaware's ivy covered halls during the early part of this semester. To the uninitiated, these cries seemingly have valid reasons for existence. Observers of campus life have certainly noticed small, brightly colored disks whirling in gay profusion around their heads.

Are the disks — red, yellow,

blue and green in color, and about ten inches in diameter — the interplanetary vehicles of small, alien creatures? While this is slightly possible, it is doubtful.

It is far more likely the disks are a plastic novelty. Several companies are manufacturing them but the disks are all called Frisbees.

The origin of the name may possibly be attributed to Yale university. In the early eighteen hundreds the university passed a compulsory church attendance rule. Mr. Frisbee, a student at

the university at the time, became angry at this violation of his freedom and hurled a collection plate while in church. The plate sailed magnificently. Other members of the congregation experimented with this idea, but Mr. Frisbee is credited with originating the spinning disk. This paragraph is merely rumor, not accredited fact. No mention is made of Mr. Frisbee in any sports dictionary, encyclopedia or sports reference book. It's Yale propaganda, no doubt.

Upon acquiring a frisbee one (Continued on Page 8)

## Dr. E. Ott Appointed University Counsellor

A former chief of the Armed Forces Information and Education Division for the United States Army in Europe has been secured as a counsellor in the dean of students office at the university.

Dr. Edward R. Ott, who retired with the rank of colonel in February, after having spent ten years in the regular army in addition to three years of war service, brings an unusual and colorful background to his new assignment.

A graduate of Loyola University of Chicago, he received his doctorate at Northwestern University in 1936. Prior to undertaking full time graduate study, Dr. Ott taught for four years at St. Rita High School and enrolled in afternoon courses at the University of Chicago. In 1936 he became assistant dean of the junior division and assistant professor of history at Louisiana State University. He remained at LSU until called to military duty in 1942.

Dr. Ott was discharged in 1945 and before returning to the regular army, he spent two years as director of the Louisiana Education Foundation, a privately endowed organization whose purpose was to improve the economic level of the people of Louisiana through improved

schools. During the same period, he also wrote a syndicated column on educational problems for the Chicago Tribune — New York News Syndicate.

In 1947 he returned to regular army service and for the last two and one-half years held the post of chief of the Armed Forces Information and Education Division for the U. S. Army in Europe. In this capacity he was responsible for the American Forces Network; *Stars and Stripes*, the army newspaper; the Army Education Program; and the United States Armed Forces Institute in Europe.

At Delaware Dr. Ott will join the university's professional counselling staff and will handle other administrative responsibilities in the dean of students office.

### NOTICE

#### LOST:

A gold Hershey High School class ring with a red stone in the center. Initials M. A. H. on inside of band. If found please return to Mary Ann Haldeman, P. O. Box 512, Smyth Hall.

A silver ID bracelet with "Margaret" engraved on it. If found, please contact Margaret Hamblet, P. O. Box 521, 103 Sussex Hall.

## Charles Lanier Will Address Debate Society

Dr. Charles Lanier, chairman of the department of business administration, will speak to the Delaware Debate Society, next Tuesday at 4 p. m., in room 211 of Allison Hall.

Dr. Lanier, an expert on labor unions, will discuss the current debate question to be used by the inter-collegiate debating groups this year. That topic is, "Resolved: That membership in labor unions as a condition of employment, shall be illegal."

#### Students Invited

All students interested in debating are invited to hear Dr. Lanier. Participation in debating is open to all students of the university.

A novice debate tournament on campus is planned for Nov. 23, and the teams from 10 colleges will debate on the national debate topic.

#### New Debaters

Students with previous experience in debating who are beginning work this year include William Ulin, Tom Waters, Ann Lavery, Jan Cox, Barbara Humphreys, and Joe Maybee. Other students who have indicated an interest are: Rick Russack, Roger Martin, Cookie Olson, Miles Kummick, Mick Rollins, Mary Ann Strohmaier, Al Lindh, Carol Jones, Barbara Klimick, Thomas Lackman, John Boldvici and John Street.

FROSH UPPER CLASS TUG-OF-WAR Ron Knowland, president of the Class of '60 points laughingly to the frayed end of the tug-of-war rope. The rope broke at the Frosh end and the upper-classmen were declared the winners.

## Joe Obold Announces Try-outs Next Week For E-52 Productions

With try-outs set for the week of October 14, the E-52 University Theatre is planning to produce a play with a cast that will include freshman, sophomores, and transfer students only.

This marks an end to a two year experiment by the "Players," during which they attempted to establish a "Freshman" show tradition, that is, a production of a one-act play using members of the Freshman class. "Although both plays were produced successfully, we had to turn to the upperclassmen on each occasion to complete the cast," explained Joseph Obold, president of the Players. "There just weren't enough freshmen present at the try-outs."

#### Freshmen Study

Our files are stuffed with the names of freshmen each year who have registered interest in joining the ranks of the University Theatre, but the large majority seldom take the first step towards obtaining membership during their freshman year. It is our present belief that the freshmen, for the large part, feel a need to establish themselves scholastically before participating in the dramatic presentations of this university — and this is certainly a healthy decision. It is a fact that the majority of persons who begin their association with the Players each year are upperclassmen.

The purpose of the frosh-soph-transfer student production, according to Obold, is to leave an opening for freshmen

who feel that they would like to start building points toward membership through acting while at the same time giving the sophomores and particularly the transfer students an opportunity to fulfill their interest and to become acquainted with the activities of the Players.

"The idea has a lot of potential," said Obold. "In that the E-52 University Theatre is a continuing organization and as such is always on the look-out for new actors and actresses to fill the ranks of the graduating students. We've already spotted a lot of talent in the freshman class — people with a great deal of experience both on stage and back stage — and there's a lot more of it if the truth were known."

#### Wealth of Material

"There's an even greater wealth of material in the upperclassmen — witness the Women's Playbill, the Inter-Fraternity Playbill, the Junior Musical, not to mention the individuals who do an outstanding job of entertaining at the Fraternities and Women's Dorm parties. These are the people who should be acting and producing on the stage in Mitchell Hall. The frosh-soph-transfer Lab Theatre is for these people and for anyone else who is interested in participating, in any capacity, in a College Theatre."

A second play will be cast at the same time, using new talent among the upperclassmen.

#### Psych Lab Open

The psychological laboratories of the university will be open for student examination next Monday evening.

Members of the faculty, Psychology Club and Psi Chi will demonstrate various equipment and displays. The labs will be open from 7:30 until 9:30. Primary purpose of the open house is to avoid the crowds of high school students who will be here next Tuesday.

### A Campus-to-Career Case History

Bill Tyer discusses features of a training program for operators with Miss Edith Sanders.

### "There's always something different"

"In my job, there's always something different coming along—a new problem, a new challenge. When I got out of college I wanted to make sure I didn't settle down to a job of boredom. There's never been a chance of that at Bell."

That's Charles W. (Bill) Tyer talking. Bill graduated from Texas Christian University in 1953 with a B.S. in Commerce. He went right to work with Southwestern Bell in Fort Worth.

How did he make his choice? Here's what he says: "From what I'd seen it was an interesting business with tremendous room for expansion. And a big feature with me was the opportunity to choose my location. I wanted to work in the Fort Worth area."

"I came in under the Staff Assistant Program for college graduates. I spent several weeks in each of the company's five departments. Then I went back for six months of intensive training in our Traffic Department."

"After training, I was promoted. One of my first jobs was setting up and supervising a customer service improvement program."

"In January, 1956, I was again promoted. My present job is assistant to the District Traffic Superintendent. My responsibilities include instruction of PBX operators, employee and public relations, and scheduling operators to handle calls to and from 185,000 telephones."

"No—there's no chance for boredom!"

Bill Tyer is typical of the many young men who are finding their careers in the Bell System. Other interesting careers exist in the Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information about these companies.

(Continued from Page 1)  
night. Carrying out the aquatic theme of "Harbor Lights" will be a lighthouse located in the center of the dance floor.

During intermission the queen will be crowned. Each candidate will be presented and her sponsors announced, the queen, her attendants and their escorts being the last to enter.

Tickets for the dance may be purchased from any Senate member after October 10 or in the basement of the library from 9 a. m. until 4 p. m. for \$2.75. At the door, tickets will cost \$3.00.

"The Homecoming Dance marks the first major social event of the year undertaken by the Senate" announced Janet Lee Keller, social chairman.

Other Homecoming activities include the annual float parade to the stadium prior to the game with New Hampshire.

Led by the university marching band, the parade will feature floats by the fraternities and women's dorms. Highlighting the parade will be the queen and her court, riding to the stadium in new convertibles.

Scheduled to get underway at 12:30 p. m., the parade will proceed down South College Avenue to the stadium. Judges picked by the cheerleaders will choose the three winning floats.

Upon reaching the stadium, the floats and convertibles will be placed on display in the parking area.

## Students to Conduct Open House Tours

Milton Roberts, co-ordinator of student affairs, has announced that students are needed Tuesday to conduct tours around the campus at the University Open House. "We imperatively need the services of the student body to guide the visiting high school students around the campus on tours. It is a chance for you to show your university off through this courtesy," stated Mr. Roberts.

All students who can spare an hour some time during this visiting day are urged to sign up in Room 122, Hullahen Hall, to conduct these tours. These high school students have never seen the university campus and are attending this Open House as prospective university students. All interested high school students have been invited to attend this function. Laboratories, dormitories, the library, and other campus buildings of interest will be open for the students to inspect. The Open House will be held from 9-12 a. m. and from 1:30-5 p. m. Refreshments will be served continuously in Brown Lounge. The visiting students will make their own arrangements for lunch.

Each school of the university is planning exhibits and demonstrations to show the students the functions and activities of each department. Members of the staffs of each school will be available to meet individually with the specially interested visiting students and their parents.

## '60 President Says Stop All Frosh Rulings

Sophomore Class President Ronald Nowland has suggested that all the freshman rules be discontinued in future years.

Nowland added that Sophomore court is now officially over. In his opinion the upperclassmen definitely won the tug of war at last Saturday's Bowling Green game.

"Although I hate to see the whole thing go," Nowland stated, "because it is a big part of college life, I think it is probably wise since the freshmen have made a farce out of the whole thing. The freshmen have just lacked spirit."

Some 125 coupons were given to freshmen, but only 60 per cent came to court.

Some of the penalties given out by the court were:

The boys had to wear coats and ties, the girls had to carry open umbrellas, and some of the freshmen were to ring the bell at the football games.

The freshmen were also to have decorated at the Pep dance, but the turnout was not too favorable.

Nowland felt that the main trouble stemmed from the laxity in enforcing the rules. The freshmen are reminded that they are to decorate for the Homecoming dance.

The discussion to drop freshman rules was brought up yesterday in the Senate.

## Notes From

### The Editor's Notebook

**Symmetry vs. Function:** Dr. Paul Brennan, chairman of the civil engineering department, graciously explained to us why DuPont Hall has that peculiarly left-handed off-center look that we noted two weeks ago.

As you will notice there is a passageway in the form of three arches connecting Evans and DuPont Halls which corresponds to the three-arched wall between Evans and Brown Lab. Secondly, there had to be a certain amount of space between the two buildings for lighting purposes and to permit vehicular mobility.

Because the university desired to maintain the balance of the three arches and provide sufficient space between DuPont and Evans they had to extend the front part of the lower story to meet the arches—thus placing four windows to the left of the main door and five windows, and a longer facade, to the right of this door.

**Water?:** For the past three weeks the fountain on the main floor of the Memorial Library — that source of refreshment, replenishment and pleasure (the fountain, not the Library) — has cast up from its depths not one drop of water.

The reason? According to the Maintenance Department they are waiting for a new fountain and when it arrives the water again will flow.

**Phonographs?** The phonograph machines, absent from their accustomed places in the front of the reference room of the Library, are undergoing repairs at the present. This service is being performed by the Music Department, whose responsibility they are.

**Error!** The October 4 issue of the Review erroneously reported, in the story of the presentation of "Red Shoes" on page 6, that "Peggy Miller, a part-time university student is chairman of properties."

Our apologies to Miss Miller who informed us that she is an instructor in economics and business administration, and not a "part-time student."

**TLFSI ???** Next week the mystery of these five letters, the "man in the yellow apron" and the "blue and gold cards" will be solved for all time.

FJG

## To Set Straight

### An Injustice

According to a number of cheerleaders, including Captain Nancy Jones, our editorial of last week did them an injustice.

Our main points had been that the cheerleaders paid no attention to the students in Section F and that they were not active enough in leading the cheers.

In their defense the cheerleaders cited the Bowling Green game in which they did cheer in front of Section F and were embarrassed by the result. They were not disappointed with the Delaware students, but there were too few people there to warrant the effort.

As for our comment that they did not cheer enough, Nancy Jones replied, "That's so silly". No one cheers when the ball is in play and there is little time in between.

The cheerleaders asserted that, though they do their best, there are only a certain number of students (mostly women) who will cheer consistently and there is little that can be done with the others.

## Thoughts

### Sputnick

By Sidney Ezrailson

The editor told me that last week's column was too long and that in the future what I had to say must fit between the cartoon and the mast-head. Some other people in The Review office will be pleased to know that they will have less of my work to read. It is going to be hard to fit something out of this world like, "Sputnick," the Russian's term for their new satellite, between the cartoon and the mast-head, but I'll try.

Almost everybody in the world knows by now that Russian scientists have launched an artificial satellite into outer space a long time ahead of the American schedule for the same project. Naturally, this fact brings up many implications regarding the security of the U. S. and questions about our own advances in the scientific world.

Ostensibly the conquest of space by Russian scientists marks the beginning of new frontiers in scientific progress. Of course, rockets to the moon are still a long way in the future, but from this satellite and others like it, scientists can learn many things about the earth that they did not know before. This information about the Earth also collected in many other ways is part of the observance of the International Geophysical year (1957-58); the satellite will be able to give information concerning whether the density of the atmosphere and data about the shape and size of the Earth. However, Sputnick, has more important connections in the East-West race for military supremacy.

**Sputnick** weighs 184 lbs., while the planned American satellite is to weigh 21½ pounds. The point, scientists say, is that the Russians must be very far advanced in the rocket field to be able to send up a rocket that heavy. Recently, the Soviets claimed that they had produced an operational Inter-Continental Ballistic Missile. We can now assume that this claim is true.

Briefly, these facts mean that the Russians are ahead of us in the important field of rockets. Also, we know that they are graduating more scientists and engineers than the U. S. graduates. So perhaps a few engineers or scientists of the future at this college will take heed and study a little more. Our country needs them.

## Offstage Notebook

By George Spelvin

Critics have unanimously hailed "West Side Story," currently showing at the Winter Garden in New York, as the season's first musical smash. Orchids accorded Director-Choreographer Jerome Robbins, who offers some of the most violent dancing ever seen.

A musical version of the Romeo and Juliet tragedy in terms of juvenile gang warfare in upper West Side, Manhattan, the show is brutal, violent and sordid, as befits its subject, with the tenderness and pathos of the tragic love story on which it's based.

**HOW GOOD CAN YOU GET?:** "West Side Story" marks the fourth straight hit for producers Robert E. Griffith and Harold S. Prince, partners in the presentation of "Pajama Game," "Damn Yankees," and "New Girl In Town" — the latter two still playing to near capacity houses on Broadway.

The City of New York will dedicate a bronze plaque October 16 to the memory of Eugene O'Neill, the late Nobel and four time Pulitzer Prize winning Dramatist. The memorial will be placed at the N. E. corner of Broadway and 43d St., the site of the old Barrett House, a theatrical hotel where O'Neill was born 69 years ago.

**IS JUDY FINISHED?:** Judy Garland having difficulty in racking up profitable grosses on her present jaunt. Her opening in Philly at the Matbaum was heavily papered (meaning that free

tickets were given away to fill the house). This follows a losing stand at the Capitol Theatre in D. C. With a potential gate of \$108,000 in Washington, Miss Garland drew a weak \$43,860. The house lost a hefty amount on the deal.

**MORE SATCHMO:** Norman Granz, President of Verve records, suggests that Rado Station WBKH in Missouri (winner of last week's SPELVIN sour pickle award) ban his entire label from their so-called radio station. Verve Records is the outfit which handles the Louis Armstrong disks — also Lena Horne and Earth Kitt.

**ONE FOR CECIL:** As if Hollywood would clean house as a result of the "Confidential" trial, Cecil DeMille offered this wry remark: "I take a lot of magazines, but somehow miss that one."

**NEW RUSSIAN FIRST:** The Russians are the first to devise "the walk in" (stand up) movie. Not enough privately owned autos to be otherwise.

**QUOTE:** Fernando Lamas on the elements that go to make a matinee idol for Theatre Arts Mag. "Maybe it's your looks, your clothes, your hair—I don't know what the hell it is."

Gian Carlo Menotti: Broadway supports some of the worst atrocities ever seen. The Theatre is thought of as entertainment, not as Art.

## Letters to the Editor

### Cosmopolitan Club

To the Editor:

I would like to attract the attention of the student body to what seems to be a popular misconception about the nature of the Cosmopolitan Club on our campus. Most American students seem to think that it is a club for foreign students only. In an effort to dispel this impression, I shall attempt to explain the purposes of the club.

The goals are two fold; first to bring about better understanding between foreign and American students, and second, to contribute in the long run to closer communion between their respective national cultures. It is therefore imperative that, in order to attain any measure of achievement of these goals, both American and foreign students have to participate in the activities of the club.

We, of the Cosmopolitan Club executive committee, have encountered little difficulty

in attracting foreign students to the functions of the club. For when they are faced with the task of understanding a way of life that is strange to them, it is only natural that they would seek relief in the company of other people who face the same problem, namely other foreign students. Thus, if we are to cease when we have brought the foreign students together we have not come closer to our goals.

We now face our major problem, that of making the American students accept the challenge of trying to understand the foreign students, and helping them to understand the American way of life. Admittedly it is a formidable challenge. However, we feel certain that challenges just as great have been successfully met before by most students in the course of their academic endeavors. We therefore hope that in the future, many more of the American students will accept

the challenge. An appropriate starting point is the Cosmopolitan Club picnic on Oct. 18th.

Sincerely,  
 Rajai H. Attalla

### Jazz Deficit

To the Editor:

Official reports from the student senate inform us that the proceeds from the Last Fatman Jazz Session do not clear expenses. It was because there was a lack of people, but because so many managed to gain entrance without payment. One of the main gripes on campus that we never have a "Big Band."

The Jazz Session of last Friday night was supposed to boost the Senate Social Fund to the extent that such a band could be had sometime this year. The students are at fault; they aren't willing to support their own governing body, yet they expect the Senate to work wonders alone. Name Withheld

## Fraternally Speaking... the Greeks

The Brothers of **Theta Chi** wish to congratulate Miss Barbara Woods, our candidate for Homecoming Queen. We couldn't have a nicer girl representing us. Good luck, Barb.

Monday night, the first smoker was held at the Theta Estate. We had a good turnout and wish to thank all the men that came down. I hope in the next column I can refer to you as pledges.

Many things happened over the past weekend. While our boys were on the field tying knots into Bowling Green, our past president, Brother "Duke" Shelton came together with Miss Joan Stevens and really tied a knot. Congratulations Duke and Joan.

Somewhere around Saturday an eight pound baby girl was born to Brother Stenger and his wife, Tish. From reliable sources we heard that instead of passing out cigars, Steng passed out. Congratulations to both of you.

Also, Saturday night was a wonderful night for a hayride. As usual, the ride was bumpy, the hay was itchy, and the singing awful. Taking these things into account the venture was a success.

The brothers of **Phi Kappa Tau** have chosen to sponsor Miss Anne Lavery for Homecoming Queen. We wish her the best of luck.

A brief reminder to all freshman girls that tonight is our open house for freshman. In person we will have Lee Dalaski. Brother Dalaski will sing, play guitar, juggle, imitate, dance, throw knives, do pushups, and draw pictures. It promises to be a very entertaining evening.

Speaking of hot times, the boys who put up our decorations last week certainly had one. The fire-gods must have been well pleased that day.

Yes, we took her to an animal doctor and he put her away for us, tying a generator to her tail and gently cranking it up. Brother Simp-

son took it to heart, and many say that he has aged considerably in the past week.

Congratulations to Roger Hopkins, Bernie McInerney and Jim Milliken who recently took the oath of pledge-ship.

The brothers of **Kappa Alpha** would like to thank all of the freshman girls who attended our open house. Thanks to the "K.A. Express", no one was lost or drowned in the deluge.

We opened 1957 football season with an impressive 39-0 victory over Brown Hall. With many veteran gridders; brothers Skip Crawford, Blaine Tilghman "Seeds" Donnalley, "Fats" Kupelian, "Tank" Priestly, Tom Simpson, Rock Adams, Big J. B. Welch, and social member, Bill McCafferty, we are looking forward to another fine season.

The social season gets underway tonight with a house party. This is the preliminary for the big Homecoming Weekend.

Much credit goes to brothers Bob Roberts and Bill Thompson for the fine work on last week's winning house decorations.

Congratulations and good luck to our homecoming candidate, Miss Debbie Lewis. Miss Lewis is pinned to our social chairman, brother Jack Hildreth.

The brothers extend a hearty welcome to our new pledges, Wayne Tatman, Pat Renaud, Bob Saatman, and John Slack.

**Sigma Phi Epsilon** was proud and happy to play host to so many of our freshman beauties last Saturday night at our annual freshmen girls open house and we would like to take this opportunity to thank them for their visit. Word has it around south campus that big Steve Matthews was the big attraction at the affair and he modestly confirmed the report.

We are also very proud to announce that Miss Sandra

Wilcox, who is engaged to brother Cliff Browning, will be our candidate for Homecoming Queen. Congratulations and best wishes Sandy, the pleasure is ours and we'll be backing you all the way.

The rough and tough members of the house have been preparing for the new intramural football season for the past two weeks and it looks like the SPE's will field another strong team for our first defense of the football trophy we won last year. The unsavory mugs are brothers Balle, Bornmann, Dick Dinsmore, Jenkins, Jones, Laman, Marcel, MacMasters, Millie Palmer, Patterson, Thompson, Wenig, and Valinsky.

The brothers of **Pi Kappa Alpha** wish to congratulate Miss Elaine O'Connell. She is our choice for Homecoming Queen. Elaine is a freshman majoring in English.

The Pikes had another "first" this week. We again wish to thank the beautiful freshman girls for posing for the calendar. The calendars are presently being distributed all over campus.

Due to our over enthusiasm at the Bowling Green game last Saturday a few of our brothers could not make the party that night. Some of us still have not found our voices.

Brother Frank Garosi has been appointed secretary replacing Cossaboon, who left us.

Admit the sound of coughing and sneezing, the brothers of **Delta Tau Delta** are busily regaining health following a mass outbreak of the flu, grippie, or whatever it is. Brothers Gear, MacDonald, Meyer, and Rinehart were guests of Doc Keppel at the infirmary as a result.

Our congratulations go to Brother Jim Leathrum who was initiated last week and to Fred Grampp who was formally pledged.

The Deltas came through again and copped second place in the house display contest last week with its

highly mechanized Blue Hen Laundry display.

Last Saturday night found the Delt House packed with a throng of charming young ladies from the class of '61 when we held our annual open house for freshmen girls. It was a very enjoyable evening.

We would like to wish the best of luck to Miss Helen Briggs, Delta Tau Delta's candidate for Homecoming Queen.

The brothers of **Sigma Nu** would like to take this opportunity to thank all the Freshmen girls who visited us last Saturday night and made our party such a success. Special recognition is due to Miss Ellen Hallman, our 1957 Freshman Sweetheart. Thanks also to Miss Barbara Scully and Miss Joyce Poore for their participation in the entertainment. We enjoyed having you all and hope to see a lot more of you.

Sigma Nu plans no social activities for this weekend. Our house, however, is being prepared for the festivities that will accompany Homecoming. House manager Waller has held a few "painting parties" during the past week getting the house in shape. For some reason, however, this type of party does not appeal to many brothers.

We are very happy to announce that Miss Barbara Kille will represent us in the Homecoming Queen contest. Barbara is a junior elementary education student, pinned to brother Jack Ellis, and is, we feel, a very capable candidate.

All is quiet at the Alpha Epsilon Pi Cage, now, after two weekends of hurrying to get home for the High Holidays. Needless to say, the "bug" has begun to take its

toll on the brothers. Among the missing we have Brothers Goosenberg, Weinstein, Cohen and Goodman. In addition, sneezes, coughs and such sundry symptoms have been emitted from the various rooms in the house. Calls for "medic" are not infrequent and occasional trips to Laurel Hall are now being taken in stride.

The Apes dropped their opening game in football to Sig Ep on Monday, but the team is optimistic and hopes of a winning record are high. One casualty came out of the "game," that being Brother Helfand who dislocated his thumb — both Helfand and thumb are coming along quite well.

This being our first column for the year, let us extend congratulations to Brother Goosenberg who was accepted to Jefferson Medical School in Philadelphia and to Brother Soss for winning a \$2000 scholarship from the university. Congratulations are also due to last year's sweetheart, Miss Steffie Klahr for her engagement with Brother Spivack.

A new idea in smoking...

# Salem refreshes your taste

- menthol fresh
- rich tobacco taste
- most modern filter —

Smoking was never like this before! Salem refreshes your taste just as a glorious Spring morning refreshes you. To rich tobacco taste, Salem adds a surprise softness that gives smoking new ease and comfort. Yes, through Salem's pure-white, modern filter flows the freshest taste in cigarettes. Smoke refreshed... smoke Salem!

Take a Puff... It's Springtime

## Soccer Eleven Taking Shape for Opening Battle With Bucknell

Coach Alden "Whitey" Burnham's soccer boys have sacrificed a great deal of time and effort in preparation for the season's opener on October 12 at Bucknell. This year's captain is letterman Edmund Ruos, a KA man.

Disregarding the possibility of injuries, the forward line will include Bob Dempsey, who was selected for the Middle Atlantic first team last year, at outside left, and John Peterson at outside right. At left halfback will be a two letterman, Vladimir Bodan, who has been switched from inside left. Paul Williamson, who earned his letter two years ago, has returned after a year's absence to take up the right half position.

The inside left position will be held by Tom Shaw, of West Grove, Pa. Inside right goes to Don Reid and Dick Holden will fill the center halfback position. The goalie position is still undecided with Bob Bunting and Bill Taylor fighting it out.

Other promising prospects include Freddie Walters, a possible starter at fullback, baseball captain Gene Watson, and sophomore Carson Callahan. John Davis, Richard Gee, and Pat Dyer are also sure to see a great deal of action this fall.

As far as depth is concerned, the first team seems very promising, but there is a big gap between the first and second strings. Due to the fact that high schools in the state of Delaware do not engage in soccer, the team is at a handicap for experienced material because out-of-state students are limited at the University.

If you are interested in soccer, you are welcome to come to practice, which is held on Frazer Field from 4:15 to 6:15 every afternoon.

The team's passing appears to have improved over the previous season, and the chances for a successful season are fairly good. Since last year's record shows eight losses and one tie, Coach Burnham says, "There is only one way to look and that is up."

## Chicks Topple Rutgers Frosh

The freshman football team got off to a flying start last week by whipping Rutgers 13-0. This was no mean feat, to blank a frosh team called the "fastest, strongest, and toughest ever to come out of New Jersey."

The Blue Chicks were a strong and well-knit platoon, looking especially good at quarterback. Hank Richards, of Maine, marshalled his forces professionally, and racked up quite a bit of yardage himself.

Delaware was in complete charge in the first quarter, and after a Rutgers fumble on their own 26, Travis Cossaboen, playing left half-back, sprinted the distance on an end run for the first score. Bob Flynn's conversion attempt was good.

In the second period, Delaware's attack bogged down somewhat, and Rutgers took to the air, completing two, but still couldn't reach the end zone. The Chicks couldn't get that far either, but nearly scored on a deflected pass that bounced off Dick Broadbent's shoulder.

In the third period, Jim Byrd, of Rutgers, dropped a Delaware punt, and Mickey Heineken, an end, fell on it on the Rutgers 11 yard line. Five plays later Richards sneaked across for the final six points.

## Grid Obstacle Course Leads To Idleness, With Influenza

By Miles Kumnick

Lafayette has cancelled tomorrow's football game with Delaware because of an influenza epidemic at the college.

A "DINKY" RECEPTION committee greets the Blue Hens as they leave the clubhouse to take the field for the opening kickoff of last Saturday's game with Bowling Green. Neither the dink clad freshmen nor the helmeted footballers had happy afternoons, though. The team lost, 7-0, and the frosh lost the tug of war at halftime on the official decision of the president of the sophomore class when the rope broke.

## Blue Hen of the Week

BY SKIP CRAWFORD

Everybody on Delaware's football team can be proud of the performance turned in on Saturday against Bowling Green, but special recognition this week goes to John (Poob) Pollack for his outstanding performance.

Those observant fans who saw the game will verify the fact that big Pollack spent most of the afternoon in the lap of Bowling Green's quarterback. In the second quarter, when Bowling Green was driving for a score, it was John who broke through and racked up the quarterback, causing him to fumble, and Delaware recovered, thus stopping the scoring threat.

The rest of the afternoon John spent plugging up the middle of the line. There were many times during the game when the number "76" could be seen getting up from the pile after a Bowling Green man tried to hit the center of the line. Those fans who were present know that there was very little yardage gained through the center of Delaware's line.

John, who hails from Passaic, New Jersey, is 22 years old. He is majoring in Business Administration and minoring in Chemistry. Upon graduation from the university, John hopes to enter the field of Technical Sales. "Poob" is chairman of the Men's Executive Counsel and Social & Scholarship Chairman of the T. C. Fraternity.

Upon returning to school this semester, he was honored by the military department with the position of Cadet Lt. Col. in

our R. O. T. C. program. For those of you who do not know, this is the highest military position that a student at the university can obtain. It goes only to the outstanding member of advanced R. O. T. C.

John has played football for four years for Delaware and has been an important part of many victories. As a guard on the line he hasn't received the glory and recognition that he rightly deserves. Without him, and the rest of the line, there wouldn't be as many victories in our won-lost column. So our "hats" are off to John "Poob" Pollack. Keep in there plugging "Poob."

## Girls Urged to Support Dorms For Field Hockey, Archery

BY VICKI DONOVAN

Well girls, intramurals are now underway. Hockey practice began Monday, September 30, and is still being held on Mondays and Thursdays at 4 p. m.

A lot of the girls who signed up for this sport have not shown up at the practices, so all are urged to come out and support

their dorms!

Tennis tournaments have not yet begun, but participants are urged to practice in their own time to prepare for the competition. A schedule will be announced later.

Archery drills are being held Mondays and Thursdays at 4 P. M. The tournaments will begin on October 16. This is to give everyone a chance to learn this sport ahead of time, even those who don't know a bow from a quiver now!

Come on girls, let's get out and join in these activities.

Steve Hokuf, Leopard coach, announced that 33 men of his squad of 42 have been stricken with an influenza-like illness in the past 10 days.

As of yesterday 15 of the Leopard's varsity were confined to the infirmary and several others were too weak to practice.

This leaves the Hens with a seven-game season schedule and five games left to play.

In another close one, Delaware lost to Bowling Green, 7-0, in the final quarter last Saturday at Delaware Stadium.

The shutout was the first for Dave Nelson coached eleven at Delaware. It was also the Blue Hens' first defeat at the hands of a midwestern team. Bowling Green, however, was ranked higher nationally than any team Delaware had ever played, and it was readily admitted that the Hens did remarkably well to hold the Falcons to a single touchdown.

### RAMLOW TALLIES

The scoreless tie was broken on a third and thirty situation, midway through the fourth per-

iod, as Falcon Bob Ramlow streaked 35 yards straight down the left side of the field after receiving Don Nehlen's 32 yard pass behind Delaware's defensive right halfback. Delaware fans were stunned by this sudden demonstration of power by the previously dormant Bowling Green offensive unit.

### TIE BROKEN

Delaware monopolized the ball most of the game, moving deep into Falcon territory six times. However, the Hens were unable to penetrate Bowling Green's inspired defense whenever they got close enough to do any damage. On one Delaware attack, five Larry Catuzzi passes fell incomplete.

Breaks just didn't seem to go with the Hens. They out rushed the Falcons 174 to 120 on the fine running of Jimmy Roe, Luker Pellegrini, got off successful passes to fellow sophs Bob Reeder and Turner in his brief appearance in the Blue Hen lineup.

Delaware's all-time record is now 228-229-40. If the Hens beat Lafayette it will be even again.

## Sports SLANTS

by Dave Heeren

Sports Editor

Once again last Saturday there were only the "ifs" and "what might have beens" to console the Blue Hens after the near miss, 7-0, defeat at the hands of the nationally ranked and heavily favored Bowling Green Falcons.

Time after time in the game the Hens drove into Bowling Green territory only to have their shoddy passing game let them down. True, the Hens outgained and outplayed the Falcons for three quarters, but this statistical edge failed to produce an edge where it really counts, in the scoring column. Meanwhile, the stalwart Delaware line contained the enemy's running attack effectively enough to keep him from starting any sustained drives.

The Falcons, however, did on two occasions give indications of things to come. The first occurred on the second play they ran from scrimmage, Halfback Floyd Lennox shot around Delaware's right end and was on his way to paydirt until Denny Luker caught up to him and stopped him with a superb shoestring tackle on the Hen 37. Luker, by the way, was injured later in the first period and his status for the Lafayette game is doubtful.

The second close call for the Hens happened early in the final session of play. This time it was halfback Harold Furcron who skirted the home team's right flank. Furcron was apparently on his way to a TD when one of the officials signalled that he had stepped out of bounds on the Bowling Green 35, an advance of but eight yards.

Then came the clincher about which we will say no more. Enough has been said about it already.

Delaware's own scoring opportunities were almost too numerous to mention. However, the three best ones all occurred in the first half when the Hens fumbled away one chance on the 18 and then fell back after gaining first downs on the Falcon 11 and 18 yard stripes on the other two thrusts.

The most improved portion of the home unit, as seen by these eyes, was the defensive line, particularly the middle, and the most improved member of said line was Walt Handel. John Pollack also starred up front as the forward wall stood up well against the renowned bulk in the BG line, even without the leadership of Captain Joe Harvanik, reinjured early in the game.

Joe, incidentally, said that his bad knee felt pretty good but he did not appear very optimistic when questioned about his chances of seeing action against Lafayette tomorrow.

In the Hen backfield it was much the same story as against Lehigh in the opener. Jimmy Roe was again by far our best running back. There was, however, one pleasant surprise that compensated somewhat for Larry Catuzzi's offensive ineptitude. This was halfback George Jarome, who didn't see much action against Lehigh.

One of the Delaware backfield mainstays a year ago, Jarome did not figure prominently in Coach Nelson's plans this season. But on Saturday George was the iron man of the team, playing effectively on both offense and defense.

One more thing that is worth mentioning concerns Delaware's future success. The amazing sophomore unit again proved itself worthy. Quarterback Gaspare (Gampy) Pellegrini, who may take Larry Catuzzi's job away from him, and halfback Jack Turner were outstanding in the backfield as were John Mordas and Mark Hurm in the line.

Ray (Skip) Crawford, who compiled more points than any other basketball player in history and is now a senior here, has generously consented to write the Blue Hen of the Week column for The Review.

## Campus Movie Series Offers 'Gate of Hell'

This weekend's offering in the campus movie series in the Japanese motion picture, "Gate of Hell". This very unusual and sensitive picture was one of last year's outstanding foreign films, and was honored accordingly at the Hollywood Academy Awards Ceremony. The film employs a new approach to color, and promises to create an exciting and moving experience.

The film will be shown Saturday evening at 8:15, and Sunday at 3:15; but the Sunday evening performance will not be held this week because of the presentation of Rabbi Gordis.

A word of explanation goes to

## Garnett to Play For Annual Ball

Tom Lord, President of the Engineering Council has announced that the Engineers' Ball will be Nov. 9, following the Temple home football game.

Jack Garnett and his ten piece band will play for the semi-formal ball to be held in Carpenter Field House.

The Engineers' Ball is the annual social event sponsored by the Engineering Council. George MacFarland, Chairman of the Dance Committee will be aided by representatives of each of the member societies: American Society of Mechanical Engineers, American Institute of Electrical Engineers, American Society of Civil Engineers, American Institute of Chemical Engineers and Tau Beta Pi honorary Engineering fraternity.

## 1956 Champ Sig Ep Shares Football Lead

Sigma Phi Epsilon, Kappa Alpha, Sigma Nu and Alpha Tau Omega won their initial intramural football games by decisive margins this week.

Defending champion, Sig Ep was held scoreless for three quarters by a determined Alpha Epsilon Pi team but pulled the game out in the last period and won, 15-0.

Kappa Alpha literally walked over Brown Hall in a 41-0 trouncing. Skip Crawford provided the biggest punch, scoring six times for the Rebels.

Alpha Tau Omega also displayed good form, beating Delta Tau Delta, 19-6, while Theta Chi forfeited to Sigma Nu.

## Hocutt Names Head Advisor

James E. Robinson, Jr., a graduate of Glenville State College of West Virginia and the University of Connecticut, has been appointed head resident adviser for men at Delaware.

Robinson's appointment was disclosed by Dean of Students John E. Hocutt, under whose supervision he will work. He replaces Stanley C. Thomas, former resident advisor in Brown Hall.

A Navy veteran, Robinson taught briefly before entering the graduate school of the University of Connecticut. He is a member of the National Education Association, the American Personnel and Guidance Association, and the National Vocational Guidance Association. From 1955-56 he was regional vice president of the West Virginia Guidance Council.

## Henry Margenau Addresses Seminar

Dr. Henry Margenau, nationally known physicist, visited the campus Wednesday and Thursday under the joint sponsorship of the Delaware Alpha Chapter of Phi Beta Kappa and the department of physics.

### Lectures Twice

During his stay, Dr. Margenau gave two lectures. Wednesday evening he appeared in Wolf Hall Auditorium to discuss the subject, "Philosophical Perspectives of Modern Physics." Thursday afternoon, he addressed the physics seminar on the topic, "Philosophical Implications of Quantum Mechanics."

Dr. Margenau has been Sterling Research Fellow at Munich and Berlin, and has taught at the University of Nebraska and

Yale University, where he is presently Eugene Higgins professor of physics and natural philosophy. He has been visiting professor at the Universities of California, Washington and Heidelberg, and at Carleton College.

### Corporation Consultant

He is consultant to the Rand Corporation, the Argonne National Laboratory, the General Electric Company, and the Lockheed Corporation. He is a trustee of Connecticut College, chairman and director of the research coordinating board of the Foundation for Integrated Education and President of the Philosophy of Science Association.

## Robinson Instigates Football Smokers

A new activity has been instigated on campus — that of having meetings of football players and interested observers the Thursday before each game this season.

The meetings are held at 9:30 p. m. in Brown Residence Hall lounge. Films of last year's games are shown. Special plays and players are pointed out by a member of the team or a coach.

### STUDENTS DISECT

Behind these smokers is Jim Robinson, head resident advisor, who instigated the program. Jim Roe and Larry Catuzzi will take over the projector and the narration during the series.

Two such smokers have been held to date. The first, on Sept. 26, reviewed last year's Lehigh game, spotting the important plays and explaining them. The second smoker was held on Oct. 3.

### LEHIGH FILM SHOWN

Since the Blue Hens had never met the Falcons of Bowling Green previously, the films of the past week's Lehigh game were shown. This, however, was a special case and will not be repeated.

The men in charge cordially invite all dormitory men to attend the meetings throughout the rest of the season.

## Exley New V.P. Of Fraternity

Roscoe Exley, junior agriculture major, was recently elected vice-president of Kappa Alpha fraternity and was formally installed on Oct. 2nd.

A second semester junior, Roscoe has served KA as chairman of the entertainment committee and censor.

This year he is the president of Alpha Zeta, honorary agricultural society and is assisting new students at the university as a junior counselor. Roscoe is a native of Lincoln City, and was graduated from Milford High School.

He entered the university after serving four years in the U. S. Navy. As vice president of KA, he will act as the pledge master and at other duties associated with the job.

## Phi Tau Will Hold Open House Night

Bob Samworth, Phi Kappa Tau Social Chairman has announced that Phi Tau will hold a house party tonight for all new co-eds. The house, located at 186 S. College Avenue, across from the library, will be open from 8:15 p. m. to 11:30 p. m. Refreshments, varied entertainment and dancing are all included in the program for the evening.

In the event of inclement weather, transportation both ways will be provided.

ELUSIVE DISC — Students here play the game of Frisbee on the campus lawn. The disc is like a miniature flying saucer.

## Frisbees

(Continued from Page 1)  
is eligible to join the rapidly-swelling ranks of frisbee-throwers scattering the campus from dawn to dusk. (frisbee-throwers apparently have no studies) rending the air with the scream of whirling frisbees.

Frisbees are advertised as

harmless and recommended even for small children; many exciting games can be witnessed each day in front of the men's dorms. It takes no strength, little coordination and less skill to toss a frisbee. They are milder!

A question arises in the minds of many, however. Will these hardy flingers of the frisbee hold out when the frost is on the pumpkin? Will the number of participants decrease directly as does the temperature?

In the words of staunch participant Bill Elliott, class of '61, "Frisbee is a warm weather sport. It will probably go out of style during the winter months and come back to the green in the spring. There's not enough body motion involved to keep one warm."

Encouraged by these words, the lovers of tranquility may bow three times to Mecca. One shouldn't, however, be worked up to a feverish state of jubilation. The frisbee will return!

## Kelly Explains His Characters

(ACP) Cartoonist Walt Kelly, creator of "Pogo", has a national explanation for some of his characters. Kelly says his characters are created by dissecting himself. He describes Pogo as being the innocent civic-minded type. "The reason he looks more like a little boy than a possum is because he represents a little boy."

Albert the alligator is a "would-be politician." "The Owl has the answers for everything except questions." A pseudo-scientist, he looks like everyone's old geometry teacher.

The deacon Kelly describes as "one who is going to do the other fellow good, even if it kills the other fellow."

Kelly's aim is to see American humor grow up. He claims it can have a part in easing social problems.

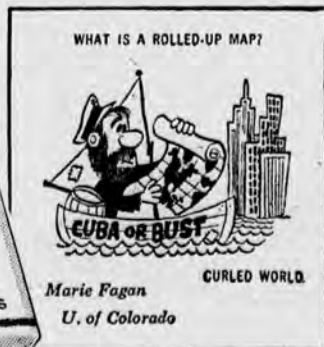

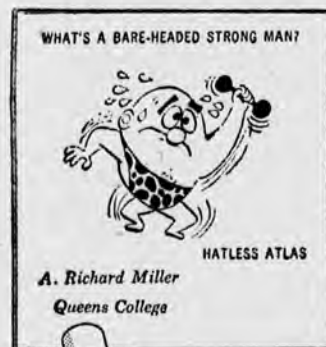

Feelin' blue? Need money, too?  
Students, we've got news for you!

**MAKE**

**MOST POPULAR GAME** that ever went to college—that's Sticklers! Just write a simple riddle and a two-word rhyming answer. For example: What's a big cat shot full of holes? (Answer: peppered leopard.) Both words must have the same number of syllables—bleak freak, fluent truant, vinery finery. Send Sticklers, with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N. Y. Don't do drawings! We'll pay \$25 for every Stickler we use in our ads—and for hundreds that never see print. While you're Stickling, light up a light smoke—light up a Lucky. You'll say it's the best-tasting cigarette you ever smoked!
